MESSAGE FROM THE FOUNDER AND CHAIRMAN OF WETEX

Under the directives of HH Sheikh Mohammed bin Rashid Al Maktoum, Vice President and Prime Minister of the UAE and Ruler of Dubai, and the patronage of HH Sheikh Ahmed bin Saeed Al Maktoum, Chairman of the Dubai Supreme Council of Energy, the Water, Energy, Technology, and Environment Exhibition (WETEX) continues its pioneering journey as a global platform that brings together industry leaders, decision-makers, investors, experts and innovators from around the world. The exhibition provides a unique opportunity to review the latest solutions and innovations in diverse fields, including renewable and clean energy, water, environment, sustainability and smart technologies.

The 27th edition of WETEX in 2025 attracted 3,100 companies from 65 countries and hosted 18 international pavilions, in addition to 68 sponsors and 18 partners and supporters. Covering an area of 95,000 square metres, the exhibition welcomed over 50,000 visitors from around the world. This international momentum reflects the great confidence that WETEX enjoys as the largest event of its kind in the region and one of the most prominent specialised global exhibitions. It continues to serve as a vital driver for fostering strategic partnerships that help shape the future of energy and sustainability regionally and globally.

WETEX embodies Dubai's ambitious vision to build a green economy driven by innovation and knowledge. It also serves as a key platform supporting the Dubai Clean Energy Strategy 2050 and the Dubai Net Zero Carbon Emissions Strategy 2050, which aim to provide 100% of the emirate's total power capacity from clean sources by mid-century. Through its role as a catalyst for public-private co-operation, WETEX has become an ideal destination for launching sustainable solutions and exploring investment opportunities in future technologies and clean energy.

I extend my sincere thanks and appreciation to all WETEX partners, sponsors and visitors for their active role in the continued success of this global event and in reinforcing its position as a beacon that unites creative minds and bold ambitions under one roof. I invite you to participate in WETEX 2026, so that together we can continue our journey of excellence and innovation, and move confidently towards a brighter and more sustainable future for us and for generations to come.

His Excellency Saeed Mohammed Al Tayer
MD & CEO of DEWA and Founder and Chairman of WETEX

SPONSOR SEMINARS

Location: Hall 8, Dubai World Trade Centre

Day 1 - 20 October 2026		
11:00 am – 11:30 am	alfanar	**From Following Standards to Setting New Benchmarks: alfanar's Journey Toward the SF6-Free Grid** Speaker: • Basil Almabrok
11:40 am – 12:10 pm	Riyadh Cables Group	**525 KV HV DC Cables – Research Activities** Speaker: • Altaf Ahmed, General Manager - Technical & Quality Control Department
12:20 pm – 12:50 pm	acwa	**Clean Energy – Green Hydrogen** Speaker: • Omar Germouni, Head of Origination – Synthetic Fuels and Green Hydrogen, ACWA
01:00 pm – 02:00 pm	enoc Gargash al tayer DTC	**Green Mobility Panel** Moderator: • Maya Hojei Senior Business Anchor, CNN Business Arabic Speaker: • Walid Hizaoui - Group Chief Strategy Officer, Gargash Prime Speaker: • Hisham Airan - Director of Operations, Dubai Taxi Company
02:10 pm – 02:40 pm	FPI Future Pipe Industries	**The Digital Pipeline: Building Intelligent Water Networks for the Future** Speaker: • Chhandak Ghorai, Business Development Manager - UAE
02:50 pm – 03:20 pm	EWEC	**1- EWEC's Future Projects - An Overview on EWEC's Upcoming Projects** Speaker: • Omar Mohammed Al Ameri, Senior Vice President - Trading
03:30 pm – 04:00 pm	SUNTEN	**Transformer Solutions for Solar Power** Speaker: • Li, Xia, R & D Manager
04:10 pm – 04:40 pm	HYOSUNG	**Powering the Future Grid: STATCOM for Renewable Energy and Large Load Connectivity** Speaker: • Minsoo Lee, General Manager, FACTS and HVDC Project Engineering Team
04:50 pm – 05:20 pm	SAP	**Building Autonomous Organizations for a Sustainable World** Speaker: • Mr. Ernesto Schmitz, Business Transformation Lead

Day 2 - 21 October 2026		
10:00 am – 10:30 am	MASDAR	**Beyond Land, Beyond Daylight: The Next Era of Renewable Energy** Speaker: • Fatima Alsuwaidi, Associate Director, Business Development (APAC)
10:40 am – 11:10 am	GOC	**From ESG Commitment to ESG Implementation: Turning Sustainability Strategy into Measurable Operational Performance** Speaker: • Hassan Al Jawhari, General Manager, GOC Management Consultancies FZ-LLC
11:20 am – 11:50 am	SIEMENS energy	**Optimizing Power Plant Performance for the Future: Digitalization, Flexibility and Renewable Energy Integration** Speaker: • Majdal Shahin and Andreas Siebert, Digitalization Cosultant and Gas Turbine Technical Expert
12:00 pm – 12:30 pm		**Energy Efficiency, Sustainability and Conservation** Speaker: • Faisal Ali Rashid, Senior Director-DSM
12:40 pm – 01:10 pm	DUCONT	**Quantization for Efficient Enterprise AI Agents** Speaker: • Dr. Prem Jagadeesan, Head of Research & Development
01:20 pm – 02:20 pm	مجالس الشباب YOUTH COUNCILS مجالس الشباب YOUTH COUNCILS	**The Impact of AI on the future of Energy and Sustainability**
02:30 pm – 03:00 pm	FEDERAL ELECTRIC	**Energy storage high power test system for short circuit test market** Speaker: • Nick Zhu, General Sales Manager of Samgor
03:10 pm – 03:40 pm	HITACHI	**Building Grid Resilience in an Uncertain World: Leveraging Remote Sensing, IoT, and AI for Safer, More Reliable Power Networks** Speaker: • Andy Warner, Global Service Segment Leader - Utilities - Hitachi Energy
03:50 pm – 04:20 pm	TRILLIUM	**How to Cut Energy Usage by almost 50% on Legacy BB5 Installations with Re Rate Solutions** Speaker: • Nehad Shawki, Manager
04:30 pm – 05:00 pm	ALUCOR	**Disrupting / Emerging / Innovative Technologies in Energy, Water and Environment** Speaker: • Rahul Bhatia, Vice President Sales & Marketing

Day 3 - 22 October 2026		
10:00 am – 10:30 am	SIEMENS	**Resilient and Cybersecure Grids in an AI World** Speakers: • Abhishek Kar, Head of Strategy & Sustainability, Automation and Electrification, Siemens Midle East • Deepak Ramachandran, Technical Promoter
10:35 am – 11:05 am	Al Ghurair etap	**Empowering Utility AI with Electrical Intelligence: Building the Physics-Based Electrical Digital Twin for Utility** Speaker: • Shaikh Sahid Hossain, CRO
11:10 am – 11:40 am	DAMAC	**Sustainable Engineering in Practice: MEP Innovations Across DAMAC Developments** Speaker: • Omar Khurma, Senior Director - MEP
11:45 am - 12:15 pm	LARSEN & TOUBRO	**Powering Digitalization of Future Resilient Grids** Speaker: • Mr. Suvendra Kumar Senapati, Head - Distribution Contol Room and T&D Substation Solutions
12:20 pm – 12:50 pm	pwc	**Whole of System Resilience for Water Utilities** Speakers: • Raddad Ayoub, Partner, Cybersecurity Consulting, PwC Middle East • Sharang Gupta, Partner, Public Safety Technology, PwC Middle East • Wissam Mahfouz, Partner, Technology Consulting, PwC Middle East
12:55 pm – 01:25 pm	Nirmal	**Green Hydrogen and Biogas Blending in Natural Gas Networks for Carbon Footprint Reduction** Speaker: • Mr. Ketan Dhotre, Regional Sales Manager
01:30 pm – 02:00 pm	Lucy Electric	**Sustainable switchgear for a sustainable future** Speaker: • Nithyanandan Varadhan, Technical Offer Manager
02:05 pm – 02:35 pm	INGRAM	**Energy Efficiency, Sustainability and Conservation** Speaker: • Nitin Kapoor, Technical Solution Architect
02:40 pm – 03:10 pm	TERRAX	**Advanced Water Technilogies: From Reuse to Resource Recovery** Speaker: • Akhil Jugade, PU Head-Projects
03:20 pm – 03:50 pm	ROSATOM	**The Role of Rosatom Technologies in Addressing Global Challenges** Speaker: • Igor Palamarchuk, Director, Rosatom Middle East and North Africa
04:00 pm – 04:30 pm	aasa	**Beyond Steam: Revolutionizing Clean Power Generation with Supercritical CO_2 (sCO_2) Cycles** Speaker: • A.T. Gowthaman, Gowthaman - Senior Project Manager, AASA Groups
04:40 pm – 05:10 pm	DELL Technologies	**Powering the AI-Driven Utility: Building Resilient, Efficient and Sustainable Grids from the Edge to the Core** Speaker: • Mohamed Lamine Selmane, Energy Practice Lead

WATER SEMINARS AGENDA

Location: Water Platform, Sheikh Saeed Hall 3, DWTC

Day 1 - 20 October 2026		
11:00 am - 11:50 am	Dubai Electricity & Water Authority	**Different stages of DEWA water network projects** Moderator: • Saud Bindarwish Speakers: • Ahmed Almarzouqi • Mohamad Alhamadi • Rashid Albastaki
12:00 pm - 12:20 pm	ANECO Middle East	**Water Without Borders: Engineering Resilience, Empowering Peace** Speaker: • Daniele Iacoboni - Co-founder and Chief R&D Officer
12:30 pm - 12:50 pm	EWEC	**Security Evaluation for Water System Operations** Speaker: • Khalid Al Zaabi - Senior Vice President Water
01:00 pm - 01:20 pm	Filter	**Cartridge Filtration as a Key Enabler for Reliable Reverse Osmosis Desalination Plant Operation** Speaker: • Valeriia Nikolaeva - Senior Process & Laboratory Specialist
01:30 pm - 01:50 pm	pwc	**Water security is a system challenge, not an asset challenge** Speaker: • Ali Zaid Tarik Al-Aukati - Partner, PwC Middle East
02:00 pm - 02:20 pm	gradiant	**Industrial Water Circularity as Enterprise Strategy** Speaker: • Prakash Narayan Govindan - Co-Founder & CEO
02:30 pm - 02:50 pm	gradiant	**Minimum Waste & Maximum Yield: The Next Frontier in Wastewater Reclamation and Resource Recovery** Speaker: • Siva Kumar Kota - Head of Technology

Day 2 - 21 October 2026		
11:00 am - 11:20 am	Cannon Artes	**PFAS – Overview of Removal Technologies** Speaker: • Marco Visconti - Sales Engineer
11:30 am - 11:50 am	StarCharge	**AI-Driven the Tri-Network Energy Convergence Hub: From Energy Connectivity to Digital Operations** Speaker: • Tan Yi - President of Middle East, Africa & Central Asia Region
12:00 pm - 12:20 pm	CNP	**Optimizing Pump Energy Efficiency and Life-Cycle Costs in High-Salinity, High-Temperature Environments** Speaker: • Wenqiang Yang (Joseph) - General Manager, Middle East
12:30 pm - 12:50 pm	VONTRON	**Bringing Vontron's Innovative New-Generation Membrane Products and Technologies to the MENA Water Market** Speaker: • Zhu Hui - Technical Sales Manager
01:00 pm - 01:20 pm	+GF+	**Future-Proofing Urban Water Infrastructure: Reducing NRW and Increasing Network Resilience** Speaker: • Mark Jarrett - Infrastructure Solutions Manager and Principal Consultant
01:30 pm - 01:50 pm	ELASDO	**New Energy Recovery Device for Water Treatment Systems: Reducing Power Consumption and Initial Costs** Speaker: • Tony Markham - Managing Director
02:00 pm - 02:20 pm	AERZEN EXPECT PERFORMANCE	**How to Ensure Efficient Aeration Systems** Speaker: • Filipe Bravo da Silva - Regional Application Manager, Middle East and Africa
02:30 pm - 02:50 pm	NSF	**NSF: Your Products' Passport to Global Markets** Speaker: • Ahmad Onnab, Senior Manager – MENA

Day 3 - 22 October 2026		
10:30 am - 11:00 am	CLA-VAL	**Beyond Smart Valves: CLA-VAL's Digital Ecosystem for the Next Generation of Water Networks** Speaker: • Erkan Bajrami - Regional Sales Manager
11:05 am - 11:20 am	GWF	**From Drips to Downpours: How Ultrasonic Technology is Supporting Smart Water Utilities** Speaker: • Gary Vincent, Managing Director
11:25 am - 11:40 am	ramicro rapid quantitative microbiology	**Assessing microbial risks in water: simple, fast, precise** Speaker: • Dr. Hans-Anton Keserue - CEO
11:45 am - 12:00 pm	SULZER	**Beyond the Pump: Transforming Wastewater Infrastructure into a Resilient, Intelligent Water System** Speaker: • Mohamed Fameeb - Product Marketing Manager
12:05 pm - 12:20 pm	swan ANALYTICAL INSTRUMENTS	**Smarter Online Water Quality Monitoring: From Real-Time Detection to Reliable Sample Management** Speaker: • Anoop Krishnan - Sales Director
12:30 pm - 12:50 pm	EMERALD	**On-Site Mixed Oxidant Solution for Safe and Sustainable Disinfection of Drinking Water** Speaker: • Petr Gnatyuk - Founder & CEO
01:00 pm - 01:20 pm	WORLD ORGANIC GROUP	**Modern Technologies for Urban Greening** Speaker: • Elena Fokina - Development Director in the UAE
01:30 pm - 02:00 pm	ANDRITZ	**Composition in, Pump Reliability on** Speaker: • Yvonne Tripolt - Industry Segment Manager for Wastewater
02:00 pm - 02:50 pm	**DEWA B2B REPRESENTATIVE**	

HEALTH & SAFETY CONFERENCE AGENDA

Location: Sheikh Maktoum Hall, Dubai World Trade Centre

Day 1 - 20 October 2026			
10:00- 10:10		**Welcome and opening the session** • Marwan Aridi	
10:10- 10:15	هيئة كهرباء ومياه دبي Dubai Electricity & Water Authority	**Opening Remarks** • Mr. Zaal Khalifa Bin Zaal	
10:15 - 10:45	enoc	**The EHS challenges of Technology and Human Factors/Human Performance"** • Dr. Waddah Ghanem	
10:45 - 11:15	COGNIT DX	**The Future of Leadership: AI, Human Behaviour, and Safety Excellence** • Alaa Dalghan	
11:15 - 12:45		**Discover the Future of HSE: Build Your Own AI + Vibe Coding Solution for Breakthrough Health & Safety Performance** • Bilal Dridi	
12:45	هيئة كهرباء ومياه دبي Dubai Electricity & Water Authority	**Awards Ceremony: Day 1 - 1st half** • Mr. Zaal Khalifa Bin Zaal	
13:00 - 14:00	**BREAK**		
14:00 - 14:30		**PANEL DISCUSSION 1** **Building Trust in AI Systems: Transparency, Ethics, and Compliance, What it means**	• Nahla Abid
	InLabs		• Dr. Jacinta Dsilva
	ISO International Organization for Standardization		• Dr. Sid Benraouane
	NextGen GCC		• Eftal Efecinar
			• Ahmed AlJarouf
14:30 - 15:00	ISD	**AI Fusion: Trust, Behaviour, and Psychological Safety in the AI-Augmented Workplace** • Dr. Kishor Narayanan Chiyyarath	
15:00 - 15:30		**Creating Trustworthy AI Cultures: The Leadership Imperative of ISO 42001** • Jaganathan Ramamoorthy	
15:30 - 16:00		**AI-Powered Healthcare Environment: Building Patient Trust, AI Literacy, and Safer Health Behaviour** • Dr. Aswathy Sheela Sudhakar	
16:00	هيئة كهرباء ومياه دبي Dubai Electricity & Water Authority	**Awards Ceremony: Day 1 - 2nd half and Closing Remarks** • Mr. Zaal Khalifa Bin Zaal	

Day 3 - 22 October 2026			
10:00 - 10:15		**Welcome and opening the session** • Marwan Aridi	
10:15 - 10:45	المزروعي للطاقة Mazrui Energy	**AI-Augmented Leadership: Integrating Safety, Sustainability and Risk into Business Decision-Making** • Renato Volpe	
10:45 - 11:15	logo	**Workforce Wellbeing and Behavioral Safety in a Digital Era** • Engr. Bouchra Nassir	
11:15 - 12:45	celliUm	**From Metrics to Mindsets; Safety Behaviours Through AI and Operational Data** • Nancy Nouiameh	
12:45	هيئة كهرباء ومياه دبي Dubai Electricity & Water Authority	**Awards Ceremony: Day 2 - 1st half** • Mr. Zaal Khalifa Bin Zaal	
13:00 - 14:00	**BREAK**		
14:00 - 14:30		**PANEL DISCUSSION 2** **Emerging AI in Managing Health and Safety at Workplace**	• Marwan Aridi
	GRAPHITE		• John Shenton, MBE
			• Dr. Abir Hamze
	أمينة amina		• Dr. Priyanka Hemant Pansare
			• Krish Sriram
14:30 - 15:00	Machina Metrix	**AI and Robotics as Safety Enablers: Lessons from the Industrial Frontline** • Dr Antonio Feraco, PhD in AI, PMP	
15:00 - 15:30	Yale SCHOOL OF NURSING	**Leading Human-AI Collaboration: Creating a Culture of Safety, Wellbeing, and Performance** • Eng. Inas Al Khatib, PhD	
15:30 - 16:00	velarAI	**Data-Driven Leadership: Turning Safety Data into Actionable Insights** • Bassam El Koussa	
16:00	هيئة كهرباء ومياه دبي Dubai Electricity & Water Authority	**Awards Ceremony. Day 2 - 2nd half** • Mr. Zaal Khalifa Bin Zaal	

Knowledge partner BUREAU VERITAS

GREEN MOBILITY & SRM AGENDA

Location: Hall 4, Dubai World Trade Centre

Day 1 - Tuesday, 20 October 2026	
10:00 AM – 10:15 AM	**Welcoming and Registration**
10:15 AM – 11:00 AM	**Supplier Engagement and Interaction with DEWA**
11:15 AM – 12:00 PM	**DEWA Green Procurement and Mobility**
Break	
01:00 PM – 02:15 PM	**Open Discussion with DEWA's Supply Chain Management**
02:20 PM –03:00 PM	**Rewiring the Core: The Journey to an AI-Native Enterprise**
Break	
04:00 PM – 04:30 PM	**Robotics & Future Innovation Challenge**

Day 2 - Wednesday, 21 October 2026	
10:00 AM – 10:15 AM	**Welcoming and Registration**
10:15 AM – 11:00 AM	**DEWA's Health and Safety Overview**
11:15 AM – 12:00 PM	**DEWA Supplier Life Cycle & Communication Channels**
Break	
01:00 PM – 02:00 PM	**Panel Insight: Interaction with Suppliers, Supply Chain Management and Supplier Happiness Champions**
02:10 PM – 02:30 PM	**Using Software and AI for Vehicle Development in the EV Industry**
02:40 PM – 03:00 PM	**The Future of E-Mobility in UAE**
Break	
04:00 PM – 04:30 PM	**Mutual Benefits between DEWA & Suppliers**

Day 3 - Thursday, 22 October 2026	
10:00 AM – 10:15 AM	**Welcoming and Registration**
10:15 AM – 10:55 AM	**DEWA's Environmental Overview**
11:00 AM – 12:00 PM	**DEWA's Engagement with SME Suppliers in coordination with SME Management**
Break	
01:00 PM – 02:00 PM	**[Available Slot] - TBC**
02:00 PM – 03:00 PM	**The Compass**
Break	
04:00 PM – 04:30 PM	**DEWA's Transparency in dealing with Suppliers**

RENEWABLES & SUSTAINABILITY SEMINARS AGENDA

Location: Hall 1, Dubai World Trade Centre

Day 1 – Tuesday, 20 October 2026	
	ENERGY REALITY CHECK – POLICY, RISK, AND SYSTEM TRANSFORMATION
11:00 - 11:10	**HIGH-LEVEL KEYNOTE ADDRESS** **The Sovereign Blueprint - De-Risking Energy Security, Capital, and National Infrastructure** Speaker: **HE. Abdulla Ahmed Balalaa,** UAE Assistant Minister of Foreign Affairs, Energy & Sustainability
11:00 - 12:00	**OPENING BY CLEAN ENERGY BUSINESS COUNCIL MENA** **Executive Dialogue** **Energy Transition vs. Energy Reality: Are we pricing transition and system risk correctly?** An exploration of whether financial markets and policy frameworks are accurately accounting for the real-world costs, grid limitations, and national security trade-offs of transitioning away from fossil fuels. Key Focus Areas: • Transition and physical resilience risk pricing in infrastructure • Asset bankability and evolving regulatory frameworks • True cost of delayed grid upgrades • Energy security vs. decarbonization tension Panelists: • **Faisal Ali Rashid,** Senior Director - Demand Side Management, Dubai Supreme Council of Energy • **Bruce Johnson,** Director, Corporate Finance and Treasury, Masdar • **Alissa King,** General Counsel, Positive Zero • **Dr. Waseem Hoeneini,** Founder & Managing Partner, WMSJ Moderator: • **Racha Moukayed,** Independent Adviser
12:00 - 13:00	**PANEL DISCUSSION** **The New Energy Order: Navigating GCC Policy in an Evolving Global Landscape** An analysis of how GCC nations balance state sovereignty and domestic energy security with volatile global markets, infrastructure adaptation, and changing geopolitical targets. Key Focus Areas: • National production sovereignty and domestic supply security • Infrastructure resilience and resource diversification • Energy price volatility and risk premium management • Geopolitical impacts on long-term decarbonization targets • Energy security and system transformation benefits Panelists: • **Polina Lion,** Chief Sustainability Officer, Rosatom • **Ayman Ismail,** Government & Institutional Relations VP – MEA, Hitachi Energy • **Abdulla AlKhemeiri,** Chief Operations Officer, EtihadWE • **Andrei Vlasov,** Group CEO, Fort Group • **Leandro Bertoni** – Vice President, Power Systems – Middle East & Africa, Schneider Electric Moderator: tbc
13:00 - 13:30	**INTERACTIVE SYSTEM MAPPING WORKSHOP** **Grid Stress Test 2030 – Live Scenario Exercise** Objective of the workshop: to stimulate the UAE power system in 2030 under real demand pressure and identify where infrastructure, regulation, and investment must accelerate. Format Overview: • Scene Setting • Stakeholder Mapping • Live Stress Test • Investment & Policy Conclusions Facilitator: • **Talal Eskandar,** EMEA Executive Director, Reactive Technologies
13:30 - 14:30	**Lunch Break**
14:30 - 15:30	**PANEL DISCUSSION** **Clean Hydrogen: From Hype to Industrial Use Cases** An evaluation of clean hydrogen's commercial viability, analyzing if electrolyzer economics and pipeline logistics can transition it from a theoretical solution to a practical reality for heavy industry and exports considering recent regional tensions. Key Focus Areas: • Industrial hydrogen demand • Export realism • Electrolyzer economics • Pipeline feasibility Panelists: • **Khaled Lakkis,** Senior Business Advisor, John Cockerill • **Dr. Sgouris Sgouridis,** Director - Research Programs, DEWA Moderator: • **Iwan Walters,** Partner, Stephenson Harwood LLP
15:30 - 15:50	**PRESENTATION** TBC Speaker: tbc
15:50 - 16:50	**PANEL DISCUSSION** **Policy Deep Dive: UAE Climate Change Federal Law - Compliance, Capital and Consequences** A strategic look at how the passing of the May 2026 full-compliance deadline transforms UAE climate risk from a voluntary ESG initiative into a legally binding corporate liability, rewriting the rules for green finance, private sector exposure, and value chain accountability. Key Focus Areas: • Corporate accountability and enforcement • Scope 3 implications • Private sector exposure Panelists: • **Ahmed Elbermbali,** Director of Sustainability, Middle East, Caspian Sea and Africa Region, Bureau Veritas • **Eftal Efecinar,** Head of Partnerships, Coral • **Asmaa Elgedawy,** Corporate Environmental and Sustainability Lead, Future Pipe Industries Moderator: tbc
17:00	**Seminar Concludes**

RENEWABLES & SUSTAINABILITY SEMINARS AGENDA

Location: Hall 1, Dubai World Trade Centre

Day 2 – Wednesday, 21 October 2026	
THE 50°C CITY: URBAN RESILIENCE, WELLNESS, AND COMPLIANCE	
10:00 - 10:45	**OPENING BY CLEAN ENERGY BUSINESS COUNCIL MENA** **Executive Panel** **Digital Architecture for the 50°C Benchmark – Designing the Smart, Resilient Cities of Tomorrow** Regional leaders discuss how connected buildings and intelligent urban design can create comfortable and highly efficient cities, setting a new global standard for living and thriving in a warmer world. Key Focus Areas: • The Smart City Vision • Intelligent Buildings; Smart tech, IoT, and automated cooling • Cutting-edge Technology Blended with Sustainable Design Panelists: • **Amel Chadli,** President - Gulf Cluster, Schneider Electric Moderator: • tbc
10:45 - 11:00	**KEYNOTE PRESENTATION** **Nature, Biodiversity, and the Climate Science - Foundations for a Changing World** Speaker: • **Dr. Habiba AlMar'ashi,** Founder & Chairperson, Emirates Environmental Group
11:00 - 11:15	**FILM INTERVENTION & TALK** **Engineering Resilience for the 50°C Reality** A short cinematic showcase followed by a brief commentary exploring how cities can reconcile human wellness with extreme climate benchmarks and the evolving global compliance landscape. Speaker: • **Dima Al Srouri,** Founder & CEO, MycoSphere
11:15 - 12:15	**PANEL DISCUSSION** **Designing for 50°C: Cooling, Materials & Urban Form** An exploration of how extreme desert heat forces a shift from power-hungry mechanical cooling to passive architecture, heat-reflective materials, and advanced district cooling systems to keep future cities livable. Key Focus Areas: • Urban heat island mitigation • Shading and passive cooling • Solar-integrated architecture • District cooling innovation Panelists: • **Dorian Bomble,** Director of Marketing, Saint-Gobain • **Antonio Di Cecca,** COO, Tabreed Moderator: tbc
12:15 - 13:15	**PANEL DISCUSSION** **Human-Centric Cities, Indoor Air Quality & Beyond Workplace Wellness** Key Focus Areas: • Quantifying the ROI of indoor air quality, thermal comfort, and occupant well-being • Elevating the "S" in ESG beyond carbon-centric reporting • Moving from basic wellness perks to climate-resilient, health-first built environments Panelists: • **Vitalii Matiunin,** Co-Founder and CEO, Airvoice • **Abdullatif Albitawi,** Director, Emirates Green Building Council • **Dr. Hassan Ali,** Associate Professor, University of Birmingham Dubai • **Sabine Ghosn,** Environmental Sustainability Manager, Enova Moderator: • **Nour Mezher,** Senior Manager of Strategy & Programmes, Frontier25
13:15 - 14:15	**Lunch Break**
14:15 - 14:45	**INTERACTIVE SESSION/WORKSHOP** **Managing Climate Risk in a 50°C World: What It Means for Business, Data and Climate Compliance** Speaker: • **Jessica Scopacasa,** Co-Founder & CMO, Olive Gaea
14:45 - 15:45	**PANEL DISCUSSION** **From Food Waste to Fuel: Biofuels and SAF in the UAE** An evaluation of how the UAE is leveraging its circular economy policies and regional aviation hub status to turn domestic food waste and municipal biomass into a commercial supply chain for sustainable aviation fuel and biofuels. Key Focus Areas: • Waste-to-fuel commercial viability • Feedstock security & supply chains • Infrastructure readiness & blending realities • Regulatory catalysts Panelists: • **H.E. Maher Al Kaabi,** MD, Blue Biofuels • **Dr. Haythem Riahi,** CEO, Circa Biotech • **Adetayo Martins,** Senior Specialist, Business Management, ADNOC • **Ruhiye Keskin,** Director, Infrastructure and Business Development, Advario Moderator: • tbc
15:45 - 16:45	**PANEL DISCUSSION** **Investor Dialogue - Are sustainable cities investable, or just marketable?** A candid financial assessment of whether green real estate developments yield genuine risk-adjusted returns and valuation premiums, or if they are simply over-priced marketing assets, to uncover the true cost and returns of building for a 50°C world. Key Focus Areas: • Valuation & Premium Reality • Capex vs. Long-term Savings • Climate Risk & Asset Protection • Access to Green Capital • Marketing vs. Genuine ROI Panelists: • **Vijay Bains,** Group Chief Sustainability Officer, Emirates NBD • **Jennifer Chammas,** Managing Director and the Regional Head of Sustainable Finance and Transition, HSBC Moderator: • **Gurmeet Kaur,** Partner, Pinsent Masons
16:45	**Seminar Concludes**

RENEWABLES & SUSTAINABILITY SEMINARS AGENDA

Location: Hall 1, Dubai World Trade Centre

Day 3 – Thursday, 22 October 2026	
	DECARBONIZING AT SCALE: CLEAN POWER, INFRASTRUCTURE LOOPS, AND HUMAN CAPITAL
10:00 - 10:30	**INTRODUCTION BY CLEAN ENERGY BUSINESS COUNCIL MENA** **Keynote Presentation** **Integrating Non-Baseload Renewables into a Stable Grid** Speaker: • **Naji Al Messabi,** Executive Vice President of Power System Operations, EWEC
10:30 - 11:30	**PANEL DISCUSSION** **Scaling EV Infrastructure Without Breaking the Grid** An analysis of how public-private partnerships and managed charging services can accelerate heavy fleet electrification using localized renewable energy loops, preventing localized grid overloads. Speaker: • Fleet electrification • Charging as a Service • Renewable-powered charging hubs • PPP models Panelists: • **Rajeev Roy** - SVP, Power Future Grid, TAQA Distribution • **Majid Al Hazami,** Director Smart Grid PMO, DEWA • **Roberto Colucci,** Director, Electric Vehicles (ZEEKR and Smart), AW Rostamani Group • **Thanveer Musthafa,** Director, Pactive • **Maneesha Bhatnagar,** Head of ESG, Consultancy and Innovation, LeasePlan Emirates Moderator: **Heiko Seitz,** Partner, Strategy &
10:30 - 11:30	**PANEL DISCUSSION** **Profit and Purpose – Solar as an Economic Shield and Sustainability Mandate** A targeted panel analyzing how modern solar adoption satisfies both immediate bottom-line financial demands and long-term corporate sustainability goals. Key Focus Areas: • Mitigating financial risks and energy price volatility through clean energy assets • Moving from symbolic sustainability commitments to hard-asset infrastructure investments • Bridging the capital gap by aligning CFO yield requirements with corporate decarbonization goals Panelists: • **Yuxi Zhang,** Regional Sales Manager, PV Hardware • **René Matthies,** Chief Financial Officer, EWEC • **Ghanim Alqassim,** Senior Manager - Solar Energy, DEWA Moderator: **Avanthika Satheesh,** Director - Consulting, Customized Energy Solutions, CES
12:30 - 12:50	**PRESENTATION** **Frictionless Decarbonization: How 'As-a-Service' Models Simplify the Transition. A Case Study for Accelerating Energy Transition in Hospitality and SMEs** Speaker: • **Hugo Domingues,** General Manager, Enernouva
13:10 - 13:50	**FIRESIDE CHAT** **Industrial Circularity: Heavy Industry Decarbonization & Closed-Loop Manufacturing** Examining how MENA's industrial leaders and waste management authorities are working to build resilient, closed-loop ecosystems. Moving beyond single-industry recycling, this session explores how heavy manufacturing, scrap utilization, and municipal-industrial waste integration drive regional decarbonization, lower landfill diversion metrics, and create commercial value from resource recovery. Key Focus Areas: • Turning Waste into Resources • Cross-Industry Collaboration • Scaling Local Recycling • Infrastructure & Policy Alignment Panelists: Moderator: • tbc
13:50 - 14:50	**PANEL DISCUSSION** **Reskilling the Energy Workforce: AI, Automation, and a Just Transition** Examining how the energy sector can leverage AI and automation to modernize operations while ensuring an equitable, inclusive workforce transformation that aligns youth education with digital industry needs. Key Focus Areas: • Operationalizing a just transition across sectors • AI integration and workforce automation without social displacement • Aligning STEM, youth education, and vocational training with future energy jobs • Upskilling, re-skilling, and retention strategies for legacy workers Panelists: • **Haya Abu Laila,** Manager, Human Resources, TAQA • **Brijesh Dhruve,** Manager – Climate Change and Sustainability, ENOC • **Sara Waheed,** Senior Manager – Emiratisation, People & Culture, Al Ghurair Group • **Alyazyah Almarzooqi,** Digitization & Analytics Manager, Curator of Global Shapers Dubai Moderator: tbc

SUSTAINABLE TOURS

Exclusive tour for WETEX Exhibitors to see the best practices in sustainability in Dubai.

The Sustainability & Innovation Centre at the Mohammed bin Rashid Al Maktoum Solar Park is a pioneering global hub for renewable and clean energy innovation. It works with local and global universities, organisations and start-ups, and is an educational platform that hosts events, conferences, seminars and workshops. The centre provides visitors with an opportunity to explore the latest innovation in clean energy technologies. It houses an auditorium for events, conferences and initiatives on renewable energy and sustainability.

19 October 2026

TIME	PROGRAMME	REMARKS
08:30 - 09:00	Arrival & Registration	DEWA Future Customer Happiness Centre, Umm Hurair 2 - Innovation Tent
	Assembly to the Shuttle Buses	DEWA Future Customer Happiness Centre, Umm Hurair 2 - in front of main gate
09:00	Departure to the Sustainability & Innovation Centre	Approximate Journey time 50 to 60 mins
10:00 - 10:30	Arrival, Meet & Greet Refreshment	DEWA Sustainability & Innovation Centre, MBR Solar Park
10:30 - 11:00	Introduction video about the Sustainability & Innovation Centre	Introduction Video
11:00 - 12:00	Tour at the iconic DEWA Sustainability and Innovation Centre	Organised by DEWA Sustainability & Innovation Centre Team
12:00 - 12:30	Assembly to the Shuttle Buses	
13:00	Departure to DEWA Future Customer Happiness Centre, Umm Hurair 2	Approximate Journey time 50 to 60 mins

AGENDA

DAY 1: WEDNESDAY - OCTOBER 21, 2026		
Time	**Location**	**Session**
09:00–09:45	Breakout Room	**Panel Discussion:** Youth, Innovation and the Next Generation of Sustainability Leadership
09:15–10:00	Main Hall	**Circular by Design:** Redesigning Business Models for the Green Economy
		OPENING CEREMONY
10:00–11:00	Main Hall	Opening Ceremony
		SESSIONS
11:00–11:45	Main Hall	**The Innovation Equation:** How to Bring Down the Cost of Green
11:30–12:30	Breakout Room	**Panel Discussion:** Water as a Business Imperative
11:45–12:30	Main Hall	**Decarbonizing at Scale:** Clean Energy Solutions for Net-Zero
12:30–13:00		**Driving Success:** The Middle East's Energy Storage Solutions
12:45–13:30	Breakout Room	**Panel Discussion: MRV 2.0**: The Intersection of AI, Big Data and Regulation for Delivering Climate Transparency and Integrity at Scale
13:00–14:30	Roundtable Room	BY INVITE ONLY **- Roundtable: From Ambition to Bankable Action: From Ambition to Bankable Action** – Mobilising Green Investments for a Resilient and Inclusive Global Economy
13:15–14:00		**LUNCH**
14:00–14:45	Breakout Room	**Panel Discussion: Scaling Lower Carbon Aviation Fuels in the Middle East:** From Production to End-Use Market Readiness
14:00–15:00	Main Hall	**Exporting Utility Excellence:** Extending Dubai's Leading Infrastructure Models to Global Markets
15:00–15:15		**BREAK**
15:00–16:30	Breakout Room	**WGEO Green Circle:** Leadership Dialogue on Business Transition
15:15–16:00	Main Hall	**Powering AI Sustainably**: Advancing Smarter and Greener Data Centres
16:00–17:00		**Green as a Growth Strategy:** The Business Case for Sustainability
17:00		**CLOSE OF DAY ONE**

DAY 2: THURSDAY - OCTOBER 22, 2026		
Time		**Session**
09:00–10:00	Main Hall	**The $7 Trillion Opportunity:** Which Sectors Are Winning and Why
09:00–10:30	Roundtable Room	**WGEO Youth Roundtable:** From Youth Participation to Green Economy Leadership
09:00–10:30	Breakout Room	**CSO Network Executive Roundtable:** Scaling AI for Sustainability: From Intelligence to Impact
10:00–10:45	Main Hall	**Electricity for All:** How Clean Energy Is Becoming More Accessible
10:45–11:00		**BREAK**
11:00–11:30	Main Hall	**Proving ROI:** The Success of Climate Investments/Projects
11:00–12:30	Breakout Room	**High-Level Policy and Implementation Dialogue:** AI for Energy Access, Grid Transformation and Energy Security
11:30–12:30	Main Hall	**Green Finance and the GCC:** How the Region is Leveraging Green Finance
12:00–12:45	Roundtable Room	**High-Level Roundtable:** The Price of Unpreparedness: Redefining Risk for the UAE Private Sector
12:30–13:00	Main Hall	**Reverse Osmosis and Next-Gen Technologies:** Transforming the Future of Clean Water
12:45–13:30	Breakout Room	**Launch of the Arab Government Sustainability Survey 2026:** Artificial Intelligence and Social Impact in the Arab World
13:00–13:30		**LUNCH**
13:00–13:45	Roundtable Room	**Sustainability & Islamic Finance:** Unlocking Ethical Capital and Innovative Instruments for the Green Transition
13:30–14:00	Main Hall	**Announcing the Next Cycle of the Emirates Energy Award (EEA)**
14:00–14:45	Breakout Room	**Panel Discussion: Agentic AI:** From Intelligent Systems to Autonomous Digital Transformation
14:00–14:45	Roundtable Room	**Presentation: From Interconnection to Intelligence:** Scaling Grids and Storage for Resilient Energy System

Group of Companies

An ISO 9001, ISO 14001 & OHSAS 18001 Certified Company

About Us :

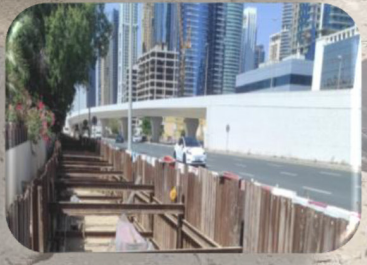

- Established in 1991.
- An IMS certified company associated with Power Transmission & Distribution projects.
- We are one of the largest EPC contractors in UAE specialized in
  - ✓ Underground cabling, Overhead transmission lines, Substations up to 400KV.
- Approved by various government Authorities like
  - ✓ DEWA, EWE, ADWEA (TAQA), SEWA, RTA, ITC, ADNOC, DAEP, SEC-KSA
  - ✓ Other Industrial customers and consultants.
- We have done similar projects in Oman, Qatar, Libya etc.

Our Business Verticals :

- ❖ Underground Cabling Projects up to 400 kV
- ❖ Over Head Transmission Lines up to 400 kV
- ❖ Substations up to 400 kV
- ❖ Street Lighting & Industrial Electrification
- ❖ Horizontal Directional Drilling
- ❖ Fibre Optic Cabling services
- ❖ Trench Shoring
- ❖ Tools and Trading

VOLTAMP

ENERGY TRANSFORMED

Voltamp stands as a pioneer and industry leader in Oman's energy sector and a trusted name across the MENA region. As the region's largest power transformer manufacturer, Voltamp delivers advanced power transformers up to 500 MVA, 400 kV, along with shunt reactors up to 400 kV, specialized distribution transformers, and solar inverter-duty transformer solutions. Our portfolio is further strengthened by a comprehensive range of low- and medium-voltage switchgear, package substations, and E-Houses, offering complete and reliable power solutions.

With a distinguished supply record exceeding 130 GW of installed capacity, including nearly 15 GW supporting renewable energy projects, Voltamp continues to power the region's energy transition through innovation, reliability, and world-class engineering excellence.

TBEA

TBEA Electrical Equipment Group Co., Ltd. is a service provider that provides system solutions for the global energy industry, and is a large energy equipment manufacturing enterprise group in China. It has successfully built transformers, switches,GIL, capacitors and reactors, cables and accessories, power secondary, instrument transformers, core transformer components, offshore boost station integration, substation operation and maintenance, energy storage power station and new energy charging station invest-ment, construction and operation and maintenance services in the field of power transmission and transformation industry chain integration services.

Transformer industry	UHV field, nuclear power field, hydropower field, thermal power field, new energy field, distribution network field, dry transformer, bushing, transformer, core components
High and low voltage switch industry	GIS, Circuit breaker, isolation switch, GIL, low and medium switch complete sets of equipment (AIS and C-GIS), primary and secondary fusion column circuit breaker, ring cage, polysilicon reduction furnace, electrolytic water hydrogen power supply, medium voltage flexible interconnection equipment, low voltage power quality device, transformer supporting end control products
Capacitor and reactor industry	Complete sets of parallel, filtering, series, and test capacitor technology devices for AC/DC power systems at 1000kV and below; metalized film DC support capacitors for flexible DC transmission converter valves, SVGs, and inverters. Complete sets of smoothing, bridge arm, current limiting, series, below.
Wire and cable industry	Overhead transmission wire, high voltage, ultra high voltage cable, medium and low voltage power cable, high-end equipment cable, high-end home decoration cloth wire, cable accessories
Electric power secondary industry	Substation integrated automation and relay protection, distribution network automation, monitoring system and integrated energy management, new generation camera system, new energy booster station secondary system
System integration	Offshore wind power system integration, pre-installed, mobile substations, distributed photovoltaic power stations, charging stations, industrial and commercial energy storage power stations, intelligent household light storage systems

The Complete Engineering Solutions

ENGINEERING THE FUTURE. POWERING PROGRESS.

EPC & EPCM
Integrated engineering, procurement, construction and project management solutions for complex industrial and infrastructure projects.

ENERGY & UTILITIES
Delivering advanced solutions across power, water, wastewater and sustainable energy infrastructure.

INFRASTRUCTURE & PROJECT DEVELOPMENT
Developing critical infrastructure through strategic partnerships.

SUSTAINABILITY & CIRCULAR ECONOMY
Innovative solutions that drive resource efficiency, reduce impact and support a low-carbon future.

INDUSTRIAL & DIGITAL SOLUTIONS
Smart, reliable and technology-driven solutions tailored to your every need.

20+ YEARS OF EXPERIENCE

400+ SUCCESSFULLY COMPLETED PROJECTS+

COMMITTED TO SAFETY, QUALITY & SUSTAINABILITY IN EVERYTHING WE DO.

Nirmal®
INDUSTRIAL CONTROLS PVT. LTD.

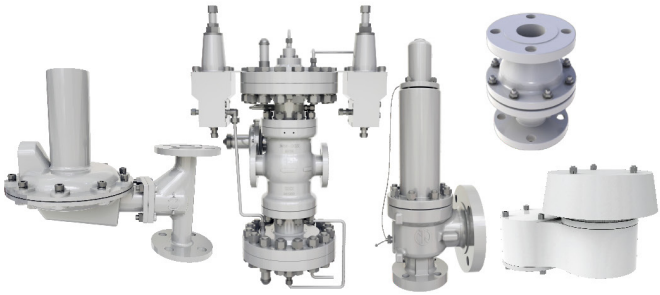

PRECISION ENGINEERED TRUSTED WORLDWIDE.

Advanced Pressure Control & Safety Solutions

With over five decades of experience, Nirmal Industrial Controls delivers reliable and high-performance solutions for pressure control, process safety and flow management across critical industries.

Our Products Include:

- Pressure Regulators
- Safety Relief Valves
- Tank Protection Devices:
  -Pressure Vacuum Relief Valve
  -Flame Arrester
- Gas Conditioning Skids
- Custody Transfer Metering System
- Pressure Regulating & Metering Skids
- GDU/Gas Processing Plants

Serving customers across **50+ countries**. Nirmal combines engineering expertise, quality manufacturing and continuous innovation to deliver dependable solutions for a safer and more sustainable future.

50+ Years of Precision & Trust

maetel
ENERGY SOLUTIONS

MAETEL is an international EPC contractor with more than 25 years of experience delivering engineering, procurement, construction and operation & maintenance services for energy infrastructure projects worldwide.

25+
YEARS OF EXPERIENCE

GLOBAL PRESENCE

TURNKEY EPC SOLUTIONS

Electrical Infrastructure

Engineering, construction, commissioning and maintenance of substations, synchronous condensers, and MV & HV lines.

Renewable Energy

EPC and O&M for solar, battery storage, wind and biomass, with 1.7+ GW of large-scale PV installed worldwide.

Industrial Solutions & Maintenance

Integrated solutions for electrical, mechanical, HVAC, fire protection and fluid systems.

GLOBAL REACH.
LOCAL COMMITMENT.

International expertise, delivering projects across Europe, the Middle East, Asia-Pacific and the Americas.

CLEAN ENERGY
CLEAN WATER

Engineering Sustainability.
Enabling Progress.

At WETEX 2026, Thermax will showcase its comprehensive portfolio of sustainable technologies, with a special focus on advanced water and wastewater treatment, desalination, and water reuse solutions.
Our offerings enable industries and municipalities to optimise water use, convert seawater into a reliable freshwater resource through desalination, recycle and reuse wastewater, achieve zero liquid discharge (ZLD), and comply with increasingly stringent environmental regulations. By combining innovation with engineering excellence, we help customers address water scarcity, conserve precious water resources, and improve operational efficiency. In addition, visitors can explore our energy-efficient heating and cooling solutions, renewable energy technologies, waste heat recovery systems, and emissions control solutions that support industries on their journey towards net zero.

Making electric power safer, more reliable, and more economical

Schweitzer Engineering Laboratories (SEL) serves electric power utilities and industrial companies worldwide through the design, manufacture, supply, and support of advanced technologies that help power to flow safely and efficiently from the generation source to transmission and distribution. By engaging in constant, two-way communication with our customers, we create practical solutions for a broad scope of industries and applications.

SEL is globally recognized for the quality of its protective relays, automation controllers, digital secondary system solutions, recloser controls, and more. We test our products thoroughly and verify that they will perform for decades under demanding and harsh conditions, and our processes exceed the ISO 9001:2015 Quality Management Systems Standard.

We create lasting partnerships with our customers by developing solutions that fit their needs, because when we're a good partner to our customers, they're able to be a good partner to theirs. Together, we improve the safety and quality of life for communities around the globe.

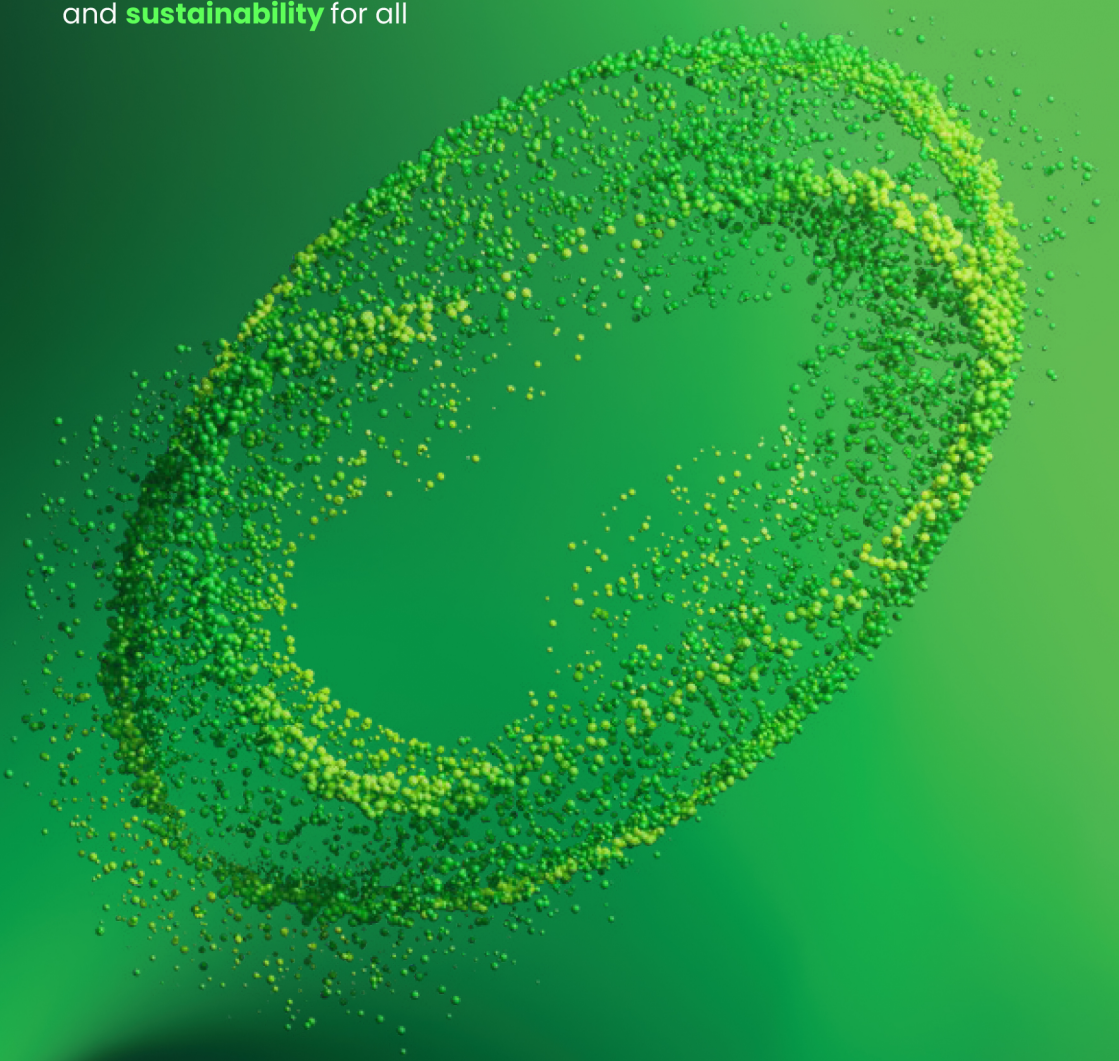

To learn more about SEL, visit **selinc.com**.

Schneider Electric

ROSATOM

YOUR TRUSTED PARTNER

Proven nuclear technology — reliable power for the future

Rosatom's Floating Power Unit is a unique, proven solution for supplying reliable electricity to coastal territories and islands — from inhabited areas to large-scale industrial facilities. Built on proven references and decades of nuclear expertise and operational experience, the FPU combines reliable low-carbon power generation with the flexibility to support a wide range of applications

One solution — multiple applications

The FPU can be integrated with any process module installed onshore or offshore, including:

- water desalination
- data centers
- LNG production
- hydrogen production
- gas & chemical production

Powering long-term growth

Floating Power Unit – a reliable source of low-carbon energy for sustainable development and long-term economic growth worldwide

Why FPU?

- Technology based on experience in nuclear technology and long-term operation of nuclear power facilities
- Designed for safe operation and resistance to external influences
- Uninterrupted electricity supply with predictable generation costs
- Delivered as a ready-to-operate power solution
- Reduces dependence on coal, diesel and natural gas
- A reliable source of energy to meet rapidly growing electricity demand
- Minimal greenhouse gas emissions reduce impact on local environment
- No nuclear fuel handling on board or at the operating site — all fuel-handling activities are carried out at a specialized facility in the Russian Federation

TORISHIMA Service Solutions

Torishima Service Solutions, the service division of Torishima Pump Manufacturing Co. Ltd (founded in 1919 in Osaka, Japan), operates in the Middle East through four key entities; Dubai, Abu Dhabi, Qatar and Saudi Arabia. From these regional hubs, we deliver specialised engineering services for pumps, rotating machinery, and oil field equipment. Our solutions are designed to enhance equipment performance, extend service life, reduce maintenance costs, and improve energy efficiency across industries in the Middle East.

↗ Overhauls, Site & Workshop Services

Comprehensive pump overhauls and on-site support to restore performance, extend equipment life, and minimise downtime.

↗ Re-engineered Design & Performance Upgrades

From customised system upgrades to high-performance pump replacements, we deliver solutions that improve efficiency, durability, and energy use.

↗ Vibration Analysis & Condition Monitoring

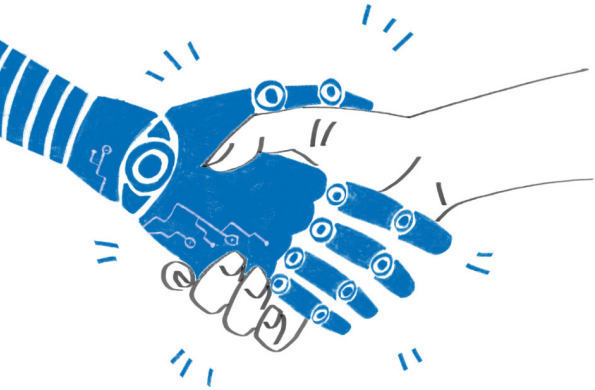

Early detection of wear or failure ensures safe, efficient, and reliable pump operation while reducing the risk of costly breakdowns.

↗ Mechanical Seals & Component Repairs

Precision engineered components and seal repair and replacement to prevent leakage, reduce wear, and support long-term pump efficiency.

We're not just a middle step. We're the engine that powers it forward.

64	Al Fanar Training Institute	KINGDOM OF SAUDI ARABIA	PRSP2	
65	Al Fanar Global Development	KINGDOM OF SAUDI ARABIA	PRSP2	Global Arm Of Alfanar Projects
66	Al Fanar International Holding Company Ltd.	UNITED ARAB EMIRATES	PRSP2	Parent Corporate Entity

67	Al Fanar Power Limited	UNITED KINGDOM	PRSP2	Typically Handles Alfanar'S International Green Energy Projects, Like Those In The Uk
68	Al Fanar Power Investments S.L	SPAIN	PRSP2	Alfanar'S European Renewable Energy Investment Arm
69	Sirrocco Winco 1 S.L	SPAIN	PRSP2	Wind Energy Special Purpose Vehicle Under Alfanar'S European Green Energy Portfolio
70	Sirrocco Power S.L.	SPAIN	PRSP2	Wind Energy Asset Entity Under Alfanar'S European Operations
71	Al Fanar Energy Ltd.	UNITED KINGDOM	PRSP2	International Clean Energy Portfolio Manager
72	Alfa Solar	EGYPT	PRSP2	Alfanar'S Specialized Solar Energy Development Arm, Famously Associated With The Benban Solar Park Project
73	Al Fanar Energy Pvt. Ltd.	INDIA	PRSP2	Alfanar'S Indian Renewable Project Arm, Which Also Oversees Assets Like Senvion India
74	Al Fanar Captive Power		PRSP2	
75	Al Fanar COMPANY	KINGDOM OF SAUDI ARABIA	TSP4	Established In 1976 And Headquartered In Riyadh, It Is A Massive Conglomerate Operating Globally In Electrical Manufacturing, Engineering, Procurement, Construction (Epc), And Renewable Energy Development.
76	Al Fanar Electrical System	UNITED ARAB EMIRATES	TSP4	The Localized Uae Industrial Division Of Alfanar. Operating Out Of Dubai (Dubai Investments Park/Jebel Ali), It Manufactures, Sells, And Distributes Low-Voltage Switchgears (Lvsg), Circuit Panels, And Ring Main Units Tailored For The Emirates Market.
77	Al Fanar ZIV	SPAIN	TSP4	Global Pioneer In Smart Grid Solutions. It Designs And Manufactures Digital Systems For Substation Automation, Grid Telecommunications, Metering, And Distribution Protection. Part Of The Alfanar Group.
78	Al Fanar SFA	REPUBLIC OF TURKIYE	TSP4	Manufactures Medium-Voltage Switchgears, Gas-Insulated Systems, Compact Transformer Substations, And Cable Accessories. It Is Partnered With And Integrated Under Alfanar.
79	Al Fanar Kopp	GERMANY	TSP4	Premier European Manufacturer Of Electrical Installation Materials, Timeless Light Switch Ranges, Dimmers, Socket Outlines, And Mobile Smart-Home Automation Units. Acquired By Alfanar In 2016.
80	Al Fanar EA	ITALY	TSP4	Founded In Italy In 1962, This Engineering Company Produces Medium-Voltage Systems, Eco-Friendly Sf6-Free Switchgears, And Disconnectors For Major Utilities And Offshore Platforms. It Joined The Alfanar Group In 2016
81	Engineering center	INDIA	TSP4	Located In Chennai, Tamil Nadu, This Serves As Alfanar'S Global Design, Engineering, And R&D Hub. It Provides Tech Support, Technical Product Modeling, And Engineering Proposals Across The Group'S Global Sectors
82	Al Ghandi Electrical and Automation LLC	UNITED ARAB EMIRATES	6-D5	Automation, Electrical Metering, Switchgear
83	Al Ghandhi Switchgears Industry	UNITED ARAB EMIRATES	6-D5	A Prominent Low-Voltage Switchgear Manufacturer That Specializes In The Design, Testing, And Production Of Power Control Center (Pcc) And Motor Control Center (Mcc) Panels
84	Saeed Mohammed Al Ghandi	UNITED ARAB EMIRATES	6-D5	Operates As A Leading Distributor Specializing In World-Renowned Heavy Industrial Machinery, Commercial Vehicles, Marine Equipment, And Power Generators
85	AGEA Shop	UNITED ARAB EMIRATES	6-D5	The Official Industrial B2B E-Commerce Platform Launched By Al Ghandi Electrical & Automation. It Provides 24/7 Ordering And Automated Procurement For Power Distribution And Automation Products
86	RITTAL	UNITED ARAB EMIRATES	6-D5	A Globally Leading Manufacturer Of Modular Industrial Enclosures, Control Cabinets, Power Distribution Components, And Highly Specialized It Infrastructure Cooling Systems
87	Rockwell Automation	UNITED ARAB EMIRATES	6-D5	A Massive Global Provider Of Industrial Automation And Digital Transformation Solutions, Famously Featuring The Allen-Bradley And Factorytalk Product Ecosystems
88	EATON	UNITED ARAB EMIRATES	6-D5	A Global Power Management Giant Specializing In Energy-Efficient Electrical Distribution, Circuit Protection, And Backup Power Infrastructure
89	HENSEL	GERMANY	6-D5	A Premier Manufacturer Specializing In High-Quality Power Distribution And Junction Box Systems Designed To Withstand Harsh, Dust-Heavy, And Humid Industrial Environments

90	SECURE	INDIA	6-D5	A Multi-National Smart Energy Brand That Created India'S First Commercially Viable Electronic Energy Meter, Specializing Heavily In Smart Revenue Metering And Flow Control.
91	Landis+Gyr - Manage Energy Better	SWITZERLAND	6-D5	A Leading Multinational Provider Of Integrated Energy Management Solutions, Recognized Worldwide For Its Advanced Smart Metering Infrastructure
92	SOCOMEC - Innocative Power Solutions	FRANCE	6-D5	An Independent Specialist Manufacturing Enterprise Focusing On The Availability, Control, Safety, And Performance Of Low-Voltage Electrical Networks
93	Weidmuller	GERMANY	6-D5	A Globally Recognized Engineering Company Specializing In Industrial Connectivity, Terminal Blocks, Electronics, And Smart Automation Transmission Technologies
94	HMS	SWEDEN	6-D5	A Major Global Pioneer In Industrial Information And Communication Technology, Specializing In Connecting Automation Equipment Via Anybus, Ewon, And Ixxat Networks
95	TERASAKI - Innovatiors in Protection Technology	JAPAN	6-D5	A World-Class Specialist In Circuit Breakers, Manufacturing Highly Reliable Marine And Industrial Power Distribution Systems
96	ELEKTRA - TAILFINDEN - SCHALTGERATE	GERMANY	6-D5	A Historic Manufacturer Specializing In Electrical Energy Distribution, Heavy-Duty Industrial Switches, Cam Switches, Motor Protection, And Professional Testing Devices
97	L&T Electrical & Automation	INDIA	6-D5	A Massive Market Leader In Low And Medium-Voltage Switchgear Products, Power Management Systems, And Comprehensive Industrial Automation Infrastructure
98	Lovato Electric	ITALY	6-D5	A Multi-Generation Electrical Component Designer Focusing On Motor Control, Circuit Protection, Automation Relay Units, And Digital Energy Management Devices
99	ASCO Power Technologies	UNITED STATES OF AMERICA	6-D5	Industry Leader Focused Specifically On Power Reliability, Manufacturing High-End Automatic Transfer Switches (Ats) And Industrial Surge Control.
100	BELDEN	UNITED STATES OF AMERICA	6-D5	A Premier End-To-End Signal Transmission Brand Specializing In Premium-Grade Network Cables, Connectivity Products, And Industrial Networking Hardware.
101	CELSION Brandschutzsysteme GmbH	GERMANY	6-D5	A Safety-First Manufacturer Focusing On Structural Fire Protection Systems, Including Fire-Resistant Industrial Enclosures, Server Housings, And Safety Cabinets
102	BALS		6-D5	A Universally Recognized Brand Specializing In High-Quality Industrial Plugs, Sockets, And Combined Distributor Systems For Construction And Manufacturing Sites.
103	Al Ghanem Trading & Contracting LLC	UNITED ARAB EMIRATES	7-B15	Electrical Trading & Contracting
104	Al Ghanem Group	JORDAN	7-B15	This Group Operates Through Primary Divisions In Industrial Engineering, Energy, And Commercial Solutions
105	Al Ghanim Industries	KUWAIT	7-B15	The Electronic Retail Arm Of Alghanim Industries. Rebranded Largely As X-Cite By Alghanim Electronics, It Is Kuwait'S Largest Multi-Brand Electronics Retailer, Operating Extensive Physical Showrooms And A Major E-Commerce Platform Across The Region
106	Al Ghanim Electronics	KUWAIT	7-B15	Provides Full-Spectrum Property Management, Leasing, Brokerage, And Investment Services Across Residential And Commercial Properties In The Uae. (A Separate High-End Firm By The Same Name Also Acts As A Top Luxury Brokerage In Dubai
107	Al Ghanem Real Estate	UNITED ARAB EMIRATES	7-B15	
108	Al Ghanem Building Contracting	UNITED ARAB EMIRATES	7-B15	Subsidiary Company Of The Uae-Based Al Ghanem Group Focused On Civil Construction, Commercial Building, And Interior Renovations. It Handles Project Developments From Design To Build Phase.
109	Masters Crane	UNITED ARAB EMIRATES	7-B15	
110	Emirates Shipping	UNITED ARAB EMIRATES	7-B15	Fully Uae-Owned Multi-Activity Shipping And Maritime Company. It Owns And Operates A Fleet Of Oil And Chemical Tankers Exceeding 150,000 Tons Dwt Capacity And Serves As A Regional Maritime Agent.

