

Mr. Ulrich Rueth

Director
Product and Portfolio
Management

SIEMENS

Ingenuity for life

Working in energy related businesses for 20 years, Ulrich has experienced the whole bandwidth of the Energy universe.

Mr. Ulrich joined Siemens as product manager for steam turbines in our largest steam turbine factory. Later, he took a role in sales for combined cycle power plants, was responsible for the global fossil power generation product portfolio and ended his fossil career as Vice President for Strategy and Portfolio.

Today, he lives his passion for green energy as part of a small, agile Siemens team scaling up the Silyzer PEM Electrolysis technology for large scale industrial applications. He is responsible for the Silyzer Portfolio, Innovation and Technology
