

## Dr. SARAVANAN SWAMINATHAN

### Chief Engineer - Engineering & OEM Technology

Saravanan is the Chief Engineer of Engineering & OEM Technology. He has several years of experience operating in the UK, Europe and the GCC across the power, water, oil & gas and industrial sectors delivering engineering consultancy, asset management solutions, EPC and maintenance service projects to customers.

He has a PhD and First Class Distinction Degree in Chemical Engineering, and a Masters' Degree in Business Administration. Saravanan joined Doosan in 2009 and has since held various roles prior to supporting growing the wider business in MENA.

As a customer focussed business leader and as the regional technical and project lead in MENA, he supports customers develop specific solutions based on their individual needs by ensuring that the full width and depth of capabilities within the Doosan Group are considered leveraging global support and coupling with a robust localised delivery model.
