Younes El Jazouli

Head of FACTS Business Development, Grid Stabilization, Siemens Energy, Middle East,

After his university electrical engineering studies in Germany, Younes joined Siemens with Power Transmission HQ in Erlangen in 2006. During his career within Siemens, he took over several roles in network planning, project management and global business development.

Mr. El-Jazouli leads the company's FACTS business development, the solutions which combines the broadest grid solutions portfolio in the industry, providing comprehensive solutions for customers, demanding reliable, affordable and green power.
