

Waleed Ali Bin Salman

**Executive Vice President - Business Development & Excellence at DEWA,
Member of the Supreme Organizing committee for WETEX**

Waleed Ali Bin Salman graduated in 1991 with a B.S. in Electronics Engineering from Colorado Tech College, USA. He also holds a Master's degree in Management & Business Administration from the American University in Dubai.

Waleed Bin Salman is the Executive Vice President of Business Development and Excellence at DEWA. He is also member of the Dubai Supreme Council of Energy.

Salman's career began in the Federal Electricity and Water Authority (FEWA) in 1992 as an Electrical Engineer. Over 28 years, Waleed progressed through many roles including Project Manager and Manager of the Control Centre and Director of Electricity. After many years of progress, Waleed became Deputy General Manager for Technical Affairs in FEWA in 2007. Waleed was assigned by the UAE Electricity Interconnection High Committee to handle the Emirates National Grid Project.

He then joined DEWA as Vice President for an Electrical Transmission project. In 2009, Waleed became the Executive Vice President of Business Development & Excellence at DEWA. He led strategic projects, including DEWA's Strategic Plan. Salman is a member of the Dubai Nuclear Energy Committee and a member of the Supreme Council of Energy of Dubai.