111	Master General Trading	UNITED ARAB EMIRATES	7-B15	A Commercial Trading Arm Under The Al Ghanem Group (Uae) That Manages The Import, Export, Distribution, And Procurement Of General Commodities And Industrial Materials
112	A. Aziz Khalid Al - Ghanem Group	QATAR	7-B15	Established In 1980, This Is A Prominent Qatari Family Holding Group Active In Real Estate Development (Lifestyle Residential Communities And Hotels) And The Oil & Gas Sector. It Is Highly Integrated, Controlling 60% Of Swiss Pump Company Ag In The Middle East Alongside Various Plastics, Glass, And Automotive Subsidiaries
113	Al Manara Holding Group_Diamond Sword Trading	UNITED ARAB EMIRATES	6-F15	Furniture, Decore & Ev Chargers
114	Al Melehy Technical Services	UNITED ARAB EMIRATES	Z3-B12	Refurbishment And Repair Services
115	AARDING THERMAL ACOUSTICS BV	THE NETHERLANDS	Z3-B12	Hot And Cold Gas Path Ducts Manufacturer
116	ACCESS ALL AREA SCAFFOLDING LLC	UNITED ARAB EMIRATES	Z3-B12	Contractor For Scaffolding Works
117	AQUA CHEM INDUSTRIAL LLC	UNITED ARAB EMIRATES	Z3-B12	Supplier Of Chemicals
118	CORRTECH ENERGY LIMITED	INDIA	Z3-B12	Manufacture And Suppliers For Gas Turbine Parts
119	DONALDSON EUROPE BVBA	BELGIUM	Z3-B12	Air Intake Filer Manufacturer
120	GLOBAL TECH SERVICES INC.	UNITED STATES OF AMERICA	Z3-B12	Turbine Parts Supplier
121	GULF STREAM TECH. CO. LLC	UNITED ARAB EMIRATES	Z3-B12	Contractor For Mechanical Works
122	KLUMP & KOLLER GMBH	GERMANY	Z3-B12	Dberis Filter Manufacture
123	NEW COMPONIT SRL	ITALY	Z3-B12	Manufacturer Of Expansion Bellows
124	NOOTER/ERIKSEN SRI	ITALY	Z3-B12	Hrsg Manufacturer
125	PHILADELPHIA GEAR	UNITED STATES OF AMERICA	Z3-B12	Repair And Manufacturer Of Gears
126	SULZER TURBO SERVICES VENLO BV	THE NETHERLANDS	Z3-B12	Repair, Refurbrishment And New Parts Of Gas Turbine Parts
127	TERRA TECHNOLOGY FZE	UNITED ARAB EMIRATES	Z3-B12	Hydro Blating And Painting Works
128	Al Nubla General Contracting Company	UNITED ARAB EMIRATES	SS-E29	In early 1997 we launched our tunneling division using the state of the art micro tunneling technology and pipe jacking method.
129	ISEKI	JAPAN	SS-E29	Iseki Is One Of Japan'S Largest Manufacturers Of Agricultural And Groundcare Machinery. The Company Originally Began By Making Rice Husking And Processing Equipment, Later Pioneering Specialized Compact Tractors Designed For Rice Fields.
130	Herrenknecht	GERMANY	SS-E29	Herrenknecht Group Is The Undisputed Global Market Leader In Mechanized Tunneling Technology. Headquartered In Schwanau, Germany, The Company Manufactures Massive Tunnel Boring Machines (Tbms) With Diameters Ranging From 10 Centimeters Up To 19 Meters.
131	Al Zerwa Trading Co LLC	UNITED ARAB EMIRATES	SS-C3	Water / Waster Water Valves Supply
132	ALFOMEGA	INDIA	SS-C3	Hydraulic Tube Clamps.
133	AMS Valve	UNITED STATES OF AMERICA	SS-C3	Complete Ductile Iron/Ss/Cs Gate, Globe, Check & Y Strainers.
134	BVALVE	SPAIN	SS-C3	Bellow Seal Globe Valves Pn16/Pn25, Y-Strainer Pn16/Pn40, Prv, Steam Trap.
135	DELVAL	UNITED STATES OF AMERICA	SS-C3	Fire Safe Ball Valve & Butterfly Valve And Actuators. (Adnoc Approved)
136	Goetze	GERMANY	SS-C3	Safety Valves Screwed & Pn16 Flanged End, Pressure Reducing Valves.
137	HYDROLINE	INDIA	SS-C3	Hydraulic Filters & Accessories.
138	JANATICS	INDIA	SS-C3	Complete Range Pneumatic Products Such As Filters/Directional Valves/Fittings.
139	KISTENMACHER	GERMANY	SS-C3	Single & Dual Plate Check Valve, Lug Type & Wafer Type Butterfly Valve U-Pvc Butterfly Valve & Single Plate Check Valve.
140	KSB Valve	GERMANY	SS-C3	Cs Ball Valve, Di Butterfly Valve, Bellow Seal Valves, Knife Gate Valves, Diaphragm Valves
141	Marine JIS Standard Flange – CL300.		SS-C3	Cs A105 Slip On Flange, Standard Jis5K, Jis10K, Jis16K, Pn10, Pn16 & Ansi Cl150,
142	Marine JIS Standard Valve –		SS-C3	Bronze, Ci & Cs Gate, Globe, Sdnr Globe, Angle & Storm Valve.
143	Neumira	SPAIN	SS-C3	Ss Slip On Flange Cl150, Pn16, Jis5K, Jis10K.
144	O-LIVER	UNITED KINGDOM	SS-C3	Complete Ss316 Ball Valve, Check Valve, Needle Valve & Manifold Valves Etc. (Adnoc Approved)
145	Rubinetterie Bresciane/Bugatti	ITALY	SS-C3	Brass Ball, Check, Foot, Y-Strainer, Gate, Valve.
146	Susin I-TORK	SOUTH KOREA	SS-C3	Actuators, Limit Switch. (Adnoc Approved)
147	SVS	SINGAPORE	SS-C3	Ball, Gate, Globe, Check, Butterfly Valves & Y Strainers.
148	VALTEC	TAIWAN R.O.C	SS-C3	Complete Ss Gate, Globe, Check & Y Strainers Npt Thread End 600Psi.
149	Algatec	GERMANY	7-D18	Energy, Solar, Battery, Innovation

150	VARTA	GERMANY	7-D18	It Is A Prominent Technology Leader Specializing In Manufacturing Advanced Energy Storage Systems, Micro-Batteries, Consumer Batteries, And Automotive Battery Solutions.
151	LG	SOUTH KOREA	7-D18	A Massive Global Conglomerate; Its Specialized Energy Division, Lg Energy Solution, Is One Of The World'S Largest Electric Vehicle (Ev) Battery And Residential/Commercial Energy Storage System Manufacturers.
152	BYD	CHINA	7-D18	A Global Powerhouse In Clean Energy And Transportation, Headquartered In Shenzhen. Byd Is Highly Recognized As A Dominant Manufacturer Of Electric Vehicles, Advanced Lithium Iron Phosphate (Lfp) Batteries, And Solar Pv Modules
153	FRONIUS	AUSTRIA	7-D18	Headquartered In Upper Austria, Fronius Is A Highly Reputable Manufacturer Focusing On High-Quality Solar Inverters, Complex Welding Technology Systems, And Battery-Charging Applications.
154	SMA	GERMANY	7-D18	Formally Known As Sma Solar Technology, It Is An International Market Leader In Photovoltaic (Pv) Systems Technology. Sma Develops And Manufactures Highly Efficient Solar Inverters And Energy Management Systems For Residential, Commercial, And Utility-Scale Grids.
155	KOSTAL	GERMANY	7-D18	A Prominent German Engineering Company With Over A 100-Year Tradition. Its Branch, Kostal Solar Electric, Manufactures High-Precision Solar Inverters, Smart Energy Meters, And Ev Wallboxes Built On Strict Safety And High-Efficiency Standards.
156	QCELLS	GERMANY	7-D18	Originally Founded In Germany As A Solar Pioneer, Qcells Is A Major Manufacturer Of High-Performance Solar Cells And Modules. While It Is Now Owned By The South Korean Hanwha Group, Its Technology And Engineering Headquarters Remain Heavily Rooted In Its German Origin.
157	AUSTRIA Email	AUSTRIA	7-D18	With A History Dating Back To 1855, It Is The Market Leader For Water Heaters In Austria And One Of The Oldest Companies In The Country. It Specializes In Energy-Efficient Heating, Domestic Heat Pumps, And Advanced Buffer Storage Tanks.
158	Solar - Log	GERMANY	7-D18	Originally Founded As Solare Datensysteme, This Company Is A Pioneer In Manufacturer-Independent Pv Plant Monitoring. It Produces Smart Data Loggers, Feed-In Management Hardware, And Energy Software Compatible With Thousands Of Components Worldwide
159	Allamaan Trading LLC	UNITED ARAB EMIRATES	7-A20	
160	D.r. Coats Ink & Resins Pvt. Ltd.	INDIA	7-A20	Enterprise Manufactures Synthetic Resins, Bio-Based Polymers, And Hardeners. Its Chemical Solutions Enhance Durability, Flexibility, And Chemical Resistance For Industrial Paint, Surface Coating, Construction Chemical, Printing Ink, And Automotive Adhesive Industries Across 6 Continents
161	STEVIN Rock	UNITED ARAB EMIRATES	7-A20	Headquartered And Operating In The Emirate Of Ras Al Khaimah, It Is One Of The Largest Quarrying And Mining Companies In The World.
162	JINDUN	CHINA	7-A20	Industrial Brand Specializes In High-Pressure Engineering And Manufacturing. It Is Globally Recognized For Producing Seamless Steel Gas/Oxygen Cylinders, Fire-Fighting Equipment, And Mechanical Valves
163	PLASTIBLENDS - Merging Ideas	INDIA	7-A20	Ndia'S Largest Manufacturer And Exporter Of Thermoplastic Compounds And Masterbatches.
164	KABRA Extrusion Technik	INDIA	7-A20	India'S Premier Manufacturer And Exporter Of Plastic Extrusion Machinery
165	VICO Plastic VIETNAM Co. Ltd.	VIETNAM	7-A20	Pioneering Manufacturer Of Plastic Additives And Masterbatches In The Asean Region
166	NOBEL - Seeing is Believing	INDIA	7-A20	A Recognized Regional Consumer Electronics Brand Operated Under Nobel Pakistan, Specializing In The Assembly And Sale Of Smart And Qled Led Tvs.
167	GLOBAL Smart LRD TV	PAKISTAN / CHINA	7-A20	A Prominent Budget-Friendly Consumer Electronics Brand Focusing On Entry-To-Mid-Tier Android-Enabled Smart Televisions
168	JORDAN Minerals EST	JORDAN	7-A20	The Firm Specializes In The Manufacturing Of Natural And Treated Ground Calcium Carbonate (Gcc), Acting As A Major Supplier For Plastic, Paint, And Industrial Applications Globally

169	DOGUIDE Group	CHINA	7-A20	One Of The Largest Titanium Dioxide (\(Tio_{2}\)) Production Bases In Asia.
170	Transfar	CHINA	7-A20	Global Specialty And Functional Chemical Manufacturer Headquartered In Hangzhou.
171	Finster Carbon	INDIA	7-A20	Finster Carbon Private Limited, It Is A Fast-Growing Carbon Black Producer And Exporter Based Out Of Mumbai With A Production Plant In Maharashtra.
172	HAIWAN		7-A20	
173	OQ	SULTANATE OF OMAN	7-A20	Global Integrated Energy And Petrochemical Corporation Wholly Owned By The Government Of Oman.
174	LONGHUA	CHINA	7-A20	This National High-Tech Enterprise Specializes In The R&D And Extrusion Of Polycarbonate (Pc) And Polymethylmethacrylate (Pmma) Optical-Grade Functional Films
175	SINTOCHEM	ITALY	7-A20	Italian Polyurethane Resin Manufacturer Founded In 1985. It Holds A Market Leadership Position In The Formulation Of Non-Reactive, Highly Flexible Polyurethane Resins (Branded As Sintopol) Designed Specifically For Liquid Gravure And Flexographic Packaging Inks
176	JAYSYNTH	INDIA	7-A20	Established Specialty Chemical Conglomerate In Mumbai That Has Spent Decades Producing Organic Pigments, Rheological Additives, And Textile Dyestuffs
177	ALPS Middle East Technical Works LLC	UNITED ARAB EMIRATES	SS-L27	Alps Middle East Technical Works LLC ensure superior project delivery by engaging stakeholders to take ownership and building sustainable enterprises
178	Alserkal Group L.L.C	UNITED ARAB EMIRATES	2-A12	Environmental Waste Management
179	Envirol	UNITED ARAB EMIRATES	2-A12	Fog Waste Treatment Facility
180	Blue L.L.C	UNITED ARAB EMIRATES	2-A12	Grease Trap, Kitchen, Water Tank And Duct Cleaning Services
181	Blue Biofuel Factory	UNITED ARAB EMIRATES	2-A12	Uco To Biofuel Industrial Facility
182	Mega lab	UNITED ARAB EMIRATES	2-A12	Drain Line Care Chemical Manufacturing
183	Core Green Food stuff	UNITED ARAB EMIRATES	2-A12	Uco Collection And Transportation Services
184	United Trans	UNITED ARAB EMIRATES	2-A12	Transport Industry
185	Alserkal Properties	UNITED ARAB EMIRATES	2-A12	Properties Management
186	Alton Automation GmbH_Contrologix Automation Trading Co. LLC	UNITED ARAB EMIRATES	SS-H27	Dynamic Pressure Management And Water Networks Digitalization
187	Altrad Services Middle East	UNITED ARAB EMIRATES	2-B12	Plant Maintenance, Ltmas & Ltsas, Epc Projects, Asset/Plant Integrity Management Services, Spir Etc
188	Altrad Babcock General Contracting & Maint. Services LLC	UNITED ARAB EMIRATES	2-B12	The Localized United Arab Emirates (Uae) Arm Of Altrad Babcock. It Delivers Specialized Mechanical Contracting, Asset Maintenance, Upgrades, And Engineering, Procurement, And Construction (Epc) Services Across The Regional Oil, Gas, Nuclear, And Thermal Power Sectors
189	Doosan Babcock	UNITED KINGDOM	2-B12	It Is A Global Specialist In Life-Extension, Aftermarket Upgrade Services, And Low-Carbon Engineering Technologies For Critical Infrastructure
190	RMD Quickform	UNITED KINGDOM	2-B12	It Is A Globally Recognized Provider Of Heavy-Duty Formwork, Temporary Shoring, Falsework, And Ground-Shoring Equipment Used In Complex Civil Engineering And Construction. It Was Acquired By Altrad Group In 2021
191	Altrad Sparrows	UNITED KINGDOM	2-B12	Sparrows Is A Premier Global Provider Of Specialist Engineering, Inspection, And Operations/Maintenance Services For Offshore Lifting, Crane Handling Systems, And Wind Turbine Blade Integrity. Altrad Acquired The Group In 2022
192	HERTEL OTC SULTANATE OF OMAN LLC	SULTANATE OF OMAN	2-B12	The Omani Corporate Subsidiary Of Hertel. It Delivers Mechanical Services, Engineering Access Solutions (Scaffolding), Insulation, And Blasting/Painting To Localized Downstream Refineries And Gas Extraction Utilities
193	CAPE	UNITED KINGDOM	2-B12	A Historic British Industrial Services Brand Specializing In Critical Access Solutions (Scaffolding), Insulation, And Fireproofing For Massive Downstream Energy And Infrastructure Assets
194	Ropetec International	SOUTH AFRICA	2-B12	Formed In 1991 To Provide Specialized Industrial Rope Access, Heavy Rigging, And Fabric Maintenance Services To The Oil And Gas Sector.

195	AMB - Hertel LLC	UNITED ARAB EMIRATES	2-B12	A Specialized Joint Venture Based In Abu Dhabi Between Hertel Middle East And Al Masaood Bergum. It Functions As A Primary Contractor For Cryogenic Insulation, Refractory Linings, Passive Fireproofing, And Scaffolding For The Local Offshore And Marine Energy Ecosystems
196	Prezioso Emdad	UNITED ARAB EMIRATES / FRANCE	2-B12	The Entity Provides Corrosion Protection, Specialized Marine/Splash-Zone Insulation, Rope Access, And Passive Fire Protection To The Middle Eastern Oil And Gas Sectors
197	Altrad Coffrage ET Eraiement	FRANCE	2-B12	Jalmat, This French Domestic Subsidiary Specializes In The Engineering, Rental, And Sales Of Vertical/Horizontal Construction Formwork, Scaffolding Towers, And Shoring Equipment For Building And Civil Engineering Projects Across France
198	HERTEL MSL	QATAR	2-B12	The Qatari Operational Subsidiary Of Hertel, Operating Out Of Doha And Al Khor. It Provides Access Equipment, Industrial Surface Preparation, And Anti-Corrosion Coating Services To Critical Local Gas Assets (Such As Qatarenergy And Shell Facilities)
199	Alucor	UNITED ARAB EMIRATES	GSP5	Power And Water Projects
200	Alucor Fabrication Facility	UNITED ARAB EMIRATES	GSP5	
201	Alucor Construction LLC	UNITED ARAB EMIRATES	GSP5	
202	AmerAir	UNITED ARAB EMIRATES	1-F24	Odor Control System Manufactrer
203	ANECO Middle East	UNITED ARAB EMIRATES	1-B26	Liquids Filtering Or Purifying Machinery And Apparatus Manufacturing
204	Anglo Gulf FZE	UNITED ARAB EMIRATES	6-E20	Water Treatment, Oil Field & Agro Chemicals Manufacturer
205	Aqua AG-110/120/125/130	UNITED ARAB EMIRATES	6-E20	One Of The Largest Water Treatment Chemicals Manufacturing Company In The Region. Leading Chemical Specialists In Properly Predicting, Diagnosing, Circumventing, And Solving The Unique Chemistry Issues Faced In Today'S Complex Water Treatment Markets.
206	DELTAMIGHT 2.5 EC DRONE 2.5 EC DELTAMIGHT 1% ULV - Deltamethrin 25 EC	UNITED ARAB EMIRATES	6-E20	Broad-Spectrum Pyrethroid Insecticide For Use On Cotton, Vegetables, Cereals, Top Fruit And Legumes.
207	ASTERIX 240 SC - Spiromesifen 240 G/L SC	UNITED ARAB EMIRATES	6-E20	It Is A Translaminar Insecticide With Excellent Efficacy, Providing Residual Control Against A Range Of Sucking Insect Pests Including Mites, Whiteflies And Psyllids.
208	TELUB 150 SC - Teflubenzuron 150 G/L SC	UNITED ARAB EMIRATES	6-E20	It Is Used To Control A Range Of Pests Including Whiteflies, Caterpillars, Codling Moth, Leafminers, Thrips, Pear Psylla, Beetles Mainly On Apples; Pears; Greenhouse Crops Including Tomatoes, Aubergine, Cucumber, Melon, Pepper. Also Used To Control Sea Lice In Fisheries
209	METHOXYMIGHT 240 SC - Methoxyfenozide 240 SC	UNITED ARAB EMIRATES / INDIA	6-E20	Insecticide For The Control Of Sucking Pests – Including Silverleaf Whitefly And Various Aphid, Scale And Thrips Pests – In A Range Of Vegetable Crops, Citrus, Stone Fruit, Mangoes, Grapes, Apples And Cotton
210	TEBUMIGHT 200 EC - Tebufenpyrad 200 EC	UNITED ARAB EMIRATES / INDIA	6-E20	Tebufenpyrad Is An Insecticide And Acaricide Widely Used For Effective Long-Lasting Control Of Spider And Rust Mites Species On A Large Number Of Crops Including Citrus, Pome Fruit, Berries And Grapevine, Vegetables And Soybeans.
211	IRWIN 150 EC - Indoxacarb 150 EC	UNITED ARAB EMIRATES	6-E20	Irwin 150Ec Is A Non-Systemic Insecticide. It Is Used To Control Sucking Insects Like Bollworm, Pink Bollworms, Spotted Bollworms, Cutworms, Including Heliothis, Lacanobia, Fruit Worm, White Apple Leafhopper, Codling Moth, Pandemics Leaf Roller Etc In Cotto, Apple Tree Etc.
212	RELAX 480 SC - Diflubenzuron 480 G/L SC	UNITED ARAB EMIRATES	6-E20	Insect Growth Regulator Which Is Effective On A Wide Variety Of Insect Pests, Predominately From The Families Lepidoptera And Diptera, Used To Protect Many Agricultural Crops Like Cereals Crops, Bean Crops, Vegetables, Fruit Trees, Ornamentals And Other
213	MINRO 756 OE - Mineral Oil 756 Oil Emulsion	UNITED ARAB EMIRATES	6-E20	Non-Hazardous Product To Kill Insects In Crops By Blocking Their Breathing Activities
214	SPINOX 480 SC - Spinosade 480 SC	UNITED ARAB EMIRATES	6-E20	Spinosad Is A Novel Insecticide, Controls Coddling Moths Caterpillars, Asparagus Beetles, Thrips, Leaf Miners, Colorado Potato Beetle, Listed Borers And Other Listed Pests. On Lawns And Ornamentals.
215	ACTION 240 SC - Bifenazate 240 SC	UNITED ARAB EMIRATES	6-E20	Bifenazate Is A Selective Acaricide For The Control Of Mite Pests On Greenhouse, Nursery And Field Grown Ornamentals, Strawberries And The Listed Fruiting Vegetable Crops. It Controls All Mobile Stages Of Mites And Additionally Has Some Ovicidal Activity Against Spider Mites.

216	Aqua Middle East FZC	UNITED ARAB EMIRATES	5-C23	Aqua Middle East Fzc Is Subsidiary Of To Aqua Industrial S.P.A Group Which Has Been In The Industry Since 1974. Our Equipment Distinguishes By Reliability, Innovation And Environment Responsibility. Always Respecting International Standards Aqua Puts The Attention In Customer Needs In A European And International Market
217	AQUA INDUSTRiaL GROUP	ITALY	5-C23	Founded In 1974 And Headquartered In San Martino In Rio (Reggio Emilia), Aqua Industrial Group Specializes In Water Treatment Solutions, Dosing Pumps, Filtration Systems, Pool Accessories, And Fluid Management Products
218	GERMAC ITALIANA	ITALY	5-C23	A Specialized Brand And Product Line Under The Aqua Industrial Group Umbrella. Germac Designs And Builds Peristaltic Dosing Pumps And Liquid Management Systems For Commercial Dishwashers, Glasswashers, And Professional Cleaning Applications
219	Aqua Active Building	ITALY	5-C23	A Division Of The Aqua Industrial Group Focused On Integrated Systems And Consultancy For Sports And Aquatic Facilities, Including Gymnasiums, Public Swimming Pools, Water Parks, And Athletic Centers
220	Aquaspecial	ITALY	5-C23	The Wellness And Spa Engineering Division Of Aqua Industrial Group, Established In 1998. It Designs, Builds, And Customizes Luxury Wellness Centers, Saunas, Thermal Baths, And Specialized Swimming Pools In Partnership With Architectural Studios
221	Hi Green	ITALY	5-C23	Within The Aqua / Aqua Active Building Ecosystem, Hi-Green Refers To Eco-Sustainable And High-Efficiency Technical Solutions Designed For Sports Facilities And Pool Architecture
222	Aquaflow Technologies	UNITED STATES OF AMERICA	SS-N27	At Aquaflow, We Are More Than A Technology Provider; We Are Engineers Of Change. Backed By Over 15 Years Of Research, Development, And Multi-Generational Patent Innovation, The Aquaflow Valve Is The Culmination Of A Relentless Pursuit To Solve One Of The World'S Most Urgent Challenges: Water Inefficiency

241	Arabian Coast Contracting LLC	UNITED ARAB EMIRATES	AR-J29	A Leading Infrastructure, Civil Engineering, And General Construction Contractor. The Company Specializes In Advanced Earthworks, Road/Highway Development, Deep Utilities, Water/Wastewater Transmission Networks, Trenchless Technologies, And Major Telecom Infrastructure.
242	Pacific Coast Technical Services LLC	UNITED ARAB EMIRATES	AR-J29	Operates As Part Of The Broader Arabian Coast Group. It Mainly Focuses On Structural And Civil Maintenance, Including Specialized Waterproofing, The Manufacturing/Installation Of Precast Manholes, And Electro-Mechanical Works.
243	Arabian Coast Land Transport LLC	UNITED ARAB EMIRATES	AR-J29	A Dedicated Logistics And Heavy Transportation Division Of The Arabian Coast Group. It Handles Large-Scale Heavy Land Transport, Earth Moving, And The Logistics Distribution Of Construction Materials And Heavy Equipment Required For Major Infrastructure Projects
244	ARCC Technical Services LLC	UNITED ARAB EMIRATES	AR-J29	A Technical Division Associated With The Arabian Coast Group That Provides Contracting, Building Finishing, And General Electromechanical Maintenance Services.
245	DEWATERING	UNITED ARAB EMIRATES	AR-J29	Specialized Turnkey Dewatering Arm Of Arabian Coast Uae. It Ranks As A Prominent Groundwater Management Provider In The Middle East, Handling Surface Water Drainage, Deep-Well Shoring, And Timeline-Based Engineering Designs For Complex Subsurface Construction Projects
246	ARABIAN Pearl Rental LLC	UNITED ARAB EMIRATES	AR-J29	An Asset Management And Leasing Division Of The Arabian Coast Group. It Operates Both A Commercial Vehicle Rental Agency (Providing Daily, Weekly, And Monthly Passenger Car Rentals) And A Heavy Machinery Leasing Unit For Construction And Highway Equipment
247	Venture Middle East Technical Services LLC	UNITED ARAB EMIRATES	AR-J29	A Technical Engineering Company Specializing In Wet Infrastructure And Precision Civil Works. Their Core Capabilities Include Hdpe And Grp Pipe Laying And Welding (Butt Fusion And Electrofusion), Fire Hydrant Network Installation, Foamed/Screed Concrete Works, And Concrete Core Cutting.
248	Arar Infra Contracting Co.L.L.C	UNITED ARAB EMIRATES	AR-K8	Underground Utility Works And Pavement & Other Civil Works
249	Arar Utility Co. LLC	UNITED ARAB EMIRATES	SSP4	An Engineering, Procurement, And Construction (Epc) Contractor Specializing In Electrical Power Infrastructure, High-Voltage/Extra-High-Voltage (Hv/Ehv) Installations, Substation Construction, Underground Cabling, And Street Lighting. It Is Approved By Dewa And The Rta
250	ARAR INFRA CONTRACTING CO LLC	UNITED ARAB EMIRATES	SSP10	An Infrastructure And Civil Engineering Contracting Company Founded In 2011. It Focuses On Wet Utility Works (Water, Sewerage, Drainage, Fire-Fighting) As Well As Roads, Pavements, And Structural Construction Projects
251	Arar Utility & Trading LLC	UNITED ARAB EMIRATES	SSP10	Operates As Part Of Dubai'S Long-Standing Trading And Commercial Sector (Established Originally As Arar Trading Llc In Deira, Dubai), Dealing In Global Food Sourcing, General Trading, And Supporting Regional Trade Operations
252	Arar Infotech FZE	UNITED ARAB EMIRATES	SSP10	A Free Zone Enterprise (Fze) Focused On Information And Communications Technology (Ict), Providing Value-Added System Integration, Cybersecurity, Structured Cabling, Ip Telephony, And Enterprise Network Solutions
253	Arar Consultancy FZE	UNITED ARAB EMIRATES	SSP10	A Free Zone Business Consultancy Providing Specialized Professional Services, Corporate Advisory, Operational Management Support, And Compliance Alignment For Businesses Operating Within The Uae And The Broader Middle East Market
254	Astral Limited	INDIA	SS-W4	Manufacturers Of Polymer Pipes And Fittings For Plumbing, Drainage
255	BondxTite Adhesives	INDIA	SS-W4	Astral'S Flagship Brand Of High-Performance Epoxy And Specialized Adhesive Solutions. It Features Fast-Setting, Durable Formulations Used To Bond Multiple Substrates Like Metal, Wood, Glass, Ceramics, And Stone
256	Resibond	INDIA	SS-W4	A Versatile Series Of Sealants, Including General-Purpose Silicone Sealants, Weatherproofing Sealants, And Hybrid Solutions Used For Glazing, Joints, And Bathroom Sealing

257	Astral CPVC pro	INDIA	SS-W4	A Premium Chlorinated Polyvinyl Chloride (Cpvc) Piping System Engineered For Both Hot And Cold Water Applications. It Can Withstand High Temperatures (Up To 93°C) And Pressure, Making It Ideal For Residential And Commercial Plumbing
258	Astral Aquarius	INDIA	SS-W4	A Lead-Free, Non-Toxic Upvc Pressure Piping System Designed Specifically For Cold-Water Distribution In Residential, Commercial, And Industrial Plumbing
259	Astral Firepro	INDIA	SS-W4	A Specialized Cpvc Piping And Fitting System Explicitly Designed For Automatic Fire Sprinkler Installations. It Is Highly Heat-Resistant, Complies With Nfpa Standards, And Is Widely Used In High-Rises And Commercial Buildings
260	Astral Aquasafe	INDIA	SS-W4	A Durable Range Of High-Quality Agricultural Pressure Pipes And Upvc Water Network Solutions Designed To Optimize Water Distribution And Irrigation Systems Safely
261	CELESTIA	INDIA	SS-W4	Astral'S Ultra-Luxurious, Flagship Bathware Collection Showcasing High-End Designer Faucets, Basins, And Showers With Premium Finishes Like Rose Gold
262	IMPERIA	INDIA	SS-W4	A Luxury, Modern Bathroom Collection Focusing On Sleek, Contemporary Designs, Notably Featuring Matte Black Aesthetics
263	PREMIA	INDIA	SS-W4	An Artsy, High-End Collection Offering A Wide Selection Of Stylized Commodes, Washbasins, And Faucets
264	GLORIA	INDIA	SS-W4	A Trendy, Functional Bathware Tier Delivering Modern Bathroom Solutions Such As One-Piece Toilets With Advanced Whirlpool Flushing Mechanisms
265	ASTRAL PAINTS - GEM	INDIA	SS-W4	A Comprehensive Decorative And Industrial Coatings Division Formed After Astral Acquired Gem Paints. It Manufactures Premium Interior/Exterior Emulsions, Primers, Enamels, And Wall Putties.
266	TRUBUILD - Construction Chemicals	INDIA	SS-W4	A Specialized Division Providing Advanced Construction Protection Systems. It Focuses Primarily On Heavy-Duty Home Waterproofing, Tile Adhesives, And Structural Grouting Solutions

290	AW Rostamani Group	UNITED ARAB EMIRATES	7-G15	Automotive, Agritech, Packaging, And Lighting Business
291	Arabian Automobiles Company	UNITED ARAB EMIRATES	7-G15	Flagship Company Of Aw Rostamani Group. With 50 Years In The Business, Aac Is One Of The Leading Automotive Dealers In The Gcc And Exclusive Distributor For Nissan, Infiniti And Renault Vehicles In Dubai And The Northern Emirates
292	AUTOTRUST	UNITED ARAB EMIRATES	7-G15	Autotrust Is A 360-Degree Solution For Multi-Brand Cars In The United Arab Emirates That Includes Repair, Service, And Sales Of Multi-Brand Used Cars.
293	AWR MOBILITY LLC	UNITED ARAB EMIRATES	7-G15	Newly Established Subsidiary Of Awr Group, One Of The Largest Privately-Owned Family Businesses In The Middle East. The Vision Of Awr Mobility Is To Become A Leading Mobility Provider In The Region, Adopting New Mobility Services While Utilizing The Latest Technological Advancements To Achieve It
294	AW Rostamani Trading	UNITED ARAB EMIRATES	7-G15	Aw Rostamani Trading Diversifies Its Automotive Services By Offering Various Leading Allied Products And Services.
295	ZEEKR	CHINA	7-G15	A Premium, Luxury Electric Vehicle (Ev) Manufacturer Owned By The Geely Holding Group. The Brand Focuses On High-Tech, Sustainable Electric Mobility With Global Design Operations Based In Sweden.
296	TOTAL Lubricants	FRANCE	7-G15	A Major Division Of Totalenergies Se, A French Multinational Energy Supermajor. It Is One Of The World'S Largest Suppliers Of Top-Tier Engine Oils, Transmission Fluids, And Industrial Lubricants
297	CEAT Tires	INDIA	7-G15	A Leading Multinational Tire Manufacturer Originally Established In Turin, Italy, But Acquired By India'S Rpg Group In 1982. It Produces High-Quality Tires For Passenger Cars, Two-Wheelers, Trucks, And Agricultural Vehicles Globally.
298	Fortron Automotive Treatments	AUSTRALIA	7-G15	An Automotive Protection Brand Founded In Perth, Western Australia. It Specializes In Premium Fuel/Engine Cleaners, Workshop Machines, Cooling System Treatments, And Vehicle Maintenance Fluids.
299	Amaron Batteries	INDIA	7-G15	A Globally Recognized Automotive Battery Brand Manufactured By Amara Raja Energy & Mobility Limited. Known For Its Signature Long-Lasting, Zero-Maintenance, And High-Cranking-Power Vehicle Batteries.
300	Xcool Window Tinting	INDIA	7-G15	A Premium Automotive And Architectural Film Brand Developed Under Xtreme Defence Security (Xds). It Specializes In High-Tech Metallized And Sputtered Solar Films That Block 99%+ Of Uv Rays And Reject Up To 60% Of Total Solar Heat
301	AWR CERTIFIED PRE OWNED	UNITED ARAB EMIRATES	7-G15	Over 1000 Pre-Owned Vehicles Including Nissan, Infiniti, And Renault, As Well As Major Brands Including Toyota, Lexus, Ford, Mitsubishi, Bmw, Mercedes, Morris Garages, Audi, Chevrolet Amongst Others
302	AWR Properties Residential	UNITED ARAB EMIRATES	7-G15	Wr Properties Manages Substantial Residential, Commercial, And Retail Assets To An Exceptionally High Standard, Alongside Acquiring Properties And Launching New Projects.
303	AWR PROPERTIES COMMERCIAL	UNITED ARAB EMIRATES	7-G15	The Group Maintains The Diversity Of Its Properties And Commercial Assets Across Dubai And The Northern Emirates To A Exceptionally High Standards

304	M Square - AWR Properties	UNITED ARAB EMIRATES	7-G15	M Square, The Latest Addition To The Awr Properties Portfolio, Comprises 327 Hotel Rooms, 131 Hotel Apartments, 10 Office Floors, Two Levels Of Retail, And 182 Apartments.
305	Frater Lighting	UNITED ARAB EMIRATES	7-G15	Frater, A Spanish Company Founded In 1988, Was Introduced To The United Arab Emirates In 1999 By Aw Rostamani Group. Its Dedicated Team Has Been Striving To Provide The Most Innovative And Sustainable Lighting Solutions Ever Since.
306	B2B Edge Consultants (India Pavilion)	INDIA	4-E8,8B, SS-U8,U9 &7-A19	International Trade Consultant And Business Match Making (B2B / B2G) Service Provider. Www.B2Bedgeconsultants.Com

422	Hebei Boxin Automation Equipment Co., Ltd.	CHINA	3F22	Flat Sheet Membrane Coating(Fsmc) + Ro Membrane Winding(Rowm) + Seawater Desalination(Swro) System
423	HEBEI KETAI INSTRUMENT CO.,LTD.	CHINA	3H4	Instrument And Meter Industry
424	Hebei LanXin Metal Products Co. Ltd.	CHINA	3E17	Stainless Steel Wire Mesh,Knitted Mesh,Demister Pads
425	HENAN DAZHANG FILTER EQUIPMENT CO., LTD.	CHINA	3G21	Filtration Technology Service Provider(Filter Press Manufacturer With 22 Years Experience), We Are Experts In Solid-Liquid Separation And Offer Complete Turnkey Solutions.
426	Henan Hangrui Environmental Protection Technology Co., Ltd.	CHINA	3D7	Flocculant
427	Henan Jeefy Industrial Co., Ltd	CHINA	3H5	Reverse Osmosis Water Purifier Manufacturer
428	Henan Wanbang EP Tech Co., Ltd	CHINA	3E23	Water Quality Testers
429	HENAN XINMAISEN AUTOMATION TECHNOLOGY CO.,LTD	CHINA	3D17	Water Purifier Filter Cartridge Machine,Pp Filter Machine,Pp Spun Filter Cartridge Machine,Yarn Filter Filter Cartridge
430	HUN SEN PUMP TECHNOLOGY(HANGZHOU)CO.,LTD	CHINA	3G4	Pumps And Pumpsystem Supply
431	Hunan Boromond EPT Co., Ltd.	CHINA	3F18	Boron Doped Diamond (Bdd) Electrode Materials, Industrial Wastewater Treatment System, Bdd Electrodes, Trial Module , Portable Test Kit , Pilot Equipment ,Engineering Solutions Advanced Aop + Eo Technology With High- Performance Bdd Electrodes For Rapid And Effective Removal Of Refractory Organic Pollutants
432	Jiangsu Hengwei Environment Protection Equipment Co., Ltd.	CHINA	3E2	Specialized Water Treatment Equipment
433	Jiangsu Taiyuan Environmental Science and Technology Co., Ltd.	CHINA	3F3	Building Water Facilities Like Stackingblocks,Timp Modular Prefabricated Water & Wastewater Treatment Facilities
434	JIANGYIN RUNYANG ELECTRONIC APPLIANCES CO.,LTD	CHINA	3F4	Ro Sysytem And Related Sapre Parts, Transformer, Pumps And All Filter Cartridges Etc
435	JINBO Valve Group	CHINA	3F17	Valve
436	Kunshan Buller Fluid Technology Co., Ltd	CHINA	3D8	Water Pump
437	LIAONING XINFENG INDUSTRIAL CO., LTD.	CHINA	3F12	Ductile Iron Fittings
438	MASSPHOTON LIMITED	CHINA	3D22	Water Disinfection Module
439	MOZHIDAO (SHANDONG) MEASUREMENT AND CONTROL EQUIPMENT CO., LTD.	CHINA	3G22	With Iso 9001, Iso 14001 And Ce Certifications, We Provide Over 30 Self-Developed Online Analyzers For Ph, Conductivity, Dissolved Oxygen, Turbidity, Residual Chlorine, Hardness, Alkalinity, Cod And Nh -N.
440	Ningbo Fandi Water Purification Technology Co., Ltd.	CHINA	3H21	Water Purification
441	Ningbo Jiefei packaging Technology Co.,Ltd	CHINA	3H23	Large Diameter Pipeline And Environmental Project
442	NINGBO SHITONG WATER PURIYING SYSTEMS CO.,LTD	CHINA	3G6	Water Filter Parts

443	Ningbo Shuiyi Membrane Technology Development Co.,Ltd.	CHINA	3D4	Landfill Leachate Treatment Equipment; Stainless Steel Assembled Water Purification Plant
444	Penyao Environmental Protection Co., Ltd.	CHINA	3D15	Water Plant
445	Qingdao Judberd Machinery Co., Ltd.	CHINA	3G5	Judberd Is A Leading Manufacturer Focused On The Design, R&D, And Production Of High-Performance Pipeline Connection Solutions.
446	QUANZHOU SANGCHUAN ELECTRIC EQUIPMENT CO.,LTD	CHINA	3F21	S3100A/E Series Is Enhanced Current Vector Control General-Purpose Inverter, Supporting Asynchronous Motor And Permanent Magnet Synchronous Motor Control, Dsp Control System Main Chip Upgrade, New High-Performance Current Vector Control Mode (Svc), V/F Control, V/F Separation Control, Torque Control. The Application Is More Flexible And The Performance Is More Stable. It Can Be Widely Used In Applications With High Requirements For Speed Control Accuracy, Torque Response Speed And Low Frequency Output Characteristics.
447	Sci-Nano Fluid Technology (Hangzhou) Co.,Ltd	CHINA	3F13	Seawater Desalination System/Industrial Pure Water Equipment/Reclaimed Water Reuse Equipment
448	SHAANXI XINSHENGTAI ENVIRONMENT ENGINEERING EQUIPMENT CO., LTD	CHINA	3G14	Water Treatment System
449	Shandong Jinxin Membrane Technology Development Co., Ltd.	CHINA	3F23	Membrane

474	YUYAO YADONG PLASTIC CO.,LTD.	CHINA	3H12	Water Filter
475	Zaozhuang Kairui Water Treatment Co., Ltd.	CHINA	3D9	Phosphonates:Atmp/Hedp/Pbtc/Dptmpa/Papemp/Hempa Bhmtpmpa Etc. Salts Of Phosphonates: Atmp.Na5/Hedp.Na4/Pbtc.Na4/Dtpmp.Na7/Pepmp.Na4 Etc. Polymers: Paa/Paas/Aa-Amps/Hpma/Pca Etc. Boicides: Benzalkonium Chloride/Isothiazolinones/Dbnpa Etc. Copper Corrosion Inhibitor: Bta/Tta/Carbohydrazide Etc. Green Chemicals: Pesa/Pasp/Glda.Na4/Ids.Na4/Mgda.Na3 Etc.
476	Zhejiang Aibote Environmental Technologies Inc.	CHINA	3D12	Water Purification Products
477	Zhejiang Flowtech Co., Ltd	CHINA	3D21	Pump
478	ZHEJIANG HUISHENG FLUID EQUIPMENT CO., LTD	CHINA	3E18	Zhejiang Huisheng Fluid Equipment Co., Ltd. (Hereinafter Referred To As "Huisheng Fluid") Is A Research And Development, Manufacturing And Sales Of High-Quality Metering Pumps, Pneumatic Diaphragm Pumps, Screw Pumps As One Of The Professional Manufacturers. With More Than 10 Years Of Research And Development Experience And Technology Accumulation, Huisheng Fluid Is Committed To The Precise Measurement Of Pharmaceutical, Easy To Add.
479	ZHEJIANG LIGAO PUMP TECHNOLOGY CO.,LTD	CHINA	3E19	Dosing Pump,Meteirng Pump
480	Zhejiang Nowtech Electrical Appliances Co., Ltd	CHINA	3F15	Water Dispenser
481	Zhejiang Parkson Water Industry Equipment Stock Co., Ltd.	CHINA	3E16	Flexible Couplings, Pipe Fittings, Sealing Rings, Valves, Filter Cartridges, Casting Parts For Valve， Pump, Machinery Auto Parts And Superalloy Castings Parts, Pressure Vessels
482	3S INTERNATIONAL COMPANY LIMITED	CHINA	4F16	Manifold & Pumping System Solutions
483	AGC Lighting Co., Ltd.	CHINA	4F20	Explosion-Proof Junction Box; Explosion-Proof Stopping Plug; Light Pole
484	Beijing Precision Wave Instrument Co.,Ltd	CHINA	4C13	80Ghz/26Ghz Radar Level Transmitter, Guided Wave Radar Level Transmitter, Ultrasonic Level Transmitters, Magnetic Flap Level Gauge, Tuning Fork Switch, Rf Switch, Capacitive Switch, Radar Velocity Meter,Radar Flow Meter.
485	CANATURE HUAYU ENVIRONMENTAL PRODUCTS CO.,LTD	CHINA	4E4	Water Treatment Equipments
486	CHANGZHOU JINCHUN ENVIRONMENTAL PROTECTION TECHNOLOGY CO.,LTD	CHINA	4C17	Filter Cartridge/Mbr Module
487	EICMATION (JIANGSU) FLUID CONTROL SYSTEM CO.,LTD	CHINA	4D7	Center Line Butterfly Valve, Double Eccentric Butterfly Valve, Lined Butterfly Valve, Pneumatic Ball Valve, Control Valve And Gate Valve.
488	ELVIS TRADING CO.， LLC	CHINA	4C21	Ro System， 3 Stage Jumbo Filter, Ro Membrane,Pressure Tank, Pp Filter Cartrige, Water Pipe, Water Dispenser
489	Focus Technology Co., Ltd.	CHINA	4D4	Being A Comprehensive Service Platform For Foreign Trade, Made-In-China.Com Is Committed To Tapping Business Opportunities For Chinese Suppliers And Overseas Buyers, And Providing One-Stop Services For Promoting The International Trade Between The Two Sides.
490	Guangdong Solarthon Technology Co.,Ltd	CHINA	4C14	Solar Led Lamps,Solar Power Systems,Solar Inverters,Solar Batteries,Etc
491	Hangzhou Cobetter Filtration Equipment Co., Ltd.	CHINA	4F14	Filter， Membrane， Membrane Degasser
492	Hangzhou Yingpu Environmental Technology Co., Ltd.	CHINA	4D11	Water Treatment Chemicals、Devices And Accessories、Technology Solutions
493	Hebei GN Solids Control Co.,Ltd	CHINA	4F7	Environmental And Wastewater Treatment Equipment Manufacturer
494	Hebei Zhaoyang Environmental Technology Co., Ltd	CHINA	4F13	Glass-Fused-To-Steel & Epoxy-Coated Tanks

495	Henan Beisen Environmental Technology Co., Ltd.	CHINA	4C22	Water Purifier
496	Henan Lvyuan Water Treatment Technology Co.,Ltd	CHINA	4D10	Activated Carbon
497	Hunan New Frontier Technology Group Co., Ltd.	CHINA	4E17	Beaker-Type Wastewater Treatment Device
498	Jiangsu HDmann Electric Group Co.,Ltd.	CHINA	4D13	Cable Tray
499	Jiangsu Province Yixing Nonmetallic Chemical Machinery Factory Co.,Ltd	CHINA	4F18	Manufacturing Of Special Ceramic Products Manufacturing Of Non-Metallic Mineral Products; Manufacturing Of New Membrane Materials Manufacturing Of Mining Machinery
500	Jiangsu Yiyu Environmental Protection Technology Co.,Ltd	CHINA	4D6	Industrial Waste Treatment For Water, Gas, And Solid Waste
501	MINAMOTO PUMP CO., LTD.	CHINA	4D12	Water Pump
502	NINGBO YAWEI WATER PURIFIER MANUFACTURE CO., LTD.	CHINA	4C15	Water Filter, Ro Systems,Uv Sterilizer
503	QUANZHOU JUFA WATER PURIFIER CO.,LTD	CHINA	4F15	Water Purifier
504	Shandong Taihe Technologies Co., Ltd.	CHINA	4E20	Water Treatment Chemicals
505	Shandong Wina Green Power Technology Co., Ltd.	CHINA	4C16	Ems, Cell, Residential Energy Storage, C&I Energy Storage
506	Shanghai Yimai Industrial Co.,LTD	CHINA	4C10	Pump、Water Supply
507	SHENZHEN TAOSHI CO.,LTD	CHINA	4D20	Ro Tube/ Ro Tank/ Filter Housing/ Filter Cartridge/ Ro Machine
508	Shijiazhuang Deye Piping Industry Co., Ltd	CHINA	4F19	Valves
509	TANGSHAN GUANG MING PLASTIC INDUSTRY CO.,LTD	CHINA	4F21	Plastic Skid
510	Wuxi Amit Environmental Protection Equipment Co., Ltd.	CHINA	4C24	Advanced Membrane Technology, Reverse Osmosis System, Ultrafiltration System, Desalination Technology, Integrated Water Treatment Solution, Mobile Water Treatment Unit, Self-Cleaning Filter System, Industrial Wastewater Plant, Municipal Wastewater Treatment, Pharmaceutical Industry Wastewater, Wastewater Processing Equipment, Water Security Solution, Renewable Energy Solution, Evaporation System, Aeration System& Equipment, Sludge Dewatering System, Sludge Processing Equipment
511	XI'AN AEROSPACE-HUAYANG MECHNICAL & ELECTRICAL EQUIPMENT CO.,LTD	CHINA	4C12	Casting Line,Coating Line, Automatic Rolling Production Line, Mixer System Etc Membrane Elements Manufacturing Solution
512	Xiaogan Shenlu Textile Co., Ltd.	CHINA	4D19	Ro Guiding Cloth
513	Yixing Xiuyuan Technology Co., Ltd	CHINA	4E21	Switchgear
514	YUNDA H&H TECH(Tianjin) CO.,LTD.	CHINA	4F10	Domestic Ro Water Filters, Water Cooler Dispenser With Filter.
515	ZheJiang Wearable Environmental Technology Co., Ltd	CHINA	4D18	Digital Dosing Pump Digital Dosing Pump System Mechanical Diaphragm Pump Chemical Pumps Peristaltic Pump & Hose Pump Electromagnetic Dosing Pump Screw Pumps
516	ZHEJIANG YUXI CORROSION CONTROL CORPORATION	CHINA	4F17	Electrodes And Electrolyzer Manufacturing And Exporter、Water Treatment Equipment Supplier
517	ZHEJIANG YUZHENG VALVE TECHNOLOGY CO.,LTD	CHINA	4F12	Ball Valve,Gate Valve,Globe Valve,Check Valve
518	China Great Wall Industry Corporation	CHINA	6D12	Water Treatment
519	Jiangsu Hippo Technologies CO.,LTD	CHINA	6E15	Stormwater Detention Tank, Fipp Pipe Rehabilitation, Plastic Inspection Chamber & Manhole
520	Jiangsu Kunyee Environmental Technology Co., Ltd.	CHINA	6E12	Seawater Desalination、Landfillleachate Treatment、Chemical Industry,Mining Industry、Food And Beverage Industry、Electroplating、Metal Surface Treatment、Renewable Energy Industry,Power Industry And Industrial Parks
521	Nanjing Shunshuida Environmental Protection Technology Co., Ltd	CHINA	6C17	High-Efficiency Industrial Water Treatment Equipment
522	StarCharge Digital Energy Co., Ltd.	CHINA	6E8	Charging Piles Energy Storage System Energy Management Platform

523	VINCER VALVE CO.,LTD	CHINA	6A7	Product Name: Electric Actuator-Matched Automatic Valve Pneumatic Actuator-Matched Automatic Valve Including Ball Valves, Butterfly Valves, Globe Valves, Gate Valves, Etc. Solenoid Valve Service Name: Customized Automated Valves, Technical Parameter Adaptation, Installation Guidance, Product Selection Consultation
524	VONTRON TECHNOLOGY CO., LTD.	CHINA	6C12	Supplier Of Separation Membranes
525	Nanfang Pump Industry Co., Ltd.	CHINA	SSE23	Asia Top 3 Water Pump Manufactuer.
526	Shanghai ChiMay Technology LTD.	CHINA	SSQ26	Manufacture And Supplier For Softener Control Valve, Filter Control Valve, Water Quality Sensor,Including Inline Conductivity/Ph/Orp/Residual Cholrine/Do Meters,Ro Controller, Multi-Parameter Sensor, Flow Meter, Etc.
527	Checkpoint	UNITED ARAB EMIRATES	7-G8	Network Security, Cloud Security, Endpoint Securirty
528	Clear Robotics	CHINA	2-H18	Electric Boat Builders For Several Marine Services
529	CNBC Arabia	UNITED ARAB EMIRATES	A10	CNBC Arabia is the Arab World's preeminent and only 24-hour Arabic language financial and business information Channel, presenting in-depth & up-to-the-minute coverage of regional and international affairs from an Arab economic perspective. For the first time, Arab audiences have access to sustained financial and economic news coverage of the region presented in Arabic.
530	Concord Stars Contracting LLC	UNITED ARAB EMIRATES	AR-J28	A leading construction Company in United Arab Emirates, Concord Stars has always been a key contributor to GCC construction sector
531	Concorde Corodex Group – Water	UNITED ARAB EMIRATES	1-E8	Water, Energy & Environment Technology Show
532	Concorde Corodex Group –Fire	UNITED ARAB EMIRATES	1-E16	Water, Energy & Environment Technology Show
533	Corodex Trading	UNITED ARAB EMIRATES	1-E8	Water Treatment Systems & Equipment
534	Corodex Industries	UNITED ARAB EMIRATES	1-E8	Water & Waste Water Treatment And Odor Control
535	Concorde Trading	UNITED ARAB EMIRATES	1-E8	Water Treatment Systems & Equipment
536	Corodex LPID	UNITED ARAB EMIRATES	1-E8	Lab Processing & Instrumentation
537	EfloChem	UNITED ARAB EMIRATES	1-E8	Water Treatment Speciality Chemicals
538	EfloChem Lab	UNITED ARAB EMIRATES	1-E8	Laboratory & Technical Services
539	Eflo FRP	UNITED ARAB EMIRATES	1-E8	Frp & Grp Products
540	DEWACO	FINLAND	1-E8	Sludge Thickening & Dewatering
541	Aqseptance Passavant	GERMANY	1-E8	Water & Waste Water Treatment
542	Toray	JAPAN	1-E8	Reverse Osmosis & Water Treatment Solutions
543	Artech Enerji	REPUBLIC OF TURKIYE	1-E8	Water & Wastewater Treatment Systems And Equipment
544	Flowtech	SOUTH KOREA	1-E8	Pumps, Valves & Fluid Handling Equipment
545	MDCOREA	SOUTH KOREA	1-E8	Water & Wastewater Treatment Equipment And Solutions
546	Spire Technology	SOUTH KOREA	1-E8	Water Treatment, Filtration & Environmental Technologies
547	Envirosim	Canada	1-E8	Wastewater Process Simulation & Modelling
548	Roediger Vacuum	GERMANY	1-E8	Vacuum Sewerage Systems & Wastewater Collection Solutions
549	Corodex Electromechanic	UNITED ARAB EMIRATES	1-E8	A pioneer in engineering, manufacturing, assembly and fabrication of various water purification and wastewater treatment plants and equipment.
550	Concorde Trading	UNITED ARAB EMIRATES	1-E8	Product offering includes the full range of all water treatment components such as fittings and RO components
551	Nordic Water	SWEDEN	1-E8	Designs And Manufactures Compact, Energy-Efficient Equipment And Systems For Municipal And Industrial Water And Wastewater Treatment, Specializing In Solids-Liquid Separation, Screening (Meva), Belt Filtration (Dynabelt), And Continuous Sand Filtration (Dynasand)
552	Fybroc	UNITED STATES OF AMERICA	1-E8	Pioneer And World Leader In Non-Metallic, Fiberglass-Reinforced Polymer (Frp) Centrifugal Pumps Designed To Handle Corrosive, Abrasive, And Aggressive Industrial Fluids, Acids, And Seawat
553	Ecosoft	GERMANY	1-E8	European Manufacturer And Global Supplier Of Domestic, Commercial, And Industrial Water Treatment Systems, Including Reverse Osmosis Filters, Water Softeners, And Uv Sterilizers
554	Viqua	CANADA	1-E8	Viqua Is A Leading Global Manufacturer Of Residential And Light-Commercial Ultraviolet (Uv) Water Disinfection Systems

555	Wave Cyber	CHINA	1-E8	A Prominent Manufacturer Of High-Performance Composite Pressure Vessels, Fiberglass-Reinforced Filter Tanks, And Membrane Housings Used In Residential, Commercial, And Industrial Water Treatment And Ro Systems.
556	Milton Roy	FRANCE	1-E8	Milton Roy Is A Premier Global Manufacturer Of Controlled-Volume Metering Pumps, Chemical Injection Packages, And Mixing Equipment For Water Treatment, Oil And Gas, And Chemical Processing.
557	Harmsco	UNITED STATES OF AMERICA	1-E8	Specializing In High-Capacity, Cartridge-Based Water Filtration Systems, Pleated Filter Cartridges, And Surface/Underground Industrial Water Purification Solutions.
558	CAT	UNITED STATES OF AMERICA	1-E8	Cat Pumps Manufactures High-Pressure Triplex Plunger And Piston Pumps, Systems, And Accessories Widely Used In Reverse Osmosis, Misting, Car Washes, And Industrial Cleaning
559	Spectra	UNITED STATES OF AMERICA	1-E8	Spectra Designs And Manufactures Energy-Efficient, Compact Marine And Land-Based Reverse Osmosis Desalination Watermakers For Turning Seawater Into Freshwater
560	Yara – Nutriox	NORWAY	1-E8	Nutriox Is A Proven Biological Treatment And Nitrate-Based Solution Used To Prevent Hydrogen Sulfide (H_2S) Corrosion And Odor Generation In Municipal And Industrial Wastewater Systems.
561	Hi-Vac	UNITED STATES OF AMERICA	1-E8	Manufacturer Of Heavy-Duty Industrial Vacuum Cleaners, Hydro-Excavators, And Environmental Maintenance Equipment Used For Municipal And Industrial Cleanup.
562	Cabot – Norit Activated Carbon	THE NETHERLANDS	1-E8	A Leading Global Producer Of High-Performance Powdered, Granular, And Extruded Activated Carbon Products Used For Liquid And Gas Phase Purification, Drinking Water Treatment, And Industrial Emission Control
563	RGF	UNITED STATES OF AMERICA	1-E8	Rgf Manufactures Environmental Treatment Systems Utilizing Advanced Oxidation, Air And Water Purification, And Wastewater Recycling Technologies (Such As Plasma Ionization And Photohydroionization)
564	Watts / FLomatic	UNITED STATES OF AMERICA	1-E8	American Manufacturer Of Broad-Line Plumbing, Flow Control, Water Safety, Backflow Prevention, And Check Valve Products For Commercial And Residential Applications.
565	Ultravawes / Toscano	SPAIN	1-E8	Specializing In Electronic And Electrical Equipment, Pump Controllers, Protection Panels, And Water Treatment Automation Systems
566	Filternox	REPUBLIC OF TURKIYE	1-E8	A Manufacturer Of Automatic Self-Cleaning Water Filters And Screening Systems Designed For Industrial, Agricultural, And Municipal Water Intake And Cooling Water Applications.
567	Brentwood	UNITED STATES OF AMERICA	1-E8	American Manufacturer Specializing In Thermoformed Plastic Solutions, Including Trickler Media, Lamella Clarifier Plates, And Structured Fill For Cooling Towers And Water/Wastewater Treatment Settling Processes
568	Hach Lange	GERMANY	1-E8	A Prominent Global Provider Of Water Analysis Instrumentation, Colorimeters, Spectrophotometers, And Online Process Probes For Measuring Water Quality Parameters In Labs And Treatment Plants
569	NIVUS	GERMANY	1-E8	Manufacturer Of Flow Measurement Instrumentation, Level Sensors, And Data-Logging Solutions Specifically Engineered For Open Channels, Full Pipes, And Wastewater Network Monitoring
570	Luminultra	CANADA	1-E8	Specializing In Rapid Microbiological Testing And Diagnostic Solutions (Such As Atp-Based Tests) To Monitor And Manage Biological Activity In Water, Wastewater, And Industrial Processes.
571	Createch	SPAIN	1-E8	Offers Specialized Water And Environmental Engineering Integration, Consulting, Or Ozone/Disinfection Treatment Equipment Depending On The Specific Industrial Sector.
572	Sansox	FINLAND	1-E8	Develops Energy-Efficient Gas-Liquid Mixing And Oxygenation Equipment To Dissolve Oxygen And Other Gases Rapidly Into Water For Aquaculture And Wastewater Treatment.
573	Unex	SPAIN	1-E8	Insulated Cable Management Systems And Corrosion-Resistant Technical Plastic Enclosures Frequently Deployed In Harsh Or Corrosive Water Treatment And Industrial Plants.

