

WETEX & Dubai Solar Show

www.wetex.ae

Dates: 5-7 October 2021

Venue: Dubai Exhibition Centre, Expo 2020 Dubai

Under the directives of His Highness Sheikh Mohammed bin Rashid Al Maktoum, Vice President and Prime Minister of the UAE and Ruler of Dubai, and under the patronage of His Highness Sheikh Ahmed bin Saeed Al Maktoum, Chairman of the Dubai Supreme Council of Energy, Dubai Electricity and Water Authority (DEWA) organises the 23rd Water, Energy, Technology, and Environment Exhibition (WETEX) and Dubai Solar Show from 5-7 October 2021 at the Dubai Exhibition Centre, Expo 2020 Dubai.

Over 22 years, WETEX has become one of the largest specialised exhibitions worldwide and the biggest of its kind in the region. Companies from the energy, water, environment, oil, gas, green development and related sectors from the region and the world present products and solutions, as well as discuss the best practices and the latest technologies and innovations.

WETEX and Dubai Solar Show are the perfect platforms to display the latest technological advancements and discuss the latest trends related to energy, water conservation, saving natural resources and building a sustainable environment. They provide an ideal opportunity for local and international companies and organisations to share and showcase their products and services, along with offering a forum to share best practices and experiences with exhibitors from around the world.

How can visitors benefit from WETEX and Dubai Solar Show

'WETEX and Dubai Solar Show' is held under the umbrella of Green Week, which features various environmental activities and events to raise awareness about the importance of environment and natural resources protection. The Green Week serves as an overarching umbrella for environmental activities and events to promote green practices and instil a culture of conservation to create a better tomorrow for generations to come.

Visitors to WETEX and Dubai Solar Show can take part in the busy schedule of seminars, panel discussions and workshops by experts and professionals in the green economy, smart cities, innovation, and sustainable development. DEWA also organises workshops, and educational lectures and sessions for visitors and delegates from schools and universities. The Green Corner provides opportunities for innovators and inventors from schools and universities to present their green and sustainable projects.

The Innovation Hall at WETEX and Dubai Solar Show also supports university students by displaying their ideas and innovations in areas such as sustainability, energy, water, renewable energy, gas, oil, transportation, technology, education, health, water and space sciences. The Innovation Hall will also include electronic kiosks for university students.

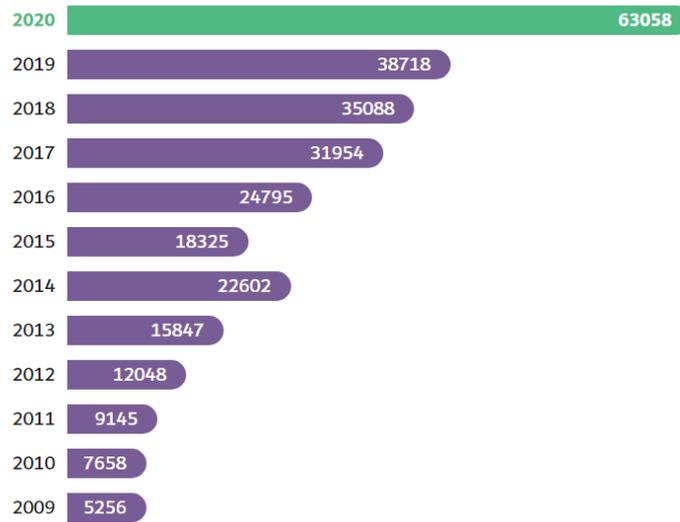

Why WETEX and Dubai Solar Show

- Position your brand as a key player in the water, energy, technology, oil & gas, environment and the fast-developing solar energy industry sectors. Expose your brand to a highly targeted audience and meet senior-level decision makers.
- Widen your business opportunities in other renewable energy, power generation, oil and gas, water and environment industry sectors through Dubai Solar Show's co-location with WETEX and World Green Economy Summit.
- Promote your business by presenting your latest technologies

- Share best practices and expertise with national and multinational exhibitors
- Benefit from sponsorship packages for media and marketing
- Opportunity to network with government decision makers, business leaders, investors and country delegations from around the world
- An ideal place to meet members of various internationally-acclaimed organisations
- A cost-effective and targeted medium to meet senior-level decision makers
- Unrivalled access to promote your products and services to key environmental professionals, water and energy experts
- Opportunity to renew and reaffirm contacts within a large conference and exhibition environment
- Build on opportunities in Dubai, the region's hub for finance, business and tourism
- Opportunity to share expertise in specialised seminars
- Explore current and future solar projects in the region and the latest market trends, policies and regulations set out by government authorities, to become part of Dubai's future solar projects and programmes
