

The Nation's Health

Prof. Ahmed Eltigani

CEO, Al Rawabi Dairy Company.

Prof. Ahmed El Tigani is a founder and the leader of Al Rawabi Dairy Company from 1989 to present. He had a visionary dream to build a farm in a desert. An endeavor which everyone assumed as a mission impossible, he proved them wrong. Starting with a farm of 500 imported cows, Professor Ahmed El Tigani had built a truly amazing farm with today's 15,000 cows, strolling under the warm Dubai sun and pampered as babies with showers, cooling system, automatic feeding and much more.

He has led many great successes in the company, such as introduction of the plastic bottles in 1991 to the UAE market. First introducing pasteurized juices in the region and the first company to launch functional products in the dairy industry - such as Nutree Boost, Vitamin D milk and Super Milk. The innovation is at core thinking of this great man. All products are enriched with multivitamins and minerals and designed to help solve the health concerns of the GCC population.

A man of many skills with an enormous experience, Dr Ahmed Eltigani has a Ph.D. in Veterinary Medicine. He has worked as a Veterinary Surgeon and a lecturer in Veterinary Medicine to become a Director of University Farm in Sudan. From there, he became a General Manager in National Agriculture Development Company in KSA later came down to UAE to start Al Rawabi Dairy Company.