574	Water i.d. (Pool i.d.)	GERMANY	1-E8	Manufacturer Of Professional Water Testing Equipment, Photometers, Electronic Pool Testers, And Chemical Reagent Tablets For Swimming Pools, Spas, And Water Analysis
575	Lansas	UNITED STATES OF AMERICA	1-E8	Manufacturer Of Heavy-Duty Pneumatic Pipe Plugs, Bypass Plugs, And Testing Equipment For Sewer And Pipeline Maintenance And Rehabilitation.
576	Myron	UNITED STATES OF AMERICA	1-E8	Myron L Company Manufactures High-Precision Handheld And Inline Instruments For Measuring Conductivity, Resistivity, Ph, Orp, And Total Dissolved Solids (Tds) In Water.
577	IPEX- Vortex insert flow	CANADA	1-E8	Manufacturer Of Thermoplastic Piping Systems, Offering Flow Measurement Tools Like Vortex Insert Flow Meters For Industrial And Municipal Fluid Handling.
578	Vortex Force	CANADA	1-E8	Manufacturer Or Brand Associated With Vortex-Based Hydraulic Flow Control, Mixing, Or Self-Cleaning Screening/Degritting Components
579	Drop	GREECE	1-E8	An American Smart Home Water Management Brand Offering Integrated Leak Detection, Smart Water Softeners, And Automated Whole-Home Water Control Valves.
580	NECON	GERMANY	1-E8	Manufacturer Of Copper-Silver Ionization Systems Designed For Chemical-Free, Eco-Friendly Water Disinfection In Swimming Pools, Cooling Towers, And Industrial Water Circuits.
581	Franklin Miller	UNITED STATES OF AMERICA	1-E8	Manufacturer Of Size Reduction Equipment, Including Industrial Shredders, Grinders, Comminutors, And Fine Screens Built For Wastewater Treatment Plants And Pump Protection
582	SAB – Bremem	UNITED STATES OF AMERICA	1-E8	Manufactures Thermoplastic Fittings, Valves, And Special Piping Components For Chemical, Water, And Industrial Pipeline Construction.
583	H&H	PORTUGAL	1-E8	Specializes In Mechanical Wastewater Treatment Equipment, Such As Fine Screens, Grit Chambers, And Sludge-Handling Systems For Municipal And Industrial Plants.
584	3P Technology	GERMANY	1-E8	Focuses On Rainwater Harvesting, Stormwater Management Systems, And Specialized Components For Filtering And Distributing Reused Water
585	Connectme Manufacturing LLC	UNITED ARAB EMIRATES	SS-M23	Industrial Iot (Internet Of Things) Technology, Smart Metering, And Utility Management Manufacturing
586	Uflo	UNITED STATES OF AMERICA	SS-M23	Inline Ultrasonic Water Meters
587	GIMA	ITALY	SS-M23	Inline Electromagnetic Flow Meters
588	TECHNAVE	MALAYSIA	SS-M23	Clamp-On Ultrasonic Meters
589	Consulate General of the Kingdom of the THE NETHERNALDS in Dubai	THE NETHERLANDS	0	Govt.
590	CZECH REPUBLIC Pavilion	CZECH REPUBLIC	7-D12	
591	Czech Water Alliance	CZECH REPUBLIC	7-D12	Water Management Products And Services
592	Comfort Consulting	CZECH REPUBLIC	7-D12	Multi - Stage Water Treatment Technology For Safe Water Wherever It Is Needed. Infinite Oasis Represents A Containerized And Modular Solution For The Treatment Of Surface Water And Groundwater, Designed For Rapid Deployment, Reliable Operation, And Adaptation To Specific Local Conditions. Containerized Water Treatment
593	ENVITES	CZECH REPUBLIC	7-D12	Water Treatment, Sludge Dewatering, Solid-Liquid Separation
594	Global Water Nanotechnologies	CZECH REPUBLIC	7-D12	Water & Wastewater (Treatment Technologies)
595	INFINITE WELL	CZECH REPUBLIC	7-D12	Tailor-Made Container Solutions For Any Type Of Pollution In Any Conditions. Complete Technological Units That Integrate Multiple Water Treatment Stages Into One, We Have Put In A Space-Saving Design. It Is The Ideal Choice For Rapid Deployment, Crisis Areas Or Operations Where Every Square Meter Is Valuable. They Are Easy To Transport And Are Immediately Ready For Use.
596	Marq software	CZECH REPUBLIC	7-D12	Scada Software / Control And Monitoring Systems
597	PRESSKAN system	CZECH REPUBLIC	7-D12	Pressure Sewerage Systems
598	VAPO	CZECH REPUBLIC	7-D12	Pipe Plugs

790	DAC (Ducab Aluminium Company)	UNITED ARAB EMIRATES	TSP4	A Strategic Joint Venture And Specialized Arm Operating Under Ducab'S Metals Business (Dmb). Located In Khalifa Industrial Zone Abu Dhabi (Kizad), It Produces High-Quality Aluminium Rods, Wires, And Conductors.
791	AEI	UNITED KINGDOM	TSP4	One Of The World'S Oldest Cable Companies (Founded In 1837). Headquartered In England, It Specializes In Premium Fire Protection, Defense, Rail, Construction, And Infrastructure Cables. It Was Acquired By The Ducab Group.
792	Contactum	UNITED KINGDOM	TSP4	Historic British Manufacturer Established In 1936. Based In Dunstable, Bedfordshire, It Manufactures Over 6,000 Products Spanning Decorative Wiring Accessories, Switches, And Circuit Protection Systems. It Operates As An Alfanar Subsidiary.
793	Ducont Strategic IT Services LLC	UNITED ARAB EMIRATES	SSP14	Information Technology Consultants
794	Notisify	UNITED ARAB EMIRATES	SSP14	Streamline Communications - Notisify Is A Versatile On-Premise Messaging Powerhouse, Designed For Organizations In Need Of Autonomous Communication Solutions.It Integrates Sms, Email, Push Notification, And Whatsapp, Offering A Multi-Channel Approach To Ensure That Your Critical Information Is Disseminated Swiftly And Reliably .
795	Mobile-First - Revolutionize Banking	UNITED ARAB EMIRATES	SSP14	Mobile-First Banking Solutions Are Revolutionizing The Industry. With Features Like Qr Code-Based Contactless Payments, Ussd For Basic Phones, Ai-Enhanced Ekyc, Biometric Security, And Rapid Ai Loan Processing, We Offer Unparalleled Convenience And Security. Pre-Built Apps Ensure Swift Deployment, Meeting Today'S Dynamic Banking Needs With Seamless Transactions, Intelligent Analytics, And Personalized Notifications For A Comprehensive Banking Experience.
796	FSM Global	UNITED ARAB EMIRATES	SSP14	The Innovative Ai Based Range Of Field Service Solutions Are Engineered For Different Segments & Organisations Of All Sizes
797	FSM REO	UNITED ARAB EMIRATES	SSP14	Unique And Robust Automation Built To Manage The Complex Property Preservation Industry
798	FSM Assist	UNITED ARAB EMIRATES	SSP14	Remote Video Assistance Platform Crafted To Empower Field Teams With Live Video Support For In-Person Inspections And Audits
799	FSM VisionAi	UNITED ARAB EMIRATES	SSP14	Ai Based Visual Solution That Provides Real-Time Contextual, And Actionable Intelligence For Wide Range Of Industries
800	FSM Connect	UNITED ARAB EMIRATES	SSP14	A Comprehensive Iot Platform Built To Be Secure And Intelligent, That Offers Full Control Of Your Infrastructure
801	Dutco Tennant	UNITED ARAB EMIRATES	SS-C8	Water Valves And Infra Product Distributors
802	Dutco Tennant LLC	UNITED ARAB EMIRATES	3-C17	A Premier Industrial And Engineering Solution Provider In The Middle East And Gcc Region. Operating For Over Four Decades, It Supplies Top-Tier Equipment And Materials For Water & Wastewater Management, Civil Infrastructure, Mep Services, And Industrial Utilities.
803	A1 JORDAN	JORDAN	3-C17	Manufacturer Of Water Fittings And House Connection Systems. Produces Pe, Ductile Iron, And Pvc Pipe Fittings, Gunmetal Water Fittings, Valves, And Ferrule Outlets For Water Distribution Networks
804	BELGICAST INTERNACIONAL.S.L (TALIS)	SPAIN	3-C17	Established In 1957, They Specialize In Heavy-Duty Valves And Accessories For The Water Industry. Key Products Include Resilient Seated Gate Valves, Butterfly Valves, Check Valves, And Universal Couplings.
805	FRANKLIN HODGE INDUSTRIES	UNITED KINGDOM	3-C17	A Specialized Engineering Manufacturer Focusing On High-Quality Liquid Storage Solutions, Industrial Water Tanks, Cooling Towers, And Agricultural Grain Silos.

806	GENESYS INTERNATIONAL LIMITED	UNITED KINGDOM	3-C17	Manufacturer Of Specialty Reverse Osmosis (Ro) Membrane Chemicals. They Develop Specialized Antiscalants, Biocides, Cleaners, And Flocculants That Preserve Water Treatment Membrane Efficiency.
807	GRUNDFOS	DENMARK	3-C17	A Global Leader In Advanced Pump Solutions And Water Technologies, Manufacturing Highly Efficient Water Pumps And Pumping Systems For Domestic, Industrial, And Utility Infrastructure.
808	HYDRANAUTICS - A NITTO DENKO COMPANY	UNITED STATES OF AMERICA / JAPAN	3-C17	A Pioneering Global Developer Of Membrane Technology. They Manufacture High-Efficiency Reverse Osmosis (Ro), Nanofiltration, Ultrafiltration, And Microfiltration Membrane Elements Used Globally In Water Desalination And Purification.
809	JAIN IRRIGATION SYSTEMS LTD.	INDIA	3-C17	A Multinational Manufacturing Corporation Producing Micro-Irrigation Equipment, Specialized Plastic Piping (Pvc & Hdpe), Water Efficiency Systems, And Agricultural Infrastructure
810	KANGAROO PLASTICS	UNITED ARAB EMIRATES	3-C17	A Regional Manufacturer Specializing In High-Grade Plastic Products, Packaging Solutions, And Poly-Linings Often Used In Commercial Protection And Civil Construction Sectors.
811	KLAMFLEX PIPE COUPLINGS (PTY) LTD	SOUTH AFRICA	3-C17	Manufacturer Specializing In Pipeline Joint Systems, Including Pipe Couplings, Flange Adaptors, And Step Couplings Used Primarily In Municipal Water Supply, Wastewater, And Industrial Pipelines.
812	MUELLER (SINGER VALVES)	CANADA	3-C17	A Premier Brand Under The Mueller Water Products Portfolio, Specializing In Heavy-Duty Automatic Control Valves, Pressure Reducing Valves, And Flow Control Systems For Municipal Waterworks
813	RHINO MARKING & PROTECTION SYSTEMS	UNITED STATES OF AMERICA	3-C17	Specialist Developer Of Infrastructure Safety Products, Manufacturing Utility Marking Posts, Warning Signs, Surface Markers, And Damage Prevention Systems For Buried Pipelines And Fiber Cables.
814	SENSUS METERING SYSTEMS	GERMANY / UNITED KINGDOM	3-C17	A Xylem Brand That Specializes In Smart Infrastructure Technologies, Manufacturing High-Precision Water Meters, Advanced Gas/Electric Meters, And Ami Network Communication Systems
815	SIEGFRIED GOHNER MOSSINGEN (SGM)	GERMANY	3-C17	A Specialized Precision Manufacturer Focusing On Industrial Components, Water Engineering Parts, And Tooling Infrastructure.
816	TUOHJI INTERNATIONAL CO LTD	TAIWAN R.O.C	3-C17	Global Supplier And Manufacturer Of Structural Pipeline Components, Industrial Hardware, And Water Transmission Fittings.
817	WILHELM EWE GMBH & CO KG	GERMANY	3-C17	Formed Over A Century Ago, They Engineer And Manufacture High-Quality Water Meter Installation Brackets, Testing Equipment, House Connection Fittings, And Safety Valves For Potable Water Networks.
818	WOUTER WITZEL EUROVALVE B.V.	THE NETHERLANDS	3-C17	International Developer And Manufacturer Of High-Caliber Industrial Butterfly Valves And Actuators, Used In Desalination, Water Treatment, Shipbuilding, And Industrial Flow Systems
819	Dynamic Line Valves	UNITED ARAB EMIRATES	SS-C12	
820	Tecofi	FRANCE	SS-C12	Independent Industrial Valve Designer, Manufacturer, And Distributor. They Specialize In A Comprehensive Range Of Products For Water And Industrial Networks, Including Butterfly Valves, Knife Gate Valves, Gate Valves, Check Valves, Balancing Solutions, And Actuation Systems
821	Bray	UNITED STATES OF AMERICA	SS-C12	Global Leader And Manufacturer Of Industrial Flow Control Solutions, Butterfly Valves, Ball Valves, Knife Gate Valves, Check Valves, And High-Performance Pneumatic/Electric Actuators.
822	VME	UNITED ARAB EMIRATES	SS-C12	Specializes In The Engineering, Design, And Manufacturing Of Heavy-Duty Industrial Valves And Mechanical Fittings. Their Product Portfolio Includes Gate, Check, Air Release, And Butterfly Valves, As Well As Floating And Trunnion-Mounted Ball Valves Tailored For Water Distribution, Power, District Cooling, And Oil And Gas Industries.
823	TERAL	JAPAN	SS-C12	Japanese Manufacturer And Global Engineering Company With Over 100 Years Of Heritage. While Globally Renowned For Industrial And Commercial Pumps, Water Supply Systems, And Ventilation/Air Blower Equipment, They Also Supply Fluid Management And System Components For Water Infrastructure, Hvac, And Industrial Processes
824	Dynepump	SOUTH KOREA	SS-M28	Submersible Pump Innovation Leader
825	Esyasoft Holding Ltd	UNITED ARAB EMIRATES		ESS (GRID SCALE), SMART UTILITY SOLUTIONS, E-MOBILITY, SOFTWARE & ANALYTICS AI, E-Mel

826	Ebara Pumps Middle East Fze	UNITED ARAB EMIRATES	SS-K2	Sales And Service Of Centrifugal Pumps
827	Ebara Corporation	JAPAN	SS-K2	Pumps And Pump System Supply
828	Ebara Pumps EUROPE S.p.A.	ITALY	SS-K2	Pumps And Pump System Supply
829	P.T. Ebara INDONESIA	INDONESIA	SS-K2	Pumps And Pump System Supply
830	Ebara Densan (Kunshan) Co. Ltd.,CHINA	CHINA	SS-K2	Pumps And Pump System Supply
831	Ebara Machinery (CHINA) Co., Ltd.	CHINA	SS-K2	Pumps And Pump System Supply
832	Ebara VIETNAM Pump Company Limited.	VIETNAM	SS-K2	Pumps And Pump System Supply
833	Vansan Water Technologies	REPUBLIC OF TURKIYE	SS-K2	Pumps And Pump System Supply
834	Ecomet Environmental Solutions LLC	UNITED ARAB EMIRATES	SS-K23	Water & Environmental Monitoring Solutions
835	Ecoride	UNITED ARAB EMIRATES	4-G10	Ev Utility & Mobility
836	Ambassador 4: E-bike for everyday life	SWEDEN	4-G10	Comfortable, Stable, And Easy-To-Ride E-Bike. Designed For Modern Cyclists Who Value Both Style And Function. Choose Between A Mid-Drive Motor Or Hub Motor, Coaster Brake Or Disc Brake, Belt Drive Or Chain, Three Frame Sizes, And Two Timeless Colors.
837	Tripper 4 – e-bike with a sporty twist and forward-leaning riding position	SWEDEN	4-G10	Tripper Is An E-Bike Designed To Combine Performance And Agility, Making It The Perfect Choice For Both City Riding And Longer Adventures.
838	Cargo e-bike with room for what matters	SWEDEN	4-G10	Our Electric Cargo Bikes Are Built To Carry Your Whole Day – Whether You'Re Shopping, Picking Up The Kids, Or Transporting Heavy Loads.
839	Flexible Flexer	SWEDEN	4-G10	This Is Our Compact Series, Featuring Our Smallest E-Bikes. The Flexer Is Small And Nimble, Perfect For Camping, Taking On The Boat, Or Road Trips. It'S A Great Urban E-Bike That Works Great In The City Hustle.
840	EDF	UNITED ARAB EMIRATES	2-E20	Utilities And Energy
841	CIST-Ingeum	UNITED ARAB EMIRATES	2-E20	Engineering For The Performance Of Energy Assets And Projects. Low Carbon Thermal Generation, Electrical Systems And Grid. Thermal Storage, E-Fuel, Combined Cycle Gas, Battery Storage, Network Connection, Etc
842	Dalkia	UNITED ARAB EMIRATES	2-E20	Working With You To Step Up Your Energy Transition Dalkia, A Subsidiary Of Edf Group, Supports Its Customers In Their Energy And Digital Transformations Through Its Two Business Lines: The Development Of Local Renewable Energies And Energy Savings. Dalkia Offers Its Customers Tailored Solutions For Each Building, Each City, Each Local Authority, Each Region And Each Industrial Site To Help Them Rise To The Challenge Of The Energy Transition And Make Them Smarter. Let'S Face The Climate Change Together
843	Framatome	UNITED ARAB EMIRATES	2-E20	As The World'S Leading Nuclear Operator And The Driver Of Innovative Projects, The Edf Group Is At The Head Of A Strategic Industrial Sector, The Third Largest In France After The Automotive And Aeronautics Sectors. This Sector Has All Of The Assets Necessary To Design And Build A New Generation Of Power Plants In France And Internationally, Operate Existing Reactors And Decommission Those That Have Been Shut Down.
844	Emerge	UNITED ARAB EMIRATES	2-E20	Emerge Is A Joint Venture Between Masdar And Edf Group Established To Collaborate On Opportunities In Distributed Solar Generation, Energy Efficiency And Street Lighting In The United Arab Emirates And KINGDOM OF Saudi Arabia. As An Energy Services Company, Emerge Offers Clients Full Turn Key Supply And Demand Side Energy Management Solutions Through Solar Power Agreements And Energy Performance Contracting At No Up-Front Cost To The Client. For More Information, Visit Www.Emerge-Energy.Com
845	Lightning	UNITED ARAB EMIRATES	2-E20	The First Of This Kind Of Hvdc Submarine Cable Projects In The Mena Area.The Undersea Interconnectors Will Supply Electricity From The Mainland Transco Grid To The Two Adnoc Oil & Gas Complexes In The Das And Zakum Islands.

846	EDF Renewables	UNITED ARAB EMIRATES	2-E20	Edf Renewables Is An International Energy Company Which Develops, Builds And Operates Renewable Power Generation Plants. As A Major Player In The Energy Transition Worldwide, Edf Renewables Deploys, Within Edf, Competitive, Responsible And Value-Creating Projects. In Every Country, Our Teams Show Their Commitment To Local Stakeholders Every Day, Adding Their Expertise And Capacity For Innovation To The Fight Against Climate Change. At The End Of 2022, Edf Renewables Operates A Net Installed Wind And Solar Capacity Of 11.4 Gw (18.5 Gw Gross) Worldwide. Mainly Present In Europe And North America, Edf Renewables Is Pursuing Its Development By Taking A Position In Promising Emerging Markets Such As: Brazil, China, India, South Africa And In The Middle East. Historically Active In Onshore Wind And Photovoltaics, The Company Is Now Strongly Positioned On Offshore Wind And Floating Wind As Well As In New Technologies Such As Energy Storage, Green Hydrogen, Floating Solar And Agrivoltaism.
847	EDF -IN	UNITED ARAB EMIRATES	2-E20	Edf International Networks Is A Distinguished Subsidiary Of The Renowned Edf Group Based In France, The World'S Foremost Electricity Company. At Edf International Networks, We Proudly Shoulder The Responsibility Of Delivering The Group'S Expertise In The Field Of Electricity Distribution Networks Worldwide. Advanced Metering Infrastructure (Ami) Is A System That Allows Customers' Electricity Consumption To Be Managed Remotely. Ami Systems Use Smart Meters And Communication Networks To Collect And Transmit Real-Time Consumption Data. Smart Meters Provide More Accurate And Frequent Consumption Data Than Traditional Mechanical Meters. In France, The Ami Deployment Started In 2015 With The Launch Of Linky, The French Smart Meter. Dso Enedis Has Installed Over 35 Million Smart Meters On Budget And On Schedule, At No Cost To Customers And With A Rigorous Policy For Recycling Old Equipment.
848	CITELUM	FRANCE	2-E20	A Smart Lighting And Connected Urban Services Subsidiary Of The Edf Group (Operating Under Dalkia Electrotechnics), Specializing In Public And Artistic Lighting, Traffic Management, Video Protection, Electric Vehicle Charging, And Smart City Infrastructure
849	EDF - ENERGY	UNITED KINGDOM	2-E20	The State-Owned French Multinational Electric Utility Company (And The World'S Leading Producer Of Low-Carbon Electricity) Engaged In Power Generation, Nuclear Energy, Transmission, And Distribution
850	EDF - International Network	FRANCE	2-E20	A Wholly Owned Subsidiary Of The Edf Group That Exports Global Engineering, Consulting, Smart Metering, And Power Distribution Network Solutions To Utilities Worldwide
851	EDF - MAROC	MOROCCO	2-E20	The Regional Branch/Subsidiary Of The Edf Group Active In Morocco Since The 1970S, Focusing On Renewable Energy Generation (Wind And Solar Projects Like Taza And Koudia Al Baida), Grids, And Training.
852	EDF - ME	KINGDOM OF SAUDI ARABIA	2-E20	The Regional Subsidiary Of The Edf Group Managing Low-Carbon Energy Solutions, Nuclear Support (E.G., Barakah Plant Services), Thermal Power, And Major Solar/Wind Projects Across The Middle East
853	EDF - Trading	UNITED KINGDOM	2-E20	A Wholesale Energy Trading Subsidiary Of The Edf Group (Originally Founded In 1999) That Buys And Sells Electricity, Natural Gas, Coal, Freight, And Environmental/Carbon Products Globally
854	EDISSON	ITALY	2-E20	One Of Italy'S Oldest And Primary Energy Companies, Operating In Electricity Production, Natural Gas, And Energy Services As A Controlled Subsidiary Of The Edf Group
855	ENEDIS	FRANCE	2-E20	The Main Regulated Electricity Distribution Network Operator In France (Formerly Erdf) And A 100% Subsidiary Of Edf Managing Low- And Medium-Voltage Distribution Grids.

856	FENICE	ITALY	2-E20	Originally Established Within The Fiat Group In Italy And Later Acquired By Edf, Specializing In Industrial Energy Efficiency, Environmental Services, And Clean Energy/Solar Solutions
857	RTE	FRANCE	2-E20	France'S Independent Electricity Transmission System Operator Responsible For Operating, Maintaining, And Developing Europe'S Largest High-Voltage Power Grid (Partly Owned By Edf And Public Funds)
858	SODETREL	FRANCE	2-E20	A 100% Subsidiary Of Edf Founded In 1998 As The Group'S Arm For Electric Vehicle Charging Infrastructure And E-Mobility Services (Rebranded As Izivia)
859	TIRU	FRANCE	2-E20	A Former Subsidiary Of Dalkia Within The Edf Group Specializing In Waste-To-Energy Recovery, Converting Household And Industrial Waste Into Electricity And Urban Heating Steam (Acquired By Paprec To Form Paprec Energies)
860	Ednex Automation	UNITED ARAB EMIRATES	6-E23	Robotics And Automation Solutions
861	UNITREE	CHINA	6-E23	Ednex Automation Serves As A Top Distributor Of Unitree Robotics Solutions In Dubai, Uae, And The Gcc Region. We Deliver Advanced Robotic Technologies Designed To Support Innovation In Research, Education, Security, Logistics, Inspections, And Automated Systems.
862	FRANKA ROBOTICS	GERMANY	6-E23	Intelligent Franka Robotics To Help Organizations In Kingdom Of Saudi Arabia The Uae Qatar Kuwait Sultanate Of Oman And Bahrain Achieve Unprecedented Levels Of Precision. Whether You Manage A University Laboratory Or An Advanced Manufacturing Plant Integrating Franka Robots Into Your Workflow Gives You A Powerful Competitive Advantage.
863	PUDU	CHINA	6-E23	Top Pudu Robotics Dealer In Dubai Uae. They Offer High-Tech Delivery Robots, Food-Serving Robots, And Professional Cleaning Robots Tailored To Improve Service, Hospitality, And Facility Management Operations In The Gcc Region.
864	KUKA	GERMANY	6-E23	We Provide Cutting-Edge Kuka Robotics To Help Businesses In Kingdom Of Saudi Arabia, The Uae, Qatar, Kuwait, Sultanate Of Oman, And Bahrain Optimize Their Production Lines. Whether You Want To Scale Output, Improve Product Quality, Or Create A Safer Work Environment, Integrating A Kuka Robot Into Your Facility Offers A Distinct Competitive Advantage.
865	KINOVA	CANADA	6-E23	We Specialize In Providing Premier Collaborative And Assistive Robotic Platforms Designed For The Industrial, Research, And Healthcare Sectors. By Partnering With Us, You Gain Access To State-Of-The-Art Kinova Robotics, Backed By Local Expertise And Comprehensive Support.
866	FAIRINO	CHINA	6-E23	Ednex Automation Brings Cutting-Edge Fairino Robotics To Facilities Across The Gcc, Empowering Businesses To Scale Operations, Improve Safety, And Maximize Efficiency. Whether You Operate In The United Arab Emirates, Kingdom Of Saudi Arabia, Qatar, Sultanate Of Oman, Kuwait, Or Bahrain, Our Advanced Industrial Automation Solutions Provide The Precise Tools You Need To Build A More Resilient And Profitable Production Line.
867	EVS	CHINA	6-E23	Ednex Automation Stands At The Forefront Of This Industrial Shift, Delivering State-Of-The-Art Evs Robotics Designed To Meet The Rigorous Demands Of Modern Manufacturing.
868	AGILE-X	CHINA	6-E23	Whether You Run A Large Manufacturing Plant Or An Academic Research Laboratory, Bringing An Agilex Robot Into Your Facility Gives You A Massive Advantage.
869	VIGGO	CHINA	6-E23	The Viggo S100-N Is A Fully Autonomous Outdoor Sweeping Robot Designed For Large Outdoor Environments — Roads, Plaza Fronts, Industrial Sites, Airport Aprons, University Campuses, And Public Parks

870	LEGEND ROBOT	CHINA	6-E23	Concrete Floor Preparation — Grinding, Leveling, And Surface Finishing — Is A Prerequisite For Flooring Installation, Epoxy Coating, And Polished Concrete Applications Across Construction And Facility Refurbishment Projects.
871	WeRide	CHINA	6-E23	Aintaining Clean Roads, Pathways, Parking Areas, And Public Outdoor Spaces At Scale Demands Continuous Manpower And Significant Operational Cost.
872	Elasdo_Elasdo Fire Fighting Equipment Manufacturing LLC	UNITED ARAB EMIRATES	7-C23	Ro High Pressure Pumps
873	Power Centre	UNITED ARAB EMIRATES	7-C23	High Quality And Efficient Energy Recovery Devices For Reverse Osmosis (Sea And Brackish Water)
874	Duplex	UNITED ARAB EMIRATES	7-C23	High Quality And Efficient High Pressure Pumps
875	Electric Way Fzco	UNITED ARAB EMIRATES	SS-D23	Lighting Equipment & Requisties Trading, Wires & Cables Tradmg, Light Fittings & Fixtures Trading, Electrical Fitting
876	Ducab	UNITED ARAB EMIRATES	SS-D23	Premier Manufacturer Of High-, Medium-, And Low-Voltage Copper And Aluminium Power Cables And Metal Products
877	Nexans	FRANCE	SS-D23	Nexans Is A Global Industrial Leader In Cable Manufacturing, Energy Transmission, Grid Interconnection, And Smart Electrification Solutions
878	Top Cable	SPAIN	SS-D23	Top Cable Is A European Manufacturer Of Low- And Medium-Voltage Electrical Cables, Flexible Rubber Cables, And Halogen-Free Fire-Safe Wires
879	OMAN CABLES	SULTANATE OF OMAN	SS-D23	Leading Publicly Listed Regional Manufacturer Of Electrical Power Cables, Building Wires, And Conductors (Now Strategically Partnered With Prysmian)
880	PCE	AUSTRIA	SS-D23	Specializes In The Development And Production Of Cee Industrial Plugs, Sockets, And Mobile Power Distribution Systems
881	Kopex	UNITED KINGDOM	SS-D23	Kopex Is Known Worldwide For Metallic And Non-Metallic Flexible Cable And Data Conduit Protection Systems
882	Tridonic	AUSTRIA	SS-D23	Tridonic Is A Global Provider Of Smart Lighting Technology, Led Drivers, Modules, And Lighting Management Systems
883	HellermannTyton	GERMANY / UNITED KINGDOM	SS-D23	It Is A Global Manufacturer Of Systems For Fastening, Fixing, Identifying, And Protecting Electrical And Data Cables.
884	TE Connectivity	UNITED STATES OF AMERIVA / IRELAND	SS-D23	Global Technology Leader Designing Connectivity Solutions, Terminal Blocks, Sensors, And Heat-Shrink Products For Harsh Environments.
885	Mennekes	GERMANY	SS-D23	Family-Owned Global Specialist In Industrial Plugs, Heavy-Duty Receptacles, And E-Mobility Charging Infrastructure (Pioneering The Type 2 Ev Plug Standard)
886	ECOLINK	INDIA	SS-D23	Ecolink Offers Cost-Effective, Voltage-Fluctuation-Resistant Led Luminaires And Ceiling Fan Solutions
887	Signify	THE NETHERLANDS	SS-D23	Signify Is The World Leader In Conventional, Led, And Connected Internet-Of-Things (Iot) Lighting
888	ABB	SWITZERLAND	SS-D23	Multinational Technology Corporation Specializing In Electrification, Motion, Robotics, And Heavy Industrial Automation
889	LS Cables & Systems	SOUTH KOREA	SS-D23	Manufacturer Of Extra-High Voltage Underground Cables, Submarine Cables, And Telecommunication Networks
890	Partex Marking Systems	SWEDEN	SS-D23	Three-Generation, Family-Owned Global Manufacturer Of Wire, Cable, Pipe, And Component Identification/Marking Systems.
891	Phase 3	UNITED KINGDOM	SS-D23	
892	Axis	SWEDEN	SS-D23	Axis Is A Market Leader In Network Video Surveillance Cameras, Access Control, And Ip-Based Physical Security Systems
893	Electrical Industries Company	KINGDOM OF SAUDI ARABIA	GSP12	Based Holding Company Founded And Headquartered In Dammam, Kingdom Of Saudi Arabia. Eic Operates As The Parent Group For Major Manufacturers In The Electrical Equipment And Power Infrastructure Sector
894	Saudi Transformers Company (STC)	KINGDOM OF SAUDI ARABIA	GSP12	Power/Electricity
895	WESCOSA - Wahah Electric Supply Company of KINGDOM OF SAUDI ARABIA	KINGDOM OF SAUDI ARABIA	GSP12	Power/Electricity
896	SPTC-Saudi Power Transformers Company	KINGDOM OF SAUDI ARABIA	GSP12	Power/Electricity

897	CGPSSA - CG Power Systems KINGDOM OF SAUDI ARABIA	KINGDOM OF SAUDI ARABIA	GSP12	Power/Electricity
898	Pauwels Transformers N.V	Belgium		An Established European Electrical Equipment Engineering And Transformer Manufacturer Acquired By Eic In April 2021
899	Electrolytic Technologies Systems (ETS)	UNITED STATES OF AMERICA	6-F3	A Global Engineering, Design, And Manufacturing Company Specializing In On-Site Chlor-Alkali And Electrochemical Generation Equipment
900	Electrolytic Technologies Middle East LLC FZ	UNITED ARAB EMIRATES	6-F3	The Regional Subsidiary Or Free-Zone Entity Established To Support Engineering Delivery, Project Execution, And Client Services For The Middle East And North Africa (Mena) Market
901	Klorigen™: The primary flagship brand and proprietary technology of ETS	UNITED STATES OF AMERICA	6-F3	Municipal Water And Wastewater Treatment, Power Plants, Oil And Gas Operations, Pulp And Paper Manufacturing, And Industrial Disinfection
902	ET Energies	UNITED STATES OF AMERICA	6-F3	A Dynamic Spin-Off Brand Of Ets That Applies The Same Industrial Electrochemical Expertise To Pem (Proton Exchange Membrane) Electrolyzer Systems
903	Embosal Steel Mills LLC	UNITED ARAB EMIRATES	SSP16	Steel Pipe Manufacturer
904	Embosal Tube Mills LLC	UNITED ARAB EMIRATES	SSP16	Specialist Manufacturer Of Large-Scale And Jumbo Steel Tubes, Lsaw, Ssaw, And Erw Pipes Located In Ras Al Khaimah.
905	Coremetal Industries LLC / Core Metal Industry LLC	UNITED ARAB EMIRATES	SSP16	Focuses On Heavy Steel Fabrication, Metal Processing, And Machine Shop Operations.
906	CorePac Packaging LLC / CorePac Industries LLC	UNITED ARAB EMIRATES	SSP16	Handles Packaging Disposables And Related Manufacturing Lines.
907	Core Metal LLC	UNITED ARAB EMIRATES	SSP16	Operates As A Major Steel Stockist.
908	Core Metallic Ind. L.L.C	UNITED ARAB EMIRATES	SSP16	Dedicated Divisions For Steel Fabrication And Metal Processing.
909	ASMECO Fire Protection LLC & ASMECO Coating Ind. L.L.C	UNITED ARAB EMIRATES	SSP16	Affiliated Industrial Protection And Coating Manufacturing Entities.
910	Core Metal Technical Services LLC	UNITED ARAB EMIRATES	SSP16	Provides Technical And Engineering Support Services.
911	Core Metal Expansion Factory LLC	UNITED ARAB EMIRATES	SSP16	Specialized Manufacturing Extension Plant
912	Emerson Automation Solutions	UNITED ARAB EMIRATES	SS-F23	Control Valves And Desuperheaters
913	PACSystems™	UNITED STATES OF AMERICA	SS-F23	Unite Industrial-Grade Control With Ai-Ready Edge Intelligence And Intuitive Software Tools For Smarter, More Efficient Operations.
914	AEV™	BELGIUM	SS-F23	High Performance Ball Valve Technology For Cryogenic And Critical Service Isolation Applications
915	Afag	SWITZERLAND	SS-F23	High-Precision Handling And Feeding Solutions Engineered To Drive Performance And Reliability In Automation Systems Worldwide.
916	AMS	UNITED STATES OF AMERICA	SS-F23	Asset Monitoring And Health Analysis Solutions That Help You Proactively Manage Your Assets To Improve Reliability.
917	Anderson Greenwood	UNITED STATES OF AMERICA	SS-F23	Comprehensive Portfolio Of Pressure Management Solutions
918	Aperio	UNITED STATES OF AMERICA	SS-F23	Aperio Software Rovides A Single Point Overview Of Your Ship'S Systems, Which Improves Your Ability To Plan, Control, Monitor And React To Alarms.
919	Appleton	UNITED STATES OF AMERICA	SS-F23	Trusted Electrical Products Designed To Protect People, Equipment, And Facilities By Providing Exceptional Safety And Reliability In The Harshest Environments.
920	ASCO	UNITED STATES OF AMERICA	SS-F23	Wherever Manufacturing Or Processing Happens, Asco Fluid Control Products Set The Standard For Helping Customers Maximize Efficiencies, Optimize Applications, And Transform Ideas Into Measurable Outcomes.
921	AVENTICS	GERMANY	SS-F23	Trusted Pneumatic Solutions Delivering Steadfast And Long-Lasting Operation For Industrial Applications With Industry Leading Iot Connectivity.
922	Baumann™	UNITED STATES OF AMERICA	SS-F23	Solutions Designed To Meet The Stringent Demands Of Today'S State-Of-The-Art Facilities
923	Bettis™	UNITED STATES OF AMERICA	SS-F23	The Comprehensive Bettis Product Portfolio Features Safe, Reliable And Field-Proven Electric, Hydraulic And Pneumatic Actuators
924	Biffi™	ITALY	SS-F23	Global Standard And Customized Actuation And Control Solutions
925	Branson	UNITED STATES OF AMERICA	SS-F23	Whether It'S Creating The Perfect Join Or Producing An Immaculate Part, Branson Material Joining And Precision Cleaning Solutions Make It Possible For Machine Builders And Manufacturers To Quickly And Economically Adapt To The Latest Trends, From Packaging To Medical To Automotive Applications.

926	Cash Valve	UNITED STATES OF AMERICA	SS-F23	Reliable Pressure Control Devices Suitable For A Wide Range Of Process Media Including Steam, Air, Liquids, And Process Gases For Both Industrial And Cryogenic Service.
927	Clarkson	UNITED STATES OF AMERICA	SS-F23	Reliable, Cost-Effective Solutions For Slurry And Abrasive Applications
928	CompactDAQ Systems	UNITED STATES OF AMERICA	SS-F23	Measure With Confidence And Meet Requirements Across Any Distance And In Any Environment With Modular And Flexible Compactdaq Systems.
929	Crosby	UNITED STATES OF AMERICA	SS-F23	Direct Spring-Operated Pressure Relief Valves For Various Applications
930	Damcos	DENMARK	SS-F23	Specifically Engineered For Marine Customers Who Need Compact, High Performance Actuators That Are Energy-Efficient, Reliable And Require Minimal Maintenance.
931	DeltaV	UNITED STATES OF AMERICA	SS-F23	Streamline Your Operations And Improve Productivity With Comprehensive, Versatile, And Advanced Industrial Automation Solutions
932	EL-O-Matic™	THE NETHERLANDS	SS-F23	Heavy Duty Pneumatic Valve Actuators
933	Enardo™	UNITED STATES OF AMERICA	SS-F23	Vapor Control Equipment For Liquids And Gases
934	Fisher	UNITED STATES OF AMERICA	SS-F23	Highly Reliable Flow Control Technologies Help You Regulate And Isolate Your Processes With Certainty.
935	Flexim	GERMANY	SS-F23	Leading Non-Intrusive, Clamp-On Ultrasonic Flow Meters For Liquids, Gases, And Steam
936	Greenlee	UNITED STATES OF AMERICA	SS-F23	For Over 150 Years, Greenlee® Has Been Elevating The Industry Standards Through Delivering Innovative Products And Solutions To Drive Efficiencies And Improve Safety To Meet The Demands And Needs Of Our Customers.
937	Guardian	UNITED STATES OF AMERICA	SS-F23	Guardian™ Brings Together Software, Services, Cybersecurity, And Data-Driven Insights To Help You Reduce Risk, Strengthen Performance, And Create More Value Across Your Operations.
938	Gulde	GERMANY	SS-F23	Gulde Provides Innovative And Proven Solutions To Help Customers Improve Their Processes, Improve Control Performance, And Enhance Market Competitiveness.
939	Hytork	UNITED STATES OF AMERICA	SS-F23	An Actuation Valve Protection System That Provides Reliable, Cost-Effective End-Stroke Damping And Premature Valve Failure, Leakage And Fugitive Emissions.
940	Keystone	UNITED STATES OF AMERICA	SS-F23	Butterfly Valves With Reliable And Robust Construction
941	KLAUKE	GERMANY	SS-F23	Klauke Is Renowned For Its High-Quality, Electrical Connection Technology And Tools For Crimping, Cutting And Punching.
942	KTM	JAPAN	SS-F23	Proven Valve Solutions For Optimal Process Performance
943	Kunkle	UNITED STATES OF AMERICA	SS-F23	Top Industrial And Commercial Safety Relief Valve For Cryogenic Or High Temperature Environments.
944	Lunkenheimer	UNITED STATES OF AMERICA	SS-F23	Premium Isolation Valves Designed And Engineered For Severe Service Applications Where Scale And Erosion Are Present
945	Micro Motion	UNITED STATES OF AMERICA	SS-F23	Superior Coriolis, Density And Viscosity Measurement Technology Provides Customers With The Confidence And Insight To Continuously Improve The Safety And Efficiency Of Their Most Critical And Challenging Applications.
946	Movicon	ITALY	SS-F23	Innovative, Flexible Software Solutions To Supervise And Analyze Overall Equipment Effectiveness And Attain Optimal Performance, From Small Iiot To Full Plant Control.
947	Nelson	UNITED STATES OF AMERICA	SS-F23	Heat Trace Systems And Firestop Solutions Designed To Maintain Process Temperatures, Avoid Freezing And Protect Marine Vessels, Oil Rigs, And Other Industrial Facilities Against Fire, Smoke, Water, And Explosions.
948	Neotecha	SWITZERLAND	SS-F23	Superior Valves And Fittings For Highly Corrosive Applications.
949	NI	UNITED STATES OF AMERICA	SS-F23	Open And Scalable, The Ni Platform Accelerates Innovation, Enhances Productivity, And Transforms How Engineers Automate Measurement, Control, And Testing Of Increasingly Complex Products.
950	NI CompactRIO Systems	UNITED STATES OF AMERICA	SS-F23	Build And Deploy Real-Time Applications With Signal-Conditioned I/O Modules Using An Integrated Software Toolchain.

951	NI FlexRIO	UNITED STATES OF AMERICA	SS-F23	Flexrio Instruments Combine Large, User-Programmable Fpgas And High-Performance Analog, Digital, And Rf I/O To Offer The Flexibility Of Custom Hardware Without The Cost Of Custom Design.
952	NI LabVIEW	UNITED STATES OF AMERICA	SS-F23	Labview Is A Graphical Programming Environment That Provides Unique Productivity Accelerators For Test System Development—Such As An Intuitive Approach To Programming, Connectivity To Any Instrument, Fully Integrated User Interfaces, And The Test-Optimized Ni Nigel™ Ai.
953	Ovation Green	UNITED STATES OF AMERICA	SS-F23	Optimize Renewable Energy Asset Operations With Reliable And Purpose-Built Software And Automation Solutions.
954	Ovation™	UNITED STATES OF AMERICA	SS-F23	A Reliable And Scalable Ovation Automation Platform Embodying Emerson'S Six Decades Of Power And Water Expertise.
955	Paine	UNITED STATES OF AMERICA	SS-F23	Highly Accurate, State-Of-The-Art Pressure Instrumentation, Pressure Transmitters, Pressure Transducers And Temperature Sensors For Some Of The World'S Most Vital And Technologically-Advanced Industries.
956	Plantweb Insight	UNITED STATES OF AMERICA	SS-F23	Data Analytics Software That Provides Better Visibility Into The Health Of Your Facility'S Key Assets.
957	ProTeam	UNITED STATES OF AMERICA	SS-F23	Proteam Vacuums Is The Leader In Lightweight Backpack Vacuums. Maintenance Crews Consistently Find Proteam Vacuums Save Time, Money, And Resources While Improving Indoor Air Quality.
958	PXI Systems	UNITED STATES OF AMERICA	SS-F23	Build High-Performance, Mixed-Measurement Test Systems With The Easy-To-Scale Ni Pxi Platform.
959	RIDGID	UNITED STATES OF AMERICA	SS-F23	Ridgid®, A Leading Manufacturer Of Innovative Tools For The Professional Trades, Offers Reliable And Durable Equipment To Get Jobs Done Right The First Time.
960	Rosemount™	UNITED STATES OF AMERICA	SS-F23	Continuously Improve The Safety, Reliability, Productivity And Sustainability Of Your Operations With Field-Proven Rosemount Measurement Technologies.
961	Roxar	NORWAY	SS-F23	Continuous, Reliable And Actionable Data Informing Production Optimization And Integrity Decisions
962	Sempell™	GERMANY	SS-F23	Control, Safety, And Isolation Valves For Steam Applications
963	Shafer™	UNITED STATES OF AMERICA	SS-F23	Valve Actuation Technologies For Various Industries
964	SolaHD	UNITED STATES OF AMERICA	SS-F23	Power Quality Solutions Designed To Keep Production Lines Moving And Protect People, Equipment, And Information.
965	Spectrex	UNITED STATES OF AMERICA	SS-F23	Spectrex Is The Leading Manufacturer Of Flame And Open Path Gas Detectors.
966	Spence Valve	UNITED STATES OF AMERICA	SS-F23	The Spence Portfolio Includes Steam Traps, Regulators, And Steam Specialties For Hvac, Commercial, Institutional, And Critical Applications.
967	Tartarini	ITALY	SS-F23	Pressure Regulators Are Used In The Design, Production And Installation Of Regulating And Metering Stations, And Odorization Systems For The Natural Gas Industry.
968	TESCOM	UNITED STATES OF AMERICA	SS-F23	Precision Flow And Pressure Control Regulators And Valves That Can Be Customized To Meet The Needs Of Critical Industries Worldwide.
969	TopWorx	UNITED STATES OF AMERICA	SS-F23	Discrete Valve Control And Position Sensing Technology Provides Absolute Assurance In The Most Challenging Applications By Increasing Process Efficiency, Profitability And Success.
970	Vanessa	ITALY	SS-F23	Advanced Valve Technology That Outperforms Traditional Designs With Improved Durability, Reliability And Cost-Effectiveness.
971	WORKSHOP Vacs	UNITED STATES OF AMERICA	SS-F23	Workshop Wet Dry Vacuums Are Customer Focused Shop Vacs For Diy Projects, Job Sites, Emergencies, Or As An Pantry Or Auto Vac.
972	Yarway	UNITED STATES OF AMERICA	SS-F23	Reliable Performance And Proven Technology For Pump Protection And Steam Solutions.
973	Yarway™	UNITED STATES OF AMERICA	SS-F23	Reliable Performance And Proven Technology For Pump Protection And Steam Solutions
974	Emerson Professional Tools Business Unit	UNITED ARAB EMIRATES	6-C2	Manufacturing
975	Emirates Environmental Group (EEG)	UNITED ARAB EMIRATES	7-E16	Focused On Protecting The Environment, Raising Sustainability Awareness, Driving Community Involvement, And Implementing Practical Waste Management Solutions

976	Emirates Industrial Filters Co LLC	UNITED ARAB EMIRATES	6-A23	Industrial & Environmental Filtration Manufacturer
977	ECCF - Emirates Calcium Carbonate Factory	UNITED ARAB EMIRATES	6-A23	Our Uncoated Natural Calcium Carbonates Products Are Manufactured From Calcium Carbonate Procured From High Quality Selected Sources.
978	ETST Engineering	UNITED ARAB EMIRATES	6-A23	E.T.S.T Engineering Provides A Complete Turnkey Package Of Lean Manufacturing Solutions Including Line Design, Specification, Procurement, And Construction. We Have A Wide Range Of Technological Solutions For All Types Of Bulk Material Handling, Storage, Blending, And Packing
979	Ghaf Polymers Plastic Industries LLC	UNITED ARAB EMIRATES	6-A23	Reliable Plastic Solutions: Versatile, Ready To Deliver And Priced To Perform
980	Donaldson Filtration Solutions	UNITED ARAB EMIRATES	6-A23	Advancing Filtration For A Cleaner World
981	Borouge	UNITED ARAB EMIRATES	6-A23	The Unique Borealis Borstar® Process And Catalyst Technology Enables Borouge To Provide A Differentiated Range Of Polyethylene And Polypropylene Innovative Solutions For Infrastructure, Energy, Mobility, Advanced Packaging, Healthcare And Agriculture Sectors.
982	Reach Digital Services	UNITED ARAB EMIRATES	6-A23	
983	KIZAD Group - Khalifa Industrial Zone	UNITED ARAB EMIRATES	6-A23	Kezad Group, Part Of The Economic Cities & Free Zones Of Ad Ports Group, Is The United Arab Emirates'S Largest Operator Of Fully Integrated Economic Zones, Business Services, Staff Accommodation And Industrial Real Estate Solutions.
984	Emirates Robotics LLC	UNITED ARAB EMIRATES	SS-P4	Supply, distribution, and servicing of industrial flow control valves, actuators, controls, pipes, fittings, pipeline accessories, and custom automation/robotic systems
985	TTV-JC	SPAIN	SS-P4	Butterfly Valves, Gate Valves, Non Return Valves, Ball Valves, Dismantling Joint, Flange Adaptor

991	NOVA SERIA		SS-P4	Jointing, Repairing & Hot Tapping System
992	ARPOL		SS-P4	Repair Couplings For Various Pipes
993	KOMPLEX		SS-P4	Radio Assisted Pipeline Markers
994	ACTREG		SS-P4	Pneumatic, Hydraulic Actuators
995	Kennedy		SS-P4	Ul/Fm Valves & Hydrants
996	EXPOGAS		SS-P4	Fabricated Engineering Products
997	Guergenler		SS-P4	Forged Flanges And Fittings
998	Emirates Science Club	UNITED ARAB EMIRATES	2-F20	Train The Children And Young People In Order To Discover Their Talents
999	Emirates Transformer & Switchgear Ltd	UNITED ARAB EMIRATES	SSP6	Transformer Manufacturing
1000	Patel Trading Company	UNITED ARAB EMIRATES	SSP16	The Grandfather Corporation And Anchor Entity Of The Group. It Acts As A Major Supplier And Distributor Of Mission-Critical Electrical Assets—Such As Power Transformers, Cables, Switchgear, And Power Distribution Systems—Servicing Government Utilities, Construction, And Oil & Gas Sectors Across The Gcc And Africa
1001	IEO	THE NETHERLANDS	SSP16	A Long-Standing European Electrical Manufacturer That Designs And Engineers High-Performance Liquid Distribution Transformers Operating Under International Iec Manufacturing Standards
1002	HS Switchgear	UNITED ARAB EMIRATES	SSP16	A Primary Manufacturing Firm That Produces Indoor Medium-Voltage (Mv) And Low-Voltage (Lv) Electrical Distribution Switchgear Panels, Operating Under A Technological License From The Renowned Uk Developer Hawker Siddeley Switchgear Ltd

1003	PAN Africa	KENYA	SSP16	An African-Based Manufacturing Branch Dedicated To Producing And Repairing High-Efficiency Distribution Transformers And Switchgear Equipment Built Specifically To Withstand Regional Climate Demands And Electrical Grid Configurations
1004	ETS Energo	ETHIOPIA	SSP16	A Strategic Manufacturing Arm Of The Group Deployed In East Africa That Builds Sub-Station Infrastructure Equipment, Including Power Transformers, To Empower Localized Grid Development
1005	HS Energy	UNITED ARAB EMIRATES	SSP16	An Eco-Friendly, Green-Technology Division Of The Group Tasked With Engineering And Distributing Efficient Commercial Indoor And Outdoor Led Lighting Systems
1006	Skipper ETS Electric	NIGERIA	SSP16	A 50:50 Commercial And Industrial Joint-Venture Between Skipper T&D Dmcc And Emirates Transformer & Switchgear. The Company Locally Manufactures Iec-Standard Distribution Transformers, Metering Cubicles, And Sub-Station Gear For West African Utility Providers
1007	Emirates Technical Services	UNITED ARAB EMIRATES	SSP16	A Regional Manufacturing And Support Branch Specialized In Supplying Technical Design, Testing, And Physical Integration Services For Complex Electrical Grid Assemblies
1008	Abdulla Al Madani Trading Co	UNITED ARAB EMIRATES	SSP16	A Major Trading Entity That Orchestrates The Supply And Single-Window Procurement Of Large-Scale Power Transformers, Heavy-Duty Electrical Cables, And Medium-Voltage Switchgear For Commercial Grid Infrastructure
1009	Nasser & Saif Trading Co. llc	SULTANATE OF OMAN	SSP16	The Omani Trading And Distribution Extension Of The Patel Group Network, Supplying Local Utility Firms With Electrical Conduits, Distribution Transformers, Power Cables, And Accessory Hardware
1010	Techno LED UNITED STATES OF AMERICA	UNITED STATES OF AMERICA	SSP16	An International Commercial Trading Office That Leads The Distribution Of Green Lighting Technology, Industrial Led Fixtures, And Related Sustainable Energy Solutions To North American And Global Projects
1011	Empower (Emirates Central Cooling Systems Corporation PJSC)	UNITED ARAB EMIRATES	SSP17	District Cooling Services Provider
1012	Emirates Central Cooling Systems Corporation PJSC (Empower)	UNITED ARAB EMIRATES	SSP17	District Cooling Services Provider
1013	Empower Insulated Pipe Systems (ELIPS)	UNITED ARAB EMIRATES	SSP17	Insulated Pipe Systems
1014	Emtelle UAE	UNITED ARAB EMIRATES	6-E3	Manufacturer For Telecoms/ Power Utilities
1015	PowerProtect+™	UNITED KINGDOM / GERMANY / UAE	6-E3	Powerprotect™ Ducting Solutions Offer Robust Protection For Power Cables. These Upvc And Pe Ducts Ensure Strong, Flexible, And Impact-Resistant Performance.
1016	FibreFlow™	UNITED KINGDOM / GERMANY / UAE	6-E3	Fibreflow™ Air Blown Fiber Solutions Provide A Flexible And Efficient Method For Deploying Fiber Optic Networks. These Solutions Enable Rapid Installation, Future-Proof Design And Easy Scalability, Reducing Both Time And Costs. Ideal For Various Applications.
1017	FibreFast™	UNITED KINGDOM / GERMANY / UAE	6-E3	Fibrefast™ Cable Range Includes An Innovative Range Of Fiber Optic Cables, Designed To Serve Diverse Applications. These Cables Ensure Fast, Efficient Installations And Reliable Performance. Fibrefast™ Provides Versatile Cable Solutions For Modern Telecoms Infrastructure.
1018	QWK-Range™	UNITED KINGDOM / GERMANY / UAE	6-E3	Qwk-Range™ Offers Pre-Connectorized Fiber Solutions For Efficient, Easy Installation. These Products Eliminate Blowing Or Splicing, Reducing Time And Costs. Ideal For Various Network Architectures, Qwk-Range Ensures Reliable, High-Performance Connectivity For Modern Telecommunications.
1019	QWKconnect™	UNITED KINGDOM / GERMANY / UAE	6-E3	Qwkconnect™ Is A Pre-Fibered Drop Duct System With A Pre-Connectorized Blown Fiber Cable. These Products Offer A Quick And Innovative Optical Connection For Use With Various Network Architectures.
1020	EM-Finity	UNITED KINGDOM / GERMANY / UAE	6-E3	Fiber Optic Splice Closures Are Crucial For Accommodating Numerous Microducts Cables And Splices, Making Network Expansion Complex. Em-Finity Simplifies This With An Intuitive, Environmentally Friendly, And Color-Coordinated Design, Ensuring Quality And Scalability For Future Growth.

