

**Dr. Johan Pensar**

Vice President  
Operations Technology

Dr. Johan works at ABB Industrial Automation in one of the key digital transformations in the ABB group called Collaborative Operations. There he focus on driving change and supporting both customers and ABB's own organization with enterprise solutions in areas like smart cities, smart manufacturing, collaboration and co-creation. This utilizing tools like data integration, analytics and change management, implemented through digital partnerships with customers and technology partners.

His has more than 20 years of experience from digitalization, business and solution management in industries ranging from power generation and bio-processes to shipping.
