

## Jad Daoud

### Market Development Manager

Based in UAE, Jad Daoud has extensive knowledge in the manufacturing and marketing of composite pipes and fittings.

Holding a BE in Industrial Engineering and a Master of Finance from Massachusetts Institute of Technology (MIT), Mr. Daoud started his career as a consultant with KPMG before moving into other financial, engineering, and marketing positions.

His industrial engineering project on Manufacturing and Ergonomics won the first prize of Middle East and Africa, awarded by ASME, American Society of Mechanical Engineers.

Mr. Daoud is currently working with Future Pipe Industries as a Market Development Manager with the responsibility of promoting composite pipes solutions over non-metallic pipes.