1021	DropDrive™	UNITED KINGDOM / GERMANY / UAE	6-E3	Dropdrive™ Is A Drill-Assisted Pushing Machine For Installation Of Emtelle Revolink3 Cable. Achieving Up To 300 Meters (1,000 Feet) With Revolink3™ Drop Cable, It Ensures Rapid, Efficient Deployment. Its Ease Of Use And Portability Make It Accessible For All Installers, Significantly Reducing Deployment Complexity.
1022	Fiber in Tube™	UNITED KINGDOM / GERMANY / UAE	6-E3	Fiber In Tube™ (Fit) Pre-Fibered Solutions Offer A Revolutionary Approach To Fiber Optic Installations With Pre-Installed Fiber Microcables In Microducts, Eliminating The Need For Blowing Equipment And Reducing Time And Costs. Suitable For Indoor And Outdoor Use, Fit Ensures Rapid Deployment, Easy Maintenance, And Future-Proof Scalability For Modern Networks.
1023	RTRYVA™	UNITED KINGDOM / GERMANY / UAE	6-E3	Rtryva™ Is A High-Density Pull-Back Fiber Optic Cable For Flexible Fttx Solutions. It Allows Quick Access And Branching With Minimal Tools And Training. Featuring Pre-Installed Loose Fiber Units In A Pe Microduct, Rtryva™ Ensures Rapid Installation And Reliable Connectivity Without Blowing Equipment.
1024	MULTIFU™	UNITED KINGDOM / GERMANY / UAE	6-E3	Multifu™ Is A Protected Microduct Bundle With Pre-Installed Fiber Units For Quick, Efficient Installation. It Reduces The Need For Specialist Equipment, Speeds Up Rollout, And Lowers Skill Requirements. Multifu™ Minimizes Capex Per Home Passed And Connected From Day One. Ideal For Ftth And 5G Networks.
1025	PIFU™	UNITED KINGDOM / GERMANY / UAE	6-E3	Pifu™ Features Pre-Installed Fiber Microcables In Microducts, Eliminating The Need For Blowing Equipment And Reducing Installation Time And Costs. Designed For Rapid Deployment And Easy Maintenance, Pifu™ Ensures Reliable Connectivity And Future-Proof Scalability.
1026	EM-Range	UNITED KINGDOM / GERMANY / UAE	6-E3	Em-Range, High-Quality Accessories Designed For Easier Installs. Designed And Developed Exclusively By Emtelle. A Network Is Only As Strong As Its Smallest Components.
1027	REVOLink3™	UNITED KINGDOM / GERMANY / UAE	6-E3	Emtelle'S Revolink3™, Pre-Tested In House, 3-In-One Cable Offering A Quick And Hassle-Free Fttx Installation, Focused On Connecting Subscribers. Featuring A State-Of-The-Art Sheath Em-Glide For Optimum Installation Speed. Streamlining The Installation Process.
1028	Endress+Hauser	UNITED ARAB EMIRATES	AR-M8	Instrumentation & Solutions For Www Industry
1029	Memosens CC55E	SWITZERLAND / GERMANY	AR-M8	Memosens Sensor For Seawater Applications And Process Water
1030	Proline Teqwave MW 300 - Total Solids Meter	SWITZERLAND / GERMANY	AR-M8	Inline Measuring Device For Total Solids Measurement In Wastewater Sludge With A Compact, Easily Accessible Transmitter
1031	Proline Teqwave MW 500 - Total Solids Meter	SWITZERLAND / GERMANY	AR-M8	Inline Measuring Device For Total Solids Measurement In Wastewater Sludge As Remote Version With Up To 4 I/Os
1032	Liquiline Edge Module CYY7	SWITZERLAND / GERMANY	AR-M8	Connectivity Device For The Liquiline Platform For All Industries
1033	Memobase Pro CZL81	SWITZERLAND / GERMANY	AR-M8	Node-Locked Licensed Software For Documentation, Reporting And Monitoring Of Your Memosens Sensors
1034	Liquiline Mobile CML18 - Multiparameter handheld	SWITZERLAND / GERMANY	AR-M8	Mobile Device For Ph/Orp, Conductivity, Oxygen And Temperature Measurement In All Industries
1035	Proline Promag W 800 - Electromagnetic Flowmeter	SWITZERLAND / GERMANY	AR-M8	Long-Lasting Battery-Powered Magmeter With Secure System Integration And Communication
1036	Waterpilot FMX11 - Hydrostatic Level measurement	SWITZERLAND / GERMANY	AR-M8	Simple And Reliable Level Probe For Freshwater Applications
1037	Waterpilot FMX21 - Hydrostatic Level measurement	SWITZERLAND / GERMANY	AR-M8	Reliable And Robust Level Probe With Ceramic Measuring Cell And Hart
1038	Prosonic FMU30 - Ultrasonic measurement Time-of-Flight	SWITZERLAND / GERMANY	AR-M8	Cost Effective All-Round Instrument For Level Applications In Liquids And Bulk Solids
1039	RIA452 process indicator with pump control unit	SWITZERLAND / GERMANY	AR-M8	4-Wire Process Indicator With Pump Control Unit For Front Panel Mounting With One Universal Sensor Input And Up To 8 Relay Outputs
1040	Proline Promag W 400 - electromagnetic flowmeter	SWITZERLAND / GERMANY	AR-M8	Versatile Standard Flowmeter For The Water And Wastewater Industry
1041	Proline Prosonic Flow B 200 ultrasonic flowmeter	SWITZERLAND / GERMANY	AR-M8	The Device For Accurate, Reliable Biogas Measurement With Loop-Powered Technology
1042	Proline Prosonic Flow G 300 ultrasonic flowmeter	SWITZERLAND / GERMANY	AR-M8	Highly Robust Gas Specialist For Fluctuating Conditions With Compact, Easily Accessible Transmitter

1043	Proline Prosonic Flow G 500 ultrasonic flowmeter	SWITZERLAND / GERMANY	AR-M8	Highly Robust Gas Specialist For Fluctuating Process Conditions As Remote Version With Up To 4 I/Os
1044	Liquiline CM42B - 1-channel transmitter	SWITZERLAND / GERMANY	AR-M8	Two-Wire Field Device For Hazardous And Non-Hazardous Areas And Hygienic Applications In Chemical, Life Sciences And Food & Beverage Industries
1045	Memosens CPS16E - Digital combined pH/ORP sensor	SWITZERLAND / GERMANY	AR-M8	Memosens 2.0 Glass Electrode For Standard Applications In Process And Water & Wastewater Industries
1046	iTEMP TMT31 temperature transmitter	SWITZERLAND / GERMANY	AR-M8	4-20 Ma Temperature Transmitter As Head Or Din Rail Device With One Rtd Or One Tc Sensor Input Suitable For Use In Zone 2 (Ex Ec) / Div. 2 Areas
1047	iTHERM ModuLine TM111 / TM151 / TM 152 / TM611 - Industrial modular thermometer	SWITZERLAND / GERMANY	AR-M8	Metric Rtd/Tc Direct Contact Thermometer For A Wide Range Of Industrial Applications
1048	Energy Recovery	UNITED STATES OF AMERICA	5-A8	Energy Efficiency Technology
1049	PX TECHNOLOGY	UNITED STATES OF AMERICA	5-A8	Our Revolutionary Px® Pressure Exchanger® Is Recognized Globally As A Trusted, Reliable, High-Performing Energy Efficiency Device.
1050	PX® Pressure Exchanger® Combo	UNITED STATES OF AMERICA	5-A8	The Px Combo Pairs The Px Pressure Exchanger, The Most Widely Adopted Energy Recovery Device In Reverse Osmosis, With The Hp High-Pressure Booster Pump In A Single, Purpose-Built Package.
1051	PX Q650: Advancing the Gold Standard	UNITED STATES OF AMERICA	5-A8	The Px Q650 Is Our Highest Capacity Pressure Exchanger, Delivering Best In Class Performance From Our Trusted Px® Pressure Exchanger® Technology With Up To 99% Peak Efficiency.
1052	HPXP High-Pressure Centrifugal Booster Pump	UNITED STATES OF AMERICA	5-A8	Engineered Specifically For The Demanding Requirements Of The Seawater Reverse Osmosis (Swro) And Brackish Water Reverse Osmosis (Bwro) Market, The Hpxp High-Pressure Booster Pump Delivers Robust Performance Under Extreme Pressure Conditions.
1053	CPXP™ Pumps	UNITED STATES OF AMERICA	5-A8	The Cpxp Axial Piston Pump Is A Positive Displacement Pump Purpose-Built For High Pressure And Corrosive Environments. Designed With A Compact Footprint And Robust Super Duplex Construction, It Is The Ideal Pumping Solution For Small To Mid-Scale Reverse Osmosis (Ro) Systems In Both Water And Wastewater Treatment.
1054	ATMP Pumps	UNITED STATES OF AMERICA	5-A8	The Atmp Range Of High-Pressure And Booster Pumps Are Primarily Used For Reverse Osmosis And Ultrafiltration Applications. The New Range Offers Efficiency Improvements Compared To Earlier Ranges.
1055	PX Pressure Exchanger for Reduced Energy Use in Lithium Applications	UNITED STATES OF AMERICA	5-A8	Lithium Demand Is Expected To Rise Rapidly To Serve The Energy Transition, Especially For Battery Production. Extracting And Processing Lithium Can Be Highly Water And Energy-Intensive, In Some Cases Requiring Limits On Wastewater Discharge To Meet Environmental Regulations.
1056	PX Q400	UNITED STATES OF AMERICA	5-A8	The Px Q400 Is A High Capacity Pressure Exchanger, Offering Best-In-Class Performance From Our Trusted Px® Pressure Exchanger® Technology With Up To 98% Efficiency.
1057	PX U Series for UHPRO	UNITED STATES OF AMERICA	5-A8	Energy Recovery'S Px U Series Is A Range Of Energy Recovery Devices Uniquely Designed For Ultra-High Pressure Reverse Osmosis (Uhpro) Systems To Provide A Sustainable Path To Water And Wastewater Treatment And Reuse.
1058	PX Q Series	UNITED STATES OF AMERICA	5-A8	Energy Recovery'S Px Pressure Exchanger Q Series Is A Range Of Energy Recovery Devices That Optimize High-Pressure Seawater Reverse Osmosis (Swro) And Wastewater Treatment Systems Over Various Flow Ranges For Maximum Energy Savings Of Up To 60%

1161	Exeed Geotextile -Sole Proprietorship LLC (Exeed Industries LLC)	UNITED ARAB EMIRATES	2-B20	A Specialized Manufacturing Brand Owned By Exeed Industries. Founded In 2009, It Produces Polypropylene/Polyester Needle-Punched Nonwoven Geotextiles And Staple Fibers Used Globally For Civil Engineering, Ground Stabilization, And Infrastructure Development.
1162	Exeed Industries	UNITED ARAB EMIRATES	6-C2	The Industrial Manufacturing Arm Of National Holding. It Manages A Diverse Portfolio Of Business Units Across The Uae And Jordan, Specializing In Building Materials, Engineering, Synthetic Fabrics, Electronics, And Consumer Goods.
1163	National Holding	UNITED ARAB EMIRATES	6-C2	A Leading Diversified Strategic Investment Holding Company Headquartered In Abu Dhabi. It Operates Across Multiple Sectors Including Industrial Manufacturing, Property Development, Financial Services, And General Investments.

1164	Faizal Al Arabia Measuring & Control Systems LLC	UNITED ARAB EMIRATES	6-C16	Oilfield & Natural Gas Equipment & Spare Parts Trading, Measuring & Control Systems Trading, Inspection
1165	PKP	GERMANY	6-C16	A Manufacturer Of Industrial Process Instrumentation And Automation Technology. Their Product Line Covers Devices To Measure, Monitor, And Control Flow, Liquid Levels, Temperature, And Pressure Across General Industry And Manufacturing Processes
1166	VAETRIX	UNITED STATES OF AMERICA	6-C16	A Manufacturer Known For Precision Digital Pressure Gauges, Digital Chart Recorders, Data Loggers, And Hydrostatic Pressure Testing Software Engineered For Oil And Gas Pipelines, Calibration Labs, And Industrial Process Applications
1167	WIKA	GERMANY	6-C16	A Global Engineering Leader In Measurement Technology, Widely Recognized For High-Precision Mechanical And Electronic Pressure And Temperature Gauges, Diaphragm Seals, Level Measurement Systems, Calibration Instruments, And Sf6 Gas Solutions
1168	STIKO	THE NETHERLANDS	6-C16	A Specialized Manufacturer Of Mechanical And Electronic Temperature And Pressure Instruments, Including Gas-Filled Dial Thermometers, Circular Chart Recorders, Subsea Pressure Gauges, Deadweight Testers, And Calibration Standards
1169	HiP High Pressure Equipment	UNITED STATES OF AMERICA	6-C16	A Manufacturer Of High-Pressure Valves, Fittings, Tubing, Reactors, And Pressure Vessels Engineered To Operate Safely In Extreme Pressure Environments Ranging Up To 150,000 Psi Across Chemical, Waterjet, And Oilfield Applications
1170	Taylor Valve Technology	UNITED STATES OF AMERICA	6-C16	A Manufacturer Of Flow Control Equipment, Including Safety Relief Valves (Srvs), Pressure Relief Valves (Prvs), Back Pressure Regulators, Pilot-Operated Valves, And Choke Valves For Oil And Gas Upstream And Midstream Operations.
1171	Palmer Wahl	UNITED STATES OF AMERICA	6-C16	An Industrial Instrumentation Pioneer (Combining Palmer Instruments And William Wahl Corp.) Specializing In Mechanical Circular Chart Recorders, Bimetal And Industrial Thermometers, Thermal Imaging Cameras, Temperature Calibrators, And Pyrometers
1172	Turbines INC	UNITED STATES OF AMERICA	6-C16	A Manufacturer Specializing In Liquid And Gas Turbine Flow Meters, Cryogenic Meters, Electronic Flow Monitors, And Batch Controllers Engineered For Oilfield Delivery, Custody Transfer, And Industrial Fluid Measurement
1173	Fantastic World LLC	UNITED ARAB EMIRATES	SS-M29	Telecommunications Engineering, Electrical Installation, 5G, Lte, In-Building Solutions (Ibs / Gsm), Fiber To The Home (Ftth), And Advanced Metering Infrastructure (Ami)

1203	FORT Engineering	UNITED ARAB EMIRATES	2-A20	Industrial Engineering & Reverse Engineering & Ferrator Water Treatment Technology
1204	FORT AUTOMATION	UNITED ARAB EMIRATES	2-A20	Industrial Equipment Manufacturing
1205	Fuse EV_Fuse EV Coversions LLC	UNITED ARAB EMIRATES	4-J6	Fuse Ev Conversions Llc Is An Engineering And Clean-Mobility Startup That Retrofits And Converts Internal Combustion Engine (Ice) Vehicles—Including Classic Cars, Commercial Fleets, Pickup Trucks, And Utility Vehicles—Into Electric Vehicles (Evs) Using Proprietary Plug-And-Play Electric Powertrains And Liquid-Cooled Battery Systems
1206	Galadari _GB Equipment Solutions Co LLC	UNITED ARAB EMIRATES	3-C4	A Major Heavy Equipment Dealership And Part Of The Galadari Brothers Group. Headquartered In Dubai, It Acts As A Premier Distributor Of Leading Global Construction Machinery And Industrial Equipment Across The Region.
1207	JCB	UNITED KINGDOM	3-C4	One Of The World'S Top Manufacturers Of Equipment For Construction, Agriculture, Waste Handling, And Demolition, Globally Renowned For Its Iconic Backhoe Loaders, Excavators, And Telehandlers.
1208	TEREX	UNITED STATES OF AMERICA	3-C4	A Prominent Global Manufacturer Of Materials Processing Machinery (Such As Crushers And Screeners) And Aerial Work Platforms, Serving Industries Like Construction, Infrastructure, Quarrying, And Mining.
1209	MARINI Fayat Group	ITALY	3-C4	A World Leader In The Manufacturing Of Asphalt Plants And Road Surfacing Machinery, Operating As A Specialized Brand Under The French Fayat Group Network.
1210	MEKA	REPUBLIC OF TURKIYE	3-C4	A Leading Global Manufacturer Specializing In Concrete Batching Plants, Crushing And Screening Equipment, And Ready-Mix Concrete Solutions.
1211	Moby Dick	SWITZERLAND	3-C4	A Premium Brand Owned By Frutiger Company Ag. It Is The Global Market Leader In Automated Site Emission Control Systems, Including Truck Wheel-Washing, Demucking, And Dust Suppression Systems.
1212	Brendon PowerWashers	UNITED KINGDOM	3-C4	A Well-Established British Manufacturer Specializing In Heavy-Duty, Industrial-Grade High-Pressure Power Washers, Bowser Washers, And Rugged Cleaning Equipment
1213	Auger Torque	UNITED KINGDOM	3-C4	Founded In The Uk And Now Part Of The Kinshofer Group, It Is A Global Market Leader In Earthmoving And Hydraulic Attachments, Such As Earth Drills, Auger Drives, And Trenchers
1214	BKT	INDIA	3-C4	A Leading Multinational Tire Manufacturer Specializing In The "Off-Highway" Segment, Producing Tires For Agricultural, Industrial, Construction, And Mining Vehicles.
1215	GAMA Security Systems LLC	UNITED ARAB EMIRATES	GSP14	A Dubai-Based Systems Integrator And Technology Contractor Specializing In Elv, Physical Security (Cctv, Access Control), Communications, And Automated Building Control Systems Across The Middle East
1216	ALFA Security Systems LLC	UNITED ARAB EMIRATES	GSP14	A Dubai-Based Security Provider And Systems Integrator (Part Of The Gamma Security Group) Delivering Electronic Security, Cctv, And Physical Access Control Installations For Government And Commercial Clients
1217	asis Technologies	SINGAPORE	GSP14	A Designer And Manufacturer Of Electronic Access Control Systems, Rfid Hardware, Contactless Smart Card Readers, And Integrated Web-Based Security Management Platforms

1218	ernitec	DENMARK	GSP14	A Video Surveillance Manufacturer Founded In 1972, Specializing In Commercial And High-Security Ip Cameras, Ndaa-Compliant Imaging Solutions, And Network Video Recorders (Nvrs)
1219	GAMA Electromechanical Contracting	UNITED ARAB EMIRATES	GSP14	An Mep/Electromechanical Engineering Contracting Firm Based In The Uae, Providing Electrical, Mechanical, And Low-Current Infrastructure Installation Services
1220	GENT	UNITED KINGDOM	GSP14	A Fire Safety Equipment Manufacturer Founded In Leicester, Uk (Now Part Of Honeywell), Known For Intelligent Analogue-Addressable Fire Detection Systems And Voice Alarms
1221	Milestone	DENMARK	GSP14	A Developer Of Open-Platform Video Management Software (Vms), Best Known For Its Scalable Xprotect Platform Used Worldwide For Ip Video Surveillance.
1222	SONY	JAPAN	GSP14	A Multinational Conglomerate And Manufacturer Of Imaging Sensors, Professional Broadcast Equipment, And Ip Network Security Cameras
1223	TEXECOM	UNITED KINGDOM	GSP14	An Electronic Security Manufacturer Specializing In Digital Intrusion Alarms, External Sounders, Motion Detectors, And Wireless Perimeter Protection Systems
1224	Tiso Apac	SINGAPORE	GSP14	The Asia-Pacific Branch Of Tiso, A Physical Access Control Manufacturer Producing Pedestrian Turnstiles, Speed Gates, Emergency Doors, And Anti-Ramming Vehicle Road Blockers
1225	Veilux	UNITED STATES OF AMERICA	GSP14	A Video Security Manufacturer Based In Texas, Specializing In Rugged Ip Cameras, Network Video Recorders, And Hazardous-Area/Atex-Certified Explosion-Proof Surveillance Solutions
1226	Gargash Prime Holding	UNITED ARAB EMIRATES	4-K12	Mobility & Sustainable Mobility Solutions
1227	Mercedes Benz	GERMANY	4-K12	Mercedes-Benz History Began In 1886 When Engineer Karl Benz Invented The World'S First Car. For Nearly A Century, Our Mission Has Been To Move The World. This Pioneered A Path Of Innovation And Technology Which Remains With Us Today.
1228	Alfa Romeo	ITALY	4-K12	The Alfa Romeo Brand Has A Legendary Performance-Based Persona. They Are The Pioneers In Incorporating Their Racing Dna Into Ordinary Cars And Are Iconic Engine Makers.
1229	GAC Motor	CHINA	4-K12	Gac Motor Stands On The Pillars Of Craftsmanship, Innovation, Quality & Connectivity In The Automotive World. Established In Ghuangzou, China In 2007, Gac Motor Has Established Distribution In Over 26 Countries Over 5 Major Regions Globally In Such A Short Period.
1230	Purple	UNITED ARAB EMIRATES	4-K12	Purple By Gargash Is A Dynamic, Young Concept In The United Arab Emirates Automotive Industry That Combines Gargash'S Reputation For Trust And Service With A Purple Promise That Gives All The Reassurance, Ease And Excitement While Choosing A Pre-Owned Car.
1231	Sixt	GERMANY / UNITED ARAB EMIRATES	4-K12	Sixt Is A German Multinational Mobility Solutions Provider With About 2,000 Locations In Over 115 Countries. Founded In Munich, Germany In 1912 With The Current Hq In Pullach. Gargash Is The Official Franchisee For Sixt Rent A Car In The United Arab Emirates Since 2001. Sixt United Arab Emirates Has An Extensive Fleet Of Cars In Its Portfolio Ranging From Affordable Hatchbacks To Premium Limousines.
1232	Sixt Leasing	GERMANY / UNITED ARAB EMIRATES	4-K12	Sixt Leasing Is Your Trusted Partner For Vehicle Leasing In The United Arab Emirates. With A Rich Heritage And Extensive Expertise In The Automotive Industry, We Offer Innovative And Flexible Solutions To Meet Your Individual Or Corporate Needs. Our Team Is Passionate About Delivering Exceptional Customer Service And Ensuring Your Leasing Experience Is Seamless. With Sixt Leasing, You Can Enjoy The Freedom Of Driving Without The Burdens Of Ownership.
1233	Sixt Limousine	GERMANY / UNITED ARAB EMIRATES	4-K12	Sixt Limousine Offers Luxury Limousines, Professional Chauffeurs Along With A Premium Service. The Company Answers All Customers Needs From A Premium Limousine Service Or A High-Class Travel Experience, To Organizing Events, Board Meetings... Sixt Limousine Provides A Limousine And Local Chauffeur To Enjoy A Safe And Professional Journey.

1234	Gargash General Trading	UNITED ARAB EMIRATES	4-K12	Gargash General Trading Comprises Several Divisions Including Lubricants, Machinery Department Which Consists Of Construction Equipment, Industrial Equipment, Heavy Equipment & Power Systems And A Recent Green Energy Focus
1235	Charabanc Transportation	UNITED ARAB EMIRATES	4-K12	Charabanc Transportation, A Subsidiary Of Gargash Group, Is The Official Distributor And Dealership For Ankai In The United Arab Emirates, Providing Comprehensive Sales And Aftersales Services. Ankai Bus Is A Global Leader In The Bus Manufacturing Industry, Dedicated To Providing Safe, Reliable, And Eco-Friendly Transportation Solutions With A Mission To Innovate And Excel Offering A Diverse Range Of High-Quality Vehicles, Including Luxury Coaches, All-Electric City Buses, School Buses, And Staff Buses.
1236	Gargash Real Estate	UNITED ARAB EMIRATES	4-K12	Since Its Inception, Gargash Real Estate Has Been A Crucial Part Of The United Arab Emirates'S Real Estate Industry. For Over 30 Years, The Company Has Invested In A Diverse Range Of Projects, Including Residential, Commercial, Industrial, And Real Estate Developments. In Recent Years, Gargash Real Estate Has Completed Several Milestone Projects That Have Helped Cement Its Reputation As A Leading Player In The United Arab Emirates'S Real Estate Market.
1237	Genesis Enviroman Private Limited	INDIA	4-E8B	An Engineering, Manufacturing, And Environmental Consultancy Firm Specializing In Water And Wastewater Treatment Systems. Founded In 2012 And Headquartered In New Delhi, The Company Designs And Commissions Turnkey Solutions Including Sewage Treatment Plants (Stp), Effluent Treatment Plants (Etp), Reverse Osmosis (Ro) Units, And Multi-Effect Evaporators (Mee)
1238	GERMAN PAVILION - MESSE MUENCHEN	GERMANY	SS-E15-J22	German Group Participation
1239	Germany Information	GERMANY	SS-G15	
1240	Aerzen ME FZE	GERMANY	SS-F17	Water And Wastewater Systems, Decarbonization - Regional Headquarters And Office Of Aerzener Maschinenfabrik Gmbh Managing Operations Across The Middle East And Pakistan
1241	AERZEN Arabia LTD	KINGDOM OF SAUDI ARABIA	SS-F17	Local Subsidiary And Service Center Handling Sales, Maintenance, Rentals, And After-Sales For Blowers And Compressors In Saudi Arabia
1242	AERZEN Gulf LLC	UNITED ARAB EMIRATES	SS-F17	Wholly Owned Subsidiary And Service/Operations Hub Of Aerzener Maschinenfabrik Gmbh Established In The Uae
1243	ANDRITZ Separation GmbH	AUSTRIA / GERMANY	SS-J15	Supplier Of Mechanical And Thermal Solid/Liquid Separation Systems, Including Filter Presses, Centrifuges, And Drum/Disc Filters For Chemicals, Food, And Mining
1244	NETZSCH-Feinmahltechnik GmbH	GERMANY	SS-J15	A Strategic Partnership Formed To Co-Develop Scaling And Processing Solutions Specifically Targeting The Alternative Protein
1245	ANDRITZ Separation GmbH	GERMANY	SS-J15	Andritz Separation Gmbh Incorporates Several Globally Recognized Industrial Filtration And Process Names Under Its Oem Umbrella:
1246	Bird	UNITED STATES OF AMERICA	SS-J15	Manufacturer Of Industrial Centrifugal And Filtration Equipment, Renowned For Solid-Bowl And Screen-Bowl Decanter Centrifuges Used In Pulp, Paper, And Wastewater Treatment
1247	Escher Wyss	SWITZERLAND	SS-J15	Historic Engineering And Turbine Manufacturing Firm Known For Water Turbines, Pumps, Paper-Making Machines, And Marine Propulsion Systems
1248	KHD Humboldt Wedag	GERMANY	SS-J15	Engineering And Plant-Construction Company Providing Machinery And Automation For The Global Cement, Grinding, And Pyro-Processing Industries
1249	Krauss-Maffei (Centrifuges, dryers, and filters)	GERMANY	SS-J15	Developer And Producer Of Horizontal Peeler Centrifuges, Pusher Centrifuges, Rotary Drum Filters, And Thermal Dryers For Chemical And Pharmaceutical Applications
1250	Lenser	GERMANY	SS-J15	Global Market Leader In Filter Elements, Membrane Filter Plates, And Filtration Components For Industrial Filter Presses
1251	Royal GMF Gouda	THE NETHERLANDS	SS-J15	Manufacturer Of Industrial Drying And Thermal Processing Machinery, Including Drum Dryers, Paddle Dryers, And Flakers For Food And Chemical Plants

1252	Sprout Bauer	UNITED STATES OF AMERICA	SS-J15	Manufacturer Of Mechanical Refiners, Screening Equipment, And Pellet Mills Tailored For Animal Feed, Biomass, And Pulp/Paper Processing
1253	Beckhoff Automation GmbH & Co. KG	GERMANY	SS-F13	Headquartered In Verl, It Develops Open, Pc-Based Automation Control Technology, Including Industrial Pcs, I/O And Fieldbus Components, Drive Systems, Machine Vision, And Twincat Automation Software
1254	Smyczek GmbH	GERMANY	SS-F13	Complete Electronics Manufacturing Services (Ems) Provider For Beckhoff Products.
1255	Fertig Motors GmbH	GERMANY	SS-F13	A Core Drive Technology Joint-Venture Supplying High-Performance Motors.
1256	Schirmer Maschinen GmbH	GERMANY	SS-F13	Specialized Machining Center Subsidiary
1257	Beckhoff Automation FZE	GERMANY	SS-F13	The Regional Middle East Subsidiary Hub Of Beckhoff Automation, Operating Out Of The Dubai Silicon Oasis. It Manages International Sales, Technical Engineering Support, And Localized Distribution Across The Gcc Countries
1258	Beckhoff Information System	GERMANY	SS-F13	The Beckhoff Information System Is A Constantly Growing Reference Source For Beckhoff Products. It Contains Technical Information, Manuals, Example Code, The Beckhoff Knowledge Base And Much More.
1259	BST Technologies GmbH	GERMANY	SS-J22	A German Industrial Automation And Quality Assurance Provider Founded In 1979 (Headquartered In Bielefeld, And Part Of The Elexis Ag And Sms Group) That Builds Web Guiding, Surface Inspection, Register Control, And Color Measurement Systems For The Printing, Packaging, Battery Manufacturing, Tire, And Nonwoven Industries.
1260	BST GmbH	GERMANY	SS-J22	Formerly Bst International / Bst Eltromat In Bielefeld, A Web-Processing Automation Firm
1261	Berlin Space Technologies GmbH	GERMANY	SS-J22	A German Aerospace Company Founded In 2010 (Based In Berlin) That Specializes In The Mass Manufacture Of Small Satellite Systems, Modular Satellite Buses, Earth Observation Solutions, Subsystems (Such As Reaction Wheels, Star Trackers, And Adcs/Aocs Equipment), And End-To-End Space Mission Services
1262	CARBOMAX AG	GERMANY	SS-F12	Serves As The International Sales, Trade, And Distribution Hub For Premium Activated Carbon Solutions
1263	Karbontürk	REPUBLIC OF TURKIYE	SS-F12	The Primary Manufacturer And Parent Company Of Carbomax Ag. Based In Adana, Turkey, Karbontürk Produces Sustainable Biomass-Based Activated Carbon (Sourced From Agricultural By-Products Like Apricot, Olive, And Hazelnut Kernels)
1264	Econ industries services GmbH	GERMANY	SS-H19	Specialized Environmental Engineering Company And Machinery Supplier That Designs, Manufactures, And Commissions Industrial Recycling Plants. Its Mission Is To Prioritize Resource Recovery Over Traditional, Harmful Waste Disposal Methods Like Landfilling Or Incineration
1265	VacuDry®	GERMANY	SS-H19	Discover Our Vacuum Thermal Desorption Technology
1266	Engelmann Sensor GmbH	GERMANY	SS-J17	A Leading Developer And Manufacturer Of Smart Submetering Technologies
1267	Rivean Capital B.V.	THE NETHERLANDS	SS-J17	The Prominent European Private Equity Firm Rivean Capital Acquired A Majority Stake In Engelmann Sensor Gmbh To Drive Internationalization And Expansion
1268	Deutsche Private Equity (DPE)	GERMANY	SS-J17	Funds Advised By Dpe Acted As The Primary Institutional Growth Partner From 2021 Through 2025 Before Executing Their Successful Exit To Rivean Capital
1269	MWA Technology	UNITED KINGDOM	SS-J17	Engelmann'S Core Distribution And Technical Partner For Deploying Cutting-Edge Metering Solutions Across The Uk Market
1270	Shanxi Haiderui Energy Conservation	CHINA	SS-J17	A Strategic Partner In China Since 2007, Cooperating On Major District Heating Energy Efficiency Projects. [1]
1271	Franken Plastik GmbH, Kreditoren	GERMANY	SS-H15	Specialized Plastics Manufacturing Company Founded In 1957 And Headquartered In Fürth, Bavaria. It Is A Leading Developer And Manufacturer Of Industrial Marking, Identification, And Signage Systems. Their Products Are Heavily Utilized By Public Utilities, Power Supply Companies, And Industrial Enterprises To Identify Assets Such As Buried Underground Pipes, Cables, Hydrants, And Traffic Routes

1272	HAIDRO GmbH	GERMANY	SS-H15	Haidro Gmbh Serves As The Primary Corporate Management And Development Entity For The Group'S German Business Activities. It Was Formerly Known As Hawle Deutschland Beteiligung Gmbh Before Undergoing A Strategic Corporate Renaming. It Acts As The Parent Holding Company For Operational German Entities Like Hawle Deutschland Armaturen Gmbh
1273	Haidro Invest SA	LUXEMBOURG	SS-H15	The Primary Corporate Shareholder Of Haidro Gmbh
1274	HAIDRO Group AG	LUXEMBOURG	SS-H15	The Parent Organization, Operating Out Of Esch-Sur-Alzette, Luxembourg
1275	MANN+HUMMEL Water & Fluid Solutions GmbH	GERMANY	SS-H17	The Company Develops, Manufactures, And Supplies Advanced Membrane And Fluid Filtration Systems Their Technologies Range From Prefiltration To Specialized Membrane Systems, Including Microfiltration (Mf), Ultrafiltration (Uf), Nanofiltration (Nf), Reverse Osmosis (Ro), And Membrane Bioreactors (Mbr)
1276	I2m	GERMANY	3-D19	I2M Stands For Innovation To Market. Our Goal Is To Improve The Sustainable Use Of Our Natural Resources. We Are Committed To Adding Value To Sustainability Through Clean Air, Clean Water, Energy And Digital Iot Solutions.
1277	FILTRON	GERMANY	3-D19	Our Experience And Quality Standards Ensure That Every Filtron Filter Provides Reliable Protection Throughout Its Recommended Lifespan.
1278	Mann+Hummel Molecular	GERMANY	3-D19	Specialist In Pollutant-Adsorbing Filter Media And High-Tech Molecular Filters. We Give Textiles Or Foamed Materials Adsorptive Functions Using Activated Carbon Coating, Which Are Primarily Used To Remove Odors Or Separate Trace Gases.
1279	Senzit	GERMANY	3-D19	Senzit Platform Works With Machine Learning Algorithms To Provide Users With Machine Data And Actionable Insights In Real Time
1280	Mann+Hummel Air Filtration EUROPE	GERMANY	3-D19	Solutions For Clean Air In Indoor, Outdoor, Semi-Open Areas And Industrial Applications. From Harmful Particles Or Gases In Cities To Infectious Viruses, Air Pollution Poses A Threat To Our Health And The Climate.
1281	WIX FILTERS	GERMANY	3-D19	Wix Filters Is An American Brand Founded Over 80 Years Ago. We Have 16,000 Different Products In Our Portfolio And Produce 210 Million Filters Per Year
1282	Mann+Hummel Air Filtration Asia	GERMANY	3-D19	Solutions For Clean Air In Indoor, Outdoor, Semi-Open Areas And Industrial Applications.
1283	Seccua	GERMANY	3-D19	Seccua Is The Global Technology Leader In Water Treatment For Private Households, Businesses And Municipalities. Seccua, Headquartered In Germany, Is The Manufacturer Of Urspring, The World'S Leading Water Filter For Clean, Healthy Water Throughout The Home.
1284	Mann+Hummel Air Filtration Americas	GERMANY	3-D19	Delivers Cleaner Air And Better Health Through Quality Air Filtration Products And Services. We Offer The Entire Range Of Products And Services Related To Clean Air: Solutions For Pandemic Times, Improving Manufacturing Processes And Indoor Air.
1285	Qlair	GERMANY	3-D19	Healthier And More Efficient Buildings Thanks To Intelligent Solutions That Monitor Air Quality And Hvac Systems And Provide Real-Time Environmental Data And Insights.
1286	Purolator	GERMANY	3-D19	Since Inventing The Oil Filter In 1923, Purolator Has Been Dedicated To Perfecting Oil, Air, Cabin And Fuel Filters For The Automotive Aftermarket. Our Mission: We Stay One Step Ahead Of Contaminants - Protecting Your Engine, Your Tank And Even The Air You Breathe.
1287	Metalska Industrija Varazdin d.d. (MIV)	GERMANY	SS-H15	A Manufacturer And Foundry Specializing In Industrial Valves And Cast-Iron/Welded-Steel Fittings For Water Supply, Sewage Networks, Desalination Plants, Energy Systems, And Pumping Stations. It Is Majority-Owned By The German Branch Of The Hawle Group.
1288	Hawle Group Entities	AUSTRIA / GERMANY	SS-H15	Hawle Armaturen, Hawle Kft, And Regional Production/Sales Partners Across Europe.

1289	AUMA	GERMANY	SS-H15	A Manufacturer Of Electric Valve Actuators, Manual Operators, And Valve Gearboxes Designed For Automating Quarter-Turn And Multi-Turn Valves. Its Actuation Solutions Are Widely Used Across The Power Generation, Water And Wastewater Management, Petrochemical, And Process Industries. Learn More Via The Auma Official Website
1290	Festo	GERMANY	SS-H15	An Industrial Automation Engineering Firm Providing Pneumatic And Electrical Motion Technology, Including Pneumatic Cylinders, Servo Drives, Directional Control Valves, Sensors, And Modular Manifolds. It Also Operates Festo Didactic, Providing Industrial Training And Technical Education Equipment Globally.
1291	Frankenplastik	GERMANY	SS-H15	A Niche Industrial Manufacturing Company Dedicated To Standardized Identification And Signage Systems.
1292	MGET - Makki Global Engineering & Trading GmbH	GERMANY	SS-J16	An International Engineering, Procurement, And Consulting Firm Specializing In Utility Systems For Industrial And Municipal Facilities. Its Solutions Focus On Water And Wastewater Treatment, Seawater Desalination, Industrial Steam And Fuel Systems, Firefighting Installations, Chemical Dosing Packages, And Industrial Cooling Towers.
1293	ESLI Pollet Water Group	REPUBLIC OF TURKIYE	SS-J16	Turkish Manufacturer And Engineering Company In The Water And Wastewater Treatment Sector
1294	ProMinent GmbH	GERMANY	SS-J19	Leading Global Manufacturer And Solution Partner Specializing In Fluid Metering Technology And Water Treatment Systems
1295	Sihl GmbH	GERMANY	SS-J21	Leading International Manufacturer Specializing In Premium Industrial Coatings And Digitally Printable Media.
1296	Solvimus GmbH	GERMANY	SS-H18	It Develops And Distributes M-Bus And Wireless M-Bus Products, Including Data Concentrators (Data Loggers), Gateways, Level Converters, Oem Modules, And Custom Software/Hardware For Consumption Data Acquisition
1297	VAG Valves ME	UNITED ARAB EMIRATES	SS-G19	The Brand Is Well Known For Engineering High-Quality Vag Ekn Butterfly Valves, Riko Plunger/Globe Valves, Beta Resilient-Seated Gate Valves, Duojet Ventilation/Air Valves, Check Valves, And Hydrants
1298	VAG ECO Plus Gate Valve	GERMANY	SS-G19	Resilient-Seated Gate Valve With Bolted Cover Connection And Face-To-Face Length Of Basic Series
1299	VAG EKN Butterfly Valve	GERMANY	SS-G19	Double-Offset Flanged Butterfly Valve (Resilient-Seated) With Rubber-Lined Seat And Rubber-Coated
1300	VAG RIKO Plunger Valve	GERMANY	SS-G19	Externally Controlled Control Valve With Annular Flow Cross-Section For The Continuous Regulation
1301	VEGA Instruments Middle East	UNITED ARAB EMIRATES	SS-G17	Vega Is A Global Manufacturer Of Sensors For Measuring Level, Point Level, Pressure As Well As Devices And Software For Integrating Them Into Process Control Systems.
1302	VEGA Grieshaber KG	GERMANY	SS-G17	Solutions To Demanding Measuring Tasks Are Being Conceived And Turned Into Reality: For Chemical And Pharmaceutical Plants, Food And Beverage Manufacture, Drinking Water Supply And Sewage Treatment Plants, Landfills, Mining Operations, Power Generation, Oil Platforms, Recycling, Shipping And Aerospace Industries.
1303	Wilo Middle East FZE	UNITED ARAB EMIRATES	SS-E19	A Leading Global Manufacturer Of Pumps, Pump Systems, And Intelligent Control Solutions For Building Services, Water Management, And Industrial Sectors, Founded In 1872
1304	Leminar Global	GERMANY	SS-E19	Official Distribution Partner For Wilo'S Building Services Segment In The Uae
1305	Direct Trade House International LLC (DTHI)	GERMANY	SS-E19	Former Partner/Owner Of Pumpspro, Which Was Acquired By Wilo Middle East To Form An Expanded Local Service Unit
1306	Zenner Middle East	GERMANY / UNITED ARAB EMIRATES	SS-E15	The Regional Operational Hub And Subsidiary Of The German Minol-Zenner Group, Headquartered In Dubai. It Provides Smart Submetering, Iot Solutions, And Consumption Billing Services Across The Middle East
1307	Zelsius	GERMANY	3-F17	Ultrasonic Heat Meters
1308	Multidata WR3	GERMANY	3-F17	Innovative Split Calculator For Heat Meters
1309	Sonar	GERMANY	3-F17	Ultrasonic Flow Meter
1310	MNK	GERMANY	3-F17	Residential Water Meter
1311	MTK 45	GERMANY	3-F17	Multijet Impeller Meter

1312	M BUS	GERMANY	3-F17	Mobile Wireless Radio System
1313	WPH-N-CC	GERMANY	3-F17	Water Meter
1314	Woltman	GERMANY	3-F17	Irrigation Watewr Meter
1315	WPD/WPHD	GERMANY	3-F17	Water Meter
1316	ATMOS	GERMANY	3-F17	Gas Meters
1317	Sycous	GERMANY	3-F17	A Uk-Based Energy Metering And Billing Software Company Headquartered In Leeds. It Provides Open-Protocol Hardware, Consumer Payg Solutions, And Remote Data Collection Platforms For District Heating And Utilities
1318	Brunata	GERMANY	3-F17	A Cleantech And Metering Specialist Founded In Copenhagen (Herlev) In 1917. It Manufactures Heat Cost Allocators, Energy Meters, And Provides Iot-Based Consumption Billing Services Throughout Europe
1319	Gersan Elektrik Ticaret Ve Sanayi Anonim Sirketi	REPUBLIC OF TURKIYE	1-D24	
1320	GERSAN ELEKTRIK TIC.ve SAN.A.S	REPUBLIC OF TURKIYE	1-D24	Busbar Trunking Systems, Cable Management Systems, Earthing Systems, Led Systems, Electrical Vehicle Charging Systems, Uv Led Systems.
1321	GERSAN ELEKTRIK LLC	REPUBLIC OF TURKIYE / SULTANATE OF OMAN	1-D24	Cable Containment Systems, Metallic Trunking, Wire Mesh, Accessories, Supports.
1322	GF Corys (GF Corys Piping Systems LLC)	UNITED ARAB EMIRATES	AR-Q8	Flow Solutions, Piping System
1323	Georg Fischer (GF)	SWITZERLAND	AR-Q8	A Swiss Flow Solutions Division Founded In 1802
1324	Green Coast Enterprises / Corys	UNITED ARAB EMIRATES	AR-Q8	A Uae-Based Family Holding Group Established In 1977 By Abdulghaffar Hussain
1325	Global Water Solutions _GWS Middle East Trading LLC	UNITED ARAB EMIRATES	AR-Q19	Water Filtration Equipment
1326	OneStop+™	UNITED STATES OF AMERICA	AR-Q19	Innovative Anti-Scale Solution Designed To Prevent Scale Formation On Internal And External Surfaces Of Plumbing Systems. By Transforming Dissolved Hardness Minerals Into Harmless Microcrystals, It Reduces The Risk Of Scale Buildup In Pipes, Water Heaters, And Appliances.
1327	Quatreau Multi-function Taps	UNITED KINGDOM	AR-Q19	Luxurious And Convenient Water Solution For Modern Kitchens And Commercial Spaces. These Innovative Taps Provide Instant Access To Filtered Boiling, Chilled, Sparkling, And Hot Or Cold Water At The Touch Of A Button
1328	BioWave	GLOBAL	AR-Q19	An Eco-Friendly Lineup Of Solutions For Grey Water Treatment For Domestic, Commercial, Hospitality, Industrial And Agricultural Applications.
1329	GL-Turbo_Seven plus Water Technologies LLC	UNITED ARAB EMIRATES	SS-L23	Blower-Manufacturing, Control-Systems And Wastewater-Package Solutions.
1330	GL-TURBO, LLC	UNITED STATES OF AMERICA	SS-L23	A Specialized U.S.-Headquartered Manufacturer Of High-Efficiency Centrifugal Blowers And Precision Aeration Systems Used Globally In Sewage And Industrial Wastewater Treatment
1331	Esmil Group	UNITED KINGDOM	SS-L23	Technology Partner Providing Multi-Disc Screw Presses And Catenary Screens
1332	Dutch Spiral	THE NETHERLANDS	SS-L23	Technology Partner Providing Sludge Storage Silos, Sliding Frame Systems, And Conveying Solutions
1333	AT Covers	ITALY	SS-L23	Technology Partner Specializing In Odor Control And Structural Tank Covers
1334	Water Efficiency Middle East Alliance (WEMA)	UNITED ARAB EMIRATES / DENMARK	SS-L23	A Regional Alliance That Both Seven Plus Water Technologies And Gl-Turbo Collaborate With To Deploy Energy-Efficient Wastewater Infrastructure Across The Gcc. [1]
1335	Gradiant Technology Contracting LLC	UNITED ARAB EMIRATES	7-E17	Water & Wastewater Treatment
1336	Advanced Watertek Industries LLC	UNITED ARAB EMIRATES	1-B28	Water And Waste Water Treatment
1337	Muscat Projects & Environmental Services LLC	SULTANATE OF OMAN	1-B28	Water And Waste Water Treatment
1338	Aquachem Industries LLC	UNITED ARAB EMIRATES	1-B28	Water And Waste Water Treatment
1339	Green Mobility Conference/ SRM	UNITED ARAB EMIRATES	A8 - HALL 4	Sustainable Mobility Conference
1340	Green Oasis General Contracting Co. LLC	UNITED ARAB EMIRATES	PRSP5	Infrastructure & Building General Contracting

1341	Extra Co Fiberglass & Prefab Houses LLC	UNITED ARAB EMIRATES	PRSP5	Extra Co Is A Leading Manufacturer In The Middle East Offering Many Products And Services In The Fields Of Fibreglass Composites, Prefabricated Houses, Interior Furnishings And Fit-Outs, Structural And Aesthetic Precast, And Metal Works.
1342	Al Badr Cont. & Civil Construction Company LLC	UNITED ARAB EMIRATES	PRSP5	Al Badr Is The First Establishment In The Group And Has Branches In Sharjah, Abu Dhabi, And Ras Al Khaimah. Al Badr Deals With All Types Of Construction Works, Including Infrastructure, Industrial, Commercial, And Residential Works.
1343	Fixperts Contracting LLC	UNITED ARAB EMIRATES	PRSP5	Landscaping Works, Air-Conditioning, Ventilations & Air Filtration Systems, Interior Decoration, Swimming Pools, Building Cleaning Services, Public Health Pests Control, Gardening Works, Tanks & Containers Cleaning Services , Building Maintenance, Disinfection & Sterilization Services.
1344	Fixperts watches & Clocks repairing LLC	UNITED ARAB EMIRATES	PRSP5	Mobile Phones & Accessories Trading | Mobile Phone Repair | Shoe Repairing | Watches & Clocks Repairing | Locks Repairing | Leather & Similar Products Repairing | Bags Tailoring | Computer Repairing & Maintenance | Key Duplicators | Printing | Locks & Keys Trading | Engraving | Suitcases & Travel Requisites Trading | Handbags & Leather Products Trading | Gifts Trading | Stamp & Seal Making | Electronic Instruments, Devices & Equipment Repairing.
1345	Fixperts Fresh Living	UNITED ARAB EMIRATES	PRSP5	Building General Cleaning Services, Public Health Pests Control, Gardening Works, Tanks & Containers Cleaning Services , Disinfection & Sterilization Services.
1346	Al BADR Contracting & Construction Co. LLC	UNITED ARAB EMIRATES	PRSP5	Water/Energy/Electricals/Contracting/Construction

1383	FI	UNITED KINGDOM / UNITED ARAB EMIRATES	Z3-B8	Haris Al Afaq, Is The Authorised Distributor For Flunited Kingdome In United Arab Emirates, Providing Local Pre And Post Sales Support, Technical Help And Local Availability. Haris Has Been The Flunited Kingdome Distributor For The United Arab Emirates Since 1978. As One Of The Oldest Flunited Kingdome Distributors In The World, We Have Grown Along With Flunited Kingdome To Provide Premium Products And Services To The United Arab Emirates And Southern Gulf. As The Only Flunited Kingdome Authorized Service Center In The Gulf Region, We Provide Service, Calibration, Support, Training And The Full Extent Of Technical Backup Needed By Customers.
1384	Badger Meter	GERMANY	Z3-B8	Smart Water, Source-To-Tap Solutions From Badger Meter Encompass Flow Measurement, Water Quality Monitoring And Data Analytics. Products And Solutions From Badger Meter Provide You With A Comprehensive Flow Measurement And Water Quality Monitoring Offering That Is Transforming The Water Industry, Enhancing How Users Manage Their Water Systems.
1385	CATU	FRANCE	Z3-B8	Catu A French Company Founded In 1909 Develops Safety Solutions And Equipment Against Electrical Hazards For The Networks Of Transmission And Distribution Of Electrical Energy, Large Industries, Railway Sector, Electric Automotive Sector Visit Https://Www.Catuelec.Com/ To Know More!!
1386	Time Electronics Ltd - Callibration, Test and Measurement	UNITED KINGDOM	Z3-B8	Established In 1967 Time Electronics Ltd Is An United Kingdom Based Company That Designs And Manufactures Calibration And Metrology Instruments. Time Electronics'S Comprehensive Range Of Products Provides Users With Solutions For Test And Measurement Applications Within Their Respective Industries.
1387	CEMBRE	UNITED STATES OF AMERICA	Z3-B8	Cembre Designs And Produces Certified And Cutting-Edge Systems Of Connection And Identification & Labeling For Industrial Applications, Railway Sector, Cutting, Crimping, Connection And Marking Conductor For The Transmission And Distribution Of Electricity
1388	PACE	UNITED STATES OF AMERICA	Z3-B8	Pace, Inc. Is A Recognized World Leader In The Development Of Solutions For The Assembly And Repair Of Highly Advanced Electronics. An Pace Has Revolutionized The Industry By Creating The First Self-Contained Vacuum Desoldering System.
1389	Delta Electronika	THE NETHERLANDS	Z3-B8	Delta Electronika Design And Manufacture World-Class Dc Power Units In A Product Line Ranging From 150 W To 15 Kw And Expandable To 900 Kw. Delta'S Design Philosophy Is Highly Appreciated By Customers In Industry, Research And Development Facilities, Universities, And Many Other Sectors.
1390	IRT	UNITED KINGDOM	Z3-B8	Irt United Kingdom Deals With Certification Training In The Infrared Thermography Industry. No Matter Where You Are Developing Your Infrared Inspection Program Or Your Personal Growth As A Thermographer.They Can Assist You In Taking It To Another Level.
1391	ITL	UNITED KINGDOM	Z3-B8	Itl Has Over Half A Century'S Worth Of Experience Manufacturing Quality Insulated Tools To The Highest Possible Standard. Itl'S Extensive Range Covers Everything From Spanners, Torque Tools And Screwdrivers And They Draw On Their Wealth Of Experience And Expertise To Make Sure They Supply Customers With The Longest Lasting, Hardest Wearing And Safest Insulated Tools In The World.
1392	DATREND Systems Inc.	CANADA	Z3-B8	A Canadian Owned Company Focused On Developing And Manufacturing Leading Edge Biomedical Instruments And Solutions For Hospitals, Clinics, Third Party Service Organizations And Medical Device Manufacturers.

1393	CorDEX		Z3-B8	A Leading Manufacturer Of Instruments For The World'S Most Demanding Environments, Cordex Has A Long History Of Innovation And Success.
1394	Hawle AUSTRIA Group (Hawle Mid East FZE)	UNITED ARAB EMIRATES	AR-L4	Manufacturer Of Valves And Fittings
1395	Erhard	GERMANY	AR-L4	Valves And Fittings (All Types Of Valves) Until 3000 Mm
1396	NovaSiria S.r.l	ITALY	AR-L4	Mechanical Joints (Flange Adaptor, Coupling, Repair Solutions And Dismantling Joints)
1397	Krammer	INDIA	AR-L4	Valves And Fittings (All Types Of Valves) Until 1200 Mm
1398	Ozkan	REPUBLIC OF TURKIYE	AR-L4	Valves And Fittings (All Types Of Valves) Until 2500 Mm
1399	HD Hyundai Electric	SOUTH KOREA	SSP15	Power Transformers, Switchgear, Lv/Mv Circuit Breakers
1400	GREENTRIC	SOUTH KOREA	SSP15	The Company'S Representative Eco-Friendly Product Brand. It Covers Next-Generation, High-Efficiency, Sustainable Power Equipment (Such As Their Eco-Friendly 170 Kv Gis) Built To Support The Global Energy Transition
1401	INTEGRICT	SOUTH KOREA	SSP15	The Company'S Dedicated Digital Smart Solutions And Ict Platform Brand. It Incorporates Ai Data Collection, Resource Optimization, And Asset Utilization Analysis To Maximize Energy Efficiency For Industrial Plants And Utilities
1402	HD SOUTH KOREA Shipbuilding & Offshore Engineering (HD KSOE)	SOUTH KOREA	SSP15	Hd Hyundai Electric Is An Independent Entity But Operates In Tandem With Sister Companies
1403	HD Hyundai Heavy Industries	SOUTH KOREA	SSP15	World's largest shipbuilding company, headquartered in Ulsan, South Korea. It has seven business divisions: Shipbuilding, Offshore & Engineering, Industrial Plant & Engineering, Engine & Machinery, Electro & Electric Systems, Construction Equipment, and Green Energy
1404	HD Hyundai XiteSolution	SOUTH KOREA	SSP15	Construction Machinery
1405	HD Hyundai Oilbank	SOUTH KOREA	SSP15	Hd Hyundai Electric Is An Independent Entity But Operates In Tandem With Sister Companies
1406	Hitachi Energy	JAPAN / SWITZERLAND	SSP15	Entered Into A Strategic Memorandum Of Understanding (Mou) To Accelerate The Energy Transition And Co-Develop High-Voltage Direct Current (Hvdc) Transformer Technology.
1407	Eaton	UNITED STATES OF AMERICA	SSP15	Partnered For Regional Product Collaboration And Distribution Alignment
1408	GTC (Grid United/Utility partners)	UNITED KINGDOM	SSP15	Long-Standing Procurement Relationships For Large-Scale Infrastructure Deployments, Such As Supplying Extra-High-Voltage Transformers To The U.S. Power Grid.
1409	Siemens (heavy electrical technology)	GERMANY	SSP15	A Foundational European Engineering Conglomerate. Its Heavy Electrical Technology Portfolio (Primarily Through Siemens Energy) Spans Power Generation Turbines, Large-Scale Transformers, And High-Voltage Transmission Lines.
1410	Westinghouse (circuit breaker capabilities)	UNITED STATES OF AMERICA	SSP15	A Historic Pioneer Of Alternating Current (Ac) Electrical Infrastructure. While The Original Manufacturer Evolved, Its Legacy Industrial Molded-Case Circuit Breaker Line And Technological Capabilities Were Acquired By Eaton, Though Many Legacy Westinghouse-Branded Breakers Remain Active In The Field Today
1411	Health & Safety			
1412	Abudhabi University	UNITED ARAB EMIRATES	SM-9A	The largest private, multi-campus university in the UAE, founded in 2003. It offers over 50 undergraduate and graduate programs across campuses in Abu Dhabi, Al Ain, and Dubai Knowledge Park
1413	Canadian University	UNITED ARAB EMIRATES	SM-10A	A private university established in 2006 in City Walk, Dubai. It delivers a Canadian-inspired curriculum and undergraduate/graduate programs across multiple schools
1414	Danway Emirates LLC	UNITED ARAB EMIRATES	SM-2A	A multidisciplinary engineering, manufacturing, and trading group operating in the UAE since 1976. Its divisions specialize in electrical and mechanical contracting (Danway EME), industrial retail systems, personal protective equipment (PPE), and calibration laboratories
1415	Dubai Civil Defence (DCD)	UNITED ARAB EMIRATES	SM-4A	The government emergency agency responsible for firefighting, search and rescue, disaster recovery, and fire safety compliance across Dubai (operating under Law No. (4) of 2025 as the Dubai Civil Defence General Command)

1416	Dubai Corporation for Ambulance Services (DCAS)	UNITED ARAB EMIRATES	SM-7A	A pioneering government corporation managing emergency medical response, pre-hospital care, patient transfers, and ambulance regulation in Dubai.
1417	Dubai Health Authority (DHA)	UNITED ARAB EMIRATES	SM-6A	The government regulatory body founded in 2007 to oversee, license, and develop Dubai's public and private healthcare sector, health insurance, and medical education
1418	Dubai Municipality	UNITED ARAB EMIRATES	SM-3A	The municipal government body established in 1954 that oversees public services, urban planning, environmental health, and building regulations in Dubai
1419	Dubai Police	UNITED ARAB EMIRATES	SM-5A	The law enforcement force of Dubai, established in 1956, handling public safety, crime prevention, and community cyber-safety initiatives
1420	Dubai Univesity	UNITED ARAB EMIRATES	SM-8A	Founded in 1997 by the Dubai Chamber, located in Dubai International Academic City. It offers accredited programs in Business Administration, Law, Engineering, and IT.
1421	Rangers Safety System	UNITED ARAB EMIRATES	SM-1A	Established in 1991 in Dubai, this supplier provides personal protective equipment (PPE), industrial safety wear, safety shoes, and work uniforms complying with ANSI and EN standards
1422	Zayed University	UNITED ARAB EMIRATES	SM-11A	A public, government-sponsored federal university founded in 1998 and named after the late UAE founder Sheikh Zayed bin Sultan Al Nahyan, with campuses in Abu Dhabi and Dubai.
1423	Henkel Polybit Industries LLC	UNITED ARAB EMIRATES	7-D19	Established In Umm Al Quwain In 1995 (Later Partnering With And Fully Acquired By Henkel), It Is A Major Manufacturer Of Construction Chemicals And Waterproofing Systems Serving The Middle East, Africa, And Global Export Markets
1424	Henkel Group (Henkel AG & Co. KGaA)	GERMANY	7-D19	Global Multinational Conglomerate Operating Primarily In Two Main Segments: Adhesive Technologies And Consumer Brands
1425	Henkel Adhesive Technologies	GERMANY	7-D19	Global Market Leader In Adhesives, Sealants, And Functional Coatings Across Aerospace, Automotive, Construction, And Consumer Diy Sectors.
1426	Polybit	UNITED ARAB EMIRATES	7-D19	The Primary Regional Flagship Brand Engineered And Manufactured Locally For Building Foundations, Waterproofing, And Weather Challenges In The Gcc
1427	Ceresit	GERMANY	7-D19	As Part Of The Global Henkel Building Materials Portfolio, Related International And Regional Partner Brands
1428	Fester	MEXICO	7-D19	Premier Latin American Brand Specializing In Cold Asphalt Waterproofing, Roof Coatings, Acrylic Sealants, And Concrete Additives
1429	Teroson	GERMANY	7-D19	Teroson Provides Automotive Oem Assembly, Body Repair, Sound Deadening, And Windshield/Direct-Glazing Sealants And Coatings
1430	Pattex	GERMANY	7-D19	Europe'S First Contact Adhesive Applied At Room Temperature (Kraftkleber), Pattex Is A Leading Brand For Heavy-Duty Mounting Glues, Contact Adhesives, And Diy Repair Solutions
1431	Makroflex	FINLAND	7-D19	Makroflex Is Widely Recognized For Polyurethane Insulating Foams, Expanding Foams, And Joint Sealants
1432	Rubson	FRANCE	7-D19	Rubson Specializes In Domestic Moisture-Control Products, Anti-Humidity Crystal Absorbers, Roof Coatings, And Sanitary Silicone Joint Fillers
1433	Cimsec	AUSTRIA	7-D19	A Central And Eastern European Construction Brand (Acquired By Henkel Cee In 2006 From Ici) Tailored To Professional Tile Layers, Offering Tile Adhesives, Waterproofing Sub-Screeds, And Colored Tile Grouts
1434	Unibond	UNITED KINGDOM	7-D19	A Major Household Diy Brand Primarily Serving The Uk And Ireland, Recognized For Construction Grab Adhesives (No More Nails), Silicone Sanitary Sealants, Tiling Compounds, And Aero 360 Moisture-Absorbing Devices
1435	Hills & Fort Construction LLC	UNITED ARAB EMIRATES	AR-N29	Construction
1436	Green Orange General Trading LLC	UNITED ARAB EMIRATES	AR-N29	Infrastructure, Water & Power Projects
1437	Hills & Fort Landscape LLC	UNITED ARAB EMIRATES	AR-N29	Infrastructure, Water & Power Projects
1438	Hills & Fort General Trading LLC	UNITED ARAB EMIRATES	AR-N29	Infrastructure, Water & Power Projects
1439	Rocks Exim Contracting LLC	UNITED ARAB EMIRATES	AR-N29	Infrastructure, Water & Power Projects
1440	Himalaya Everest Contracting LLC	UNITED ARAB EMIRATES	SS-K29	Underground Utility Works & Other Civil Works

1441	Hitachi Energy	UNITED ARAB EMIRATES / SWITZERLAND	SSP9	Transformers, Digitalization, Energy, Switchgear
1442	Hitachi, Ltd. (Parent Company)	JAPAN	SSP9	The Ultimate Parent Corporation That Manages Hitachi Energy Under Its Specialized Energy And Digital Infrastructure Arm
1443	Hitachi Energy INDIA Limited	INDIA	SSP9	A Major Public Listed Entity Serving The South Asian Infrastructure Markets
1444	Hitachi Energy USA Inc.	UNITED STATES OF AMERICA	SSP9	The Core Operating Division Driving Power Technology Deployments Across North America
1445	Hitachi Energy SWEDEN AB & Germany AG	SWEDEN / GERMANY	SSP9	Critical Research, Development, And High-Voltage Direct Current (Hvdc) Engineering Engineering Hubs
1446	EconiQ™	SWITZERLAND / GLOBAL	SSP9	The Flagship Eco-Efficient Portfolio Designed To Drastically Reduce Environmental Impact (Such As Replacing Sulfur Hexafluoride [Sf6] Gas In High-Voltage Equipment)
1447	EcoSpace™	SWITZERLAND / GLOBAL	SSP9	A Dedicated Eco-Efficient Digital And Engineering Ecosystem Platform For Energy Projects
1448	Kuhlman Electric Corporation	UNITED STATES OF AMERICA	SSP9	A Legacy Industrial Brand Operating As A Wholly Owned Transformer Manufacturer In The Us. [1]
1449	Pucaro	GERMANY	SSP9	A Globally Recognized Subsidiary Specializing In High-Grade Electrical Insulation Materials
1450	Arteche Hitachi Energy Gas Instrument Transformers S.L	SPAIN	SSP9	A Key Joint Venture Company Formed With The Arteche Group Where Arteche Holds A 51% Stake And Hitachi Energy Holds 49% To Produce Ecological Gas-Insulated Instrument Transformers.
1451	Linxon	GLOBAL	SSP9	A Major Joint Venture Specialized In Executing Comprehensive Turnkey Electrical Ac Substation Projects Globally.
1452	Horizon Boring	UNITED ARAB EMIRATES	SS-P29	
1453	Horizontal Directional Drilling (HDD)	UNITED STATES OF AMERICA	SS-P29	Horizon Boring Operates As An Independent Regional Specialist Focusing On Subterranean And Civil Engineering Applications Rather Than A Manufacturer With Global Consumer Brands
1454	HUAWEI	UNITED ARAB EMIRATES	GSP	Technology
1455	Hydrotech Engineering	UNITED ARAB EMIRATES / ITALY	SS-P23	Hdd/Thrust Boring
1456	Georg Fischer Piping Systems / Signet	SWITZERLAND	SS-P23	Manufactures Safe Plastic Piping Systems, Fittings, And Measurement Instruments For Liquids And Gases.
1457	Purolite	UNITED STATES OF AMERICA	SS-P23	Produces Advanced Ion-Exchange Resins For Water Purification And Chemical Engineering Tasks.
1458	Hydranautics	UNITED STATES OF AMERICA	SS-P23	Designs And Supplies Membrane Solutions For Reverse Osmosis, Ultrafiltration, And Nanofiltration
1459	Jesco	GERMANY	SS-P23	Provides Dosing Equipment, Chemical Metering Pumps, And Controllers For Fluid Management
1460	Danfoss	DENMARK	SS-P23	Supplies Industrial Electrical Equipment, Sensors, And Pressure Controls
1461	Hyosung Heavy Industries Corporation	SOUTH KOREA	SSP18	Hyosung Heavy Industries Operates Through Core Heavy Electrical, Industrial, And Construction Business Lines, Subsidiaries, And Specialized Brand Names
1462	Hyosung HICO	UNITED STATES OF AMERICA	SSP18	Us Manufacturing Base Specializing In Ultra-High-Voltage 765Kv Transformers
1463	ChinHung International	SOUTH KOREA	SSP18	Construction Subsidiary Handling Residential Developments And Civil Engineering.
1464	Hyosung Goodsprings	SOUTH KOREA	SSP18	Specialized Pump Manufacturer For Power Plants, Oil And Gas, And Industrial Applications
1465	Gongdeok Gyeongwoo Development	SOUTH KOREA	SSP18	Real Estate And Development Affiliate
1466	Harrington Place	SOUTH KOREA	SSP18	Residential Apartment And Real Estate Development Brand By Chinhung International And Hyosung
1467	ARMOUR	SOUTH KOREA	SSP18	Digital Asset Performance Management And Preventive Diagnostic Solution Utilizing Iot And Ict
1468	Eco-Power Products	SOUTH KOREA	SSP18	Eco-Friendly Transformers, Switchgears, And Switchboards
1469	IAPMO INDIA Private Limited	INDIA	SS-U9	Testing And Certification
1470	The IAPMO Group	UNITED STATES OF AMERICA	SS-U9	Headquartered In Ontario, California, Usa, The Parent Organization Oversees International Operations, Model Code Development, And Standardizations

1471	IAPMO R&T	UNITED STATES OF AMERICA	SS-U9	Provides Third-Party Product Certification And Listing Marks Of Conformity For Plumbing, Water Treatment, And Mechanical Systems
1472	IAPMO Evaluation Services (Uniform ES)	UNITED STATES OF AMERICA	SS-U9	Evaluates Innovative Construction And Building Products For Code Compliance
1473	IAPMO Backflow Prevention Institute (BPI)	UNITED STATES OF AMERICA	SS-U9	Offers Specialized Cross-Connection Control And Backflow Prevention Training
1474	Radiant Professionals Alliance (RPA)	UNITED STATES OF AMERICA	SS-U9	Promotes And Supports The Use Of Radiant Heating And Cooling Technologies.
1475	WEP-I (Water Efficient Products – INDIA)	INDIA	SS-U9	A Specialized Rating Scheme Developed To Certify Water-Efficient Fixtures And Appliances
1476	IDRO Services_ ANECO Middle East LLC	UNITED ARAB EMIRATES	1-C22 & 24	
1477	IMI Media	UNITED ARAB EMIRATES	A12	Uae-Headquartered Global Media Powerhouse Operating Across News, Knowledge, And Factual Entertainment
1478	The National	UNITED ARAB EMIRATES	A12	An English-Language Journalism Brand Founded In 2008 And Headquartered In Abu Dhabi
1479	Sky News Arabia	UNITED ARAB EMIRATES	A12	A 24/7 Pan-Arab News Organization

1533	Infra Emirates Contracting	UNITED ARAB EMIRATES	SS-K27	A Global Distributor Of Information Technology Products, Cloud Solutions, And Supply-Chain Services Connecting Hardware/Software Vendors With Technology Resellers. Explore Further On Ingram Micro
1534	Infra Star Contracting	UNITED ARAB EMIRATES	SS-T29	Water Works, Pipe Laying, Shutdown Works, House Connection
1535	Ingram Micro	UNITED ARAB EMIRATES	GSP21	A Global Wholesale Distributor Of Information Technology Products, Cloud Solutions, And Supply Chain Management Services Connecting Vendors To It Resellers
1536	Apple	UNITED STATES OF AMERICA	GSP21	A Multinational Technology Corporation That Designs And Manufactures Premium Consumer Electronics (Iphone, Mac, Ipad), Operating Systems, And Digital Subscription Services
1537	AWS (Amazon Web Services)	UNITED STATES OF AMERICA	GSP21	The World'S Leading Cloud Computing Platform, Delivering Scalable Infrastructure As A Service (Iaas), Platform As A Service (Paas), Storage, Compute, And Ai Services
1538	Cisco	UNITED STATES OF AMERICA	GSP21	A Multinational Digital Communications And Networking Conglomerate Specializing In Routing, Switching, Cybersecurity, Enterprise Collaboration, And Iot Hardware
1539	Dell	UNITED STATES OF AMERICA	GSP21	A Major Technology Vendor That Manufactures Personal Computers, Workstation Laptops, Monitors, Enterprise Storage, And Server Hardware Solutions

1540	HP & Hewlett Packard Enterprise (HPE)	UNITED STATES OF AMERICA	GSP21	Hp Inc. Focuses On Personal Computers, Laptops, And Printers, While Hewlett Packard Enterprise (Hpe) Focuses On Servers, Cloud Storage, Networking, Enterprise Edge Solutions, And Greenlake Services
1541	Intel	UNITED STATES OF AMERICA	GSP21	A Multinational Semiconductor Giant That Designs And Manufactures Microprocessors (X86 Architecture), Chipsets, Network Interface Controllers, And Enterprise Server Processors
1542	Lenovo	CHINA	GSP21	One Of The World'S Largest Pc And Smart Device Manufacturers, Producing Thinkpad And Ideapad Laptops, Workstations, Tablets, And Enterprise Data Center Infrastructure
1543	Microsoft	UNITED STATES OF AMERICA	GSP21	A Software, Hardware, And Cloud Computing Company Known For The Windows Operating System, Microsoft 365, Azure Cloud Services, And Surface Devices
1544	Nvidia	UNITED STATES OF AMERICA	GSP21	A Semiconductor And Tech Company Known For Inventing Gpus (Geforce) And Developing Leading Ai Acceleration Hardware, Software Frameworks (Cuda), And Data Center Networking
1545	Palo Alto Networks	UNITED STATES OF AMERICA	GSP21	A Cybersecurity Provider Specializing In Advanced Next-Generation Firewalls (Ngfw), Cloud-Native Application Protection (Prisma Cloud), And Ai-Driven Security Operations (Cortex)
1546	Samsung [1, 2, 3, 4]	SOUTH KOREA	GSP21	A Global Conglomerate And Major Electronics Manufacturer Producing Galaxy Smartphones, Televisions, Memory Chips, Consumer Home Appliances, And Display Panels
1547	Xvantage Platform	UNITED STATES OF AMERICA	GSP21	Ingram Micro'S Proprietary Ai-Driven B2B Digital Experience Platform That Integrates Hardware, Software Licensing, Cloud Marketplaces, Quoting, Tracking, And Operational Automation For Channel Partners.
1548	Ingram Micro Gulf	UNITED ARAB EMIRATES	GSP21	The Regional Subsidiary Of Ingram Micro Operating Across The Middle East, Turkey, And Africa, Delivering Value-Added Technology Distribution, Licensing, Training, And Supply Chain Logistics
1549	Inter Equipment Co. LLC	UNITED ARAB EMIRATES	7-F21	A Regional Industrial Supplier And Stocking Distributor Based In Dubai (Jebel Ali Free Zone) Specializing In Oilfield Supplies, Piping Materials, Industrial Valves, And Mechanical Equipment For The Oil & Gas, Marine, And Power Sectors.
1550	3M	UNITED STATES OF AMERICA	7-F21	A Multinational Diversified Technology Conglomerate Known For Industrial Adhesives, Abrasives, Personal Protective Equipment (Ppe), Reflective Materials, And Medical Products
1551	Caterpillar	UNITED STATES OF AMERICA	7-F21	Inter Equipment Distributes Products From Over 50 Industrial, Safety, And Mechanical Brands. Some Of The Principal Brands And Associated Companies Mentioned In Their Supply Network Include
1552	Enerpac	UNITED STATES OF AMERICA	7-F21	An Industrial Engineering Brand Specializing In High-Pressure Hydraulic Tools, Controlled Force Products, Heavy-Lifting Systems, And Bolting Solutions For Manufacturing, Infrastructure, And Mining.
1553	Hyster	UNITED STATES OF AMERICA	7-F21	A Material Handling Equipment Manufacturer Specializing In Industrial Forklift Trucks, Container Handlers, Reach Stackers, And Warehouse Lift Trucks
1554	Ridgid	UNITED STATES OF AMERICA	7-F21	A Specialized Tool Brand Best Known For Manufacturing Heavy-Duty Plumbing, Pipe-Working, Tubing, And Pressing Hand And Power Tools (Such As Pipe Wrenches And Threading Machines)
1555	Toyota Industrial Equipment	JAPAN	7-F21	The Industrial Material Handling Division Of Toyota Industries Corporation, Renowned Globally For Designing And Manufacturing Forklifts, Pallet Jacks, Automated Guided Vehicles (Agvs), And Tow Tractors
1556	Sumitomo	JAPAN	7-F21	A Major Japanese Conglomerate (Keiretsu) Whose Industrial Arms Manufacture Heavy Machinery, Rubber Products (Tires), Power Transmission And Drive Systems, Metals, And Electrical Cabling
1557	Justrite	UNITED STATES OF AMERICA	7-F21	A Safety Equipment Manufacturer Providing Fire Prevention And Safety Solutions, Including Hazardous-Material Storage Cabinets, Safety Cans, Spill Containment Systems, And Safety Vessel Storage
1558	Polyken	UNITED STATES OF AMERICA		An Industrial Adhesive Brand (Produced Under Berry Global) Renowned For High-Performance Tapes, Pipeline Anticorrosion Wrapping Systems, And Specialty Hvac/Abatement Tapes

1559	Cofra	ITALY		A Safety Apparel And Personal Protective Equipment Manufacturer (Founded In Barletta, Italy) Specialized In Safety Footwear, Technical Workwear, Protective Eyewear, And Gloves
1560	Leslie Controls	UNITED STATES OF AMERICA	7-F21	A Flow-Control Engineering Brand Producing Severe-Service Control Valves, Steam Regulators, Desuperheaters, And Fluid-Handling Systems For Power Generation, Marine, And Oil & Gas Sectors
1561	Inter Pipe Factory	UNITED ARAB EMIRATES	5-A21	Plastic Tubes, Pipes, Hoses And Its Fittings Manufacturing, Fiber Glass Cement Product Manufacturing
1562	NBHH / Nael & Bin Harmal Hydroexport	UNITED ARAB EMIRATES	5-A21	Water Technologies And Services
1563	Nael Construction & Contracting	UNITED ARAB EMIRATES	5-A21	Construction And Contracting
1564	SFT - Piles Foundation, Shoring Works	UNITED ARAB EMIRATES	5-A21	Drilling And Foundation
1565	Envicon - Electromechanical	UNITED ARAB EMIRATES	5-A21	Electromechanical Works
1566	Asphaltco	UNITED ARAB EMIRATES	5-A21	Asphalt
1567	Alumatec	UNITED ARAB EMIRATES	5-A21	Aluminum
1568	INTERSTEEL	UNITED ARAB EMIRATES	5-A21	Steel
1569	Dura Pipe	UNITED ARAB EMIRATES	5-A21	Pipeline Solutions
1570	International Foundation Group LLC (IFG)	UNITED ARAB EMIRATES	5-B2	Water Pipelines & Stations Contracting, Piling & Foundation, Tunnels, Sewerage & Drainage, Service Lines Coring & Ditching
1571	Intersel Dowding & Mills Fzco	UNITED ARAB EMIRATES	6-B8	Rotating Equipment Repair Services
1572	Wabtec		6-B8	Wabtec (For Ac/Dc Drilling Motors
1573	Cummins		6-B8	For Industrial Generators And Alternators
1574	ITALIAN PAVILION	ITALY	SS-P16	
1575	A. T COVERS	ITALY	SS-N8	Odor Control Covers And Modular Systems For Wastewater Treatment Plants.
1576	Agenzia ICE / Italian Trade Agency – ITA	UNITED ARAB EMIRATES	SS-P8	Public Agency Supporting The Internationalization Of Italian Companies And Promoting Italy As A Destination For Trade, Investment And Tourism.
1577	AIR CLEAN	ITALY	SS-P12	Designing, Manufacturing And Installing Advances Air Treatment And Biodrying/Composting Systems (Bioscrubber, Biotrickling, Biofilters, Scrubbers, Bag Filters, Etc.) For Municipal And Industrial Sectors
1578	ALFA WATER	ITALY	SS-L9	Advanced Water Filtration Systems For Industrial, Civil, And Marine Applications
1579	AMBIENTE INGEGNERIA	ITALY	SS-L17	Advaced Supervisory Control Applied To Water Treatment Systems For Industrial&Commercial, Residential
1580	AQUAPONIC DESIGN	ITALY	SS-N19	Integrated Aquaponic And Hydroponic Systems For Sustainable Urban Farming - Design And Development Of Water-Efficient Hydroponic, Aquaponic And Vertical Farming Systems. Deep Water Tower Cultivation Technology And Roboponic Robotic Automation For Controlled-Environment Agriculture. Integrated Water Recirculation, Fertigation, Monitoring And Control Solutions.
1581	AUMATECH COMPOSITE	ITALY	SS-N10	Automated Machinery And Production Lines For Hydrogen And Gas Composite Tanks.
1582	B.T.T. ITALIA	ITALY	SS-K13	Eco-Friendly Hydrometallurgical Plants For Precious Metals Recovery From Electronic Waste.
1583	B-ZERO	ITALY	SS-N19	Hydrogen-Based Clean Energy Storage Systems And Green Refueling Technologies.
1584	CAMEC	ITALY	SS-N13	Industrial Shredders, Recycling Machinery, And Turnkey Waste Processing Plants.
1585	CANNON ARTES	ITALY	SS-N15	Industrial Water And Wastewater Treatment Plants And Water Reuse Systems.
1586	CARRA DEPURAZIONI	ITALY	SS-L19	Natural Constructed Wetlands (Phytodepuration) And Biological Wastewater Treatment Systems.
1587	COSTRUZIONE ELETTRICA DESIANA DI FRIGHI MATTEO CARLO E C.	ITALY	SS-L13	Industrial Electrical Panels, Automation Systems, And Power Distribution Solutions.
1588	DIFLON TECHNOLOGY	ITALY	SS-L18	High-Performance Fluoropolymer (Ptfe/Pfa) Lined Pipes And Fluid Handling Components.
1589	EasyRFID	ITALY	SS-P13	Waste Management, Logistics, Retail, Supply Chain
1590	Bee S.r.l.s.	ITALY	SS-P13	IoT Solutions

1591	ECO-TECHNO	ITALY	SS-M9	Manufacturer Of Vacuum Evaporators And Concentrators For The Industrial Wastewater Treatment
1592	EMEC	ITALY	SS-P19	Dosing Pumps, Controllers, Probes, Clo2 Generators
1593	ETATRON D.S.	ITALY	SS-P14	Dosing Systems
1594	FABCUBE	ITALY	SS-N19	Advanced 3D Printing Equipment For Industrial Waste Recycling And Circular Design.
1595	BOCAS – Boat Care Automation System	ITALY	SS-N19	Collaborative Robotic Solution For Automated Sanding And Surface Finishing In The Marine Industry, Integrating Advanced Robotics, Process Digitalization And Dust Extraction Technologies To Improve Efficiency, Quality, Operator Safety And Environmental Sustainability.
1596	FAGGIOLATI PUMPS	ITALY	SS-N12	Manufacturer Of Submersible Pumps, Mixers And Aerators For Wastewater Treatment Plant.
1597	FOR.TEC. - FORNITURE TECNOLOGICHE	ITALY	SS-M15	Manufacturer Of Waste Incinerators, Crematoriums, Paint-Stripping Ovens And Hospital Waste Sterilizers
1598	FPZ	ITALY	SS-K17	Spring Return Metering Pumps, Solenoid Pumps, Electric Mixers, Side Channel Blowers, Air Knives, Industrial Fans
1599	Doseuro Srl	ITALY	SS-K17	Metering Pumps
1600	Arivent Srl	ITALY	SS-K17	Axial And Centrifugal Fans
1601	GANIGA INNOVATION	ITALY	SS-N19	Ai-Powered Smart Waste Bins For Automated Recycling And Waste Analytics.
1602	Gruppo RES – New York Office	UNITED STATES OF AMERICA	SS-N19	International Branch / Office - It Services And Consulting
1603	Gruppo RES (RES S.r.l.)	ITALY	SS-N19	Parent Company - Software Development, It Services And Consulting; Integrated Digital, Marketing, Design And Technology Services For Enterprises
1604	HYTEK	ITALY	SS-M19	Hytek Hydrotechnologies Is An Italian Provider And International Distributor Of Primary Water Treatment Solutions. It Specializes In Engineering Components, Reverse Osmosis (Ro) Systems, Ultrafiltration, Uv Disinfection, And Water Conditioning Equipment For Commercial And Industrial Applications
1605	DUPONT	UNITED STATES OF AMERICA	SS-M19	Multinational Conglomerate And A Primary Developer Of Separation Technologies. In The Water Treatment Sector, It Produces Filtration Media, Including Filmtec™ Reverse Osmosis (Ro) And Nanofiltration (Nf) Membranes, Ultrafiltration Modules, And Ion Exchange Resins
1606	TRANSFILM	UNITED STATES OF AMERICA	SS-M19	Membrane Technology Brand And Manufacturer Founded By Water Treatment Scientists In The U.S. It Specializes In Spiral-Wound Industrial Reverse Osmosis (Ro), Brackish Water, Seawater Desalination, And Nanofiltration (Nf) Membrane Elements
1607	VEOLIA	FRANCE	SS-M19	Environmental Services Corporation Specializing In Water Management, Waste Services, And Energy Recovery. Its Water Technologies Division Develops Turnkey Municipal And Industrial Water And Wastewater Treatment Systems, Membrane Solutions, And Filtration Products
1608	PENTAIR	UNITED STATES OF AMERICA	SS-M19	Industrial Water Treatment And Fluid Solutions Company. It Manufactures Residential, Commercial, And Industrial Pumps, Filtration Units, Control Valves, And Pressure Vessels Across A Portfolio Of Sub-Brands Such As Fleck, Pentek, And Codeline
1609	FEDCO	UNITED STATES OF AMERICA	SS-M19	Engineering And Manufacturing Company That Produces High-Pressure Feed Pumps And Hydraulic Energy Recovery Devices (Erds/Turbochargers) Primarily Engineered For Seawater And Brackish Water Reverse Osmosis Desalination Plants
1610	CODELINE	UNITED STATES OF AMERICA	SS-M19	Industry-Standard Brand Of Fiber-Reinforced Plastic (Frp) Membrane Pressure Vessels (Membrane Housings) Designed To Contain Ro, Nf, And Uf Membranes In High-Pressure Desalination And Industrial Water Purification Plants
1611	ECOLAB	UNITED STATES OF AMERICA	SS-M19	Ecolab Is A Global Supplier Of Water Treatment, Hygiene, And Infection Prevention Services.

1612	IEG - ITALIAN EXHIBITION GROUP	ITALY	SS-L16	Event Organisers Of Ecomondo: The Benchmark Annual Event In Europe And The Mediterranean Basin For Technological And Industrial Innovation In The Green & Circular Economy Sectors Raging From Waste Valorisation, Bioenergy & Agriculture All The Way To The Integrated Water Cycle
1613	ITALBIOTEC Srl SOCIETA BENEFIT	ITALY	SS-N19	Industrial Biotechnology Research And Eco-Sustainable Bio-Based Chemical Solutions.
1614	V-Rotex		SS-N19	Innovative And Energy-Efficient Wastewater Treatment Technology Combining Mbbr And Biodisc Technologies
1615	KREIN	ITALY	SS-N19	Digital Engineering, Telemetry, And Monitoring Solutions For Renewable Energy Plants.
1616	MADDALENA	ITALY	SS-P15	High-Precision Smart Water Meters And Thermal Energy Metering Solutions.
1617	Advantix S.p.A - MAXA Heating & Cooling	ITALY	SS-L8	We Design, Build And Distribute Inverter Heat Pumps And Air Conditioning Eco-Sustainable Systems
1618	MAXA Heating & Cooling		SS-L8	
1619	MOVESION	ITALY	SS-N9	Smart Mobility Management Platforms And Sustainable Corporate Commuting Solutions.
1620	OCMI-OTG	ITALY	SS-M13	Gear Units, Horizontal And Vertical Parallel Shafts, Right Angle Gears, Gear With Involute
1621	PALAZZOLI	ITALY	SS-M8	Heavy-Duty And High-Current Electrical Systems And Lighting Equipment, For Industry, Atex, Infrastructure And Marine Applications
1622	ROVATTI A. & FIGLI POMPE	ITALY	SS-L12	Submersible Pumps, Vertical Turbine Pumps, End Suction Pumps, Multistage Pumps, Flanged Pumps, Pto Pumps, Hydraulic Driven Pumps, Horizontal/Vertical Electropumps, Sewage Pumps, Self Priming Pumps
1623	SUZHOU ROVATTI PUMPS CO. LTD	CHINA	SS-L12	Manufacturing And Distribution Division Of The Rovatti Group, Established To Supply Pumps And Related Fluid-Handling Equipment To Asian And International Markets
1624	ROVATTI FRANCE SARL	FRANCE	SS-L12	Subsidiary Branch Of The Rovatti Group Responsible For The Wholesale Distribution, Commercialization, And Technical Support Of Rovatti Pumping Systems And Equipment Throughout The French Market
1625	PUNTOMECC SRL	ITALY	SS-L12	Mechanical Precision Engineering And Precision-Machining Contractor Specializing In The Manufacturing And Finishing Of Metal Mechanical Components For Pumps, Gearboxes, Tractors, Automotive, And Industrial Machinery.
1626	SARL EPRA	ALGERIA	SS-L12	Distributor Representing Rovatti Pompe, Handling The Importation, Assembly, And Wholesale Distribution Of Agricultural, Submersible, And Industrial Water Pumps In Algeria
1627	NICOLINI & C. SRL	ITALY	SS-L12	Manufacturer Of Standard And Custom Asynchronous Ac Electric Motors (Single-Phase And Three-Phase), Widely Known For Hollow-Shaft Electric Motors Used For Direct Coupling To High-Pressure Pumps And Industrial Oem Machinery
1628	SAER ELETTROPOMPE	ITALY	SS-K15	Centrifugal Pumps And Motors Ideal For Applications In R.O., Desalination, O&G, Water Supply, Fire Figting, Water Pressurization, Waste Water.
1629	SATEPA	ITALY	SS-M11	Engineering Services, Substations, And High-Voltage Grid Connection Solutions.
1630	SEA - LAND	ITALY	SS-L11	Submersible Pumps, Centrifugal Pumps, And Surface Water Handling Systems.
1631	SEKO	ITALY	SS-M12	Dosing Pumps, Controllers, Accessories For Dosing, Blowers
1632	SERECO	ITALY	SS-N14	Equipment And Turnkey Plants For Municipal And Industrial Wastewater Treatment.
1633	FARI HOLDING S.R.L.	ITALY	SS-N14	It Functions Primarily As The Parent Company That Manages, Owns, And Controls Subsidiaries Within The Region—Most Notably Serving As The Ultimate Corporate Parent Of The Industrial Manufacturer Sereco S.R.L

1634	Masseria Calandrella Soc. Agr.	ITALY	SS-N14	An Agricultural Estate, Agritourism Farmhouse, And Bed-And-Breakfast. Located In A 19Th-Century Rural Stone Building In The Puglian Countryside, It Features An On-Site Restaurant Serving Modern Dishes Inspired By Traditional Peasant Cooking Using Homegrown Farm Produce
1635	I Dono Verde	ITALY	SS-N14	
1636	Masseria Magli Piccolo	ITALY	SS-N14	
1637	Imfari S.r.l.	ITALY	SS-N14	
1638	Sereco Next S.r.l.	ITALY	SS-N14	An Industrial Engineering And Manufacturing Company Founded In 1975 Specializing In The Design, Construction, And Supply Of Equipment And Turnkey Plants For Municipal And Industrial Water Treatment, Wastewater Purification, Sludge Processing, And Water Intake Systems Across More Than 70 Countries
1639	Bioimpianti S.r.l.	ITALY	SS-N14	
1640	Fondazione Arianna Ritella	ITALY	SS-N14	
1641	SIEVE	ITALY	SS-N19	Wastewater Filtration Technologies And Industrial Sludge Dewatering Screens.
1642	STARPLAST	ITALY	SS-L15	Polyethylene Underground Tanks And Treatment Plants For Wastewater And Rainwater.
1643	TEKNOFANGHI	ITALY	SS-K19	Sludge Dewatering And Thickening - Water Microfiltration
1644	TESIMAS	ITALY	SS-M10	Specialized Automation And Electrical Testing Solutions For Heavy Industrial Sectors.
1645	UNIDELTA S.p.A	ITALY	SS-M14	Unidelta Manufactures Plastic Pipes And Fittings For Conveying Hot And Cold Water And Gas.
1646	WLAB	ITALY	SS-N19	Smart Water Quality Monitoring Iot Nodes And Ecological Fluid Diagnostics.
1647	Iyym EPS FZE	UNITED ARAB EMIRATES	7-B8	Pumping System/Drives & Drive Systems/Panels & Instrumentations/Flow Metering Systems/Fuel Transfer System
1648	NORD Drive Systems	GERMANY	7-B8	Geared Motors And Drives
1649	Gorman-Rupp	UNITED STATES OF AMERICA	7-B8	Self-Priming Pumps, Standard Centrifugal Pumps, Submersible Pumps, Trash Pumps, Priming Assisted Pumps, Api676 Rotary Gear Pd Pumps
1650	AMT	UNITED STATES OF AMERICA	7-B8	Engine Driven And Diaphragm Pumps, High Pressure / Firefighting Engine Driven Pumps, Pedestal Drive Pumps, Self-Priming Electric Pumps, Hvac / Multistage Pumps, Straight Centrifugal Pumps, Submersible And Sump Pumps, Coolant Pumps
1651	ISOIL Industria	ITALY	7-B8	Electromagnetic Flow Meters, Ultrasonic Flow Meters, Thermal Energy Meters, Data Loggers And Data Management And Analysis Software
1652	ISOIL Impianti	ITALY	7-B8	Metering Skid, Positive Displacement Meters, Electronic Counters - Batch Controllers, Strainers And Gas Separators, Control Valves, Electrical Grounding Systems, Additive Injection Refuelling Units, Master Meters And Proving Tanks
1653	ITT Bornemann	GERMANY	7-B8	Api676 Twin Screw Pumps, Progressive Cavity Pumps
1654	ITT Goulds	UNITED STATES OF AMERICA / GERMANY / SOUTH KOREA / INDIA	7-B8	Paper Stock/ Process Pumps, Chemical Process Pumps, Api 610, Iso 13709 Pumps, Sump/Abrasives Slurry/ Solids Handling Pumps, Multistage/ Axial Flow/ Double Suction Pumps, Vertical Mixed And Axial Flow Pumps
1655	Toshiba	JAPAN	7-B8	Lv Drives, Lv & Mv Motors, Medium Voltage Drives, Ups Systems
1656	Borger	GERMANY	7-B8	Api676 Rotary Lobe Pd Pumps, Mobile Pumps, Maceratign Units, Separation Technology, Solid Feed Technology, Liquid Manure Technology, Stainless Steel Tanks
1657	NORD Drivesy stems	GERMANY	7-B8	Water, Waste Water, Renewable Energy, Oil & Gas
1658	Gorman-Rupp	UNITED STATES OF AMERICA	7-B8	Water, Waste Water, Industrial, Construction, Petroleum, Mining, Municipal, Agricultural, Oem Pumps
1659	AMT	UNITED STATES OF AMERICA	7-B8	Irrigation, Construction, Agricultural, Industrial, Marine, Municipal, Domestic, Dewatering, Oem Pumps
1660	ISOIL Industria	ITALY	7-B8	Water, Waste Water, Industrial, Commercial, Renewable Energy

1661	ISOIL Impianti	ITALY	7-B8	Oil & Gas
1662	ITT Bornemann	GERMANY	7-B8	Oil & Gas, Energy, Food, Marine
1663	ITT Goulds	UNITED STATES OF AMERICA	7-B8	Chemical, Pulp & Paper, Mining & Minerals, Power Generation, Oil & Gas, Pipeline, Primary Metals, Water & Waste Water, Food & Beverage
1664	Toshiba	JAPAN	7-B8	Water, Waste Water, Oil & Gas, Industrial, Commercial, Renewable Energy
1665	Jeddah Cable Company	KINGDOM OF SAUDI ARABIA	SSP13	Power Cables Manufacturing - Full Range
1666	Hesham El Sewedy Trading Co. Ltd.	KINGDOM OF SAUDI ARABIA	SSP13	Cables , Wires ,Power Distribution
1667	ENERGYA Cables International	KINGDOM OF SAUDI ARABIA	SSP13	Cables , Wires ,Power Distribution
1668	Saudi Company for Lighting Fixtures	KINGDOM OF SAUDI ARABIA	SSP13	Lighting . Power And Controlautomation
1669	Jordanor Contracting LLC	UNITED ARAB EMIRATES	SS-H29	Infrastructure Works
1670	Jubaili Bros	UNITED ARAB EMIRATES	7-B16	Energy Solutions (Diesel Generators, Renewables)
1671	Marapco	UNITED KINGDOM	7-B16	A Major Diesel And Gas Generator Brand Offered And Assembled By The Group, Utilizing Top-Tier Engine Components For Heavy-Duty Industrial Standby Use
1672	JET Generators	CHINA / LEBANON / UNITED ARAB EMIRATES	7-B16	A Traditional Diesel Generating Line Manufactured And Distributed Through Their Extensive Regional Network
1673	Perkins Engines	UNITED KINGDOM	7-B16	Jubaili Bros Serves As A First Electric Power Self-Service Original Equipment Manufacturer (Oem) For Perkins, Powering Generators Ranging From Compact 5 Kva Units Up To Massive 2,500+ Kva Industrial Models
1674	Leroy Somer	FRANCE	7-B16	French-Manufactured Alternators Coupled With Their Generator Assemblies For High Operational Reliability
1675	Huawei / Jinko	CHINA	7-B16	Renewable And Solar Hardware Partners Utilized For Solar-Battery And Inverter Energy Storage Projects
1676	Kalki Communication Technologies Pvt Ltd	INDIA	Z3-A2	Manufacturer Of Tele-Communication Devices And Automation Solution For Energy Sector
1677	KALKI.IO DATA HUB	INDIA	Z3-A2	Data-Hub Middleware For It-Ot Integration, Available In Cloud-Based Software As A Service Or Deployable On Your Infrastructure
1678	KALKI.IO EDGE	INDIA	Z3-A2	Simplify Data Collection And Analysis At The Edge For Smart Energy Applications
1679	KALKI.IO	INDIA	Z3-A2	A Flagship Enterprise Platform Suite Including Kalki.Io Data Hub
1680	Applied Systems Engineering (ASE)	UNITED STATES OF AMERICA	Z3-A2	A California-Based Company Acquired By Kalkitech In 2014, Specializing In Scada Protocol Test Equipment, Rtu (Remote Terminal Unit) Test Sets, And Validation Tools
1681	Kanoo Energy	UNITED ARAB EMIRATES	SS-T12	Manufacturing, Consultancy, Supply, Projects
1682	Kent RO Systems Limited	INDIA	SS-U8	Water Purifiers & Fans
1683	KENT	INDIA	SS-U8	The Flagship And Core Brand Representing Residential And Commercial Water Purifiers, Water Softeners (Autosoft), Vegetable Cleaners, Vacuum Cleaners, And Kitchen Appliances Like Air Fryers And Juicers
1684	Kuhl	INDIA	SS-U8	A Specialized Brand Under The Company Umbrella Manufacturing Energy-Efficient Brushless Direct Current (Bldc) Ornamental Ceiling Fans
1685	KENT Cam Technologies	INDIA	SS-U8	A Subsidiary/Associated Brand Focusing On Smart Security Cameras, Car Security Systems, And Other Digital/Cam Technology Solutions
1686	KIA (Al Tayer Motors)	UNITED ARAB EMIRATES	4-L8	Automotive
1687	Hyundai Motor Group	SOUTH KOREA	4-L8	The Ultimate Umbrella Conglomerate. It Controls The Automotive Ecosystem Through A Complex Cross-Shareholding Structure
1688	Hyundai Motor Company	SOUTH KOREA	4-L8	The Largest Single Stakeholder In Kia Corporation, Holding Roughly A 33.8% To 35% Ownership Stake Since Bailing The Company Out Of Bankruptcy In 1998
1689	Kontec Trading Co. L.L.C.	UNITED ARAB EMIRATES	4-A12	Water Treatment Solutions
1690	AQUA PURIFICATION SYSTEMS	UNITED STATES OF AMERICA	4-A12	Automatic Controller Valves
1691	BASF	GERMANY	4-A12	Water Treatment Chemicals
1692	DUPONT	UNITED STATES OF AMERICA	4-A12	Water Treatment Membranes
1693	ETATRON	ITALY	4-A12	Dosing, Controller & Regulator Pumps
1694	HYDRAUNATICS	UNITED STATES OF AMERICA	4-A12	Water Treatment Membranes
1695	LG CHEM	SOUTH KOREA	4-A12	Water Treatment Membranes
1696	SOLENIS	GERMANY	4-A12	Water Treatment Chemical

1697	Kotook Tech Ltd	UNITED ARAB EMIRATES	4G16	Innovation & Artificial Intelligence Research & Consultancies
1698	Kotook Green Ecosystem	UNITED ARAB EMIRATES	4G16	An Integrated, Data-Driven Network That Unifies Green Real Estate Technologies, Service Providers, And Eco-Friendly Solutions Onto A Single Platform
1699	The Greenness Index	UNITED ARAB EMIRATES	4G16	A Proprietary Ai Framework That Evaluates, Calculates, And Benchmarks The Objective Sustainability And Lifestyle Metrics Of Property Assets
1700	Kotook Talk	UNITED ARAB EMIRATES	4G16	A Specialized Media And Podcast Platform Hosting Critical Sustainability Conversations Among Industry Leaders, Developers, And Engineers.
1701	Green Broker Training Program	UNITED ARAB EMIRATES	4G16	A Standardized Professional Boot Camp Created In Partnership With Local Councils To Train Real Estate Brokers On Net-Zero Performance Indicators
1702	KOTRA (SOUTH KOREA Trade Investment Promotion Agency)	UNITED ARAB EMIRATES	6-E2	KOTRA Is A State-Funded Trade And Investment Promotion Organization Operated By The Government Of South Korea. Kotra Was Established In 1962 As A National Trade Promotion Organization.
1703	KROHNE and Belfast Controls	UNITED ARAB EMIRATES	SS-L21	Professional Engineering Firm, Offering A Broad Spectrum Of Technical Products And Solutions, Especially Valves, Instruments, Analyzers
1704	KROHNE	GERMANY	SS-L21	Market-Leading Independent Global Manufacturer Of Process Instrumentation And Measurement Solutions.
1705	Barksdale	UNITED STATES OF AMERICA	SS-L21	Specializes In Fluid Control And Measurement Devices. They Are Highly Recognized For Their Heavy-Duty Mechanical And Electronic Pressure Switches, Temperature Switches, And Patented Shear-Seal® Valve Technology Used In Industrial Settings
1706	BFE SRL	ITALY	SS-L21	Operates From Bergamo, Italy, Serving As The European Hub For High-Pressure Forged Steel Valve Production. They Design And Manufacture Gate, Globe, Check, And Ball Valves Tailored For Critical Application In Downstream Chemical Plants And Power Stations
1707	BiS Valves	UNITED KINGDOM	SS-L21	Designing And Manufacturing Small-Bore Stainless Steel Pressure And Flow Control Valves. They Specialize In Handling Corrosive Fluids And High-Pressure Liquid And Gas Systems For Topside, Subsea, And Downhole Offshore Applications
1708	Air Torque	ITALY	SS-L21	Leading Worldwide Manufacturer Of Pneumatic Actuators. They Specialize In Rack & Pinion And Scotch Yoke Aluminum And Stainless Steel Actuators Used For Automated Industrial Quarter-Turn Valve Solutions
1709	Valvosider	ITALY	SS-L21	Specializes In The Complete In-House Design, Casting, And Assembly Of Industrial Gate, Globe, And Check Valves. Their Products Are Heavily Featured On Global Vendor Lists For Chemical And Petrochemical Piping Networks
1710	Dynalco	UNITED STATES OF AMERICA	SS-L21	Produces Highly Rugged Digital Instrumentation, Magnetic Speed Sensors, Intrinsically Safe Tachometers, And Over-Speed Switches For Industrial Rotating Machinery, Engines, And Turbines
1711	TOSACA	SPAIN	SS-L21	Highly Specialized Manufacturer Focused Entirely On Safety Relief Valves. They Offer A Wide Range Of Valves (Sizes 1/2" To 20") Engineered With High-Alloy Metals Like Duplex And Inconel According To Ce And Asme Guidelines
1712	PEKOS	SPAIN	SS-L21	Major European Designer And Manufacturer Of Floating And Trunnion-Mounted Industrial Ball Valves. They Cater Heavily To The Shipbuilding, Hydrogen, Power Plant, And Petrochemical Markets
1713	Sigeval	SPAIN	SS-L21	Prominent European Manufacturer And Exporter Specializing In Concentric Rubber-Seated Butterfly Valves. Their Valve Systems Are Widely Used In Water Treatment Plants, Hvac Installations, Gas Distribution, And The Naval Industry
1714	Valsteam	PORTUGAL	SS-L21	Global Manufacturer Of Fluid Network Components And Industrial Steam Equipment
1715	KSB Middle East	UNITED ARAB EMIRATES	AR-M4	Ksb Markets Its Specialized Pump, Valve, And Automation Technologies Worldwide - The Central Division Driving Sales, Technical Support, And Product Distribution From The Jebel Ali Free Zone In Dubai

1716	KSB		AR-M4	The Primary Umbrella Brand For Centrifugal Pumps, Valves, Related Systems, And Its Global Service Division, Ksb Supremeserv
1717	AMRI		AR-M4	Specialized Butterfly Valves Equipped With Pneumatic, Hydraulic, Or Electric Actuators Used For Industrial, Water Engineering, And Power Applications.
1718	SISTO		AR-M4	High-Grade Diaphragm Valves Engineered For Biotechnology, Sterile Processes, Power Plants, And Building Services.
1719	KSB ITUR		AR-M4	Dedicated Manufacturing Line For Marine Pumps And Fire Protection Infrastructure Systems.
1720	KAGEMA		AR-M4	Custom Electric/Diesel Pump Sets, Emergency Generator Sets, And Control Cabinets Geared For Fire Protection Applications.
1721	MIL		AR-M4	Process Control Valves (Managed By Mil Controls Ltd.)
1722	KSB Service LLC		AR-M4	A Dedicated Service, Repair, And Maintenance Facility Based In Abu Dhabi To Support Local Industrial, Water, And Oil & Gas Sectors
1723	KSB Pumps Arabia Limited		AR-M4	A Major Joint Venture Operating Company Between Ksb Finanz Luxembourg And Abunayyan Holding Company, Serving The KINGDOM OF Saudi Arabia
1724	Al Masaood (MED)		AR-M4	A Primary Partner Providing Ksb Pumping And Industrial Machinery Solutions In Abu Dhabi.
1725	M A H Y Khoory & Co		AR-M4	A Major Distributor Supplying Ksb Pump Setups And Engineering Systems Throughout Dubai, Ras Al Khaimah, And Abu Dhabi
1726	Al Zerwa Trading Co. LLC		AR-M4	Prominent Authorized Trading Companies Handling Ksb'S Valve Line Distribution In Dubai
1727	Deep Sea Pipes and Fittings Trading LLC		AR-M4	Prominent Authorized Trading Companies Handling Ksb'S Valve Line Distribution In Dubai
1728	KTC International	UNITED ARAB EMIRATES	SS-D29	Buildings, Roads, Landscaping Contracting, Parking Management, Trading And Other Technical Divisions
1729	KTC INTERNATIONAL CONTRACTING	UNITED ARAB EMIRATES	SS-D29	Building And Roads Contracting, Electrical Fitting Contracting, Bridges And Dams Contracting, Sewage Drainage Contracting.
1730	KTC INTERNATIONAL LANDSCAPING	UNITED ARAB EMIRATES	SS-D29	Landscaping, Gardening And Irrigation Works, Agricultural Pest Control, Trees Removal & Transplanting Services.
1731	QUICK PARKING	UNITED ARAB EMIRATES	SS-D29	Car Park Rental Management, Valet Parking Services.
1732	Larsen & Toubro Limited (L&T)	UNITED ARAB EMIRATES	TSP3	Power Transmission & Distribution, Renewable Energy, Digital Solutions
1733	LARSEN & TOUBRO POWER TRANSMISSION & DISTRIBUTION	INDIA	TSP3	Electrical Transmission & Distribution Projects
1734	LARSEN & TOUBRO SOLAR PROJECTS	INDIA	TSP3	Solar Epc Projects
1735	LARSEN & TOUBRO HYDROCARBON ENGINEERING	INDIA	TSP3	
1736	LARSEN & TOUBRO SMART WORLD & COMMUNICATION	INDIA	TSP3	
1737	LARSEN & TOUBRO TRANSPORTATION INFRASTRUCTURE	INDIA	TSP3	
1738	LARSEN & TOUBRO POWER	INDIA	TSP3	
1739	LARSEN & TOUBRO WATER & EFFULENT TREATMENT	INDIA	TSP3	Water Supply & Distribution, Waster Water, Industrial & Large Water Projects
1740	LARSEN & TOUBRO ELECTRICAL & AUTOMATION	INDIA	TSP3	Water
1741	LARSEN & TOUBRO INDUSTRIAL MACHINERY & PRODUCTS	INDIA	TSP3	Electrical & Automation
1742	LARSEN & TOUBRO CONSTRUCTION & MINING MACHINERY	INDIA	TSP3	Industrial Machinery & Solutions
1743	LARSEN & TOUBRO VALVES	INDIA	TSP3	Mining & Construction
1744	LARSEN & TOUBRO REALTY	INDIA	TSP3	Water/O&G
1745	LARSEN & TOUBRO TECHNOLOGY SERVICES	INDIA	TSP3	
1746	LARSEN & TOUBRO INFOTECH	INDIA	TSP3	Technology
1747	LARSEN & TOUBRO METALLURGICAL & MATERIAL HANDLING	INDIA	TSP3	It / Innovation
1748	LARSEN & TOUBRO BUILDING & FACTORIES	INDIA	TSP3	Industrial
1749	LARSEN & TOUBRO SHIPBUILDING	INDIA	TSP3	Industrial

1750	LARSEN & TOUBRO HYDERABAD METRO	INDIA	TSP3	Shipbuilding
1751	LARSEN & TOUBRO HEAVY CIVIL INFRASTRUCTURE	INDIA	TSP3	Metros & Defence, Ports, Tunnels & Special Bridges
1752	LARSEN & TOUBRO HEAVY ENGINEERING	INDIA	TSP3	Infrastructure
1753	LARSEN & TOUBRO CORPORATE AFFAIRS	INDIA	TSP3	Engineering
1754	LARSEN & TOUBRO POWER DEVELOPMENT	INDIA	TSP3	Consultancy
1755	LARSEN & TOUBRO INFRASTRUCTURE DEVELOPMENT PROJECTS	INDIA	TSP3	Power & Electricity
1756	LARSEN & TOUBRO DEFENSE	INDIA	TSP3	Infrastructure
1757	Lonca Makina San. Ve Tic. A.S	REPUBLIC OF TURKIYE	6-A14	Lucy Electric Is A Leader In Primary And Secondary Power Distribution Solutions With Over 100 Years' Industry Experience. Specialising In High-Performance Medium Voltage Switchgear For Utility, Industrial And Commercial Applications, We Enable The Safe And Reliable Distribution Of Energy To Homes And Businesses Worldwide.
1758	Lucy Middle East FZE	UNITED ARAB EMIRATES	GSP11	Electricity Transmission & Distribution
1759	Lucy Zodion	UNITED KINGDOM	GSP11	Specialist In Street Lighting Control And Power Distribution Solutions, Providing The Infrastructure Required To Energise Urban Spaces From The Ground Up (Street Lighting Control And Power Distribution Hardware, Intelligent Street Lighting And Smart City Solutions)
1760	Lucy Properties	UNITED KINGDOM	GSP11	A Residential Landlord In Oxford For Over 50 Years And Is One Of The Largest Private Landlords In The City, Providing Homes For Over 850 Tenants In More Than 340 Properties.The Properties Are Let And Managed In-House And Range From Studio Flats To Townhouses And Penthouses.
1761	LAWSON FUSES	UNITED KINGDOM	GSP11	Lawson Fuses Ltd Specialises In The Design, Development And Manufacture Of Low Voltage Hrc Fuse-Links And Fuse-Holders.
1762	Lucy Electric Ltd.	UNITED KINGDOM	GSP11	Electricity Transmission And Distibution
1763	Lucy Electric (THAILAND) Ltd.	THAILAND	GSP11	Manufactures And Supplies Medium-Voltage Ring Main Units (Rmus) And Power Distribution Equipment For The Asean Region And Global Markets
1764	Lucy Switchgear Arabia Co. Ltd.	KINGDOM OF SAUDI ARABIA	GSP11	A Joint Venture/Local Operation Providing Medium-Voltage Switchgear Manufacturing, Assembly, And Engineering Support For The Gulf And Saudi Arabian Power Grids
1765	Lucy Electric SOUTH AFRICA (pty) Ltd.	SOUTH AFRICA	GSP11	Delivers Medium-Voltage Switchgear, Secondary Power Distribution Solutions, Lifecycle Services, And Technical Support Across The African Market
1766	Lucy Asia Pacific Sdn Bhd	MALAYSIA	GSP11	Acts As A Regional Hub And Commercial/Engineering Center For Power And Communication Line Structures And Electrical Distribution In The Asia-Pacific Region
1767	Lucy Electric (Beijing Co. Ltd.)	CHINA	GSP11	Handles Regional Market Operations, Sourcing, And Support For Lucy Electric'S Power Distribution Footprint In China
1768	Aegis Plus	UNITED ARAB EMIRATES	GSP11	A Compact, Extendible And Non-Extensible Front Cable Entry Ring Main Unit (Rmu) Rated Up To 24Kv, Featuring Sf6 Or Air-Insulated Options And Robotic Tank Welding With Automation Readiness
1769	Sabre	UNITED ARAB EMIRATES	GSP11	An Outdoor-Rated Side & Rear Cable Entry Ring Main Unit (Rmu) Rated Up To 24Kv, Designed For Secondary Distribution Networks With Sf6/Air Insulation And 30-Year Operational Life
1770	Trident	UNITED ARAB EMIRATES	GSP11	A Fuse-Switch Ring Main Unit (Rmu) Rated Up To 15.5Kv, Utilizing Oil Or Air As An Insulation Medium For Compact Grid Protection
1771	Scimitar	UNITED ARAB EMIRATES	GSP11	A Side- And Rear-Cable Entry Fuse-Switch Ring Main Unit (Rmu) Rated Up To 17.5Kv Using Sf6 Or Air Insulation Media
1772	Rapier AX/ Rapier DSB / Rapier GX	UNITED ARAB EMIRATES	GSP11	Medium- And High-Voltage Switch Disconnectors And Vacuum/Air-Insulated Overhead And Structure-Mounted Interrupters Rated Up To 145Kv For Outdoor Network Switching And Automation
1773	Gemini RTU	UNITED ARAB EMIRATES	GSP11	Next-Generation Remote Terminal Units (Rtus) And Modular Automation
1774	Gemini 3	UNITED ARAB EMIRATES	GSP11	Controllers Built Into Switchgear For Smart-Grid Monitoring, Fault
1775	Gemini 2.5 RTU	UNITED ARAB EMIRATES	GSP11	Location, And Remote Control
1776	Gemini Scada Solutions	UNITED ARAB EMIRATES	GSP11	Software And Hardware Integration Suites That Link Field Switchgear Back To Control Centers For Real-Time Scada

1777	TMO CABINETS	UNITED ARAB EMIRATES	GSP11	Transformer-Mounted Low Voltage (Tmo) Distribution Cabinets (Rated
1778	Aculok TMO	UNITED ARAB EMIRATES	GSP11	Up To 1600A) Equipped With The Proprietary Aculok Safety Fuse Handle
1779	MSDB	UNITED ARAB EMIRATES	GSP11	Wall-Mounting Or Pillar-Style Low-Voltage Distribution Boards Designed For Incoming Utility Supplies And Multiple Outgoing J-Type Fuseways
1780	SMDB	UNITED ARAB EMIRATES	GSP11	Indoor Low-Voltage Sub-Mains Cabinets Accepting A Single Incoming Supply To Distribute Power Through Multiple Triple-Pole Fuse Ways
1781	Maetel Instalaciones Y Servicios Industriales SA-Dubai	UNITED ARAB EMIRATES	GSP4	Renewable Energies
1782	ACS Group		GSP4	Maetel Operates Under The Industrial Arm Of Acs Group
1783	Magnetron Oilfield Equipment LLC	UNITED ARAB EMIRATES	SS-R26	Oilfield And Natural Gas Equipments And Spare Parts Trading
1784	Adam Pumps	ITALY	SS-R26	Dubai-Based Supplier Of Industrial, Fuel Handling, And Oilfield Equipment
1785	Affetti	ITALY	SS-R26	Magnetron Oilfield Equipment Llc Distributes Over 20 International Industrial Brands And Manufacturers Alongside Serving As A Master Distributor For Liquid Controls
1786	B-Meter	ITALY	SS-R26	A Global Designer And Manufacturer Of Water Meters (Turbine, Ultrasonic, And Mechanical Types) And Flow Measurement Technologies For Domestic, Municipal, And Industrial Utilities
1787	Bennett	UNITED STATES OF AMERICA	SS-R26	A Long-Standing Manufacturer Of Commercial Fuel Dispensers, Retail Gas Station Pumps, Alternative Fuel Systems (Like Lng/Hydrogen), And Heavy-Duty Fleet Fueling Equipment
1788	Betts Industries	UNITED STATES OF AMERICA	SS-R26	A Manufacturing Company Focusing On Critical Safety Components And Fluid Control Valves For Highway Cargo Tanks, Chemical Trailers, And Industrial Storage Tanks
1789	CDR Pompe	ITALY	SS-R26	A Premier Manufacturer Of Heavy-Duty Chemical Process Pumps, Featuring Mag-Drive (Magnetic Drive) And Mechanically Sealed Architectures Built For Hazardous, Toxic, And Volatile Chemical Environments
1790	Cim-Tek Filtration	UNITED STATES OF AMERICA	SS-R26	A Highly Recognized Specialist In Particulate And Water-Removal Filtration Solutions, Producing Fuel Filters, Hydraulic Filters, And Biofuel Strainers For Storage Tanks And Dispensers
1791	Cox-Reel	UNITED STATES OF AMERICA	SS-R26	A Heavy-Duty Manufacturer Of Industrial Hose Reels, Cord Reels, And Cable Reels Utilized In Aviation, Manufacturing, Automotive Service, And High-Pressure Washing Systems
1792	Reel-Craft	UNITED STATES OF AMERICA	SS-R26	A Global Developer Of Spring-Driven, Motor-Driven, And Hand-Cranked Hose, Cord, And Cable Reels Engineered For Tough Industrial, Marine, And Aviation Applications.
1793	Dixon Couplings	UNITED STATES OF AMERICA	SS-R26	A Massive Premier Manufacturer And Supplier Of Hose Fittings, Fluid Transfer Couplings, Industrial Valves, And Pneumatic Actuators For Industrial Plants And Mining Operations
1794	Donadon SDD	ITALY	SS-R26	A Specialized Engineering Firm Producing Custom-Made Rupture Discs (Bursting Discs), Explosion Venting Panels, And Pressure Safety Devices For The Chemical, Oil, And Pharmaceutical Industries
1795	Ever-Tite	UNITED STATES OF AMERICA	SS-R26	The Original Pioneer Of The Quick-Disconnect Cam-And-Groove Coupling System, Setting The Universal Design Standard For Quick Industrial Hose Connections.
1796	Goodyear Hoses	UNITED STATES OF AMERICA	SS-R26	High-Performance Commercial Hose And Rubber Products Engineered For Fuel Transfer, Air Systems, Water Delivery, And Heavy Industrial Chemical Transport (Now Manufactured Under Continental Ag'S Industrial Hose Division)
1797	Irpco	UNITED STATES OF AMERICA	SS-R26	A Specialized Manufacturing Firm Focused On Petroleum And Chemical Transfer Hoses, Vapor Recovery Systems, And Durable Aviation Refueling Components.
1798	Kepner Plastics	UNITED STATES OF AMERICA	SS-R26	A Manufacturer Focusing On Marine Environmental Containment, Notably High-Durability Oil Containment Booms, Environmental Barriers, And Emergency Fluid Storage Bladders

1799	Magflow Controls	UNITED STATES OF AMERICA	SS-R26	Electromagnetic And Digital Flow Meters Utilized For High-Precision, Low-Maintenance Flow Measurement Of Liquids In Municipal Water Networks And Chemical Lines
1800	Ranger Pumps	UNITED STATES OF AMERICA	SS-R26	A Robust Manufacturer Of External Positive-Displacement Rotary Gear Pumps, Specifically Engineered To Move Viscous Fluids, Bitumen, Asphalt, And Heavy Oils.
1801	Roper Pumps	UNITED STATES OF AMERICA	SS-R26	A Global Developer Of Rugged Industrial Fluid Pumps, Producing Progressive Cavity Pumps And Heavy Gear Pumps Used In Oil Exploration, Transport, And General Industrial Processing.
1802	Fill-Rite	UNITED STATES OF AMERICA	SS-R26	A Leading Manufacturer Of Rugged Ac/Dc Fuel Transfer Pumps, Mechanical And Digital Flow Meters, And Accessories For Transferring Diesel, Gasoline, And Agricultural Chemicals
1803	Husky	UNITED STATES OF AMERICA	SS-R26	A Specialized Supplier Of High-Durability Fuel Dispensing Nozzles, Swivels, Breakaways, And Safety Containment Equipment For The Retail Petroleum And Commercial Fleet Fueling Industry
1804	Mai Dubai LLC	UNITED ARAB EMIRATES	2-F16	Mai Dubai Llc Is A Principal Bottled Drinking Water Company Based In The United Arab Emirates (Uae), Fully Owned By The Dubai Electricity And Water Authority (Dewa) Sustainability, Transformation, Product Sampling
1805	Mai Dubai	UNITED ARAB EMIRATES	2-F16	Flagship Bottled Water Brand
1806	Mai Dubai ZERO+	UNITED ARAB EMIRATES	2-F16	United Arab Emirates (Zero-Sodium Alkaline Water Line
1807	Dubai Electricity and Water Authority PJSC (DEWA PJSC)	UNITED ARAB EMIRATES	2-F16	At Dubai Electricity And Water Authority (Dewa), We Align Our Strategy With The Uae Centennial 2071, The Eight Principles Of Dubai, The 50-Year Charter, The Dubai Clean Energy Strategy 2050 And The Dubai Net Zero Carbon Emissions Strategy 2050, Which Aim To Provide 100% Of Energy Production Capacity From Clean Sources By 2050, As Well As Other Government Strategies Designed To Ensure The Happiness Of Citizens, Residents And Visitors
1808	Sidel	FRANCE / GLOBAL	2-F16	Technology Partner Providing The "Super Combi" High-Speed Bottling Line
1809	Husky Injection Molding Systems	CANADA / GLOBAL	2-F16	Supplier For Pet Preform Molding Systems And Sustainable Packaging Design
1810	Admiral Mobility & Farizon Commercial Group	UNITED ARAB EMIRATES / CHINA	2-F16	Partners Providing Electric Vehicle Trucks For Mai Dubai'S Green Delivery Fleet
1811	Emirates Airlines	UNITED ARAB EMIRATES	2-F16	Official Water Refreshment Partner/Airline Customer
1812	Majid Fibre Glass & Prefab Ind. LLC SP	UNITED ARAB EMIRATES	2-A16	Fiberglass Manufacturing
1813	MAPA Group_Gunal Construction Trading and Industry Co. (Dubai Br.)	UNITED ARAB EMIRATES	5-C9	Construction
1814	Limak Group of Companies	UNITED ARAB EMIRATES	5-C9	Partner In Major International Infrastructure And Metro Joint Ventures (Such As The Dubai Metro Blue Line Consortium)
1815	CRRC Corporation Ltd.	UNITED ARAB EMIRATES	5-C9	Partner Alongside Mapa Group And Limak In Rail And Transport Infrastructure Consortiums (Dubai Metro Blue Line)
1816	ILF Consulting Engineers	UNITED ARAB EMIRATES	5-C9	Engineering And Project Consultancy Partner On Large-Scale Water Transmission And Pipeline Contracts
1817	MAPA Construction and Trade Co. Inc. (MAPA İnşaat)	REPUBLIC OF TURKIYE	5-C9	Flagship Infrastructure And Heavy Civil Engineering Contractor
1818	GÜNAL Construction Trade and Industry Co. Inc. (Günal İnşaat)	REPUBLIC OF TURKIYE	5-C9	Specializes In Residential, Commercial, Trade Centers, And Service Buildings (Founded 1983)
1819	MNG ZEMTAŞ Soil and Foundation Engineering Co. Inc.	REPUBLIC OF TURKIYE	5-C9	Provides Geotechnical And Foundation Engineering, Soil Mechanics, And Surveys
1820	MNG TARGEM Research Technology Development Consultancy Projects Co. Inc.	REPUBLIC OF TURKIYE	5-C9	Offers Architecture, Interior Design, And Engineering Consultancy
1821	MNG ESMAŞ Electrosystems Engineering Industry and Trade Inc.	REPUBLIC OF TURKIYE	5-C9	Delivers Electrical And Electronic Systems Engineering And Contracting
1822	MNG TESİSAT Air Conditioning Ventilation Heating Industry and Trade Inc.	REPUBLIC OF TURKIYE	5-C9	Handles Hvac, Plumbing, Fire Protection, And Mechanical Installations
1823	MNG Airlines	REPUBLIC OF TURKIYE	5-C9	Commercial Air Cargo And Transport Airline
1824	MNG Tourism and Trade Co. Inc.	REPUBLIC OF TURKIYE	5-C9	Manages Hotel And Resort Investments

1825	BGT, Balsu, Arhavi, Zincirli - Electricity Generation Companies	REPUBLIC OF TURKIYE	5-C9	Operates Hydroelectric And Renewable Energy Power Generation Assets
1826	MBH Power and Energy DMCC	UNITED ARAB EMIRATES	6-A9	Epc, Metering & Cng
1827	MBH Power and Energy Contracting LLC	UNITED ARAB EMIRATES	6-A9	Generation, Transmission, Distribution, Equipment Trading
1828	MBH Power FZ LLC	UNITED ARAB EMIRATES	6-A9	Generation, Transmission, Distribution, Equipment Trading
1829	MBH Power Ltd.	NIGERIA	6-A9	Generation, Solar, Thermal, Transmission, Distribution, Smart Meter, Manufacturing, Supply, Cng
1830	MBH Power Pvt. Ltd.	INDIA	6-A9	Generation, Solar, Transmission, Distribution, Design, Procurement
1831	MBH Power GHANA Ltd.	GHANA	6-A9	Transmission, Disatribution, Smart Meter, Manufacturing, Supply
1832	Meter & Control - Meter Manufacturer Partner	SERBIA	6-A9	Energy Meter Manufacturer
1833	UK Solar - Solar Street Lights Partner	UNITED KINGDOM	6-A9	Solar Street Lights
1834	McCrometer Inc.	UNITED STATES OF AMERICA	2-C20	Open Channel Flow Meter
1835	Veralto (Parent Company)	UNITED STATES OF AMERICA	2-C20	A Global Technology Leader Focused On Water Quality And Safeguarding Vital Resources, Which Houses Mccrometer
1836	Hach's Flow Solutions by McCrometer	UNITED STATES OF AMERICA	2-C20	The Rebranded Municipal Market Offering Resulting From Collaboration With Sister Veralto Company Hach, Incorporating Acquired Open-Channel And Closed-Pipe Flow Product Lines
1837	Water Specialties	UNITED STATES OF AMERICA	2-C20	A Legacy Propeller Meter Brand Integrated Into Mccrometer'S Product Portfolio
1838	McCrometer CONNECT	UNITED STATES OF AMERICA	2-C20	A Brand Division Providing Wireless Telemetry, Real-Time Data, And Remote Sensing For Agricultural Crop And Irrigation Management
1839	V-Cone & Wafer Cone	UNITED STATES OF AMERICA	2-C20	Differential Pressure Meters Built For Challenging Liquid, Steam, And Gas Applications.
1840	Ultra Mag & FPI Mag	UNITED STATES OF AMERICA	2-C20	Electromagnetic (Mag) Flow Meters Designed For High Accuracy And Low Maintenance.
1841	McPropeller	UNITED STATES OF AMERICA	2-C20	Widely Used Agricultural And Industrial Propeller Flow Meters
1842	FLO-DAR	UNITED STATES OF AMERICA	2-C20	Non-Contact Area-Velocity Sensors Used For Open-Channel And Sewer Monitoring
1843	ME Integra Wireless Equipment & Instruments Trading LLC	UNITED ARAB EMIRATES	7-D16	Smart Building Technology Solutions
1844	Meinhardt (SINGAPORE) Pte. Ltd	UNITED ARAB EMIRATES	2-D20	A leading international engineering, planning, and project management consultancy established in Singapore in 1973 - Civil and structural engineering, MEP (mechanical, electrical, and plumbing), facade engineering, infrastructure, planning, urban development, and project management
1845	MENA Engineering Equipment LLC	UNITED ARAB EMIRATES	5-B7	A Specialized Engineering, Trading, And Service Company. It Supplies Industrial Pumping Equipment, Water/Wastewater Treatment Solutions, And Advanced Utility Technologies Throughout The Middle East And Africa
1846	Coroless	UNITED KINGDOM	5-B7	A Manufacturer Specializing In Advanced Industrial Anti-Corrosion Coatings, Rust-Stabilizing Primers, And Vapour-Phase Corrosion Inhibitors. It Protects Iron And Steel Structures Like Water Tanks, Pipe Linings, Sewage Works, And Reservoir Tunnels
1847	Leopold	UNITED STATES OF AMERICA	5-B7	A Century-Old Global Leader In Rapid Gravity Media Filtration, Clarification, Denitrification, And Dissolved Air Flotation (Daf) Systems For Municipal Drinking Water And Wastewater Treatment Plants
1848	Mecana	SWITZERLAND	5-B7	A Pioneer In Wastewater Treatment Technologies, World-Renowned For Inventing Pile Cloth Media Filtration (Pcmf). Its Systems Are Widely Deployed For Tertiary Filtration, Solids Removal, And Microplastic Separation
1849	RO Calm Water	GLOBAL	5-B7	A Specialized Product Portfolio Or Product Segment Associated With Custom-Engineered Reverse Osmosis (Ro) Systems And Components Utilized By System Integrators To Treat Brackish Water And Industrial Process Water
1850	Wapro	SWEDEN	5-B7	A Market Leader In Backflow Prevention And Flow Control. It Is Globally Recognized For Manufacturing The Wastop Inline Check Valve, An Autonomous Mechanism That Protects Storm And Wastewater Networks From Flooding, Odor, And Pests

1851	Alvenius	SWEDEN	5-B7	A Manufacturer Of Lightweight, Spirally Welded, Pressure-Vessel-Class Steel Pipe Systems. Coated With Advanced Internal/External Corrosion Protections, These Pipes Are Designed For Rapid Assembly Without Hot Work In Mining, Firefighting, And Water Supply Application
1852	Flyght	SWEDEN	5-B7	The Undisputed Pioneer And Global Leader In Heavy-Duty Submersible Pumps, Mixers, And Clogging-Resistant Municipal Wastewater Pumping Solutions
1853	Aquateq	SWEDEN	5-B7	A Precision Manufacturer Of High-Efficiency Sewer Cleaning Nozzles, Hydro-Demolition Tools, And High-Pressure Pipe Cleaning Accessories Used In Municipal Drain Maintenance
1854	Ewedeco	GERMANY	5-B7	A Global Industry Leader In Chemical-Free, Environmentally Friendly Water Disinfection And Oxidation. The Brand Manufactures Large-Scale Ultraviolet (Uv) Disinfection And Ozone (O) Oxidation Systems For Municipal Utilities And Heavy Industries
1855	Surf Cleaner	SWEDEN	5-B7	An Eco-Innovator That Invents And Manufactures Hybrid Skimmer-Separators. These Devices Float On Wastewater Basins, Api Separators, Or Industrial Ponds To Collect And Separate Thin Oil Sheens And Floating Debris From Water With Up To 99.5% Purity
1856	Goulds Water Technology	UNITED STATES OF AMERICA	5-B7	A Leading Global Manufacturer Of Centrifugal Pumps, Turbine Pumps, Controllers, And Variable Speed Drivers For Commercial, Residential, Agricultural, And Industrial Water System
1857	Rottgers Ketten	GERMANY	5-B7	A Highly Specialized Manufacturer Of Heavy-Duty Industrial Chains, Round Steel Links, Specialized Master Links, And Robust Shackling Solutions Designed For Severe Load-Bearing Or Corrosive Submerged Environments
1858	Bell & Gosset	UNITED STATES OF AMERICA	5-B7	A Leading Manufacturer Of Centrifugal Pumps, Hydronic Heating/Cooling Components, Heat Exchangers, And Plumbing Valves Tailored For Hvac And Large Commercial Building Operations
1859	Mensha Energy Solutions LLC	UNITED ARAB EMIRATES	1-F12	Electric Vehicles Charging Stations Management & Operation
1860	Yantai Jinzheng Eco-Tech Co., Ltd. (NEWA)	CHINA	1-F12	Membrane Technology, Water Treatment & Water Reuse Solutions
1861	Pearl Electric Co., Ltd.	CHINA	N/A	Power & Distribution Transformers
1862	China National Nuclear Corporation (CNNC)	CHINA	N/A	Reactor Technology & Nuclear Power Plant
1863	China Electrical Equipment Group Co., Ltd. (CEE)	CHINA	N/A	power generation, transmission, distribution, energy storage, rail transit, and industrial automation
1864	Meraki Global Energy LLC	UNITED ARAB EMIRATES	1-D16	Acts As A Specialized Engineering, Supply, Servicing, And Local Corporate Partner/Promoter For The Oil & Gas, Power Generation, And Heavy Process Industries
1865	NEM	THE NETHERLANDS	1-D16	Globally Leading Equipment Supplier In The Field Of Heat Transfer Technology
1866	Bachmann Industries INC	UNITED STATES OF AMERICA	1-D16	Advanced Technologies For High-Performance Clean Energy Solutions
1867	HP Valves	THE NETHERLANDS	1-D16	Global Partner In Flow Solutions
1868	BVT Valve Solutions	SWEDEN	1-D16	Advanced Control Valve Technologies
1869	FLENCO Fluid Systems	ITALY	1-D16	Energy, Oil & Gas, Power Generation And Petrochemical Products
1870	ESCO	BELGIUM	1-D16	Specialist In Couplings And Transmission Products.
1871	Corretech Energy Limited	INDIA	1-D16	Manufacturing Of Precision Aerospace/Defense Components, Gas And Steam Turbine Components And Its Supply Of Spares, Replacement Parts, Component Repairs And Field Services.
1872	APS Gas Turbine Inc	UNITED STATES OF AMERICA	1-D16	Industrial Gas Turbine Parts And Services
1873	OME	ITALY	1-D16	Motors For Explosive Atmospheres: Advanced Safety In Hazardous Areas
1874	Schiebel	AUSTRIA	1-D16	60 Years Of Developing And Producing Electrical Actuators
1875	Radicon	UNITED KINGDOM	1-D16	Gears And Motors
1876	BELGAS	UNITED STATES OF AMERICA	1-D16	Global Leader In The Design And Manufacture Of Both High- And Low-Pressure Regulator Products.
1877	Kaji Technology Corporation	JAPAN	1-D16	Supplying Compressors Essential In Wide Areas Of Industries And Society
1878	Wangen Pumpen	GERMANY	1-D16	Producing Pumps For A Wide Variety Of Transported Substances And Materials In Numerous Diverse Fields
1879	GalaSSI & Ortolani	ITALY	1-D16	Valve Manufacturing

1880	Micro Sensor Co., Ltd	CHINA	SSG-J4	Since The 1970S, Micro Sensor Has Engaged In The Research And Development Of Pressure Sensors And Transmitters Designed Around Piezoresistive Measurement Principles. Using Its Rich Experience, Micro Sensor Provides Industrial Measurement And Control Solutions For Pressure, Liquid Level, Flow, And Temperature For Industrial Automation, Oil And Gas, New Energy, Chemical Industry, Paper Industry, Water And Sewage, And Many Other Fields Around The World. Oem&Odm And Custom-Design Are Available.
1881	LEEG Instruments	CHINA	SSG-J4	A Major Brand Acquired By Micro Sensor In 2022 To Strengthen Its Product Portfolio In The Process Automation And Hygiene-Critical Industries
1882	QinMing Group	CHINA	SSG-J4	The Original Joint-Venture Co-Founder That Partnered With Qinming Group To Establish Micro Sensor Co., Ltd. In 1993.
1883	Micro Sensor GmbH	GERMANY	SSG-J4	Established In 2018 In Essen, Serving As The Company'S Central European Subsidiary To Oversee Eu Sales, Support, And Engineering Operations
1884	Althen Sensors & Controls	THE NETHERLANDS / GERMANY / UNITED STATES OF AMERICA	SSG-J4	Strategic Premium Agent For The Eu And North American Markets, Focusing On Pressure And Liquid Level Transmitters.
1885	Future Sky Equipment LLC	UNITED ARAB EMIRATES	SSG-J4	Authorized Regional Distributor Since 2021, Providing Local Inventory And System Support.
1886	Process Control Services Pty Ltd	AUSTRALIA	SSG-J4	Sales And Maintenance Partner For Industrial Process Automation.
1887	Strainsense Limited	UNITED KINGDOM	SSG-J4	Specialist Test And Measurement Distributor Handling High-Precision Sensor Lines.
1888	Endrich Bauelemente Vertriebs GmbH	GERMANY	SSG-J4	Electronics And Component Distribution Partner.
1889	HARRIUS	SOUTH KOREA	SSG-J4	Regional Instrument And Factory Automation Supplier.
1890	CS2I-FRANCE	FRANCE	SSG-J4	Local Industrial Instrumentation Distribution.
1891	DLGroup Technology Joint Stock Company	VIETNAM	SSG-J4	Southeast Asian Market Engineering And Sales Partner.
1892	Middle East Fiberglass Ind. L.L.C	UNITED ARAB EMIRATES	2-H11	Middle East Fiberglass Industries Was Established With Aim Of Manufacturing Pioneer Product Made Out Of Frp/Grp(Fibre Reinforced Composites) For Industrial And Recreational Use.
1893	MFG Gulf	UNITED ARAB EMIRATES	2-H11	Operates Primarily Under The Corporate Identity And Brand Name Mfg Gulf Serving Sectors Like Oil & Gas, Marine, Power Generation, And Water
1894	Millennium Energy Global General Trading L.L.C	UNITED ARAB EMIRATES	6-B17	(Meg), Established In 2018 And Headquartered In Business Bay, Dubai, Uae, Acts As An Authorized Supplier, Distributor, And Service Provider For Specialized Industrial Equipment, Engineered Pumps, Severe Service Valves, And Vacuum Systems
1895	Gardner Denver Nash (Nash / Nash_Elmo)	UNITED STATES OF AMERICA / GERMANY	6-B17	Specializes In Liquid Ring Vacuum Pumps, Compressors, And Engineered Vacuum Systems.
1896	Elmo Rietschle (Elmo)	GERMANY	6-B17	Known For Industrial Vacuum Pumps, Low-Pressure Compressors, And Blowers.
1897	Hoffman & Lamson	UNITED STATES OF AMERICA	6-B17	Centrifugal Multistage Blowers And Vacuum Systems.
1898	Garo	ITALY	6-B17	Liquid Ring Compressors (Api 681 Compliant) And Specialized Gas Handling Systems
1899	Robuschi	ITALY	6-B17	Lobe-Type Blowers, Screw Compressors, And Centrifugal Pumps
1900	Hayward Tyler	UNITED KINGDOM / UNITED STATES OF AMERICA	6-B17	Specialized Industrial Pumps And Motors For High-Pressure/Critical Applications
1901	Buffalo Pumps	UNITED STATES OF AMERICA	6-B17	Heavy-Duty Centrifugal And Industrial Pumps.
1902	Wittig	GERMANY	6-B17	Rotary Vane Vacuum Pumps And Compressors
1903	Everest (Everest Blowers)	INDIA	6-B17	Positive Displacement Blowers And Vacuum Pump Systems
1904	Hyundai (Hyundai Welding / Corporation)	SOUTH KOREA	6-B17	Industrial And Heavy Infrastructure Components
1905	Hach	UNITED STATES OF AMERICA	6-B17	Water Quality Analysis And Testing Instrumentation.
1906	Kumera	FINLAND	6-B17	Industrial Gearboxes And Power Transmission Solutions
1907	Sonihull	UNITED KINGDOM	6-B17	Ultrasonic Anti-Fouling Systems For Marine And Industrial Infrastructure
1908	Minimax FSI DWC-LLC	UNITED ARAB EMIRATES	1-D12	Fire Protection Systems Technologies

1909	Minimax GmbH	GERMANY	1-D12	The Core German Operating Company. It Develops, Manufactures, And Services An Extensive Range Of Fire Protection, Suppression, And Detection Technologies. Its Solutions Protect Automotive Plants, Power Stations, Data Centers, Logistics Hubs, And Diverse Industrial Hazards
1910	Minimax Fire Solutions International GmbH	GERMANY	1-D12	An International Division Within The German Group Focused On Deploying Large-Scale Fixed Fire Fighting Systems, Turnkey Projects, Marine Vessel Defense, And Customized Hazardous Material Industry Solutions Across Global Markets
1911	Minimax	GERMANY	1-D12	Core Brand For Stationary And Customized Fire Suppression And Detection Systems.
1912	MXOne	GERMANY	1-D12	High-Performance Mobile Firefighting Turbine Developed For Complex Industrial And Outdoor Hazard Areas
1913	Clunid FMZ6000 / OneU	GERMANY	1-D12	Advanced Modular Fire Detection And Extinguishing Control Panels
1914	DryerProtect	GERMANY	1-D12	Specialized Application Brands
1915	PVProtect	GERMANY	1-D12	Specialized Application Brands
1916	PVProtect, and spark/machine protection systems	GERMANY	1-D12	Specialized Application Brands
1917	Taurus Group (TGC / Taurus Electromechanical Services)	UNITED ARAB EMIRATES	1-D12	Strategic Regional Partner Collaborating With Minimax Fsi Dwc For High-Profile Regional Showcases And Electromechanical/Fire Safety Project Installations
1918	Mohammad Mahdi Electronics Trading LLC_ MM Electronics	UNITED ARAB EMIRATES	5-B17	Electrical Test & Measuring Equipment / Videoscope Systems/ Inspection & Technical Solutions
1919	Megger	UNITED KINGDOM	5-B17	Major Electrical Testing And Insulation Diagnostic Equipment Principal
1920	PCE Instruments	GERMANY / UNITED KINGDOM	5-B17	Global Measuring And Inspection Instruments Manufacturer
1921	Hasegawa Electric	JAPAN	5-B17	High-Voltage Electrical Safety And Testing Tools
1922	Pintech	CHINA	5-B17	Electronic Test Equipment And Oscilloscope Probe Manufacturer
1923	Novotest	UNITED KINGDOM	5-B17	Non-Destructive Testing [Ndt] Quality Inspection Hardware
1924	Senko	SOUTH KOREA	5-B17	Gas Detection And Monitoring Systems
1925	Irtek	AUSTRALIA	5-B17	Non-Contact Temperature And Thermal Solutions
1926	Hioki	JAPAN	5-B17	Electrical Measuring Meters And Clamp Testers
1927	Fluke	UNITED STATES OF AMERICA	5-B17	Industrial Multimeters And Calibration Tools
1928	Testo	GERMANY	5-B17	Portable Thermal And Environmental Measurement Meters
1929	FLIR Systems / Teledyne FLIR	UNITED STATES OF AMERICA	5-B17	Thermal Imaging Cameras
1930	Multiline Technical Company	UNITED ARAB EMIRATES	2-E2	Trading, Contracting & Manpower Supply
1931	AB PROGETTI	ITALY	2-E2	Ejectors, Vacuum Systems, Condensers & Heat Exchangers
1932	BALLUFF	GERMANY	2-E2	Industrial Automation Sensors, Transducers
1933	CHEMTEC UNITED KINGDOM LIMITED	UNITED KINGDOM	2-E2	Electric Heaters, Vaporizers, Finned Tube
1934	CLARK RELIANCE	UNITED STATES OF AMERICA	2-E2	Level Measuring Instruments & Filteration/Separators
1935	DEKOMTE	GERMANY	2-E2	Expansion Joints (Fabric, Metal & Rubber Expansion Joints)
1936	De Pretto Industrie	ITALY	2-E2	Steam Turbine, Steam Turbine Maintenance & Services, Reverse Engineering.
1937	FORNEY	UNITED STATES OF AMERICA	2-E2	Dampers, Igniters, Burners, Flame Detectors, Burner Management System
1938	GESTRA	GERMANY	2-E2	High Pressure Control Valves, High Pressure Steam Traps, Boiler Electronics, Steam Traps, Wafer Type Check Valves, Steam Vessels, Steam Trap Testing Device.
1939	ITT Enidine Inc (ITT Conoflow)	UNITED STATES OF AMERICA	2-E2	Adjustable Pressure Switches, Adjustable Vacuum Etc.
1940	JERGUSON	UNITED STATES OF AMERICA	2-E2	Liquid Level Indication & Control
1941	Mann+Hummel	GERMANY	2-E2	Air Intake Filters,
1942	NIPPON PILLAR	JAPAN	2-E2	Mechanical Seals, Gland Packing /Gasket, Semiconductor Products
1943	NORDIC AIR FILTRATION A/S	DENMARK	2-E2	Gas Turbine Air In-Take Filters
1944	OIL FILTRATION SYSTEMS INC.	UNITED STATES OF AMERICA	2-E2	Oil Purification Systems & Filters
1945	TIAANO	INDIA	2-E2	Chlorinators, Electrodes, Hocl Generators, E-Etp & E-Stp, Hho Generators
1946	TURBOTECT LTD	SWITZERLAND	2-E2	Gas Turbine Compressor Cleaning, Fuel Oil Treatment, Balance Of Plant Products Compressor Cleaning Systems, Lubricity Improvement, Fuel Dehazer, Demulsifiers

1947	Naffco Group	UNITED ARAB EMIRATES	4-G7	Leading Global Producer And Supplier Of Life Safety Solutions, Fire Protection Systems, Firefighting Equipment, Security Systems, And Custom-Made Emergency Vehicles Like Fire Trucks, Ambulances, And Mobile Hospitals
1948	Airbus Helicopters	FRANCE / GERMANY	4-G7	Strategic Aviation And Safety Integration Partner
1949	Samsung E&A	SOUTH KOREA	4-G7	Engineering And Sustainable Safety Infrastructure Partner
1950	Scania	SWEDEN	4-G7	Next-Generation Emergency And Rescue Vehicles Partner
1951	Naficon & Anbak	UNITED ARAB EMIRATES	Z3-A4	They Produce Ready-Made Pigtails, Patch Cords, Multifiber And Hybrid Cables, Pre-Terminated 19-Inch Fiber Panels, Optical Distribution Frames (Odfs), Cabinets, Distribution Joint Enclosures, And Advanced Data Center
1952	Naficon Liitin Oy	FINLAND	Z3-A4	
1953	Naficon Fiber Optic Manufacturing LLC	UNITED ARAB EMIRATES	Z3-A4	
1954	Ambak Systems	UNITED ARAB EMIRATES	Z3-A4	A Specialized Low-Voltage, Structured Cabling, And Fiber Optic Network Installation Partner That Collaborates With Naficon On Regional Infrastructure Projects
1955	Naser Al Sayer & Co.LLC _Nasco	UNITED ARAB EMIRATES	6-D8	Distributor Test & Measurements
1956	Naser Al Sayer & Co.LLC _Sonel Exclusive Distributor	UNITED ARAB EMIRATES	6-D10	Distributor Test & Measurements
1957	HIOKI	JAPAN	6-D10	A Specialist Developer Of Electrical Measuring And Test Instruments Based In Japan
1958	MAKITA	JAPAN	6-D10	A Leading Manufacturer Of Industrial And Diy Power Tools Headquartered In Japan
1959	BITZER	GERMANY	6-D10	A Renowned Specialist In Refrigeration And Air-Conditioning Compressors Based In Germany
1960	GUNTNER	GERMANY	6-D10	A Global Provider Of Heat Exchangers And Refrigeration Components Originating From
1961	CASTLE	ITALY	6-D10	Refrigeration
1962	DANFOSS	DENMARK	6-D10	Refrigeration
1963	Tecumseh	UNITED STATES OF AMERICA	6-D10	A Prominent Manufacturer Of Commercial Refrigeration Compressors From France And The United States Of America
1964	Chemours	UNITED STATES OF AMERICA	6-D10	A Major Chemical Company Providing Specialized Refrigerants (Such As Freon) Headquartered In The United States Of America
1965	National Engineering Services & Trading LLC (NEST)	UNITED ARAB EMIRATES	6-F17	Nest Is A Prominent 100% Uae-National Engineering, Trading, And System Integration Firm. It Primarily Serves The Oil & Gas, Power Generation, Petrochemical, And Desalination Sectors
1966	NEST Employement Services LLC	UNITED ARAB EMIRATES	6-F17	An Hr Services, Recruitment, And Manpower Outsourcing Subsidiary Of Nest
1967	BHGE Masoneilan Control Valves	UNITED STATES OF AMERICA	6-F17	A Market Leader Specializing In Engineered Control Valves, Automated Liquid Level Controllers, And Smart Digital Process Instrumentation Used In Critical Upstream, Midstream, And Downstream Industrial Processes
1968	BHGE Consolidated Pressure Safety Valves	UNITED STATES OF AMERICA	6-F17	Manufactures Industrial Overpressure Protection Systems, Pilot-Operated Safety Valves, And Asme Section I & Viii Certified Pressure Safety Relief Devices
1969	BHGE Bently Nevada	UNITED STATES OF AMERICA	6-F17	The Premiere Global Name In Machinery Condition Monitoring And Hardware/Software Asset Protection
1970	BHGE Control Solutions	UNITED STATES OF AMERICA	6-F17	Provides Comprehensive Industrial Automation, Turbomachinery Controls, Distributed Control Systems (Dcs), And Lifecycle Optimization Configurations Across Power And Petrochemical Operations
1971	MTL Instruments Group	UNITED STATES OF AMERICA	6-F17	Expert Manufacturer Of Intrinsic Safety Isolators, Industrial Network Fieldbus Barriers, Surge Protection Equipment, And Hazardous-Area Hmi Systems
1972	Fluid Components Int. (FCI)	UNITED STATES OF AMERICA	6-F17	Develops And Designs Thermal Dispersion Flow Meters, Gas Mass Flow Meters, And Flow/Level/Temperature Switches Optimized For Demanding Oil, Gas, And Power Applications
1973	TC Ltd	UNITED KINGDOM	6-F17	An Engineering House Manufacturing Industrial Temperature Sensors, Thermocouples, Rtd Probes, And Specialized Temperature Cable Configurations
1974	Thermo Fisher	UNITED STATES OF AMERICA	6-F17	Develops And Designs Thermal Dispersion Flow Meters, Gas Mass Flow Meters, And Flow/Level/Temperature Switches Optimized For Demanding Oil, Gas, And Power Applications

1975	Extronics Ltd	UNITED KINGDOM	6-F17	Specializes In Intrinsically Safe And Explosion-Proof Equipment. They Construct Hazardous-Area Wireless Network Enclosures (Iwap), Worker Location Tags, And Real-Time Location Tracking Systems (Rtls)
1976	BARTEC	GERMANY	6-F17	A Primary Global Developer Of Explosion Protection Technology. Its Vast Catalog Includes Electrical Trace Heating, Explosion-Proof Terminal Boxes, Analyzers, And Mobile Communications Certified For Flammable Atmospheres
1977	Apollo Intelligent Security Solutions	UNITED STATES OF AMERICA	6-F17	A Highly Specialized Producer Of Enterprise-Grade Physical Access Control Panels, Alarm Monitoring Hardware, And Scalable Security Database Software
1978	Cisco Systems	UNITED STATES OF AMERICA	6-F17	The Global Leader In Network Switching, Routing, Enterprise Industrial Cybersecurity, And Data Infrastructure Solutions
1979	Prosoft	UNITED STATES OF AMERICA	6-F17	Designs Connectivity Equipment That Bridges Disparate Industrial Automation Protocols
1980	WOLONG/BROOK CROMPTON/ATB MOTORS	CHINA / UNITED KINGDOM / AUSTRIA	6-F17	A Joint Industrial Electric Motor Conglomerate. They Build Low, Medium, And High-Voltage Industrial Motors, Explosion-Proof Drives, And Ventilation Motor Units For Harsh Power And Utility Environments
1981	AXIS COMMUNICATIONS	SWEDEN	6-F17	An Innovator In Ip Video Surveillance, Manufacturing Network Cameras, Heavy-Duty Explosion-Protected Cameras For Hazardous Zones, And Smart Network Audio Systems
1982	AKAY INDUSTRIES	THE NETHERLANDS	6-F17	Manufactures Specialized Industrial Centrifugal Pumps Compliant With Api 610 Standards, Widely Utilized For Handling Volatile Hydrocarbons And Aggressive Chemical Mediums
1983	HHV Pumps	INDIA	6-F17	Designs And Produces Robust Vacuum Pumps, Including Rotary Vane And Roots Vacuum Systems, Aimed At Chemical Processing, Laboratories, And Heavy Manufacturing
1984	Haskel	UNITED STATES OF AMERICA	6-F17	A High-Profile Specialist In Pneumatically Driven Liquid Pumps, Gas Boosters, Air Amplifiers, And Comprehensive Hydrogen Handling Refueling Systems
1985	Butech Pressure Systems	UNITED STATES OF AMERICA	6-F17	Designs High-Pressure Valves, Fittings, And Fluid System Components Engineered To Handle Pressures Ranging From 10,000 To Over 150,000 Psi
1986	REXNORD	UNITED STATES OF AMERICA	6-F17	Heavy Mechanical Component Manufacturer Specializing In Industrial Couplings, Power Transmission Gears, Bearings, And Heavy-Duty Industrial Chains
1987	Garlock	UNITED STATES OF AMERICA	6-F17	A Foundational Manufacturer Of Fluid Sealing Infrastructure, Fabricating Industrial Gaskets, Compression Packing, Oil Seals, And Expansion Joints For Pipelines
1988	NEST Fabrication Workshop	UNITED ARAB EMIRATES	6-F17	The Dedicated Domestic Production And Custom Manufacturing Engineering Wing Of Nest
1989	NEST Masoneilan Approved Valve Repair Center (MARC)	UNITED ARAB EMIRATES	6-F17	A Localized, Fully Certified Facility Operating Under The Oem Authorization Of Baker Hughes. It Acts As A Regional Green Tag Center To Provide Predictive Asset Maintenance, Calibration, Shutdown Planning, And Genuine Repairs For Control Valves
1990	NEC Water Pipeline & Stations	UNITED ARAB EMIRATES	AR-K27	Installation And Commissioning Of All Pipelines Networks Including Water, Storm, Sewerage, Irrigation And Firefighting And Executing Of Dewa Water House Connections
1991	NeoGeoinfo Technologies Limited	India	6-F8	Geospatial Solutions, Data Collection & Analysis, System Integration and Asset Mapping & Management
1992	New Era Converting Machinery	UNITED STATES OF AMERICA	SS-R4	New Era Is A Global Enterprise Focused On Providing Custom Designed Equipment Solutions For The Web Handling Industry. With Decades Of Industry Experience, We Apply Our Engineered Solutions To Provide You With Web Handling Equipment Tailored To Your Converting Needs.
1993	PYS Machines & Equipment Consulting	GERMANY	SS-R4	Representing New Era As An International Business Development Specialist Covering Europe, India, And Parts Of Asia
1994	Plasto International LLC	UNITED STATES OF AMERICA	SS-R4	A Specialized Agency Providing Technology, Business, And Marketing Intelligence Outsourcing

1995	IPCO Global Network	SWEDEN	SS-R4	This Refers To The Widespread International Sales, Service, And Productivity Hub Network Of Ipco
1996	IPCO AB (subsidiary of FAM AB)	SWEDEN	SS-R4	A World-Leading Industrial Process Solutions Group Specializing In High-Performance Steel Conveyor Belts And Continuous Processing Systems
1997	Neway Valve	UNITED ARAB EMIRATES / CHINA	AR-N4	One Of The World'S Leading Industrial Valve Manufacturers, Specializing In Research, Development, Design, Production, And Sales Of A Comprehensive Range Of Industrial Valves.
1998	Neway Flow Control FZE	UNITED ARAB EMIRATES	AR-N4	A Regional Subsidiary And Operational Hub Of Neway Valve Located In Dubai, United Arab Emirates (Based In Jafza South)
1999	Next Generation Mobility LLC (Al Khoory)	UNITED ARAB EMIRATES	4-G6	A Specialized Mobility Division Established By The Al Khoory Group (Operating In The Region For Over 50 Years) To Introduce Cutting-Edge Electric Vehicles, Intelligent Connectivity, And Sustainable Transport Solutions To The Uae And Gcc In Alignment With National Net-Zero Goals
2000	ARCFOX	CHINA	4-G6	An Upscale, Intelligent Electric Vehicle (Ev) Brand Founded In 2017 By Baic Bluepark (A Subsidiary Of Baic Group)
2001	BAIC Group	CHINA	4-G6	An Upscale, Intelligent Electric Vehicle (Ev) Brand Founded In 2017 By Baic Bluepark (A Subsidiary Of Baic Group)
2002	Magna International	CANADA	4-G6	Smart, Practical, And Performance-Oriented Urban Mobility (Petrol And Hybrid Models).
2003	LIVAN Auto	CHINA	4-G6	A Practical, Smart New Energy Vehicle (Nev) Brand Founded In 2022 As A Joint Venture Between Geely Auto Group Subsidiaries And Lifan Technology
2004	Geely Auto Group	CHINA	4-G6	A Major Chinese Multinational Automobile Manufacturer Founded In 1997 As A Core Subsidiary Of Zhejiang Geely Holding Group
2005	Al Khoory Automobiles - Extended Automotive Portfolio	UNITED ARAB EMIRATES	4-G6	Al Khoory Automobiles—Separately Manages Long-Standing Relationships With Other Legacy Global Principals
2006	Subaru	JAPAN	4-G6	A Renowned Japanese Automotive Marque Globally Recognized For Its Signature Boxer Engines And Symmetrical All-Wheel Drive Systems
2007	Yutong	CHINA	4-G6	Officially Zhengzhou Yutong Group Co., Ltd., The World'S Largest Bus And Coach Manufacturer By Volume, Specializing In City Buses, Long-Distance Tourist Coaches, And High-Capacity Electric Buses
2008	King Long	CHINA	4-G6	It Is A Prominent Global Manufacturer Of Large-And-Medium-Sized Coaches, Light Passenger Vans, And Autonomous Electric Shuttles
2009	Nihon Mesh Kogyo UAE FZC	UNITED ARAB EMIRATES	SS-N28	Water Components Manufacturing
2010	Nihon Mesh Kogyo Co. Ltd	JAPAN	SS-N28	Manufacturing Industrial Metal Mesh Products, Specifically Mesh Demisters And Mist Eliminators Used Globally In Oil Refining, Petrochemical Plants, Lng Facilities, And Seawater Desalination
2011	Nilon Valves Pvt Ltd	INDIA	SS-M21	Industrial Valve Manufacturer And Supplier
2012	Ningbo Rxhl Technology Co. Ltd	CHINA	6-A21	Also Known As Ningbo Rixin Hengli Technology Co., Ltd., Brand Name Rtl) Is A Chinese Manufacturing Company Founded In 2016 And Headquartered In Cixi, Ningbo, Zhejiang, China, Specializing In Water Treatment Membrane Technology
2013	Luo Peidong	CHINA	6-A21	Legal Representative And Principal Of Ningbo Rxhl Technology Co., Ltd.. The Enterprise Was Founded By Technology Specialists Associated With China'S National Talent Initiatives
2014	Nirmal Industrial Controls Pvt. Ltd.	INDIA	GSP1	Supply Of Pressure Reducing Metering Skid, Pressure Regulator, Pressure Safety Valve
2015	Mesura SA	FRANCE / ITALY	GSP1	Partnered To Form The Joint Venture Mesura Nirmal Gas Controls Pvt. Ltd. In 2014, With Manufacturing And Plant Operations Based In Gujarat, India.
2016	Cavagna Group	ITALY	GSP1	Strategic Partner With Whom Nirmal Jointly Acquired The Milan-Based Process Design House Repco S.R.L. In Italy
2017	Oiltech S.r.l.	ITALY	GSP1	Fully Acquired In Late 2025 By Repco S.R.L., The Joint Venture Company Co-Owned By Nirmal And The Cavagna Group In Italy
2018	Inel Gas Controls	INDIA	GSP1	Long-Standing Associate Partner Since 2006 Specializing In Integrated Gas Regulating Solutions In India
2019	NKT Middle East DMCC	UNITED ARAB EMIRATES	7-B19	Hv & Mv Cable Accessories

2020	NKT A/S	Denmark	7-B19	Global Power Cable Technology Leader
2021	Nova Industries LLC	UNITED ARAB EMIRATES	2-D24	A Prominent Manufacturer Of Advanced Water And Wastewater Treatment Equipment Based In Egypt, With Corporate And International Arms In The United Arab Emirates (Uae). The Company Operates By Localizing The Production Of Cutting-Edge Sanitation Technologies Under License From International Principals And Partners
2022	Hassan Allam Holding	EGYPT	2-D24	Nova Industries (A Subsidiary Of Hassan Allam Holding)
2023	Parkson Corporation	UNITED STATES OF AMERICA	2-D24	Advanced Screening, Aeration, Clarification, And Biological Treatment.
2024	Meurer Research, Inc. (MRI)	UNITED STATES OF AMERICA	2-D24	Advanced Clarification And Solids Removal Equipment (Acquired By Parkson).
2025	Muhr	GERMANY	2-D24	Sustainable Clean Water, Penstocks, Energy, And Screen Cleaning Solutions.
2026	OTT Group	GERMANY	2-D24	High-Performance Municipal And Industrial Aeration Systems.
2027	Invent	GERMANY	2-D24	Advanced Mixing And Aeration Technologies For Water Treatment.
2028	Thermo-System	GERMANY	2-D24	Pioneer In Solar And Solar-Thermal Sludge Drying Solutions.
2029	Teknofanghi	ITALY	2-D24	Specialized Sludge Dewatering And Wastewater Management Equipment.
2030	Nova Starlink General Trading	UNITED ARAB EMIRATES	4-E9	Un And Iso-Certified Supplier And Manufacturer Of Industrial Packaging, Chemicals, And Oilfield Supplies
2031	Starlink Nova General Trading LLC	UNITED ARAB EMIRATES	4-E9	Serves The Gcc Chemical, Oil, And Gas Industries With Manufacturing, Storage, And General Procurement
2032	Nova Starlink FZC	UNITED ARAB EMIRATES	4-E9	
2033	Star Industries Pvt Ltd	UNITED ARAB EMIRATES	4-E9	
2034	NSF	UNITED ARAB EMIRATES	6-A11	Testing Inspection & Certification- Water
2035	Global Trust Certification	UNITED ARAB EMIRATES	6-A11	Global Provider Of Seafood Certification, Auditing And Inspection
2036	NSF EyeSucceed	UNITED ARAB EMIRATES	6-A11	Hands-Free, Interactive And Intuitive Smartglass Solutions For The Food Industry
2037	NSF International Strategic Registrations	UNITED ARAB EMIRATES	6-A11	Global Certification Body For Comprehensive Management Systems Registrations
2038	PROSYSTEM	UNITED ARAB EMIRATES	6-A11	Leading Global Consulting Services In Biomedical Engineering
2039	Quality Assurance International (QAI)	UNITED ARAB EMIRATES	6-A11	Leading Provider Of Organic Certification Services Worldwide
2040	TraQtion	UNITED ARAB EMIRATES	6-A11	A Cloud Quality And Compliance Management Platform
2041	Ocean Rubber Factory LLC	UNITED ARAB EMIRATES	SS-L28	Manufacturing Do All Type Rubber Product
2042	Ocean Rubber LLC	SULTANATE OF OMAN	SS-L28	Leading Middle Eastern manufacturer and supplier of technical rubber and steel-engineered products
2043	United Ocean Rubber Factory W.L.L	KUWAIT	SS-L28	
2044	United Ocean Trading & Services WLL	QATAR	SS-L28	
2045	ORF office	EGYPT	SS-L28	
2046	OHL Contracting LLC	UNITED ARAB EMIRATES	6-E5	Contracting
2047	ON Roading Contracting	UNITED ARAB EMIRATES	SS-N29	Pipeline Laying And Construction Works, Grp,Hdpe,Pvc,Di,Ci And Asbestos Cement Etc Pipe Line Plugging And Rectification Works, Construction Of Manhole, Chambers And Tanks Internal Patching And Lamination Works
2048	Operational Energy Group India Limited	India	2-D22	OPERATION AND MAINTENANCE OF POWER PLANT, UTLITIES. AND ENGINEERING AND DESALANATION
2049	Orascom Construction	EGYPT	2-D12	A leading global engineering and construction contractor focused on infrastructure, industrial, and high-end commercial projects
2050	BESIX Group	BELGIUM	2-D12	Owns A 50% Strategic Stake, Collaborating On Landmark Regional Mega-Projects
2051	Trojan Construction Holding	UNITED ARAB EMIRATES	2-D12	Partnered To Establish Everwater For Regional Water Treatment Infrastructure
2052	The Weitz Company	UNITED STATES OF AMERICA	2-D12	Wholly-Owned Subsidiary Operating As A Core Brand In The American Market.
2053	Orchid Contracting	UNITED ARAB EMIRATES	AR-L29	Building Contracting, Construction Works, Construction Services
2054	GULF ETERNIT	UNITED ARAB EMIRATES	AR-L29	Gre Pipes , Fittings ,Gunmetall Fittings (Etc)
2055	MEFAB INDUSTIES	UNITED ARAB EMIRATES	AR-L29	High Crabon Steels (Etc)
2056	DUCTO TENNENT LLC	UNITED ARAB EMIRATES	AR-L29	Gate Valves , Nrv, Insulations ,Gunmetal Fittins (Etc)

2210	CASCO Signal Ltd.	CHINA	PRSP10	Agreement To Build An Advanced Rail Signalling R&D Center And Innovation Laboratory Linked To The Dubai Metro Blue Line
2211	The Boring Company	UNITED STATES OF AMERICA	PRSP10	Agreement Signed To Implement The Dubai Loop Passenger Transport Project
2212	Trukker Technologies	UNITED ARAB EMIRATES	PRSP10	Signed A Joint Agreement To Establish A Digital Platform Streamlining Commercial Transport And Cargo Logistics
2213	Einride	SWEDEN	PRSP10	Collaboration Focusing On Autonomous Freight Mobility And System Testing Within The Emirate
2214	RUSSIA PAVILION - RUSSIAN EXPORT CENTRE JSC	RUSSIA	2-E4	State-Owned Development Institute Established By The Government To Support The Development Of The Non-Commodity Exports Industry/Sector
2215	ANTRAKS LLC	RUSSIA	2-G8	Overhead Line Fault Passage Indicators (Fpi), Feeder Monitors For Cable Lines, Overhead Line Automation Systems, Smart Disconnectors, Software For Control And Monitoring And Mobile Applications For Line Personnel Of Power Companies.

2216	MNPP Antraks LLC (Antraks Group)	RUSSIA	2-G8	An Engineering And Manufacturing Company Based In Fryazino, Russia (Founded In 1989). It Specializes In Developing And Producing Smart Equipment And Software Systems For Power Grid Automation, Electrical Networks, And Digital Substations
2217	A-Spike (IKZ) Series	RUSSIA	2-G8	Line Of Short-Circuit And Fault Indicators For Overhead Power Lines And Underground Cables
2218	Komendant (Commandant)	RUSSIA	2-G8	Advanced Power Distribution Automation And Remote Control Monitoring Software Systems
2219	OLTC Monitors	RUSSIA	2-G8	On-Load Tap Changer Position Monitors And Diagnostic Sensors For Power Transformers
2220	Argus-M LLC	RUSSIA	2-G10	Manufacturing Mobile Lighting Systems, Telescopic Masts, Inflatable Lighting Systems And Mobile Autonomous Video Surveillance Stations
2221	Helios	RUSSIA	2-G10	Solar-Powered Mobile Lighting Towers And Autonomous Masts
2222	Prometey & Argus-Light	RUSSIA	2-G10	Mobile Autonomous, Generator-Driven Lighting Towers And Diesel Light Poles Designed For Nighttime Infrastructure Work
2223	Argus-Strazh	RUSSIA	2-G10	Mobile, Autonomous Communication And Tactical Video Surveillance Stations
2224	Argus.Mayak, Perseus, Odyssey, Pegasus, & Argus-Походник	RUSSIA	2-G10	Specialized Variants Of Telescopic, Inflatable (Elg/El), And Portable Engineering Illumination Masts
2225	BO-4N & Argus-1	RUSSIA	2-G10	High-Quality Sanitation, Ultraviolet (Uv) Air Recirculators, And Automatic Touch-Free Disinfection Systems
2226	Argus Middle East W.L.L / Trading LLC	UNITED ARAB EMIRATES / GCC	2-G10	3Pl Distribution, Logistics Warehousing, Building Materials, And Corporate Trade Operations.
2227	Argus Systems DWC LLC	UNITED ARAB EMIRATES / MENA	2-G10	Security, Investigations, And Tactical Physical Layout Protection
2228	Argus International / Consulting	UNITED STATES OF AMERICA	2-G10	Specialized Program Management, Structural Sales Acceleration, And Complex Fuel Infrastructure Engineering.
2229	BSK ALFA	RUSSIA	2-E11	A Russian Innovative Manufacturer Of Fire-Resistant Insulating Glass Units, Fire-Resistant Compounds For Aluminum, Steel And Pvc Systems, As Well As Fire-Rated Glazed Constructions.
2230	ECO-R&D LLC	RUSSIA	2-E10	«Eco-R&D» Llc, Ulyanovsk, Has Been Developing And Manufacturing Special Bird Protection Devices. Since 2006 We Have Been Developing And Manufacturing Special Bird Protection Devices For Overhead Power Lines And Power Grids. Products Are Developed By Experienced Designers With The Participation Of Ornithologists - Professional Experts In Bird Protection.
2231	EVESS MANUFACTURING	RUSSIA	2-E8	Turnkey Industrial Water Treatment And Surface Finishing Systems: — Industrial Effluent Treatment Plants (Etp) And Water Treatment Stations; — Electroplating And Galvanizing Lines; — Ventilation Systems And Gas Scrubbers; — Polymer Process Tanks And Vessels; — Laboratory Equipment — Plc/Scada Automation
2232	ND Marine LLC	RUSSIA	2-E5	Manned And Unmanned Submersibles
2233	OCS Group LLC	RUSSIA	2-G11	Llc "Ocs Group" Specializes In The Supply And Production Of Equipment For Odor Removal And Purification Of Air-Gas Emissions At Industrial Facilities. We Provide A Wide Range Of Services, From The Survey Of Emission Sources, Selection And Design Of Equipment To Its Installation And Maintenance. Our Long-Term Experience And Ready-Made Solutions For Gas Purification And Odor Removal Enable Us To Offer Optimal Solutions Using The Best Available Technologies.

2250	Sokol Meteo (Escort Monitoring Systems)	RUSSIA	2-E6	Manufacturer Of Equipment For Meteorological And Environmental Monitoring. Part Of The Escort Monitoring Systems, Well-Known For Its Iot Equipment For Transport, Meteo, And Energy Monitoring. The Company Has Operating Since 2004, It Has Its Own In-House Production, And Exports Products To 123 Countries. Equipment Is Used In Agriculture, Industry, Transport, Energy, And Science. Full Cycle: From R&D To Technical Support.
2251	Sokol Meteo / Sokol-M	RUSSIA	2-E6	The Primary Brand Dedicated To High-Precision Automatic Weather Stations, Anemometers, Gas Analyzers, And Soil Moisture Sensors
2252	Escort Sensors	RUSSIA	2-E6	The Overarching Brand Name Under Which Wireless Fuel Level Sensors (Like The Bestselling Td-Ble), Tilt Angle Sensors, And Ultrasonic Proximity Sensors Are Distributed
2253	eCargosens	RUSSIA	2-E6	A Specialized Product Line And Brand Focused On Wireless Axle Load Monitoring And Total Weight Systems For Logistics
2254	DATOMS	INDIA	2-E6	Iot Platform Integration: Directly Integrates Data Protocols From The Sokol-M Weather Station To Deliver Cloud-Based Meteorological Insights.
2255	Timiryazev Agricultural Academy	RUSSIA	2-E6	Scientific & Software Development: Co-Developed Software Modules And Electronic Mathematical Models For Agricultural Crop Disease Control.
2256	RedGPS		2-E6	Telematics Software Partner: Integrates Sokol Meteo Data Feeds And Escort Fuel Telemetry Into Local Latin American Vehicle And Assets Monitoring Maps
2257	Svetozar Trade LLC	RUSSIA	2-G9	Manufacturing Of Climate Control Equipment
2258	"Proton" (SVT-TZ)	RUSSIA	2-G9	They Specialize In Industrial Ventilation, Climate Control Systems, Radiators, And Fire Safety Systems. Their Primary Proprietary Or Distributed Trade Brand Is "Proton" (Svt-Tz)
2259	NPP "Infrarada" (ООО НПП «ИНФРАРЭДА»)	RUSSIA	2-G9	Their Primary Domestic Engineering Partner And Principal Distributor Is Npp "Infrarada" (ооо нпп «инфрарэда»)
2260	W.E.T.E.R LLC	RUSSIA	2-G5	Wind Energy Technology Era Renewable
2261	V.O.D.A	RUSSIA	2-G5	A Specialized Brand Focused On Integrated Hydrostatic And Hydrodynamic Power Generation Structures, Which Are Frequently Engineered To Combine With W.E.T.E.R Systems Into A Single 156-Meter High-Rise Power Complex
2262	GOROD L.E.S	RUSSIA	2-G5	An Urban Development And Logistics Design Concept Aimed At Developing Multi-Level, Sustainable City Infrastructures And Automated Cargo-Passenger Transportation Networks

2263	AQUABRIGHT LLC	RUSSIA	AR-M17	Aquabright Llc Is A Manufacturer Of Water Purifying Filters And Cartridges By The Brand Name Aquabright Which Have No Analogs By A Number Of Characteristics Such As Reliability And Durability. For More Than 20 Years We Are One Of The Leading Companies In The Field Of Water Treatment. We Are Represented In More Than 20 Countries All Over The World.
2264	TERRA WATER GROUP LLC (TWG)	RUSSIA	AR-M17	Focused On Larger-Scale "Cottage" Water Purification Systems, High-Performance Aeration Compressors, Low-Noise Inverter-Controlled Pumping Stations, And Universal Inverter Blocks
2265	JEMIX	RUSSIA	AR-M17	Domestic Pumping Equipment, Drainage Pumps, And Water Delivery Systems Engineered Under Direct Supervision Across Dedicated Factories
2266	ECOBRIGHT	RUSSIA	AR-M17	High-Efficiency Filter Media Complexes, Including Ion-Exchange Resins And Sorbents Formulated To Remove Hardness Salts, Iron, Manganese, And Organics
2267	ESLI	EUROPE & MIDDLE EAST	AR-M17	Engineering, Industrial Water Treatment Integration, And Components.
2268	KONTEC	GLOBAL	AR-M17	Industrial Purification Applications And Systems Integration.
2269	TANKLIFE	GLOBAL	AR-M17	Specialized Water Storage Systems And Pressure Tank Integration.
2270	SOUL WATER	MIDDLE EAST & AFRICA	AR-M17	Distribution Partnerships For Region-Specific Water Treatment Configurations.
2271	AquaRhyme	RUSSIA	AR-M13	Aquarhyme Is An International Engineering Company Specializing In Water Treatment And Purification Technologies, Drinking Water Supply, And Desalination For Industrial And Infrastructure Projects.
2272	Clack Corporation	RUSSIA	AR-M13	Principal Component Supplier: Provides Automated Control Valves (E.G., Ws1, Ws2 Series) Used In Aquarhyme'S Filtration And Softening Plants.
2273	Kurita Water Industries	RUSSIA	AR-M13	Chemical & Process Partner: Supplies Specialty Water Treatment Chemicals, Anti-Scalants, And Formulation Agents For Heavy Industrial Wastewater Projects.
2274	Wave Cyber / Canature	RUSSIA	AR-M13	Vessel Supplier: Principal Manufacturer Of High-Pressure Structural Frp (Fiber-Reinforced Plastic) Membrane Housings And Filter Vessels.
2275	Aqua Industrial Group	RUSSIA	AR-M13	International Systems Partner: Collaborates On The Integration Of Dosing Pumps, Modular Pool/Wellness Systems, And Commercial Water Filtration Elements.
2276	DuPont Water Solutions (FilmTec)	RUSSIA	AR-M13	Membrane Partner: Primary Supply Channel For High-Rejection Reverse Osmosis (Ro) And Ultrafiltration (Uf) Elements Required For Industrial Desalination.
2277	Schneider Electric	RUSSIA	AR-M13	Automation & Plc Partners: Provides Control Systems, Smart Relays, And Localized Software Interfaces For Automated Plant Monitoring.
2278	Siemens	RUSSIA	AR-M13	
2279	Ecopak LLC	RUSSIA	AR-M21	An Eco-Friendly Product Made From Natural Low-Lying Peat. Its Active Organic Components Promote Root System Development, Improve Nutrient Uptake, Stimulate Plant Growth, And Enhance Resistance To Adverse Conditions. The Product Is Suitable For Use In Crop Farming, Gardening, Vegetable Growing, And The Cultivation Of Ornamental Plants. It Helps Increase The Efficiency Of Plant Nutrition And Improve Crop Quality.

2280	EMERALD ECOTECHNOLOGIES	RUSSIA	AR-M12	Emerald Company Manufactures Electrochemical Systems That Are Unparalleled In The World And Allow In Any Location And Quantity Without The Use Of Harmful Chemicals For: 1. On-Site Disinfection And Purification Of Drinking Water, Seawater, Wastewater And Swimming Pool Water. 2. On-Site Synthesize Environmentally Friendly Disinfectants And Detergents. 3. On-Site Chlorine Gas, Hydrogen And Caustic Soda Production. Emerald Devices Are Certified And Patented In Different Countries Of The World And Are Successfully Used In Many Spheres Of Human Activity: Water Treatment, Medicine, Pharmacy, Veterinary Medicine, Agriculture, Food, Oil And Gas And Chemical Industries, Housing And Utilities, Transportation, Mining Of Precious, Rare Earth And Radioactive Metals. The Average Service Life Of The Devices Is 12 Years. The Average Payback Period (Roi) Is 3 Years. All In All, 9 Years Of Profit
2281	EMERALD AQUACHLOR	RUSSIA	AR-M12	Large-Scale On-Site Mixed Oxidant Generation For Disinfecting Drinking Water, Wastewater, And Swimming Pools.
2282	EMERALD ECOCHLOR	RUSSIA	AR-M12	Safe, On-Site Production Of Chlorine Gas, Caustic Soda (Sodium Hydroxide), And Hydrochloric Acid Via Electrolysis
2283	EMERALD STEL	RUSSIA	AR-M12	Professional Systems For On-Site Production Of Eco-Friendly Anolyte Ank Super Mixed-Oxidant Sanitizer
2284	EMERALD HOME	RUSSIA	AR-M12	Household Water Purifiers And Ionizers That Generate Healthy Antioxidant, Hydrogen-Enriched Drinking Water
2285	EMERALD TURBO	RUSSIA	AR-M12	Complete Water Purification Systems Tailored To Clear Impurities, Heavy Metals, And Organics From Fresh, Brackish, Or Seawater
2286	Filter JSC	RUSSIA	AR-M15	More Than 50 Years We Are Produced Pp Cartridges For Water Purification. Main Application – Previous Filtration Before Membranes In Reverse Osmosis Installation, In Desalination Plant In Particular. Our Product Is Ideal Variant To Save Your Expensive Membranes And Provide Efficient Purification From Mechanical Particles.
2287	Filter Solutions OÜ / AS	ESTONIA	AR-M15	Group Head Office, Audits, Engineering & Industrial Automation
2288	Filter SIA	LATVIA	AR-M15	Project Planning, Installation & Maintenance Services
2289	Filter UAB	LITHUANIA	AR-M15	Local Engineering, Water Treatment & Feasibility Systems
2290	Filter Sp. z o.o.	POLAND	AR-M15	Energy, Steam & Cooling System Solutions Deployment
2291	Filter OOD	BULGARIA	AR-M15	Sales, Commissioning & Pumping Systems Engineering
2292	FILTER FINLAND	FINLAND	AR-M15	Nordics Distribution & Technical Support Operations
2293	Jenbacher	AUSTRIA	AR-M15	Gas Engines And Cogeneration (Chp) Energy Systems
2294	Clayton	UNITED STATES OF AMERICA / BELGIUM	AR-M15	Industrial Steam Generators And Exhaust Gas Boilers
2295	Oilon	FINLAND	AR-M15	Low-Emission Burners And Industrial Heat Pumps
2296	HACH	UNITED STATES OF AMERICA	AR-M15	Water Quality Testing, Analytical Systems, And Meters
2297	EVAPCO	UNITED STATES OF AMERICA	AR-M15	Evaporative Cooling And Industrial Refrigeration Units
2298	Allweiler	GERMANY	AR-M15	High-Performance Industrial Pumps And Fluid Equipment
2299	Kolmeks	FINLAND	AR-M15	Centrifugal Pumps And Integrated Motors
2300	Alldevice CMMS	ESTONIA	AR-M15	Maintenance Management And Industrial Automation Software
2301	KORPUS LLC	RUSSIA	AR-M18	Professional Services For The Transformation Of Water Supply And Sewerage Systems, Including Storm Sewer Systems: Network Inspection, Building A Digital Model Based On Gis, And Practical Recommendations For Modernization And Development
2302	KorpusGIS	RUSSIA	AR-M18	A Specialized Software Suite Tailored For Mathematical Modeling, Monitoring, And Planning Of Water Supply, Sewage, And Storm Systems
2303	Lexor LLC	RUSSIA	AR-M23	Recycling Technologies And Equipment For Tires, Scrap Metal And Industrial

2304	NPO Bronya LLC	RUSSIA	AR-M22	Liquid Ceramic Coatings "Bronya" Are Used In Thermal Protection Of Facades, Buildings, Roofs, Interior Walls, Window Slopes, Concrete Floors, Pipelines, Steam Pipes, Air Ducts.1 Mm "Bronya" Replaces 50 Mm Of Mineral Wool, The Confirmed Thermal Conductivity Of The Coating Is 0.001 W/(M °C). Bronya Rubber Protective Coatings Are Designed For Waterproofing, Protecting And Extending The Service Life Of Non-Absorbent Surfaces Or Surfaces With Low Absorbency.
2305	Bronya Classic / Classic NF	RUSSIA	AR-M22	The Universal Foundation Line Used For Pipelines, Steam Lines, And General Industrial Equipment
2306	Bronya Facade / Facade NF	RUSSIA	AR-M22	Specially Formulated High-Adhesion Thermal Layers Designed For Building Exterior Walls.
2307	Bronya Antirust	RUSSIA	AR-M22	A Unique Thermal Insulation Barrier Engineered To Be Applied Directly Over Rusted Metal Structures Without Prior Sandblasting
2308	Bronya Light / Light NF	RUSSIA	AR-M22	Used For Internal Building Finishes And Residential Insulation
2309	Bronya Fire Protection	RUSSIA	AR-M22	High-Grade Coatings Offering Certified Fire Retardant Capacities From R45 Up To R240
2310	Bronya AquaBlock Prism Pro / Hydrophobisator	RUSSIA	AR-M22	Liquid Waterproofing And Deep-Penetrating Transparent Rubber-Based Protection Layers
2311	Bronya Lite Acoustic	RUSSIA	AR-M22	Specialized Sound Insulation Validated By Institutions Like The University Of Pisa
2312	Poliplast LTD	RUSSIA	AR-M16	Electroplating And Ecological Equipment
2313	Poliplast LTD	RUSSIA	AR-M16	Electroplating And Ecological Equipment
2314	RTB Company (Neptun)	RUSSIA	AR-M20	Industrial Main Line Filters
2315	RUSSIAn Export Center JSC	RUSSIA	AR-M19	State-Owned Development Institute Established By The Government To Support The Development Of The Non-Commodity Exports Industry/Sector
2316	RUSSIAn Export Center JSC	RUSSIA	AR-M24	State-Owned Development Institute Established By The Government To Support The Development Of The Non-Commodity Exports Industry/Sector
2317	RUSSIAn Export Center JSC	RUSSIA	AR-M25	State-Owned Development Institute Established By The Government To Support The Development Of The Non-Commodity Exports Industry/Sector
2318	RUSSIAn Export Center JSC	RUSSIA	AR-M26	State-Owned Development Institute Established By The Government To Support The Development Of The Non-Commodity Exports Industry/Sector
2319	RUSSIAn Export Center JSC	RUSSIA	AR-N12	State-Owned Development Institute Established By The Government To Support The Development Of The Non-Commodity Exports Industry/Sector
2320	RUSSIAn Export Center JSC	RUSSIA	AR-N13	State-Owned Development Institute Established By The Government To Support The Development Of The Non-Commodity Exports Industry/Sector
2321	RUSSIAn Export Center JSC	RUSSIA	AR-N14	State-Owned Development Institute Established By The Government To Support The Development Of The Non-Commodity Exports Industry/Sector
2322	RUSSIAn Export Center JSC	RUSSIA	AR-N15	State-Owned Development Institute Established By The Government To Support The Development Of The Non-Commodity Exports Industry/Sector
2323	Waybot Automacon Robotics LLC	RUSSIA	AR-M14	Waybot Automacon Robotics Is A Russian Innovator Developing Autonomous Professional Cleaning Robots. Waybot Has Been A Skolkovo Resident Since 2021. Its Main Lab Is At Skoltech University. In 2025, Cleanbotics 400 Pro By Waybot Was Presented To President Vladimir Putin. Cleanbotics Was Also Showcased At Spief In 2024–2025. Clients Include Gazprom Neft, Tatneft, Rostec, Yelizovo Airport, Sklifosovsky Institute, It Park Kazan, Cleaning Firms And Malls Nationwide.
2324	Cleanbotics 400 & 400 PRO	RUSSIA	AR-M14	Compact Units Designed For Areas Spanning 1,000 To 2,000 Square Meters
2325	Cleanbotics 600	RUSSIA	AR-M14	Built For Medium-To-Large Facility Areas Up To 10,000 Square Meters

2326	Cleanbotics 900	RUSSIA	AR-M14	Heavy-Duty Model For Industrial And Extensive Commercial Complexes Up To 20,000 Square Meters
2327	Waybot Control	RUSSIA	AR-M14	The Proprietary Cloud Management Software Ecosystem Used To Remotely Program And Track The Robots
2328	S.K.M Air Conditioning LLC	UNITED ARAB EMIRATES	1-C8	Hvac Manufacturing
2329	Vision Trade	UNITED ARAB EMIRATES	1-C8	Authorized Distributor & Stockist For Unitary & Commercial Products
2330	Foster International LLC	UNITED ARAB EMIRATES	1-C8	Engineering-Driven Supplier, Contractor, And Trading Company Specializing In Hvac (Heating, Ventilation, And Air Conditioning) And Civil Engineering Solutions
2331	FAWAZ Trading	UNITED ARAB EMIRATES	1-C8	A Prominent Multi-National Engineering And Trading Group Operating Across All Gcc Countries (Kuwait, Saudi Arabia, Uae, Bahrain, Oman, Qatar, And Iraq)
2332	SKM KUWAIT	KUWAIT	1-C8	Regional Sales, Engineering, And Distribution
2333	Khimji Ramdas	SULTANATE OF OMAN	1-C8	Applied Systems & Unitary Products Distribution
2334	Sepei Ltd	EGYPT	1-C8	Principal Project & Contracting Partners
2335	Energy Contracting	EGYPT	1-C8	North African Regional Operations & Sales Office
2336	SKM Algeria	ALGERIA	1-C8	North African Regional Operations & Sales Office
2337	SAP Middle East and North Africa LLC	UNITED ARAB EMIRATES	SSP21	Digital Transformation
2338	WMS Middle East LLC	UNITED ARAB EMIRATES / GCC	SSP21	Sap Gold Partner (S/4Hana, Business One, Successfactors)
2339	Intrasoft Middle East	MIDDLE EAST & AFRICA	SSP21	Enterprise, Banking, Telecom, And Government Solutions
2340	Business Line	IRAQ & MEA	SSP21	Supply Chain, Cx, And Sla-Based Managed Infrastructure Support
2341	Azdan	GCC REGION	SSP21	Mid-Market Financial Applications And Digital Ecosystems
2342	Sapag Valves	FRANCE	7-E12	Industrial butterfly valves (lined or metal-seated like JMC and JHP ranges), ball valves, MONOVAR® control valves, check valves, gate/needle valves, and pressure relief valves (sizes ranging from DN8 to DN3000). Water distribution and treatment, gas and fluid transport, petrochemicals, energy, shipbuilding, food processing, and general process industries
2343	IPI Group (LK Hydraulics)	FRANCE / SWITZERLAND	7-E12	Ipi Group (Lk Hydraulics), A French-Swiss Industrial Group Specializing In High-Performance Fluid Control And Hydraulics.
2344	FAMAT SA	SWITZERLAND	7-E12	Design And Manufacturing Of Sampling And Specialized Industrial Valves.
2345	Barthod, Pollard, and Hydro	FRANCE	7-E12	High-Pressure Pumps And Hydrodynamic Equipment.
2346	DMH and LinkFluid	FRANCE / SOUTH AFRICA	7-E12	Hydraulic Fittings And Equipment Distribution
2347	SAPAG®	FRANCE	7-E12	Resilient Seated (Jmc) And High-Performance Double-Offset (Jhp) Butterfly Valves, Ball Valves, And Pressure Relief Valves
2348	GACHOT®	FRANCE	7-E12	High-Performance Butterfly Valves (E.G., Discovanne Gachot®) And Specialized Process Valves.
2349	MONOVAR®	FRANCE	7-E12	Specialized Multi-Jet Energy Dissipation And Control Valves.
2350	CLASAR®	FRANCE	7-E12	Highly Responsive, Non-Slam Check Valves For Fluid Transport And Piping Protection.
2351	RMI DUBEX	EUROPE	7-E12	Large-Scale Triple-Offset Butterfly Valves Designed For Critical Industrial Isolation.
2352	FAMAT	SWITZERLAND	7-E12	Industrial Sampling And Process Valves Managed In Tandem With The Ipi Valves Division.
2353	JMT	FRANCE	7-E12	Butterfly Valves
2354	Discovvane Gachot	FRANCE	7-E12	High Performance Butterfly Valves
2355	Isobox	FRANCE	7-E12	The Isobox Box Transmits Electrical Position Information.
2356	JHP	FRANCE	7-E12	High Performance Double Offset Butterfly Valves
2357	RTS 3	FRANCE	7-E12	Piece Ball Valve
2358	Bin Moosa & Daly	UNITED ARAB EMIRATES	7-E12	Operates As The Exclusive Authorized Partner And Distributor For Sapag Isolation And Water Management Control Valves In The Uae. Sapag Also Maintains A Direct Regional Office In Dubai To Support Gcc Energy, Water, And District Heating Projects
2359	Sentinam Liquid Movement Solutions Ltd	UNITED KINGDOM	7-E12	Acts As The Official Uk Distributor. Procurement And Spare Parts Are Also Heavily Facilitated Via Chase International Ltd

2360	JPNS International	SOUTH AFRICA	7-E12	Handles Extensive Distribution Networks Across South Africa And Surrounding Territories, Alongside Local Service Center Fluid Control Service.
2361	TEMAC	CHILE	7-E12	Managed Through Dedicated Regional Networks, Including Temac In Chile And Specialized Infrastructure In Brazil
2362	SOUDOTEC	IVORY COAST	7-E12	Supported By Key Regional Partners
2363	FELTPET	NIGERIA	7-E12	Feltpet Is An Eco-Friendly Brand Of Specialized Felt Made 100% From Recycled Pet Plastic Bottles
2364	Step 'In	SENEGAL	7-E12	
2365	TMW	DEMOCRATIC REPUBLIC OF CONGO	7-E12	A Premier Developer And Provider Of Enterprise Management And Dispatch Software Solutions For The Trucking, Logistics, And Transportation Industries
2366	SAV Networks & Construction	UNITED ARAB EMIRATES	SS-P27	Water Pipelines, Power Distribution Networks, Station Contracting, Mechanical Contracting, And Building Projects Contracting
2367	SAV Construction Solution	UNITED ARAB EMIRATES	SS-P27	
2368	SAV Insulation Solutions	UNITED ARAB EMIRATES	SS-P27	
2369	SAV Adhesive Solutions	UNITED ARAB EMIRATES	SS-P27	
2370	SAV Contracting Solutions	UNITED ARAB EMIRATES	SS-P27	
2371	S.A.V. Blue Metals	UNITED ARAB EMIRATES	SS-P27	
2372	S.A.V. Blue Metals	UNITED ARAB EMIRATES	SS-P27	
2373	SAV Group Armenia	ARMENIA	SS-P27	
2374	Saveco Middle East	UNITED ARAB EMIRATES	SS-G25	Water Waster Water Machineries
2375	SAVI S.r.l	ITALY	SS-G25	Exclusive Regional Representation For Screening, Conveying, And Solid-Liquid Separation Solutions
2376	WAMGROUP	ITALY	SS-G25	Saveco Middle East (Located In Jebel Ali Free Zone, Dubai, Uae) Is A Specialized Regional Member And Subsidiary Of Wamgroup, Focused On Wastewater Treatment, Screening, And Solids/Grit Management Equipment.
2377	SPECO (Wastewater Division of WAMGROUP)	ITALY / GLOBAL	SS-G25	Specialized Compact Purification And Separation Equipment Integration
2378	FSM Frankenberger	GERMANY	SS-G25	Exclusive Distribution For Heavy-Duty Sewage Treatment Plant Components, Fine Screens, And Grit Washing Systems
2379	SPIRAMATIC VSA	ITALY	SS-G25	Archimedean Screw Pumps, Mechanical Bar Screens, Shaftless Spiral Conveyors, Washer-Compactors, And Fine Drum Screens
2380	WASTEMASTER	ITALY	SS-G25	A Specialized Line Of Fine Drum Screens Manufactured Under The Savi/Saveco Product Portfolio.
2381	Chior	ITALY	SS-G25	A Wamgroup Product Line Specialized In Heavy-Duty Fluid Handling
2382	Extrac	ITALY	SS-G25	A Specialized Bulk Handling Brand That Manufactures Automated Extracting, Discharging, And Emptying Systems For Powders And Granular Materials From Bags, Silos, And Hoppers
2383	MAP	ITALY	SS-G25	Wamgroup'S Dedicated Industrial Mixing Technology Brand, Producing Industrial Mixers, Blenders, And Chemical Reactors Across Diverse Industrie
2384	Roncuzzi	ITALY	SS-G25	Manufacturing Heavy-Duty Archimedean Screw Pumps And Specialized Hydrodynamic Screw Turbines.
2385	SAVI	ITALY	SS-G25	Engineers Customized Mechanical Equipment For Effluent Pre-Treatment
2386	Sepcom	ITALY	SS-G25	Manufactures Screw Press Separators Frequently Utilized In Agricultural Livestock Farming, Digestate, And Anaerobic Digestion Plants
2387	Torex	ITALY	SS-G25	A Prominent Industrial Brand Dedicated To High-Precision Powder And Granular Material Handling Components, Including Rotary Valves, Level Monitoring Devices, And Diverter Valves
2388	Wam Air	ITALY	SS-G25	Wamgroup'S Industrial Dust Collection And Filtration Division, Manufacturing Silo Venting Filters, Spot Dust Collectors, And Advanced Nanotech Filter Media To Mitigate Industrial Emissions
2389	SBN WaterTech_S B N General Trading L.L.C	UNITED ARAB EMIRATES	SS-V29	General Trading
2390	Hyorim E&I Corp.	SOUTH KOREA	SS-V29	Water And Wastewater Treatment Plants, Desalination Systems, And Sewage Infrastructure.
2391	Samjin E&I / Samjin Precision	SOUTH KOREA	SS-V29	Heavy-Duty Industrial Valves And Advanced Flow-Control Systems.

2392	Dooch Co., Ltd.	SOUTH KOREA	SS-V29	Smart Industrial Pumps, Vertical/Horizontal Pumps, And Energy-Efficient Booster Pumping Systems.
2393	Fluen Co., Ltd.	SOUTH KOREA	SS-V29	Sludge Handling, Centrifugal Separators, And Specialized Environmental Engineering Equipment.
2394	Top Glove	MALAYSIA	SS-V29	Sbn Acts As A Key Principal Partner Distributing Top Glove'S Medical, Surgical, And Protective Gloves To Global Destination Markets
2395	SBN General Trading L.L.C.	UNITED ARAB EMIRATES	SS-V29	An Established Commercial Entity Headquartered In Dubai, United Arab Emirates (Uae), Serving Both Local Uae And Broader Gcc Markets
2396	Schneider Electric FZE	UNITED ARAB EMIRATES	GSP3	Energy Technology, Energy Management, Industrial Automation, Software And Services
2397	Schneider Electric	FRANCE	GSP3	Core Brand For Power Distribution, Automation, And Digital Energy Platforms Like Ecostruxure
2398	APC (By Schneider Electric)	UNITED STATES OF AMERICA	GSP3	Global Leader In Physical It Infrastructure, Uninterruptible Power Supplies, And Data Center Racks
2399	AVEVA	UNITED KINGDOM	GSP3	Industrial Software And Digital Twin Integration Partner Owned/Controlled Via Strategic Alignment
2400	Square D & Merlin Gerin	UNITED STATES OF AMERICA	GSP3	Legacy And Integrated Electrical Distribution And Circuit Protection Product Lines
2401	Telemecanique Sensors	FRANCE	GSP3	Industrial Automation And Sensory Components
2402	The NEST	UNITED ARAB EMIRATES	GSP3	Regional Innovation Hub
2403	GoSwitchgear	UNITED ARAB EMIRATES	GSP3	Trusted Regional Distributors Supplying Certified Low-Voltage And Medium-Voltage Components.
2404	Electrical Junction	UNITED ARAB EMIRATES	GSP3	Dubai-Based Trade Distributor And Supplier (Established In 2010 In Deira) Offering Low-Voltage Electrical Components, Circuit Breakers, And Relays From Brands Like Schneider Electric And Abb
2405	Super Electrical	UNITED ARAB EMIRATES	GSP3	Uae-Based Wholesale And Retail Stockist (Established In 2007) Providing Electrical Materials, Wiring Accessories, Switchgear, And In-House Electrical Installation And Fit-Out Services
2406	Schweitzer Engineering laboratories (SEL) _SEL Middle East FZCO	UNITED ARAB EMIRATES	GSP7	Sel Middle East Fzco Is The Regional Subsidiary And Middle East Office Of Schweitzer Engineering Laboratories. It Provides Localized Engineering Support, Technical Services, Sales, Project Execution, And Power-System Protection And Automation Solutions For Regional Electric Utilities, Oil And Gas Firms, And Industrial Infrastructure Across The Middle East
2407	Schweitzer Engineering Laboratories, Inc. (SEL)	UNITED STATES OF AMERICA	GSP7	Supplying Power System Protection, Digital Protective Relays, Automation Controllers, Metering, And Grid Cybersecurity Solutions
2408	SenseMi DMCC	UNITED ARAB EMIRATES	1-D4	Smart Meter Manufacturing For Electricity, Water, And Gas.
2409	Al Fanar Gas Group	UNITED ARAB EMIRATES	1-D4	Strategic Collaboration And Partnership Agreements Signed (Such As At Adipec), Involving High-Level Delegation Visits And Joint Work On Smart Gas Metering Infrastructure
2410	Azerishiq' OJSC	AZERBAIJAN	1-D4	Long-Term Project Partnership In Azerbaijan For Large-Scale Smart Electric Meter Installations And Grid Digitization
2411	Elster & MetCom (Historical/R&D Roots)	GERMANY / SLOVAKIA / CIS	1-D4	Early Foundational Joint Ventures And Ongoing Technology-Sharing Lineages Spanning Over Two Decades In Smart Metering Hardware And Firmware Development With German And International Engineering Specialists
2412	Servetech (Servetech Middle East General Trading LLC)	UNITED ARAB EMIRATES	AR-N8	Industrial Engineering, Lifting/Rigging, Piping, And Automation Solutions Provider
2413	Servetech Group	UNITED ARAB EMIRATES	AR-N8	Complete Solution Provider And Trading Company Specializing In Plastic And Metal Piping Systems, Lifting, Rigging, And Construction Materials
2414	DKY Valves	REPUBLIC OF TURKIYE	AR-N8	Ductile Iron (Di) Valves And Accessories
2415	Fusion World	UNITED KINGDOM	AR-N8	Butt Fusion And Electro Fusion Welding Machines
2416	NTG	REPUBLIC OF TURKIYE	AR-N8	Hdpe Pipes And Fittings
2417	SIMONA	GERMANY	AR-N8	Pvdf And Pp Pipes And Fittings
2418	World Drain	UNITED STATES OF AMERICA	AR-N8	Stainless Steel (Ss) Floor Drains And Clamps
2419	Advance Welding	UNITED KINGDOM	AR-N8	Designs And Manufactures Specialized Plastic Pipe Electrofusion Welding Units And Associated Mechanical Alignment Tools
2420	Agamine Solar	MOROCCO	AR-N8	High Performance Solar Street Light

2421	Alstom	FRANCE	AR-N8	Designs And Manufactures Robust, Vertical Off-Grid Solar Led Street Lighting Solutions For Public Spaces
2422	COES Company SRL	ITALY	AR-N8	Specialized Manufacturer Of Plastic Pipes, Waste Fittings, And Thermo-Hydraulic Systems Used In Domestic Drainage And Building Applications
2423	Glonass Union	RUSSIA	AR-N8	Satellite Navigation Services, Focusing On Connected Vehicle And Transport Technologies
2424	Horobin Ltd.	UNITED KINGDOM	AR-N8	Major European Manufacturer Of Underground Drain And Sewer Testing Equipment, Testing Plugs, And Inflatable Bags
2425	IDS	GERMANY	AR-N8	It Specializes In Telemetry, Control Systems, And It Grid Automation Networks For Water And Energy Providers.
2426	Plastic Alfa SPA	ITALY	AR-N8	Manufactures Polymer Pipes, Valves, Compression Fittings, And Filtration Systems For Plumbing, Thermo-Hydraulics, And Agricultural Irrigation
2427	Rockwell Automation	UNITED STATES OF AMERICA	AR-N8	A Global Leader In Industrial Automation And Digital Transformation, Famous For Its Allen-Bradley Control Systems And Software
2428	SAB SPA	ITALY	AR-N8	A Manufacturer Belonging To The System Group, Specializing In Plastic Fittings, Drainage Channels, And Components For Irrigation, Water Supply, And Gas Networks.
2429	Schneider Electric	FRANCE	AR-N8	A Major Multinational Company Focusing On Digital Automation And Energy Management Systems For Infrastructure, Homes, Data Centers, And Industries.
2430	Siemens	GERMANY	AR-N8	A Global Technology Powerhouse Focused On Industrial Automation, Digitalization, Smart Infrastructure, And Decentralized Energy Systems.
2431	Solar Bollard Lighting	AUSTRALIA	AR-N8	Australian Designed And Manufactured
2432	Technotools	INDIA	AR-N8	Premium Cnc Precision Manufacturing And Engineering Brand Supplying Multi-Axis Machined Parts To Industrial Global Oems
2433	Virax	FRANCE	AR-N8	A Well-Known Brand That Manufactures Specialized Hand And Power Tools For Plumbing, Pipe Work, Roofing, And Hvac Maintenance
2434	Shanghai Kent Instrument Co., Ltd.	CHINA	7-A15	A Leading Manufacturer Specializing In Electromagnetic Flow Meters And Intelligent Water Measurement Solutions. Structurally, It Operates As A Wholly-Owned Subsidiary Of Suntront Technology Co., Ltd. (Stock Code: 300259), Its Primary Corporate Principal Partner
2435	Suntront Technology Co., Ltd.	CHINA	7-A15	Electromagnetic Water Meters, Electromagnetic Flowmeters For District Metering, Insertion Electromagnetic Flowmeters, And Integrated Water Management Systems
2436	KENT / Shanghai Kent	CHINA	7-A15	Research, Development, Production, And Sales Of Industrial Measurement Instruments—Primarily Electromagnetic Flowmeters And Electromagnetic Water Meters
2437	Sharjah Steel Pipe Manufacturing Co. LLC	UNITED ARAB EMIRATES	5-A12	Steel Pipe Manufacturing
2438	Shijiazhuang Zhengzhong Technology Co., Ltd.	CHINA	2-H8	Water Treatment, Water Storage, Anaerobic Digester
2439	Center Enamel	CHINA	2-H8	The Primary Commercial Brand Utilized For Global Sales Of Engineering Solutions, Glass-Fused-To-Steel Tanks, And Epoxy-Coated Containment Systems
2440	ZZTANK	CHINA	2-H8	The Primary Commercial Brand Utilized For Global Sales Of Engineering Solutions, Glass-Fused-To-Steel Tanks, And Epoxy-Coated Containment Systems
2441	SIEMENS Energy	UNITED ARAB EMIRATES	PRSP6	Energy And Electricity
2442	SIEMENS Industrial LLC	UNITED ARAB EMIRATES	PRSP6	Energy And Electricity
2443	Omterra	GERMANY / GLOBAL	PRSP6	The Unified Global Brand Umbrella For All Siemens Energy Corporate Operations.
2444	Siemens Gamesa Renewable Energy	SPAIN / GERMANY	PRSP6	The Wind Power Subsidiary And Global Market Leader For Onshore And Offshore Renewable Energy Systems
2445	Omnivise	GERMANY / GLOBAL	PRSP6	Siemens Energy'S Proprietary, Specialized Brand For Digital Power Plant Control Systems
2446	Masdar & TotalEnergies	UNITED ARAB EMIRATES / FRANCE	PRSP6	Green Hydrogen Demonstrator Plants And Sustainable Aviation Fuel (Saf) In Masdar City.
2447	Abu Dhabi Investment Office (ADIO)	UNITED ARAB EMIRATES	PRSP6	The Siemens Energy Innovation Center In Abu Dhabi (Focusing On Power-To-X And Energy Storage).

2448	Mitsubishi Electric	JAPAN / GLOBAL	PRSP6	Joint Development Of High-Voltage, Zero-Gwp (Global Warming Potential) Clean-Air Insulated Switchgear.
2449	Eaton	UNITED STATES OF AMERICA / GLOBAL	PRSP6	Strategic Clean-Energy Integration For Data Centers, Grid Utilities, And Industrial Power Management.
2450	IRENA (International Renewable Energy Agency)	UNITED ARAB EMIRATES / GLOBAL	PRSP6	A Formal Framework Partnership Driving International Low-Carbon Initiatives And The Global Energy Transition
2451	EIT InnoEnergy	EUROPEAN UNION	PRSP6	Venture Clienting And Investment Partnership Targeting The Rapid Commercialization Of Cleantech Startups.
2452	MakerVerse	GERMANY	PRSP6	Joint Venture With Zeiss And 9.5 Ventures Offering On-Demand Industrial Additive Manufacturing (3D Printing)
2453	Siemens Energy Ltd.	KINGDOM OF SAUDI ARABIA	PRSP6	Active Since 1929. Collaborates Closely With Local Entities To Advance Oil, Gas, And Grid Infrastructure Under Localization Programs Like Saudi Aramco'S Iktva Framework. Operates A Massive 75,000 M² Local Service And Technology Hub In Dammam
2454	Siemens Energy Kft.	Hungary	PRSP6	Hosts A Specialized Gas Services Manufacturing And Components Hub In Budapest, Exporting Turbine Blades And Plant Components Globally
2455	Smithline Reinforced Composites FZ LLC	UNITED ARAB EMIRATES	7-C12	Grp Pipe & Manhole Manufacturer

2543	SWITZERLAND PAVILION	SWITZERLAND	SS-R6,10&11	
2544	Swissenviro GMBH	SWITZERLAND	SS-R6,10&11	Swissenviro Gmbh Is A Specialized Private Enterprise That Organizes The Official Swiss Pavilions At International Trade Fairs And Exhibitions Focused On Environmental And Cleantech Technologies
2545	CLA-VAL	SWITZERLAND	SS-R8	Leading Global Manufacturer Of High-Quality Automatic Control Valves And Fluid-Handling Solutions.
2546	CST Industries Ltd	UNITED KINGDOM	SS-Q14	Cst Industries, Inc., Is The Global Leader In The Manufacture And Construction Of Factory Coated Metal Storage Tanks And Silos, Aluminum Domes And Specialty Covers. The Company Is The Complete Storage System Provider For Engineering And Manufacturing Professionals In Various Industries With Thousands Of Applications Throughout The World.
2547	TecTank®	UNITED KINGDOM	SS-Q14	Dry Bulk And Liquid Storage Tanks Are The Industry Standard For Epoxy-Coated, Bolted Steel Storage Solutions.

2548	TecTank FP®	UNITED KINGDOM	SS-Q14	Includes An Optimized Bolt Pattern, Increased Steel Thickness, Reduced Hardware And Fewer Penetration Points.
2549	Trico Bond EP®	UNITED KINGDOM	SS-Q14	(Epoxy Powder) Coating
2550	Trico Bond SD®	UNITED KINGDOM	SS-Q14	Provides Extra Protection Where Longer Life Cycles Are Required
2551	OptiBond®	UNITED KINGDOM	SS-Q14	The Optibond Coating System Is Derived From Years Of In-Field Experience And Performance Data.
2552	GLS TANKS International GmbH	AUSTRIA	SS-Q14	Gls Tanks Is A Global Manufacturer And Engineer Of Specialized Glass-Lined Steel (Gls) Bolted Tanks And Silos
2553	GWF	SWITZERLAND	SS-Q12	
2554	UDRIVE	SWITZERLAND	SS-Q12	Udrive Allows You To Efficiently Collect Consumption Data From Water Meters, Gas Meters, And Heat Meters. Automated Meter Reading Transmits The Data Directly To The Billing System, Ensuring Transparent And Reliable Invoicing.
2555	STREAM	SWITZERLAND	SS-Q12	Stream Is Our Iot Platform For Collecting, Analyzing, And Visualizing Water, Gas, And Heat Data. As A Central Solution For Smart Meters, It Enables Reliable Data Transmission Via Lorawan And Nb-Iot, Creating Transparency For Efficient Water And Energy Management.
2556	REALSET	SWITZERLAND	SS-Q12	With Infinio® And Realset, We Enable Reliable "Meter2Data" Transmission. As A Data Platform For Modern Energy Monitoring, We Ensure Secure, Automated, And Transparent Processing Of Your Consumption Data.
2557	BALANCE	SWITZERLAND	SS-Q12	With Balance 'S Data-Driven Analysis, You Can Reduce Leaks In Your Water Network By Up To 35% – Efficiently And Without Costly Pipe Replacement Investments. This Increases Operational Reliability, Minimizes Water Losses, And Sustainably Optimizes Your Entire Water Network.
2558	UNIMON	SWITZERLAND	SS-Q12	Unimon Provides You With The Data For Comprehensive And Future-Proof Real-Time Water Quality Monitoring. We Support You From The Design Of The Measuring Points To The Comprehensive Provision And Interpretation Of Data.
2559	HYDRO^	SWITZERLAND	SS-Q12	Digitalization Opens New Possibilities For The Efficient Operation Of Hydropower Plants. With Proven Flow Measurement Systems And Our Experience In Planning, Design, And Turnkey Installation, We Increase The Efficiency And Safety Of Your Hydropower Infrastructure.
2560	DUCTUS	SWITZERLAND	SS-Q12	Our Ductussolution Delivers Highly Precise Flow Measurements – Even With Disturbed Or Highly Fluctuating Flow Rates. Ideal For Hydropower, Flood Control, Large Supply Lines, And Industrial Applications. Multiple Acoustic Measurement Paths And Advanced Signal Processing Guarantee Maximum Accuracy And Reliability.
2561	SONICO® NANO	SWITZERLAND	SS-Q12	Our Sonico® Nano Domestic Water Meter Offers The Highest Precision Up To R2000 In Nominal Diameters From Dn15 To Dn40. With A Service Life Of Up To 20 Years, It Detects Even The Smallest Leakage Currents, Protects The Supply Network From Contamination, And Impresses With Its High Installation Flexibility And Seamless Integration Into Communication Systems In Lora/Wmbus Dual Mode.
2562	Hofstetter Environmental	SWITZERLAND	SS-R9	An International Engineering Firm And Plant Manufacturer Specializing In Integrated Landfill And Biogas Solutions. They Focus On Gas Treatment, Degassing, High-Temperature Flares, Odor Reduction, And Industrial Wastewater/Leachate Filtration Systems. Their Systems Are Traditionally Swiss-Engineered And Romanian-Built.
2563	POWERFLOW MEP SUPPLIES DMCC	UNITED ARAB EMIRATES	SS-R8	The Company Provides Engineering Design, Hydraulic Analysis, And Specialized Flow-Control Valves For Waterworks, Smart Water Systems, And Power Stations. They Operate As A Prominent Regional Agent And After-Sales Service Provider For Cla-Val Europe Automatic Control Valves.

2564	RQMICRO	SWITZERLAND	SS-R7	A Life Sciences And Biotech Company Founded As A Spin-Off From Eth Zurich. The Brand Develops Proprietary Microfluidic And Flow-Cytometry-Based Platforms For The Rapid, Quantitative Analysis Of Bacteria In Water. Their Technology Delivers Precise Microbiological Results (Such As Identifying Legionella Or E. Coli) Within Hours Compared To Days Using Standard Culturing Methods
2565	rqmicro.COUNT	SWITZERLAND	SS-R7	Rqmicro.Count Provides A Complete Solution Based On Single-Use Cartridges. The Automated Workflow Includes A Flow Cytometric Quantification Of Cells From Various Water Types Optionally Combined With A Fast Immunomagnetic Separation Of Specific Target Cells.
2566	SEP Salt & Evaporation Plants Ltd.	Switzerland	SS-R6	Sep Has Critical And Varied Know-How In Evaporation, Crystallisation, Solids/Liquid Separation And Drying. We Optimize And Tailor Solutions To Client Needs Focusing On Energy Efficiency, Operational Robustness And Product Quality. Our Experience Is Highlighted By Discovering New Processes And Applications For Salts (Drinking Water Recovery, Solution Mining And Waste Handling), Lithium Compounds (Exploring The Concentration Of Lithium Containing Solutions For Recovery Of Lithium Products Like Hydroxide Or Carbonate) And Pre-Treatment Of Waste Water.
2567	SID SA	SWITZERLAND	SS-Q15	Manufactures, And Constructs Complete Turnkey Waste Treatment, Shredding, Sorting, And Processing Machinery. It Pioneered The Shredding-Mixing-Pumping (Smp) System And Specializes In 2-Shaft, 4-Shaft, And Primary/Fine Shredders For Municipal Solid Waste (Msw), Hazardous Waste, And Refuse-Derived Fuel (Rdf/Srf) Lines
2568	SID Deutschland GmbH	GERMANY	SS-Q15	Manufacturing, And Service Footprint, Handling Major Regional Installations (Such As Large Shredding Operations In Stuttgart) And Supporting Local Industrial Waste-To-Energy And Recycling Clients
2569	Beijing SID Environment Technology Co., Ltd.	CHINA	SS-Q15	Manufacturing And Operational Hub In China, Delivering Shredding Machinery, Hazardous Waste Smp Systems, And Regional Project Execution
2570	SIDSA Environmental Pvt. Ltd.	INDIA	SS-Q15	Founded In 2013, This Subsidiary Represents The Sid Group'S Operational And Service Presence In India, Providing Local Engineering, Manufacturing Support, And After-Sales Service For Waste Pre-Treatment And Shredding Technologies
2571	Sulzer	UNITED ARAB EMIRATES	SS-Q8	
2572	Fuenix Ecogy	THE NETHERLANDS	SS-Q8	Development, Commercialization And Adoption Of Advanced, Fully Integrated Solutions For Plastic Waste Processing.
2573	CELLiCON	UNITED KINGDOM	SS-Q8	Groundbreaking Manufacturing Technology For Nano Structured Cellulose – A Highly Sustainable, Plant-Based Alternative To Conventional Polymers.
2574	Blue Planet	UNITED KINGDOM	SS-Q8	Reduce Co2 Emissions To Sustainably Transform The Cement Industry
2575	Sika	SWITZERLAND	SS-Q8	Aims To Accelerate The Transition Towards A Circular Economy By Enabling Scalable, Sustainable Recycling Solutions.
2576	Swan Analytical Instruments	UNITED ARAB EMIRATES	SS-Q13	Swiss technology company founded in 1991 that specializes in the development and manufacture of high-precision, online water quality monitoring and analytical systems
2577	Swissenviro	Switzerland	SS-R6,10&11	
2578	TAIWAN R.O.C PAVILION	TAIWAN R.O.C	SS-Q13

2587	Passal Co., Ltd.	TAIWAN R.O.C	SS-B19	Fixing Heads, Locking Ties, Buckle Grommet, Power Cord Buckles, Cable Glands, Electronic Insulation Equipment, Industrial Computers, Electrical Equipment And Equipment, Security System Equipment, Switchboards, Others
2588	TAIWAN R.O.C Pureness Co., Ltd.	TAIWAN R.O.C	SS-B19	Engineering And Machinery Manufacturer Founded In 1978/1979. The Company Specializes In Industrial Liquid-Solid Separation, Wastewater Treatment, And Sludge Dewatering Equipment
2589	PASSAL	TAIWAN R.O.C	SS-B19	Also Referenced As Taiwan R.O.C Press - Double-Membrane Filter Presses And Vacuum Drying Filter Presses
2590	TSMC (TAIWAN R.O.C Semiconductor Manufacturing Company)	TAIWAN R.O.C	SS-B19	Semiconductor Fabrication Facilities
2591	ASE Group (Advanced Semiconductor Engineering)	TAIWAN R.O.C	SS-B19	Semiconductor Assembly, Packaging, And Testing
2592	Honda TAIWAN R.O.C Co., Ltd	JAPAN	SS-B19	Automotive Production
2593	AGC Inc. (formerly Asahi Glass Co.)	JAPAN	SS-B19	Solar Wafer And Electronics Display Glass Manufacturing
2594	Innolux Corporation / AUO Corporation	TAIWAN R.O.C	SS-B19	Major Flat-Panel Display Manufacturing Providers
2595	Formosa Plastics Group (Formosa Sixth Naphtha Cracker)	TAIWAN R.O.C	SS-B19	Petrochemical Engineering Facilities
2596	Tamco Middle East Ltd	UNITED ARAB EMIRATES	Z3-B4	Power Distribution Equipment Manufacturing Power Control Switchgears Manufacturing Electrical Measuring & Control Systems Manufacturing Trunks Manufacturing Power Distribution Panels Manufacturing Power Transformers Manufacturing
2597	Siemens AG	GERMANY / Global	Z3-B4	Principal Partner And Licensing Authority Allowing Tamco Middle East Ltd
2598	Eaton	UNITED STATES OF AMERICA / UNITED KINGDOM	Z3-B4	Technology And Equipment Collaborator Utilized In Auxiliary Power Component Integrations And Switchboard Systems
2599	LSIS	SOUTH KOREA	Z3-B4	Component Supply Partner For Electrical Protection And Control Gear Integration
2600	Tamco Switchgear (MALAYSIA) Sdn Bhd	MALAYSIA	SSP7	Medium Voltage Switchgear Manufacturer
2601	Centennial Blossom Sdn Bhd	MALAYSIA	SSP7	100% Malaysian-Owned As Of August 2025
2602	Hoymiles	CHINA / GLOBAL	SSP7	Strategic Partnership Initiated In July 2026 For The Local Assembly, System Integration, And Lifecycle Support Of Utility-Scale Battery Energy Storage System (Bess) Solutions In Shah Alam, Malaysia
2603	MALAYSIAn Switchgear Distributors (Pty) Ltd	SOUTH AFRICA	SSP7	
2604	M.A. Al-Zubairi & Bro		SSP7	
2605	TAQA	UNITED ARAB EMIRATES	1-D26	Utilities
2606	TAQA Distribution	UNITED ARAB EMIRATES		Handles Localized Power And Water Distribution, Consolidating The Former Abu Dhabi Distribution Company (Addc) And Al Ain Distribution Company (Aadc)
2607	TAQA Transmission	UNITED ARAB EMIRATES		Operates Power Grid And Water Transmission Infrastructure (Formerly Transco)
2608	TAQA Water Solutions	UNITED ARAB EMIRATES		Manages Wastewater Treatment Facilities And Recycled Water Production (Formerly Sws Holdings)
2609	TAQA ENERGY SERVICES	UNITED ARAB EMIRATES		Acts As A Super Esco Managing Green Demand-Side Building Retrofits And Energy Efficiency Solutions
2610	TAQA Bratani Limited	UNITED KINGDOM		Upstream Oil And Gas Exploration And Production In The North Sea
2611	TAQA Energy B.V.	THE NETHERLANDS		Gas Storage (Such As Gas Storage Bergermeer) And Midstream Assets
2612	TAQA North Ltd.	Canada		Upstream Oil And Gas Exploration Assets In North America.
2613	Takoradi International Company	Ghana		Operator And Majority Owner Of The Takoradi Power Station Ii.
2614	Emirates Power Company	UNITED ARAB EMIRATES		Wholly Owned Portfolio Entities For Local Independent Power And Water Generation Projects (Iwpps)
2615	Gulf Power Company	UNITED ARAB EMIRATES		
2616	Taweelah United Power Company	UNITED ARAB EMIRATES		

2617	Abu Dhabi Future Energy Company (Masdar)	UNITED ARAB EMIRATES		Taqa Holds A Major 43% Stake Alongside Adnoc And Mubadala, Driving International Renewable Projects Like Terna Energy Sa In Greece.
2618	Sohar Aluminium Company LLC	SULTANATE OF OMAN		Taqa Holds A 40% Interest In The Aluminum Smelter Captive Power Facility.
2619	Talimarjan Power Plant	UZBEKISTAN		Taqa Owns A 40% Stake In Joint Ventures Operating These Local Generation Assets.
2620	Jubail Energy Company	KINGDOM OF SAUDI ARABIA		Taqa Operates Power Infrastructure Through A 25% Equity Interest.
2621	ADNOC Gas PLC			5% Minority Investment Partnership Within The Abu Dhabi State Energy Ecosystem
2622	Taslleehcom Engineering Solutions LLC	UNITED ARAB EMIRATES	SS-Q27	Roads And Infrastructure Contracting, Building Contracting
2623	Taslleeh Engineering Solutions	UNITED ARAB EMIRATES	SS-Q27	Engineering, Infrastructure, And Facilities Management Firm
2624	Taslleehcom Building Maintenance LLC	UNITED ARAB EMIRATES	SS-Q27	Engineering, Infrastructure, And Facilities Management Firm
2625	China Railway	CHINA	SS-Q27	Mega-Infrastructure And Civil Works Execution Partner

2642	BP (British Petroleum) & Shell / Sun Oasis JV initiatives	UNITED KINGDOM	SSP19	Formed Strategic Joint Ventures (Such As The Sun Oasis Jv Initiatives) To Build Global Distributed Photovoltaic And Scale Up Clean Energy Systems
2643	Power Automation	UNITED STATES OF AMERICA	SSP19	Signed Strategic Expansion Agreements To Co-Develop Secondary Automation, Grid Monitoring, And Pre-Installed Mobile Substations
2644	China Everbright Bank	CHINA	SSP19	Strategic Financial And Industrial Partners Providing Capital Backing And Heavy Logistics Machinery Support For Major Global Engineering Contracts
2645	Sany Group	CHINA	SSP19	
2646	Technia Construction & Services L.L.C	UNITED ARAB EMIRATES	SS-Q23	A contracting and civil engineering company based in Dubai, United Arab Emirates - Commercial building construction, sewage and drainage contracting, water pipelines and stations contracting and maintenance, internal heating/water/sewer systems, and road construction or repair
2647	Technoserve Trading Co LLC	UNITED ARAB EMIRATES	4-E2	Focuses On Supplying Electrical, Mechanical, Process Equipment, Instrumentation, And Industrial Spare Parts
2648	Technoserve Electromechanical LLC	UNITED ARAB EMIRATES	4-E2	Provides Electromechanical Contracting, Installation, Commissioning, Electrical Works, Climate Equipment Maintenance, And Heating/Water/Sewer System Services.
2649	Technoserve Industrial FZE	UNITED ARAB EMIRATES	4-E2	Part Of The Broader Group Operations For Regional Heavy Industry Supply
2650	Siemens	GERMANY	4-E2	S7-1200, S7-1500, S7-300, S7-400 Plcs; Wincc Scada
2651	Rockwell Automation	UNITED STATES OF AMERICA	4-E2	A Major Global Leader In Industrial Automation. Allen-Bradley Is Rockwell'S Premier Factory Hardware Brand, Widely Recognized For Its Programmable Logic Controllers (Plcs), Human-Machine Interfaces (Hmis), Drives, And Sensors

2652	Allen-Bradley		4-E2	Controllogix, Compactlogix, Micrologix; Factorytalk View Scada
2653	Schneider Electric	FRANCE	4-E2	Modicon M340/M580; Citect Scada
2654	ABB & Inductive Automation	SWITZERLAND / UNITED STATES OF AMERICA	4-E2	A Pioneering Technology Leader Specialized In Electrification, Robotics, Heavy-Duty Industrial Motors, Variable Frequency Drives (Vfds), And Large-Scale Control Systems
2655	Resistoflex, Flowseal, and Duriron	UNITED STATES OF AMERICA	4-E2	Specialized Fluid Handling Brands. Resistoflex Produces Corrosion-Resistant Plastic-Lined Pipes; Flowseal Manufactures High-Performance Butterfly Valves; Duriron (By Flowserve) Focuses On Heavy-Duty Chemical Process Pumps And Valves.
2656	RICHTER CHEMIE-TECHNIK GMBH	GERMANY	4-E2	A Manufacturer Specializing In Pfa/Ptfe Fluoropolymer-Lined Magnetic Drive Pumps And Specialized Valves Designed For Highly Corrosive And Hazardous Chemical Media
2657	ALBIN PUMPS	FRANCE	4-E2	A Manufacturer Known For High-Efficiency Volumetric Pumps, Especially Heavy-Duty Hose Peristaltic Pumps Utilized For Abrasive Slurries And Chemical Fluids.
2658	ALFA VALVOLE	ITALY	4-E2	A Manufacturer Of High-Quality Industrial Ball Valves Used Heavily In The Oil And Gas, Petrochemical, And Chemical Process Industries
2659	ATHENA VALVE	ITALY	4-E2	A Specialized Engineer And Producer Of Industrial Valves, Including Forged Steel Ball, Gate, Globe, And Check Valves For High-Pressure Systems
2660	BWF ENVIROTEC	GERMANY	4-E2	It Is An International Market And Technology Leader In Industrial Flue Gas Filtration And Solid/Liquid Separation.
2661	cif / Aciéries Hachette & Driout	FRANCE	4-E2	Premier Industrial Foundry Specializing In Custom Cast Steel Parts
2662	CMD COUPLING	FRANCE	4-E2	A Designer And Manufacturer Of High-Torque Industrial Couplings, Flexible Drive Links, And Heavy-Duty Gearboxes Utilized In Mills, Kilns, And Massive Propulsion Equipment
2663	FLEXCO	UNITED STATES OF AMERICA	4-E2	Global Leader In Conveyor Belt Productivity, Maintenance, And Repair Systems.
2664	OBL S.R.L	ITALY	4-E2	A Manufacturer Of Precision Metering And Dosing Pumps, Including Mechanical Diaphragm, Plunger, And Hydraulic Diaphragm Pumps For Water Treatment And Chemical Injection
2665	PMI Elektrik ve Elektronik Sistemleri Dis	REPUBLIC OF TURKIYE	4-E2	A High-Tech Manufacturer Specializing In Industrial Power Electronics. Their R&D And Assembly Operations Based In Ankara Build Heavy-Duty Industrial Ups Systems, Digital Rectifiers, Dc Battery Chargers, And Solar Inverters
2666	PRICE PUMPS	INDIA	4-E2	Premier Manufacturer Specializing In Centrifugal And Air-Operated Diaphragm (Aodd) Pumps Constructed From Stainless Steel, Natural Polymers, And Exotic Alloys.
2667	Endress+Hauser	SWITZERLAND	4-E2	A Prominent Family-Owned Global Supplier Of Industrial Process Measurement Instrumentation Covering Flow, Level, Pressure, And Temperature Metrics.
2668	ABB	SWITZERLAND	4-E2	Global Technology Leader In Electrification, Motion, Robotics, And Automation
2669	Krohne	GERMANY	4-E2	A Main Global Manufacturer And Supplier Of Industrial Process Instrumentation, Highly Acclaimed For Its Electromagnetic And Coriolis Mass Flowmeters.
2670	Yokogawa	JAPAN	4-E2	Global Power In Industrial Automation, Testing Equipment, And Advanced Control Systems (Dcs), Specializing Heavily In Energy And Oil Refinement Optimization.
2671	ContiTech (Continental)	GERMANY	4-E2	Conveyor Belts And Accessories
2672	Dunlop	THE NETHERLANDS / UNITED KINGDOM	4-E2	A Legendary Brand Name In Heavy Industry Manufacturing Tough, Wear-Resistant, And Flame-Retardant Rubber Conveyor Belts Designed For Mining And Bulk Material Transport
2673	Fenner	UNITED KINGDOM	4-E2	A Well-Known Brand Manufacturing Heavy-Duty Industrial Power Transmission Products, Including V-Belts, Pulleys, Couplings, And Robust Conveyor Belt Systems.
2674	Hydrotechnik Lübeck	GERMANY	4-E2	Marine Environmental Protection And Oil Spill Containment Oil Booms
2675	Belden	UNITED STATES OF AMERICA	4-E2	Cables And Industrial Networking
2676	Teksin Konteyner Ve Galvaniz San. Tic. Ltd. Sti.	REPUBLIC OF TURKIYE	SS-R17	Waste Containers

2677	TEKSİN (or Teksin Konteyner)	REPUBLIC OF TURKIYE	SS-R17	Teksin Konteyner). It Is Widely Recognized In Turkey As A Leading Commercial Brand For Heavy-Duty Metal And Plastic Surface/Underground Garbage Containment Structures
2678	Tempsens Gulf LLC	UNITED ARAB EMIRATES	2-H19	Manufacturer Of Temperature Sensors, Thermowells, Cables, Electric Heaters And Thermal Camera
2679	Tempsens Instruments	INDIA	2-H19	Specializes In Temperature Sensing Solutions (Contact And Non-Contact Pyrometers/Thermocouples), Electrical Heating Solutions, Industrial/Lab Furnaces, And Specialized Cable
2680	pt Tempsens Asia Jaya	INDONESIA	2-H19	Provides Local Manufacturing, Distribution, And Engineering Support For Tempsens Temperature Sensing And Thermal Products Across Southeast Asia
2681	Tempsens Gulf LLC	UNITED ARAB EMIRATES	2-H19	Manufactures, Supplies, And Supports Thermal Engineering Products, Temperature Sensors, And High-Temperature Accessories Tailored To The Middle East Industrial Market
2682	Tempsens Instruments GmbH	GERMANY	2-H19	Manages Distribution, Technical Services, And European Market Operations For Tempsens Thermal Solutions And Instrumentation
2683	Tempsens Polska Sp.z.o.o	POLAND	2-H19	Handles Manufacturing, Assembly, And Supply Chain Operations For The European Market
2684	Tempsens SOUTH KOREA Co. Ltd.	SOUTH KOREA	2-H19	Manages Sales, Technical Support, And Regional Deployment Of Tempsens Thermal And Sensor Technologies In East Asia.
2685	Tempsens MEXICO S.A. de C.V.	MEXICO	2-H19	A Subsidiary/Manufacturing Unit Established To Extend Tempsens' Industrial Thermal Engineering, Heating, And Sensor Footprint Into The North American And Latin American Markets
2686	Tesar Srl	ITALY	PSP1	Tesar Srl Was The First Italian Company To Implement Resin-Casting Technology For Industrial Transformers. The Brand Specializes In The Design And Manufacture Of High-Quality Cast Resin Dry-Type Transformers
2687	R & S Rauscher Stoecklin	SWITZERLAND	PSP1	The Brand Focuses On Engineering High-End Oil-Immersed Distribution Transformers For Medium-Voltage Grids, Renewable Energy Systems, And Utilities. Additionally, It Manufactures Specialized Railway Electrification Equipment (Including Traction Transformers And Overhead Line Switches), High-Current Industrial Connectors, And Switchgear
2688	SERW	CZECH REPUBLIC	PSP1	Premier European Manufacturer Of High-Voltage (Hv) And Medium-Voltage (Mv) Switching Devices
2689	ZREW	POLAND	PSP1	Specializes In Custom Oil-Immersed Power Transformers With Ratings Typically Up To 160 Mva
2690	Tesla Motors_Tesla Motors NETHERLAND BV Dubai Branch 1	UNITED ARAB EMIRATES	4-K8	Technology, Automotive, Charging

2794	Begemann	THE NETHERLANDS	GSP22	Overhung Heavy-Duty Process Pumps.
2795	Hiller	UNITED STATES OF AMERICA	GSP22	Severe Service Nuclear And Industrial Control Barriers.
2796	Allen Steam Turbines	UNITED STATES OF AMERICA / UNITED KINGDOM	GSP22	Steam Turbines
2797	Roto Jet	UNITED STATES OF AMERICA	GSP22	High Pressure Pitot Tube Pumps
2798	Wemco	UNITED STATES OF AMERICA	GSP22	Pumps & Systems
2799	WSP	UNITED STATES OF AMERICA	GSP22	Pumps & Systems
2800	Triol Trading LLC	UNITED STATES OF AMERICA	4-F4	Manufacturer Of Electrical Equipment
2801	Valiant Artificial Lift Solutions	UNITED STATES OF AMERICA	4-F4	Founded In 2016, Is A Customer-Focused Artificial Lift Partner Delivering Reliable Well Performance Through Engineering, Manufacturing, Field Service, And 24/7 Monitoring — All Backed By A Strong Service-Driven Culture.
2802	PCM Group	UNITED ARAB EMIRATES	4-F4	Pcm Group, Founded In 1932, Is A Global Leader In Pumping And Fluid-Handling Solutions, Delivering Reliable And Innovative Systems Worldwide.
2803	MKS - Anlasser	EUROPE	4-F4	Mks, Originating From Bea Founded In 1917, Is Now A Leading Global Producer Of Liquid Resistance Starters With Over A Century Of Drive-Technology Expertise.

2804	PT. JM Mutu Utama,	INDONESIA	4-F4	Pt. Jm Mutu Utama, Founded In 2000, Supplies Chemicals And Services For Indonesia'S Oil & Gas, Mining, Fertilizer, And Industrial Sectors, Delivering Safe, Innovative, And Reliable Solutions.
2805	HOFFMANN Technics Corporation	EUROPE	4-F4	Hoffmann Technics Corporation Provides Reliable Swiss Impulse Technology And High-Quality Electric Motors — Including Custom Solutions — Supported By Strong Engineering And Global Reach.
2806	PT. Epsindo Jaya Pratama (EJP)	INDONESIA	4-F4	Pt. Epsindo Jaya Pratama (Ejp) Is A Well Established Indonesia Company Experience In Producing Oil Well Submersible Pumps. Ejp Is Also An Expert In Providing Service Repair And Maintenance For Oil Submersible Pump.
2807	Especialbes, C.A.	UNITED STATES OF AMERICA	4-F4	Especialbes, C.A. Professionals With Extensive Experience In Maintenance, Installation, And Decommissioning Of Electric Submersible Pump (Esp) Systems For The Oil Industry.
2808	VMS Energy	LATIN AMERICA	4-F4	A Mexican Company With 16+ Years Of Experience, Provides High-Quality Turbine Control And Electrical Modernization Solutions For Oil & Gas, Power, Transportation, And Industrial Sectors.
2809	PROCTEK GROUP	LATIN AMERICA	4-F4	With 20+ Years Of Experience And 1,000+ Specialists, Delivers Automation, Engineering, And Project Management Solutions Across The Andean Region And The U.S.
2810	Maco	ASIA	4-F4	Maco Supplies Advanced Industrial Products And Customized Engineering Solutions For Sectors Like Steel, Oil & Gas, Mining, Power, And Railways, Serving 1,000+ Clients With Full Project Execution And Service Support.
2811	Special Oilfield Services (SOS)	UNITED ARAB EMIRATES	4-F4	Special Oilfield Services (Sos) Is One Of Sultanate Of Oman'S Most Established Energy-Sector Service Providers, Offering High-Quality Products And Reliable, Expert-Driven Solutions Backed By Decades Of Industry Experience.
2812	Trouvay & Cauvin Group_Trouvay & Cauvin Gulf Fzco	UNITED ARAB EMIRATES	SS-T5	Piping & Valves Solution Provider
2813	T&C Equipment Trading LLC	UNITED ARAB EMIRATES	SS-T5	The Specialized Regional Trading Arm Of The Trouvay & Cauvin Group Based In Dubai, Focusing On Industrial Equipment Supply And Commercial Trading
2814	TROUVAY & CAUVIN Engineering Supply LLC	UNITED ARAB EMIRATES	SS-T5	The Abu Dhabi-Based Engineering, Technical Support, And Valve Packaging Arm Of The T&C Group
2815	Pan Arabian Co. Ltd	KINGDOM OF SAUDI ARABIA	SS-T5	The Localized Corporate Identity And Sales Arm Of The Trouvay & Cauvin Group Operating In Saudi Arabia (Al Khobar)
2816	3P Fittings	FRANCE	SS-T5	Manufacturer Of High-Performance Technical Plastic And Fluoropolymer (Ptfe/Pfa) Lined Fittings And Components
2817	Allied Group	ITALY	SS-T5	A Massive Global Manufacturer Of Fittings, Flanges, Pipes, And Bends (Incorporating Brands Like Tectubi Raccordi)
2818	Armstrong International	UNITED STATES OF AMERICA	SS-T5	Renowned Global Manufacturer Of Intelligent System Solutions For Steam, Air, And Hot Water Systems
2819	BAELZ AUTOMATIC	GERMANY	SS-T5	Highly Specialized Engineering Company Manufacturing Automatic Control Valves, Heat Exchangers, And Controllers For Thermal Processes.
2820	Bayard	FRANCE	SS-T5	A Major Manufacturer Of Valves, Fire Hydrants, And Network Protection Equipment For Water Networks (Part Of The Talis/Avk Group).
2821	Bettis & Limitorque	UNITED STATES OF AMERICA	SS-T5	Elite Valve Automation Brands Under Emerson And Flowserve Respectively; Bettis Specializes In Pneumatic/Hydraulic Actuators, While Limitorque Is World-Renowned For Electric Valve Actuators.
2822	Bourdon Haenni	FRANCE / SWITZERLAND	SS-T5	Famous Instrumentation Brand (Now Baumer Bourdon Haenni) Known For Mechanical Pressure Gauges, Thermometers, And Transmitters.
2823	Brooksbank Valves	UNITED KINGDOM	SS-T5	Specialist Manufacturer Of High-Quality Bronze, Exotic Alloy, And Ball Valves Primarily For Marine, Naval, And Chemical Applications.
2824	CARRARO	ITALY	SS-T5	Specialized Manufacturer Of Self-Actuated Regulators, Safety Valves, And Desuperheaters.
2825	Duker	GERMANY	SS-T5	Specialist In Highly Corrosion-Resistant Glass-Lined (Enamelled) Steel Pipes, Valves, And Components For Chemical Processing.

2826	EEW	GERMANY	SS-T5	Leading Global Manufacturer Of Submerged Arc Welded (Saw) Steel Pipes For Energy And Offshore Constructions.
2827	Electrosteel	INDIA	SS-T5	Major Global Pioneer And Manufacturer Of Ductile Iron (Di) Pipes And Fittings Used Predominantly For Water Infrastructure.
2828	ELMAC	UNITED KINGDOM	SS-T5	Global Specialist In The Design And Manufacture Of Flame Arresters, Breathers, And Tank Protection Equipment.
2829	Erne / Interfit	AUSTRIA / FRANCE	SS-T5	High-Quality Manufacturers Of Butt-Weld Fittings (Erne Fittings Is Based In Austria; Interfit Is A Well-Known French Fittings Brand).
2830	FLOWBUS	SOUTH KOREA	SS-T5	High-End Manufacturer Of Heavy-Duty Valve Actuators (Pneumatic, Hydraulic) And Valve Automation Systems.
2831	GRUPE SANTAFEDE	ITALY	SS-T5	Engineering And Trading Group Focusing On Raw Steel Materials, Forgings, And Structural Heavy-Industry Packages.
2832	HENGYANG VALIN STEEL TUBE CO. LTD.	CHINA	SS-T5	One Of The World'S Largest Specialized Seamless Steel Tube And Pipe Manufacturers.
2833	HUSTEEL	SOUTH KOREA	SS-T5	Noted Manufacturer Of Welded Carbon Steel, Structural Steel, And Stainless Steel Line Pipes.
2834	Hyundai HYSCO	SOUTH KOREA	SS-T5	A Historic Steel Manufacturer (Now Merged Into Hyundai Steel) Specializing In Steel Pipes, Automotive Steel, And Line Pipes.
2835	INTERPIPE	UKRAINE	SS-T5	Major Global Producer Of Seamless And Welded Steel Pipes For The Oil, Gas, And Infrastructure Sectors.
2836	IRC SPA	ITALY	SS-T5	Manufacturer Specializing In High-Pressure Forged Steel Fittings, Outlets, And Flanges.
2837	Klinger	AUSTRIA	SS-T5	Renowned Global Manufacturer Of Industrial Valves, Liquid Level Gauges, And High-Performance Sealing/Gasket Materials.
2838	KSB	GERMANY	SS-T5	Leading Multinational Manufacturer Of Heavy-Duty Industrial Pumps, Valves, And Related Control Systems.
2839	LONE STAR GROUP	UNITED KINGDOM / UNITED STATES OF AMERICA	SS-T5	Global Manufacturer And Distributor Of High-Performance Fasteners, Bolts, And Machined Components For Severe Environments.
2840	Meca-Inox	FRANCE	SS-T5	Well-Known European Manufacturer Of High-Precision Stainless Steel Ball Valves For Chemical, Pharmaceutical, And Food Industries.
2841	MELESI	ITALY	SS-T5	Highly Regarded Manufacturer Of Top-Tier Flanges And Forged Piping Components.
2842	MSA	CZECH REPUBLIC	SS-T5	Historic Manufacturer Of Industrial Valves For The Oil, Gas, Heat Supply, And Water Industries.
2843	MUELLER	GERMANY	SS-T5	A Major Conglomerate Specializing In Water Infrastructure, Fire Hydrants, And Gate Valves.
2844	NEWAY	CHINA	SS-T5	One Of The Largest Industrial Valve Manufacturers In The World, Producing Gate, Globe, Ball, And Butterfly Valves For Energy Applications.
2845	NIPPON STEEL & SUMITOMO METAL	JAPAN	SS-T5	One Of The World'S Largest Steelmakers (Now Known Simply As Nippon Steel), Producing Premium Grade Line Pipes And Structural Steels.
2846	N-LINE VALVE	UNITED STATES OF AMERICA	SS-T5	Specialized Engineering Manufacturer Of Severe-Service Axial Flow Choke Valves And Control Valves.
2847	Noreva	GERMANY	SS-T5	High-Precision Manufacturer Specializing In Non-Slam Axial Flow Check Valves.
2848	OMB	ITALY	SS-T5	Premier Manufacturer Of Forged Steel Valves (Gate, Globe, Check, And Ball) For The Energy Sector.
2849	Orion	ITALY	SS-T5	High-End Manufacturer Of Steel Gate, Globe, Check, And Specialized Cryogenic/Severe-Service Valves.
2850	Pneucon	INDIA	SS-T5	Manufacturer Of High-Quality Control Valves, Pneumatic Actuators, And Process Automation Instruments.
2851	PRODUCTS TUBULARS	UNITED STATES OF AMERICA	SS-T5	Distributors And Manufacturers Of Casing, Tubing, And Line Pipes For Upstream Energy Projects.
2852	ROTORK	UNITED KINGDOM	SS-T5	The Undisputed Global Market Leader In Electric, Pneumatic, And Hydraulic Valve Actuators And Flow Control Equipment.
2853	Saccap	FRANCE	SS-T5	Renowned Manufacturer Of High-Reliability Small-Bore Forged Valves For Petrochemical And Severe-Process Applications.
2854	Saint-Gobain PAM Canalisation		SS-T5	Water And Drainage

2855	SEAH STEEL	SOUTH KOREA	SS-T5	A Massive Global Player Specializing In Structural Steel, Carbon Steel Pipes, And Stainless Steel Lines.
2856	Shurjoint	TAIWAN / UNITED STATES OF AMERICA	SS-T5	A Global Leader In The Design And Manufacture Of Grooved Piping Components And Mechanical Piping Systems (Now An Aalberts Brand).
2857	Sinclair	UNITED STATES OF AMERICA	SS-T5	Specialized Brand (Historically Under Parker Hannifin Or Processed Flows) Providing Severe-Service Control Valves For Steam And Raw Water.
2858	Singer (a Mueller Water Products brand)	CANADA / UNITED STATES OF AMERICA	SS-T5	A Prominent Mueller Water Products Brand Specializing In Automatic Pilot-Operated Water Control Valves.
2859	SKB Fittings	MALAYSIA	SS-T5	Manufacturer Of Butt-Welding Fittings And Forged Steel Components.
2860	SOFIS	THE NETHERLANDS	SS-T5	Global Market Leader In Valve Operation Safety, Valve Interlocks, And Smart Valve Position Indicators.
2861	SSAB	SWEDEN	SS-T5	A Premium Nordic And Us-Based Steel Producer Known Globally For High-Strength Structural Steel And Wear-Resistant Plates (Hardox/Strenx).
2862	Talbot	UNITED KINGDOM	SS-T5	A Well-Known Brand (Under Talis/Avk) Specializing In Underground Water Fittings, Tapping Saddles, And Valves For Water Utilities.
2863	Thermal Designs	UNITED STATES OF AMERICA	SS-T5	Famous For Engineered Thermal Insulation, Specifically Bolt-On Heating Systems (Controtrace) Used For Piping And Vessels.
2864	TK Corporation	SOUTH KOREA	SS-T5	Top-Tier Manufacturer Of Carbon, Alloy, And Stainless Steel Butt-Welding Pipe Fittings.
2865	Tomoe Tritec	JAPAN / UNITED KINGDOM	SS-T5	High-Performance Rotary Component Collaboration Famous For Triple-Offset Butterfly Valves Designed For Extreme Environments.
2866	TPCO	CHINA	SS-T5	One Of The Largest Seamless Steel Pipe Manufacturers In The World, Focused Heavily On Octg (Oil Country Tubular Goods).
2867	Tubacex Group	SPAIN	SS-T5	Global Leader In The Manufacturing Of Seamless Stainless Steel And High-Nickel Alloy Tubes And Pipes.
2868	Vallourec & Mannesmann Tubes (V&M Tubes)	FRANCE / GERMANY	SS-T5	Joint Legacy Brand (Now Under Vallourec) That Stands As The World Leader In Premium Seamless Steel Tubes For Energy Markets.
2869	Viar	ITALY	SS-T5	Highly Specialized Manufacturer Of Engineered Forgings, Heavy-Wall Fittings, And Custom Outlets For Severe Pipeline Applications.
2870	VICTAULIC	UNITED STATES OF AMERICA	SS-T5	The World'S Leading Producer Of Mechanical Grooved Pipe Joining Systems, Couplings, And Valves.
2871	Viega	GERMANY	SS-T5	Premium Global Manufacturer Of Press-Fit Plumbing Systems, Pipe Fittings, And Installation Technology.
2872	WUJIN	CHINA	SS-T5	Large-Scale Manufacturer Of Stainless Steel And High-Alloy Seamless And Welded Pipes
2873	YT Process Engineering Ltd.	UNITED KINGDOM	SS-T5	Specialized Engineering Provider Of Process Filters, Strainers, And Customized Pressure Equipment.
2874	Zinga / Zingametall	BELGIUM	SS-T5	Manufacturer Of The Global Standard "Zinga" Film Galvanizing System—A Cold-Applied Zinc Coating Layer Used For Extreme Corrosion Protection On Steel Structures
2875	Trojan Construction	Egypt	2-D12	
2876	UAEV	UNITED ARAB EMIRATES	2-B16	-
2877	United Engineering Construction Co LLC (UNEC)	UNITED ARAB EMIRATES	JSP8	Building Construction (Unlimited)
2878	UNEC SAFEMIX Ready Concrete and Block Factory	UNITED ARAB EMIRATES	JSP8	Readymix
2879	UNEC Joinery & Interior Décor	UNITED ARAB EMIRATES	JSP8	Interior Design Solutions
2880	SAFE TECH	UNITED ARAB EMIRATES	JSP8	A Precast Concrete Production Facility Based At National Industries Park In Dubai
2881	MIG Holding	UNITED ARAB EMIRATES	JSP8	Parent Group
2882	United Motors And Heavy Equipment Company LLC	UNITED ARAB EMIRATES	7-B23	Premier Distributor And Rental Provider Of Heavy Machinery, Commercial Vehicles, Power Generation Equipment, And Industrial Parts Across The Middle East And Globally. It Serves As The Authorized Dealer For Many Of The World-Class Brands Listed Below
2883	COSMOS Dewatering Pump	INDIA	7-B23	Highly Durable Auto-Prime And Electric-Driven Surface Dewatering Pumps Engineered For Heavy-Duty Water Removal In Construction, Mining, And Flood Control
2884	COSMOS Submersible	INDIA	7-B23	Specialized Submersible Pumps Designed To Be Completely Submerged In Water Or Slurry.

2885	KRAMER W/SUNBRUSH Wheel loader	GERMANY	7-B23	This Represents A Unique Integrated Machinery Solution Combining A German-Engineered Kramer All-Wheel-Steer Compact Wheel Loader With A Specialized Solar Panel Cleaning Attachment From Sunbrush Mobil
2886	Advance Tyres - Guizhou Tyre Co. Ltd	CHINA	7-B23	Airman Is A Highly Respected Global Brand Specializing In Premium, Energy-Efficient Portable Air Compressors, Diesel Generators, And Scissor Lifts Heavily Utilized In The Construction And Oilfield Sectors
2887	Airman	JAPAN	7-B23	Air Compressors
2888	Ashar Locker	INDIA	7-B23	Generally References Industrial Screening, Wire Mesh Fabrication, And Storage Locker Solutions Utilized To Secure Parts Or Sort Materials Within Industrial Plants, Warehouses, And Mining Facilities
2889	ASTEC Industries Aggregate & Mining Group	UNITED STATES OF AMERICA	7-B23	An American Global Manufacturer That Builds Heavy Equipment For Asphalt Road Building, Aggregate Processing, Crushing Plants, Screening Systems, And Deep Mining Applications
2890	Berco S.p.A	ITALY	7-B23	A World-Renowned Italian Manufacturer That Specializes In Producing Heavy-Duty Undercarriage Parts And Components (Such As Tracks, Chains, Rollers, And Idlers) For Tracked Earthmoving Machinery And Mining Equipment
2891	Eaton Industries (Danfoss)	UNITED KINGDOM	7-B23	They Manufacture World-Class Hydraulic Pumps, Motors, Valves, And Fluid Conveyance Systems Utilized In Industrial Machinery
2892	Generac Mobile Products SRL	ITALY	7-B23	The Mobile Machinery Division Of Generac, Which Designs And Manufactures Rugged Industrial Equipment Including Commercial Mobile Light Towers, Portable Power Generators, And Dust Suppression Systems For Job Sites
2893	IMER International S.P.A	ITALY	7-B23	A Leading Italian Manufacturer Of Equipment For The Construction Industry, Highly Regarded For Their Aerial Access Platforms (Boom And Scissor Lifts), Concrete Mixers, And Mortar Spraying Machinery
2894	LANDOLL Corporation	UNITED STATES OF AMERICA	7-B23	An American Manufacturing Company Specializing In Heavy Equipment Transportation Trailers, As Well As Highly Specialized Narrow-Aisle Warehousing Forklifts And Material Handling Solutions
2895	MAN Truck & Bus AG	GERMANY	7-B23	A Legendary German Commercial Vehicle Subsidiary Of The Traton Se Group. Man Is A Premier Global Manufacturer Of Medium-To-Heavy-Duty Commercial Trucks, Public Transit Buses, And Heavy Industrial/Marine Diesel Engines
2896	MANITEX INC.	UNITED STATES OF AMERICA	7-B23	An American Manufacturer Specializing In Industrial Lifting Equipment, Prominently Recognized For Their High-Capacity Boom Truck Cranes, Truck-Mounted Cranes, And Rough-Terrain Material Handling Machinery
2897	MRF Ltd.	INDIA	7-B23	Madras Rubber Factory (Mrf) Is India'S Largest Manufacturer Of Tires. They Produce A Vast Catalog Of Tires Ranging From Consumer Vehicles To Heavy Commercial Trucks And Massive Off-The-Road (Otr) Industrial Tires Used In Heavy Construction.
2898	NACCO Materials Handling Ltd.	UNITED KINGDOM	7-B23	Nacco (Now Operating Primarily As Hyster-Yale Materials Handling) Designs And Manufactures The Globally Prominent Yale Brand Of Material Handling Equipment.
2899	Sakai Heavy Industries, Ltd	JAPAN	7-B23	A Premier Japanese Manufacturer That Specializes Strictly In Soil And Asphalt Compaction Equipment, Famous For Its Line Of High-Performance Vibratory Rollers And Road Compactors
2900	SANY	CHINA	7-B23	A Massive Chinese Multinational Heavy Equipment Manufacturing Company. It Ranks Among The Largest Construction Machinery Producers Globally, Building Heavy-Duty Excavators, Crawler Cranes, Concrete Machinery, Piling Rigs, And Port Equipment
2901	SunBrush mobil GmbH	GERMANY	7-B23	A German Manufacturer Specializing In The Development Of Advanced, Specialized Cleaning Devices Designed To Mount Onto Tractors, Excavators, And Wheel Loaders
2902	Wacker Neuson Aftermarket & Services GmbH	GERMANY	7-B23	A Major German Manufacturing Group Specializing In Light Construction Equipment (Like Concrete Vibrators, Rammers, And Compact Excavators) And Job Site Infrastructure Like Mobile Light Towers, Alongside Their Globally Managed Aftermarket Parts Network

2903	Yale EUROPE Materials Handling.	UNITED KINGDOM	7-B23	A major supplier of industrial lift trucks and warehouse equipment serving Europe, the Middle East, and Africa
2904	Ustunel Pompa Ve Makine San Tic A.S	REPUBLIC OF TURKIYE	SS-T10	Submersible Motors & Pumps
2905	Utico Fzc	UNITED ARAB EMIRATES	1-F16	Utility
2906	TORAY	JAPAN	1-F16	A Multinational Industrial Corporation Founded In 1926 That Specializes In Organic Synthetic Chemistry, Polymer Chemistry, Carbon Fiber Composite Materials, Textiles, And Water-Treatment Reverse Osmosis Membranes
2907	FEDCO	UNITED STATES OF AMERICA	1-F16	A Manufacturer Of High-Pressure Feed Pumps And Energy Recovery Devices Used In Seawater Reverse Osmosis (Swro) Desalination Systems
2908	GE	UNITED STATES OF AMERICA	1-F16	A Historic American Multinational Corporation Founded In 1892 That Evolved Across Power, Aviation, Renewable Energy, And Healthcare Sectors
2909	KSB ITUR	SPAIN	1-F16	A Specialized Industrial Pump And Valve Manufacturer Headquartered In Zarautz, Spain, Which Traces Its Roots To 1920 (Originally Bombas Itur) And Later Integrated Into The Global Ksb Group
2910	CATERPILLAR	UNITED KINGDOM	1-F16	The World'S Leading Manufacturer Of Construction And Mining Equipment, Diesel And Natural Gas Engines, Industrial Gas Turbines, And Heavy Machinery, Tracing Its Corporate Roots Back To 1925. Visit Caterpillar For Official Details
2911	TATA CONSULTANCY SERVICES	INDIA	1-F16	A Multinational Information Technology (It) Services, Consulting, And Business Solutions Organization Headquartered In Mumbai, India, And A Flagship Subsidiary Of The Tata Group
2912	Utility Infra Contracting LLC_UIC	UNITED ARAB EMIRATES	AR-M29	Water Pipeline And Station Concrete
2913	Ecoplage	UNITED ARAB EMIRATES	AR-M29	
2914	AASA	UNITED ARAB EMIRATES	AR-M29	Cp Holding Companies
2915	RAD International	UNITED ARAB EMIRATES	AR-M29	Road Construction
2916	Uvinneco d.o.o.	SLOVENIA	2-G23	Water Treatment On Tap
2917	J in P d.o.o.	SLOVENIA	2-G23	The Core Invention And Development Firm. They Are The Official Worldwide Producer And Owner Of Over 30 Utility Patents Driving The Underlying System
2918	AquaVeya d.o.o.	SLOVENIA	2-G23	The Corporate Arm Responsible For The Official Commercial Marketplace, Digital Store Infrastructure, And Fulfillment Operations
2919	Reklamca d.o.o.	SLOVENIA	2-G23	The Patent Holder And Developer Behind The Physical Water-Treatment Mechanics Embedded In The Device
2920	UVINNECO	SLOVENIA	2-G23	The Main Consumer Brand Name For The Specialized, Chemical-Free Tap Attachment. It Cleans Water Utilizing Water Flow-Powered Uvc/Uva Led Light Frequencies Alongside Mechanical Kinetic Treatment
2921	Kinetic Reactor™	SLOVENIA	2-G23	The Internationally Patented Brand Of Natural Physical Water Treatment. It Functions Through Built-In Hydrodynamic Cavitation, Oxidation, And Degassing Rather Than Requiring Traditional Paper Or Plastic Replacement Filters
2922	Tozotech GmbH	GERMANY	2-G23	The Core Manufacturing Partner Tasked With Product Technical Assembly And Scale Engineering.
2923	Twinventor d.o.o.	SLOVENIA	2-G23	Oversees The European Supply Chain Networks And Logistics.
2924	Carmen Energy	SLOVENIA / SLOVAKIA	2-G23	Strategic Multi-Country Expansion And Energy/Distribution Alignment Partner.
2925	Derma Op d.o.o.	SLOVENIA	2-G23	A Localized Distribution And System Manufacturing Operations Partner
2926	Vinfast (Al Tayer Motors)	UNITED ARAB EMIRATES	4-K16	Automotive
2927	VME Valves	UNITED ARAB EMIRATES	SS-L2	An industrial valve manufacturer based in the UAE
2928	Valvometal Middle East (VME Valves)	UNITED ARAB EMIRATES	SS-L2	Specialize In The Engineering, Design And Manufacturing Of Industrial Valves, Provide The Highest Level Of Supplies To Our Customers For Various Industry Verticals Like Water, Power And Process
2929	Voltamp Energy SAOG	SULTANATE OF OMAN	SSP11	Manufacturer Of Transformers And Switchgear.
2930	Voltamp Energy SAOC	SULTANATE OF OMAN	SSP11	Voltamp Energy Is A Prominent Player In The Lv Distribution Systems Market. With A Manufacturing Unit At RUNITED STATES OF AMERICAyl, The Company Has Built An Enviable Trust In The Market

2931	Voltamp Design & Engineering	SULTANATE OF OMAN	SSP11	The Company Is Equipped With Latest Design Softwares For The Calculation Of Short Circuit Strength Of The Transformers And Other Calculations.
2932	Voltamp Technology Solutions LLC (VTS)	SULTANATE OF OMAN	SSP11	
2933	Voltamp Transformers SULTANATE OF SULTANATE OF OMAN SOAC	SULTANATE OF OMAN	SSP11	Manufactures And Markets A Wide Range Of Power, Distribution And Specialty Transformers.
2934	Voltamp Power LLC (Sohar, SULTANATE OF OMAN)	SULTANATE OF OMAN	SSP11	A State-Of-The-Art Greenfield Facility That Manufactures Massive Power Transformers Up To 500 Mva And 400 Kv Class
2935	SULTANATE OF OMAN Transformers INDIA Pvt Limited	INDIA	SSP11	A 100% Owned Subsidiary Serving As Voltamp'S Dedicated Engineering, Research, Design, And Development Wing
2936	Engineering Services Division (ESD)		SSP11	Offers Comprehensive Testing, Repair, Overhauling, And Maintenance Services For Transformers And Switchgear Up To 500 Mva And 400 Kv Across Utilities, Oil & Gas, And Industrial Operations
2937	Schneider Electric	FRANCE	SSP11	Strategic Franchise And Gold Partner For The Assembly, Design, And Engineering Of Blockset Low-Voltage Switchgear Panels And Industrial Automation.
2938	Tatung Company	TAIWAN R.O.C	SSP11	Long-Term Technical Collaboration Provider For The Engineering, Software Design, And Localized Transfer Of Knowledge For High-Voltage Power Transformers Up To 500 Mva.
2939	Babcock Transformers	UNITED KINGDOM	SSP11	Historical Core Technology Partner Underpinning Voltamp'S Medium And Special Distribution Transformer Operations.
2940	Saudi Voltamp JV (Al Sharif Holding Group)	KINGDOM OF SAUDI ARABIA	SSP11	In February 2024, Voltamp Energy Partnered With Kingdom Of Saudi Arabia'S Al Sharif Group Holding (Asg) To Build A Ro 9.5 Million Manufacturing Plant Under The Name "Saudi Voltamp". Located In Kingdom Of Saudi Arabia
2941	"Watanha" Localization Initiative	SULTANATE OF OMAN	SSP11	A Major Corporate Drive Initiated By Voltamp That Attracted 84 Companies Stretching Across Sultanate Of Oman, The Uae, Kingdom Of Saudi Arabia, Qatar, India, And China To Explore Localized Manufacturing And Supply Chains For Strategic Energy Products Inside Sultanate Of Oman.
2942	Voltamp Transformers	SULTANATE OF OMAN	SSP11	Synonymous With High-Durability Green Energy Step-Down Units, Wind Duty Transformers (Deployed Notably At The Dhofar Wind Project), Solar Inverter Duty Transformers, And Oil & Gas Specialized Reactors.
2943	Voltamp Switchgears	SULTANATE OF OMAN	SSP11	Trusted Intellectual Property Featuring Intelligent Motor Control Centers (Imcc), Power Control Centers (Pcc), Custom-Built Metering Systems, Feeder Pillars, And Mobile E-Houses.
2944	VR Consultant LLC-FZ	UNITED ARAB EMIRATES	6-D16	Water Wastewater Environmental Expertise
2945	VR Engineers	INDIA	6-D16	Vr Engineers Was Conceived And Transformed In The Year 1994 As A Professional Oem & Epc Turnkey Solution Provider In The Field Of Water And Wastewater Segment, Providing Solutions To The Global As Well As Indian Markets.
2946	Wade Adams Contracting LLC	UNITED ARAB EMIRATES	SSP8	Construction Of Roads, Bridges, Flyovers, Water, Sewerage & Drainage Networks, Etc
2947	Wade Adams Sharjah (LLC), Sharjah, UNITED ARAB EMIRATES	UNITED ARAB EMIRATES	SSP8	Construction, Engineering And Contracting
2948	Gulf Consolidated Contractors WLL (GCC), QATAR	UNITED ARAB EMIRATES	SSP8	Construction, Engineering And Contracting
2949	Hilal Bil Badi & Partners Contracting Company WLL (HILALCO), Abu Dhabi, UNITED ARAB EMIRATES	UNITED ARAB EMIRATES	SSP8	Construction, Engineering And Contracting
2950	Union Energy Inc., BVI; registered as a branch in HFZ, Sharjah, UNITED ARAB EMIRATES	UNITED ARAB EMIRATES	SSP8	Construction, Engineering And Contracting
2951	Wade Adams Emirates, Abu Dhabi, UNITED ARAB EMIRATES	UNITED ARAB EMIRATES	SSP8	Construction, Engineering And Contracting
2952	Wade Adams (Middle East) Limited	UNITED ARAB EMIRATES	SSP8	*British Virgin Islands (Group Holding / Hq Registered In 1976)*
2953	Wade Adams Ready Mix Concrete Manufacturing LLC	UNITED ARAB EMIRATES	SSP8	A Specialized Concrete Manufacturing Subsidiary Established In 2019. It Operates State-Of-The-Art Production Facilities, Including Plants In Jebel Ali, To Supply High-Quality Ready-Mix Concrete Solutions For Regional Infrastructure And Building Projects

2954	Wade Adams Q Construction and Trading W.L.L	Qatar	SSP8	Established In 2023, This Arm Extends The Group'S General Contracting, Civil Engineering, And Trading Capabilities Into The Qatari Market. It Focuses On Large-Scale Infrastructure, Commercial, And Residential Developments.
2955	Wade Adams Contracting (Cyprus) LTD	CYPRUS	SSP8	Formed In 2019, This European Division Delivers Civil Engineering And Heavy Construction Services In Cyprus. Its Portfolio Spans Bulk Earthworks, Grading, Utilities, And Major Infrastructure Installations.
2956	Wade Adams Hellas S.M.S.A	Greece	SSP8	Established In 2020 And Based In Athens, This Company Serves As Part Of Wade Adams' European Expansion, Providing Project Development, Design, And Localized Construction Services.
2957	Watec	MOROCCO	6-A6	Water & Wastewater Treatment
2958	Watec S.A. / WATECAT	MOROCCO	6-A6	The Core Engineering And Water Treatment Parent Company (Founded 1987, Based In Mohammedia/Casablanca) Handling Large-Scale Municipal, Industrial, And Desalination Infrastructure
2959	Watec Distribution	MOROCCO	6-A6	Dedicated To Wholesale And Retail Distribution Of Equipment For Installers And Resellers Across Morocco (Casablanca, Rabat, Mohammedia, Marrakech, Tangier, Fes, Agadir)
2960	Watec Industrie	MOROCCO	6-A6	Focuses On The Local Fabrication Of Mobile And Containerized Reverse Osmosis (Ro) And Water Treatment Units
2961	Osmo Watec	MOROCCO	6-A6	A Specialized Partner/Subsidiary In Casablanca Focusing On Water Treatment Systems And Reverse Osmosis Solutions
2962	Somagec (Société Maghrébine de Génie Civil)	MOROCCO	6-A6	Includes Major National Civil Engineering And Infrastructure Firms Such As Somagec (Société Maghrébine De Génie Civil), With Whom Watec Partners On Large Public Works Like The El Marsa/Laâyoune Desalination Projects Commissioned By Onee
2963	GRUNDFOS	DENMARK	6-A6	Pumping & Hydraulics
2964	ESPA	SPAIN	6-A6	One Of The World'S Leading Global Pump Manufacturers, Renowned For Smart Circulator Pumps, Water Pressure Boosting Systems, And Highly Efficient Industrial Dosing Units
2965	PSH	SPAIN	6-A6	Developer Of Efficient Water Pumps, Focusing Heavily On Residential And Commercial Swimming Pool Filtration Pumps, Hydromassage Units, And Irrigation Systems.
2966	Pentair	UNITED STATES OF AMERICA	6-A6	S. A Massive Global Conglomerate That Manufactures Comprehensive Residential And Commercial Water Solutions, Ranging From Pool Filtration Pumps And Automated Controllers To Residential Filtration Systems.
2967	Veolia	FRANCE	6-A6	A Major Global Environmental Corporation. Its Water Technologies Division Focuses On Absolute Municipal/Industrial Water Purification, Resource Recovery, And Zero-Liquid-Discharge (Zld) Technologies
2968	Hydranautics	JAPAN / UNITED STATES OF AMERICA	6-A6	A Prominent Brand Owned By Nitto Denko (Japan). It Manufactures Ultra-Precise Reverse Osmosis (Ro), Nanofiltration (Nf), And Ultrafiltration (Uf) Membrane Elements Used Globally For Ocean Desalination
2969	Purolite	UNITED STATES OF AMERICA	6-A6	Owned By Ecolab, This Is A Leading Global Producer Of Specialized Ion-Exchange Resins Used For Water Softening, Nuclear Power Plant Cooling Loops, And Pharmaceutical Purification
2970	Cintropur	BELGIUM	6-A6	High-Performance Centrifugal Filter Systems Engineered For Domestic, Industrial, And Agricultural Raw Water Treatment, Using Durable Synthetic Filter Sleeves.
2971	Filtec	NEW ZEALAND / AUSTRALIA	6-A6	An Engineering And Water Treatment Provider That Supplies Uv Disinfection Reactors, Chemical Dosing Blocks, And Specialized Media Filtration Plants.
2972	Osmotec	SWITZERLAND	6-A6	Specializes In Compact Reverse Osmosis Units, Emergency Containerized Water Purification, And Marine Desalinators
2973	Biotec	MOROCCO	6-A6	These Portfolios Represent Proprietary Chemical, Ultrafiltration, And System Assembly Tiers Managed Under Regional Distributors (Primarily Under The North African Watec Ecosystem) To Differentiate Biological Treatment, Ultrafiltration, And Standard Ro Lines.
2974	Uftec	MOROCCO	6-A6	

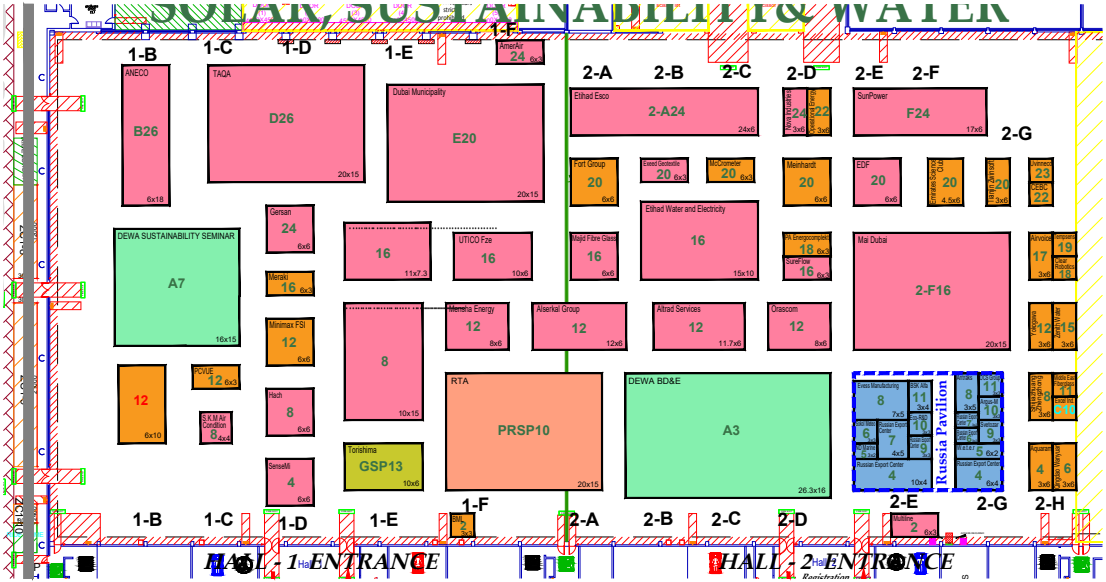

2975	Toray	JAPAN / UNITED STATES OF AMERICA	6-A6	A Chemical Conglomerate Producing Advanced Synthetic Materials, Highly Respected For Its Durable Polyamide Reverse Osmosis Membranes And Hollow-Fiber Ultrafiltration Elements
2976	Purepro	UNITED STATES OF AMERICA / JAPAN	6-A6	A Residential-Focused Manufacturer Specializing In Multi-Stage Drinking Water Systems, Under-Sink Reverse Osmosis Kits, And Alkaline Water Filters
2977	GE Water		6-A6	
2978	Tylo	SWEDEN	6-A6	A Premium Global Wellness Brand Known For High-End Sauna Cabins, Wood-Fired Heaters, Steam Generators, And Commercial Hammam Engineering.
2979	BeWell	FRANCE	6-A6	A Luxury Manufacturer Specializing In Ergonomically Structured Canadian-Insulated Residential Hot Tubs, Outdoor Swim Spas, And Hydrotherapy Platforms.
2980	Crystalpool	AUSTRIA / EUROPE	6-A6	An Engineering Provider Of Premium Commercial Steel-Welded And Reinforced Pvc Pool Liners, Prefabrication Modular Pool Sets, And Sanitizing Systems.
2981	Fairland	CHINA	6-A6	A Major Manufacturer Focusing Heavily On Smart Inverter Pool Heat Pumps, Energy-Efficient Robotic Pool Cleaners, And Outdoor Thermal Management
2982	Pahlen	SWEDEN	6-A6	A Major Manufacturer Focusing Heavily On Smart Inverter Pool Heat Pumps, Energy-Efficient Robotic Pool Cleaners, And Outdoor Thermal Management
2983	Hidrolite	CHINA / UNITED ARAB EMIRATES	6-A6	A Premium Manufacturer Of Swimming Pool Heating Components, Producing Electric Heaters, Titanium Heat Exchangers, Bronze Pumps, And Counter-Current Jet Streams.
2984	Gemas	REPUBLIC OF TURKIYE	6-A6	
2985	Coelbo	SPAIN	6-A6	A Specialty Electronic Developer Focused On Manufacturing Digital Pump Controllers, Pressure Switches, And Intelligent Electronic Drivers For Automated Water Pressure Units.
2986	Rwc	AUSTRIA / UNITED STATES OF AMERICA	6-A6	A Prominent Designer Of Safe Water Control And Plumbing Solutions, Notably Famous For Its Sharkbite Push-Fit Fittings And Cash Acme Temperature And Pressure Relief Valves.
2987	Aqua	ITALY	6-A6	A Well-Known European Water Treatment Producer Specializing In Residential Pool Filter Assemblies, Chemical Dosing Pumps, Cartridge Casings, And Domestic Softeners
2988	Bio UV, Etatron	FRANCE	6-A6	Uv & Disinfection / Dosing
2989	Water Bird Water Treatment Chemicals L.L.C	UNITED ARAB EMIRATES	SS-R23	Water & Waste Water Treatment Solution
2990	GRUNDFOS	DENMARK	SS-R23	Pumping Technologies
2991	EBARA	JAPAN	SS-R23	Pumping Technologies
2992	LOWARA	ITALY	SS-R23	Pumping Technologies
2993	DuPont Filmtec	UNITED STATES OF AMERICA	SS-R23	High Rejection Ro & Uf Membranes
2994	Hydranautics	UNITED STATES OF AMERICA	SS-R23	High Rejection Ro & Uf Membranes
2995	Toray	JAPAN	SS-R23	High Rejection Ro & Uf Membranes
2996	SEKO	ITALY	SS-R23	Dosing And Control Systems - Metering Pumps And Automatic Controllers
2997	ProMinent	GERMANY	SS-R23	Dosing And Control Systems - Metering Pumps And Automatic Controllers
2998	Milton Roy	UNITED STATES OF AMERICA	SS-R23	Dosing And Control Systems - Metering Pumps And Automatic Controllers
2999	Lovibond	GERMANY / UNITED KINGDOM	SS-R23	Photometers, Testing Reagents And Lab Instruments
3000	Hach	UNITED STATES OF AMERICA	SS-R23	Photometers, Testing Reagents And Lab Instruments
3001	Clack Corporation	UNITED STATES OF AMERICA	SS-R23	Composite Filter Vessels & Valves
3002	Structural	UNITED STATES OF AMERICA	SS-R23	Composite Filter Vessels & Valves
3003	Pentair	UNITED STATES OF AMERICA	SS-R23	Composite Filter Vessels & Valves
3004	Purolite	UNITED STATES OF AMERICA	SS-R23	Ion Exchange Resins - Premium Cation And Anion Softening Resins
3005	Resintech	UNITED STATES OF AMERICA	SS-R23	Ion Exchange Resins - Premium Cation And Anion Softening Resins
3006	WEG	BRAZIL	5-A5	Industrial Equipment And Spare Parts, Power Generation, Transmission And Distribution Equipment Trading

3007	Marathon	UNITED STATES OF AMERICA	5-A5	Acquired Asset Integrated For Heavy-Duty Industrial Electric Motors, Generators, And Mining-Centric Machinery
3008	Cemp	ITALY	5-A5	Specializes In Flameproof And Explosion-Proof Electric Motors For Hazardous Locations (Oil & Gas, Chemical Industries)
3009	Rotor	THE NETHERLANDS	5-A5	Tailored Commercial And Marine-Grade Electric Motor Solutions
3010	WEG Cestari Redutores	BRAZIL	5-A5	Industrial Gearboxes & Gearmotors.
3011	TGM	BRAZIL	5-A5	Steam Turbines And Industrial Power Generation.
3012	V2COM	BRAZIL	5-A5	Iot Infrastructure, Smart Grids, Connectivity.
3013	Balteau	BRAZIL	5-A5	Electrical Measuring Transformers And Equipment.
3014	REIVAX	BRAZIL	5-A5	Control Systems For Hydro, Wind, And Solar Generation.
3015	Tupi	BRAZIL	5-A5	Electric Vehicle (Ev) Charging Hardware.
3016	Electric Machinery Company LLC	UNITED STATES OF AMERICA	5-A5	Large-Scale Synchronous Motors And Generators.
3017	Bluffton Motor Works	UNITED STATES OF AMERICA	5-A5	Fractional Horsepower Fractional Electric Motors.
3018	CG Power USA	UNITED STATES OF AMERICA	5-A5	Large Distribution Grid Transformers.
3019	Heresite Protective Coatings	UNITED STATES OF AMERICA	5-A5	High-Tech Protective Liquid Coatings For Harsh Environments.
3020	Gefran (Drives & Motion Division)	ITALY	5-A5	Variable Frequency Drives (Vfds) And Electronic Power Converters.
3021	Watt Drive	AUSTRIA	5-A5	Power Transmission Systems, Gearboxes, And Geared Motors.
3022	Autrial S.L.	SPAIN	5-A5	Industrial Electric Control Panels And Automation Assemblies.
3023	Suntec FTC	COLUMBIA	5-A5	Large Distribution Transformers Industrial Electric Automation Panels

Website: www.3si.xyz
Contact: Victor Fung

PRODUCTS ON DISPLAY:

1.Manifolds & Customized Accessories for the Pump System
2.Customized Fluid Piping Accessories
3.Pumps and Fluid Industry Components

COMPANY PROFILE:

About 3S International:

3S International is a professional global supplier, specializing in fluid and water engineering solutions, with over 21 years of industry experience. We have provided services to 138 clients from 50 countries and have established reliable partnerships with many of them.

What We Do:

Our custom-made Manifolds and Fluid Piping Fittings are widely used in booster pump systems, household, commercial and agricultural irrigation water supply systems, air conditioning and cooling water circulation systems, fire pressure boosting systems, heating systems, as well as in various fields such as machinery, electrical, shipbuilding and construction. The products mainly include Threaded Connection, Flanged Connection and Grooved Connection. During the processing, laser processing, digital processing and automated processing are extensively adopted. The pipe diameters range from DN15 to DN500, and the lengths are from 200MM to 8000MM.

Why Choose Us

We have 61 workers with many years of production experience, 5 R&D personnel, and 7 QC&QA personnel, and we can manufacture 750 Manifolds per day.

Our stainless steel pipes are cut using stable computer numerical control, ensuring the distance and angle between the pipe openings of the products. After welding, each product must undergo a sealing and leak prevention test, as well as a hydro test, with the maximum pressure reaching up to 100 bar. This ensures that qualified products are delivered to the customers.

Air Filters

COMPANY PROFILE:

AAF (American Air Filter) Bringing Clean Air to Life

For over a century, AAF has been a global leader in air filtration, delivering solutions that protect people, processes, and performance. Headquartered in Louisville, Kentucky, USA, AAF serves customers in 150+ countries through 25+ manufacturing, distribution, and warehousing facilities. As part of the Daikin Group, the world's largest HVAC manufacturer, AAF combines specialist engineering expertise with global scale and innovation.

Across EEMEA, CIS, and SAARC, AAF is supported by manufacturing hubs in **Saudi Arabia and India**. Our **Bengaluru Centre of Excellence** is India's first facility to manufacture **auto-scan tested HEPA and ULPA filters** in ISO Class 7 cleanroom conditions, compliant with EN 1822 standards, alongside our Noida operations.

AAF solutions serve demanding environments across **pharmaceuticals and healthcare, microelectronics and data centres, food and beverage, commercial and industrial facilities, chemical and process industries, and power and energy**.

What Sets Us Apart

- **100+ years** of filtration expertise and global R&D capabilities
- India's first auto-scan tested HEPA/ULPA manufacturing facility
- Testing and compliance across **EN 1822, ISO 16890, ISO 14644, ASHRAE, NABH, EU GMP, and FSSAI**
- Application-specific engineering and customised solutions

AAF technology has supported critical environments worldwide, including **Apollo 11 and the International Space Station**.

Trusted by leading organisations including TATA, L&T, Nestlé, CIPLA, PepsiCo, Samsung, ISRO, WIPRO, NTT, Reliance, Bosch, Coca-Cola, NTPC, Infosys, and many more.

Water Desalination
Power Generation
Green Hydrogen

COMPANY PROFILE:

Acwa (TADAWUL: 2082) is a Saudi-listed company and the world's largest private water desalination company, the first mover into green hydrogen, and a leader in the global energy transition. Registered and established in 2004 in Riyadh, Saudi Arabia, Acwa employs over 4,000 people and is currently present in 16 countries in the Middle East, Africa, Central Asia, and Southeast Asia. As of July 2026, Acwa's portfolio comprises 111 assets in operation, advanced development, or under construction, representing SAR 475 billion / USD 127 billion of assets under management and the capacity to generate 98.2 GW of power (of which 52.3 GW is renewables) and manage 9.7 million m^3/day of desalinated water. The energy and water capacity generated by Acwa's assets is delivered on a bulk basis to address the needs of state utilities and industries on long-term, off-taker contracts under utility services outsourcing and public-private partnership models.

PRODUCTS ON DISPLAY:

HWA2: Range of chillers and reversible heat pumps with scroll compressors and R290 Gas
HWA2 is MAXA's range of **R290 air-to-water chillers and reversible heat pumps**, designed to provide an efficient and reliable solution for **heating, cooling and domestic hot water production** in commercial and industrial applications.
Combining **natural refrigerant R290**, proven fixed-speed scroll compressor technology and a wide operating range, HWA2 delivers year-round performance while meeting the growing demand for lower-impact HVAC solutions.
The range includes **8 sizes across 3 different frames**, with capacities from **70 to 170 kW**, available as cooling-only units (HWA2-A) or reversible heat pumps (HWA2-AH). The BT version can operate with fluid temperatures down to **-8°C**, making it suitable for process cooling and industrial applications, while the heat pump version can produce **hot water up to 78°C**, extending its use to space heating and domestic hot water production.
Thanks to its high water temperature capability, HWA2 is suitable for both **new installations and the replacement or upgrade of existing HVAC systems**.
A high degree of **hydraulic configurability** allows each size to be equipped with different circulation pump options and, upon request, dedicated storage tanks. Flexible hydraulic connections further simplify integration with the building's distribution system.
With its combination of **high-temperature performance, versatility, reliability and the use of natural refrigerant R290**, HWA2 is a complete HVAC solution for demanding commercial and industrial projects.

COMPANY PROFILE:

At Maxa, we design, manufacture, and distribute heating and cooling systems with one clear objective: improving people's comfort while contributing to a more sustainable future. This mission has driven our growth since the company was founded and continues to inspire every decision we make.

Today, under the leadership of Paolo, David, and Simone, the founder's sons, Maxa combines its family values with continuous innovation, Made in Italy manufacturing, and a strong commitment to environmental responsibility.

We develop advanced HVAC solutions for residential, commercial, industrial, and tertiary applications. Supported by a state-of-the-art Research & Development department, we offer one of Europe's most comprehensive product portfolios, featuring energy-efficient, high-performance technologies designed to meet the evolving needs of the market.

Our manufacturing capabilities are a key strength. With 8 production lines dedicated to inverter heat pumps and 2 climate-controlled test chambers (M1 and M2) capable of testing units up to 800 kW, we ensure outstanding production flexibility and precise performance validation.

Quality is embedded in every stage of our production process. Through advanced testing procedures, continuous monitoring, and rigorous quality control, we guarantee the highest standards of performance, efficiency, and reliability.

Our commitment to excellence is reinforced by internationally recognized certifications, including Eurovent, EHPA, HP Keymark, ISO 9001:2015, and Heat Pump Austria, confirming the quality and reliability of every Maxa solution.

Blowers
Compressors
Aeration systems
Smart control systems
Rental solutions

COMPANY PROFILE:

AERZEN is a global leader in blower, compressor, and aeration technology, delivering energy-efficient solutions that enhance the performance, reliability, and sustainability of wastewater treatment processes. With over 160 years of engineering excellence, AERZEN supports municipalities, utilities, and industrial operators worldwide in optimizing biological treatment while reducing energy consumption and operating costs.

At **WETEX**, AERZEN will showcase its comprehensive portfolio of wastewater treatment solutions, including high-efficiency blowers, compressors, advanced aeration systems, intelligent smart control technologies, and flexible rental solutions. Designed to meet the evolving demands of water and wastewater facilities, AERZEN solutions provide precise air delivery, optimized process control, and maximum operational reliability across all stages of biological treatment.

Energy consumption accounts for a significant portion of wastewater treatment operating costs, with aeration being the largest energy consumer. AERZEN's innovative technologies help operators improve oxygen transfer efficiency, optimize airflow according to process demand, and reduce their environmental footprint while maintaining consistent treatment performance.

Visitors to the AERZEN stand will discover how integrated air management solutions, digital monitoring, and adaptive control systems can improve plant efficiency, increase system availability, and support long-term sustainability objectives. Whether through permanent installations or rapid-response rental solutions for planned maintenance and emergency applications, AERZEN delivers reliable, future-ready technologies that help customers achieve greater operational resilience, resource efficiency, and lower lifecycle costs. Partner with AERZEN to discover how intelligent air solutions are driving the future of sustainable wastewater treatment.

PRODUCTS ON DISPLAY:

Air Clean proprietary biotechnology (Biofilters, Biotrickling, Bioscrubbers):

. MonaFil® proprietary biotechnology mainly used for treatment of emissions produced by solid waste treatment plants. A peat based filtering product specifically designed for biofiltration (high surface, long life, low pressure drops).
. MonaShell® proprietary biotechnology mainly used for treatment of emissions produced by wastewater treatment plants. A shell based media for air biotrickling filters suitable for treating acidic gasses.
. CrumRubber™ proprietary biotechnology mainly used for biogas purification. Designed for treating high concentration of hydrogen sulphide.
. AirCover breathable fabric system for solid waste/sludge composting/biodrying.
. AirSol a wet scrubber from Air Clean suitable for the removal of inorganic chemical compounds such as hydrogen sulphide (compound responsible for bad odours in wastewater treatment plants) and ammonia (compound found in solid waste treatment plants).
. AirSorb a dry scrubbing system suitable for the treatment of air streams contaminated with low or infrequent concentrations of odorous (H2S, mercaptans, NH3, etc., or volatile organic compounds VOC).. . . .AirStripper enables the removal of ammonia from liquid effluents and its conversion into ammonium sulfate.
. Biogas Desulphurization Systems Systems for the removal of high concentrations of hydrogen sulphide (H2S).
. Hembis® completely automatic bridge cranes and aerated platforms.

COMPANY PROFILE:

Air Clean designs, manufactures and installs Air depollution, Odour Control, VOC removal and Biogas Cleaning equipment using proprietary bio-technologies and “conventional” chemical/physical tech (Chemical washing, Activated carbon, Wet dust and Dry dust removal systems, Composting plant, etc., all of them in our range), for municipal and industrial sector.
Company offers solid waste/sludge composting/biodrying systems using breathable fabrics and completely automatic bridge cranes and aerated platforms. The access to the latest technologies and continuous research allows Air Clean to provide the best solution for every application, by using stand alone or multy-stage technologies, integrating all available technologies to best meet project.

- Airowater premium water generated from air, filled in glass returnable bottles 500ml & 1000ml
- Lavaquell still water in Aluminum cans 250ml
- Lavaquell still water in Aluminum bottles 600ml
- Air water generators 100 Liters to 2000 liters per day

Company Profile

Airowater is a young organization providing cost effective bottled water solution in returnable glass bottles, replacing plastic water bottles in hospitality industry.

Airowater is a pioneer in providing unique, cost-effective and sustainable water solution to the hospitality industry in UAE. The concept of drinking water in returnable glass bottles is well appreciated by the trade and the government for meeting the sustainability goals of the country. Airowater is the only company to supply drinking water in RGB to more than 60 premium hotel properties in UAE through exclusive supply agreements. Water is bottled & distributed from its centralized plant with a capacity of 11,600 BPH and managed by a team of professionals from bottled water industry.

Ambient air quality (cities and industries)

- Continuous Ambient Air Quality Monitoring Station (CAAQMS)
- Airvoice Ambient AQ Platform: pollution maps and analytics
- Airvoice Air Quality Digital Twin

COMPANY PROFILE:

Airvoice develops software and hardware for air quality monitoring and management. Air is the one resource every building and city shares, yet most of it goes unmeasured. Airvoice changes that. Drawing on 21 years of expertise, our engineers and physicists turn air into data people can act on, from a single room to an entire city.

For buildings, better air pays twice. People spend 90% of their time indoors, where the air can be five times more polluted than outside. We find the cause, fix it through ventilation, filtration and building controls, and prove the result on the sensors.

For industries, we show in real time how a site affects the air around it, predict where emissions will travel and trace pollution back to its source. Operators stay compliant and respond to incidents faster.

For cities, we build networks of monitoring stations and forecast air quality up to 72 hours ahead at up to 1 km resolution. Authorities can warn residents before pollution peaks, plan traffic and land use, and track the effect of their policies.

Over the years, Airvoice has delivered 100+ projects and deployed more than 500,000 devices worldwide, with teams in the UAE, USA, Serbia and India. In the UAE, our systems already protect the air in offices, clinics, villas and apartments.

Visit us at stand 2-H17 to see live air quality data and find out what better air could do for your space.

Smart Electricity Meters & Smart Water Meters

COMPANY PROFILE:

Al Bunyan Al Aali for Equipment's and Smart System Trading Company is a member of Al-Shafei Group and the authorized agent of LONGi smart meters across the Middle East and North Africa (MENA) region.

With more than 20 years of experience in smart electricity and water metering and operating systems, the company delivers integrated solutions that combine metering hardware, advanced technology, and software platforms within a single ecosystem. Through its strategic partnership with LONGi and the successful delivery of numerous projects across the region, the company has proven its capability and earned a strong reputation in the market.

Al-Shafei Group comprises four companies operating in Palestine, Jordan, the UAE, and Egypt, with its headquarters in the Hashemite Kingdom of Jordan.

Our Solutions:

- Smart Electricity Meters: internationally certified meters supplied through the LONGi partnership.
- Smart Water Meters: metering solutions for water utilities and municipalities.
- Software and Operating Systems: platforms for managing, operating, monitoring, and controlling smart metering systems.

PRODUCTS ON DISPLAY:

Building Energy Retrofit Solutions, Energy-Efficient Lighting Systems, HVAC and Chiller Optimization Solutions, Solar PV Systems, Energy Management and Building Management Systems, Smart Energy Monitoring Solutions and EV Charging Solutions

COMPANY PROFILE:

Etihad Energy Services Company (Etihad ESCO)

Etihad, Arabic for “Union,” is inspired by the United Arab Emirates’ legacy of over four decades of development and progress.

Etihad ESCO inspires cross-sector action and partnerships among multiple stakeholders to create and sustain a vibrant market for Energy Performance Contracts.

Dubai is one of the leading cities in the world implementing a city-wide strategic building energy efficiency programme, delivering tangible social, environmental, and economic benefits.

Etihad ESCO’s purpose is to serve the strategic goal of the United Arab Emirates in pursuing a green economy for sustainable development, contributing to Dubai’s ambition to become a global model of green economy transition through leadership, partnership, and the adoption of energy efficiency technologies.

Our Core Solutions

- Building Energy Retrofit
- Solar PV & Renewable Energy
- Energy Auditing & Assessment
- HVAC & Chiller Optimization
- Energy-Efficient Lighting
- Building Management & Energy Monitoring Systems

- Smart Energy Solutions
- Operations & Maintenance
- Energy Performance Contracting

Through advanced technologies, strategic partnerships, and performance-driven solutions, Etihad ESCO delivers measurable energy and environmental benefits across commercial, government, hospitality, industrial, and other sectors.

Our Approach

Assess → Design → Implement → Optimize → Monitor → Save Driving Energy Efficiency. Enabling Sustainable Buildings.

COMPANY PROFILE:

Al Fajer Trading L.L.C., established in 1973, is a well-established trading and distribution company with over 40 years of experience in the UAE and GCC markets. The company has developed a strong reputation for quality products, professional service, reliable distribution, and excellent after-sales support.

A key area of Al Fajer Trading's business is its Ecocar Division, which specializes in environmentally friendly electric golf carts and electric vehicles with zero carbon emissions. The division offers a comprehensive range of electric vehicles designed for transportation and utility applications across hotels, resorts, residential communities, commercial facilities, leisure destinations, industrial sites, and other establishments.

The product portfolio includes 2-seater, 4-seater, 6-seater, and 8-seater electric golf carts and multi-passenger shuttle vehicles, along with various utility vehicle models and options. Al Fajer Trading focuses not only on supplying high-quality electric vehicles but also on providing dependable after-sales service, spare parts support, breakdown assistance, and technical support through its team of technicians.

In addition to electric golf carts, Al Fajer Trading operates specialized divisions covering building materials, security solutions and equipment, surveying products, decorative paints, consumer products, home automation, trading, and distribution services.

With operations in Dubai and Abu Dhabi, Al Fajer Trading continues to provide cost-effective solutions while maintaining a strong commitment to quality, customer satisfaction, professional service, environmental responsibility, and long-term business relationships across the UAE and GCC region.

COMPANY PROFILE:

The company has been established at Abu Dhabi in 1995 starting with a general contracting works & have opened a branch in Dubai 2008. We are an ISO certified company with ISO 900l, ISO 14001 & OHSAS 18001 certificates. At the beginning of 1997 we have started our tunneling division using the micro tunneling technology and pipe jacking method. Since that time, we have constructed successfully more than 300 KM of pipe lines in different diameters by the non-disruptive method using the ISEKI TCC 600, ISEKI TCC 800, HERRENKNECHT AVN 600, AVN 800B, AVN 800A, AVN 1000, AVN 1200, AVN 1400, AVN 1600, AVN 1800, AVN 2000, AVN 2000 EXT. KIT TO 2200, AVN 2000AB, AVN 2400AB, AVN 2500, AVN 2500 up skin machine, AVN 3500AB and AVN 3500 upskin micro tunneling machines in different ground conditions, with and without ground water table at different soil strata.

We have constructed pipe lines by the non-disruptive method mainly at the Abu Dhabi emirate with the Abu Dhabi Municipality, Abu Dhabi Sewerage Services Company (ADSSC), the public works, ADWEA, TRANSCO (ADDC) & MUSANADA. We also carried out tunnelling works for the last three years using the micro tunneling technology in the emirate of Abu Dhabi, Dubai, Sharjah & Ajman for more than 50,000 LM.

We have 50 tunnelling machines owned by the company, 2 of them are manufactured by ISEKI-Japan and 48 machines are manufactured by Herrenknecht -Germany. The machines are in different diameters and can jack pipes from 500mm ID to 4200mm ID pipes. The machines that the company owned worth over 200 million dirhams. We have constructed pipe lines by the non-Disruptive method for more than 2000 lines with a length varies from 35 meter to 600 meter and have recently equipped the company to carry out long drives up for pipe diameter up to 4.2-meter internal diameter. The constructed pipelines were related to more than 160 projects in the U.A.E. but mainly in the Abu Dhabi and Dubai emirates for the sewerage pipelines, Irrigation, water pipe lines and chilled water pipe line.

The Kia PV5 is Kia's next-generation purpose-built vehicle (PBV), designed to provide flexible and practical mobility solutions for both business and personal use. It combines a modern, boxy design with a spacious and highly adaptable interior, offering different body configurations to suit passenger and commercial needs. With its electric powertrain, advanced technology, strong connectivity, and flexible cargo or passenger space, the PV5 is positioned as a smart and versatile solution for urban mobility, fleet operations, and businesses looking for efficient electric transportation.

The Kia EV3 is a compact electric SUV designed to bring Kia's advanced EV technology, modern design, and practical everyday usability to a wider range of customers. It combines a bold and distinctive exterior with a spacious, technology-focused interior, offering strong driving range, smart connectivity, and advanced driver-assistance features. The EV3 is positioned as an accessible and versatile electric SUV, making it suitable for urban driving as well as longer journeys, while supporting Kia's ambition to expand its EV lineup and make electric mobility more mainstream.

The Kia EV9 is a large, premium electric SUV that combines bold design, spacious three-row seating, advanced technology, and fully electric performance. It offers a refined and comfortable interior with flexible passenger and cargo space, making it suitable for families and customers looking for a more premium EV experience. With its long-range capability, advanced driver-assistance systems, fast charging, and innovative features, the EV9 represents Kia's move towards a more premium and aspirational position in the electric vehicle market.

COMPANY PROFILE:

Al Tayer Motors was established in 1982 and represents major Automobile manufacturers Kia, Ford, Lincoln, Ferrari, Maserati, Jaguar, Land Rover and Ford Trucks across the UAE.

With a growing network of sales, service and parts centres across Dubai, Sharjah, Ras Al Khaimah and Fujairah, the dedicated team of more than 3000 professionals is committed to taking customer satisfaction to higher levels.

In Abu Dhabi, Kia, Ford, Lincoln, Jaguar, Land Rover, Ferrari, Maserati and Ford Trucks are represented by Al Tayer Motors through Premier Motors.

PRODUCTS ON DISPLAY:

ABV - Automatic Self-Cleaning Filter

ABV is Alfa Water's patented automatic self-cleaning filter designed for the efficient removal of suspended solids, including coarse and highly adherent contaminants. Its **dual Vacuum-Brush cleaning technology** combines interchangeable brushes with flexible suction pads: the brushes mechanically remove solids from the filter surface, while suction evacuates the contaminants through the drain system. The cleaning cycle takes place **without interrupting the filtration flow**, ensuring continuous operation and high cleaning efficiency. Available with **pneumatic or electric piston**, ABV filters cover filtration ratings from **1,000 to 10 µm**, filtration areas up to **19,800 cm²**, flow rates up to **1,850 m³/h**, and flanged connections from **2" to 16"**. The filters can be manufactured in **AISI 304, AISI 316, SAF 2205 and 254 SMO**, with multilayer stainless-steel or PETP filtering elements and optional **NanoTex™ surface technology**. Designed for demanding water applications, ABV is particularly suitable for **river water, seawater intake, primary and wastewater treatment, industrial process water, desalination, cooling systems, oil & gas, petrochemical and marine applications**, providing a robust, reliable and low-maintenance automatic filtration solution.

ARAGON APEF - Pulsed Electric Field Water Treatment

ARAGON APEF is Alfa Water's patented water treatment technology combining filtration with a **low-voltage, high-frequency Pulsed Electric Field (PEF)** to control **limescale and biofilm formation without altering the chemical composition or natural mineral content of the water**. The electric field inhibits the formation of crystalline calcite and promotes the formation of non-adherent **aragonite nanocrystals**, helping prevent scale deposits and progressively clean existing deposits through a natural scrubbing effect. At the same time, PEF technology interferes with bacterial adhesion mechanisms and extracellular polymeric matrix (EPS) formation, helping control biofilm growth inside pipelines. The system requires **very low electrical power and no routine maintenance of the PEF generation system**, helping reduce chemical consumption, energy losses and maintenance requirements. ARAGON is available in **K10/K20 models up to 10 m³/h** with filtration ratings from **5 to 100 µm**, and in the industrial **ARAGON HF DN80 (3") version up to 50 m³/h**, which can be installed in parallel for higher flow rates. Applications include **drinking water, industrial process water, cooling towers, HVAC and hydronic circuits, RO protection, water reuse, healthcare, food & beverage, irrigation and agricultural applications**.

COMPANY PROFILE:

Alfa Water Srl is an Italian company based in Sedico, in the province of Belluno, specializing in the design and manufacture of advanced water treatment and filtration solutions.

Founded in the heart of the Dolomites, a UNESCO World Heritage Site, Alfa Water stands out for its commitment to environmental sustainability and the adoption of innovative technologies.

Expertise and Applications

Alfa Water offers a comprehensive range of manual, semi-automatic, and automatic filters manufactured in stainless steel (**AISI 304, AISI 316**) and special alloys such as **SAF 2205, SAF 2507, and 254 SMO**. The company's products comply with international standards, including **ASME, PED, ATEX, and SHELL DEP**, ensuring high levels of quality and safety.

Key application sectors include:

- Drinking water and wastewater treatment
- HVAC systems and cooling towers
- Shipbuilding and desalination plants
- Industrial processes and water recycling
- Irrigation and agriculture

Innovation and Sustainability

Alfa Water is continuously committed to research and development to improve filtration efficiency and reduce environmental impact.

By combining engineering expertise, manufacturing craftsmanship, and attention to detail, the company delivers reliable and durable solutions that contribute to the protection and responsible management of water resources.

COMPANY PROFILE:

ALGATEC – The Future of the Energy Transition Is Here

World Premiere: Metal-Air Battery Revolutionizes the Global Energy Market

25 Years of Expertise. A Breakthrough That Changes Everything.

The ALGATEC team has made the impossible possible: the metal-air battery – a technological sensation that is permanently transforming the energy market. High-performance. Cost-effective. Radically independent of critical raw materials. With an energy density of up to 1,000 kWh, our development sets entirely new standards in global battery technology.

WETEX 2026 in Dubai will make history.

From October 20–22, 2026, ALGATEC will present the world premiere of this revolutionary metal-air battery live at the largest energy trade fair in the Middle East. This is where German engineering meets global markets. This is where the energy transition becomes reality. But ALGATEC is more than pure innovation:

???? Intelligent storage solutions with true independence
Professional solar planning for large-scale commercial installations
EV infrastructure – ready for the mobility transition

We think holistically. We plan sustainably. We store intelligently. For SMEs. For industry. For the future. ALGATEC – Made in Germany. Global impact.

Visit us in Dubai. Experience live what energy independence looks like when innovation meets vision.

Metal-Air Battery. Game over for outdated energy systems. WETEX 2026 Dubai.

Alserkal Group is a diversified UAE-based business group delivering innovative solutions across environmental services, resource recovery, renewable energy, industrial services, and sustainable business solutions. With a strong focus on circular economy principles, Alserkal Group combines operational expertise, technology, and responsible resource management to support a cleaner and more sustainable future.

Products & Solutions At WETEX, Alserkal Group will showcase its integrated environmental and circular economy solutions, including:

• **FOG Management & Recovery** – Collection, treatment and resource recovery of fats, oils and grease (FOG) from commercial and industrial sources.

• **Used Cooking Oil (UCO) Recovery** – Collection and processing of used cooking oil for conversion into valuable renewable resources.

• **Biodiesel / Renewable Fuel** – Advanced processing solutions for converting recovered UCO into biodiesel and supporting the transition to lower-carbon fuels.

• **Water & Waste Recovery** – Resource recovery solutions designed to reduce waste, recover valuable materials and improve environmental performance.

• **Digital & Smart Environmental Solutions** – Technology-enabled monitoring, traceability and operational solutions for efficient environmental management.

Exhibition Display

Visitors to the Alserkal Group stand can explore our **FOG-to-Resource and UCO-to-Biodiesel journey**, including process demonstrations, environmental impact data, circular economy applications, and technology-driven solutions that transform waste streams into valuable resources.

Alserkal Group – Turning Waste into Resources, Creating Value for a Sustainable Future.

COMPANY PROFILE:

ALSERKAL GROUP

Alserkal Group is a UAE-based diversified business group transforming environmental challenges into opportunities through innovation, resource recovery and sustainable solutions. Built on decades of operational expertise, the Group

continues to evolve its businesses around a clear ambition: creating value from resources while building a more sustainable future.

Through its environmental and renewable energy businesses, Alserkal Group delivers integrated solutions across waste management, resource recovery, used cooking oil (UCO) collection, fats, oils and grease (FOG) management, water recovery and renewable fuels. Its operations are designed around the principles of the circular economy—recovering valuable resources, reducing waste and returning materials to productive use.

The Group's environmental platform, Envirol, provides specialized FOG collection and treatment solutions, helping commercial and industrial establishments manage waste responsibly while recovering valuable resources. Through Blue Biofuel, Alserkal Group is advancing the conversion of recovered UCO into biodiesel, connecting waste collection with renewable energy production and creating a closed-loop resource pathway.

Technology and data are increasingly embedded across the Group's operations, enabling greater traceability, operational efficiency, environmental monitoring and informed decision-making.

With a commitment to innovation, sustainability, operational excellence and responsible growth, Alserkal Group continues to develop solutions that address real environmental challenges across the UAE and beyond.

From waste to resources. From resources to energy. From innovation to lasting impact.

Alserkal Group — Advancing the Circular Economy.

ALTON

Alton Automation GmbH

Address: Düsseldorf 40549-Germany Monschauer Str. 12
Tel / Fax: +971565517762
Email: Mehmet.tecelli@contrologix.com
Website: https://altonautomation.de/
Contact: Mehmet Tecelli

PRODUCTS ON DISPLAY:

ALTON Automation GmbH will showcase its smart automation and instrumentation solutions for Water 4.0 and intelligent water distribution networks.

Products and solutions on display include Smart Control Valve technology for intelligent pressure, flow and level management; high-precision Pressure and Level Transmitters; Data Logging and Remote Monitoring solutions; Plug & Play Automation Panels; and Monitoring & SCADA integration for real-time supervision and control of water networks.

ALTON solutions are designed to support digitalization, pressure optimization, leakage and water-loss reduction, energy efficiency, and reliable network operation. The company's modular automation platforms support modern industrial and IoT communication technologies, enabling seamless integration with existing SCADA, telemetry, and cloud-based systems.

Visitors can also explore ALTON's engineering capabilities for smart water distribution, pumping stations, water treatment facilities, and industrial automation applications.

ALTON Automation GmbH is represented in the Middle East by Contrologix Automation Trading Co. LLC, providing regional commercial and technical support for ALTON products and solutions.

COMPANY PROFILE:

ALTON Automation GmbH is a Germany-based automation and instrumentation company focused on smart solutions for water networks, industrial automation, and digitalization. Founded in 2024 in Neuss, Germany, ALTON represents the European brand of an engineering team with more than 20 years of experience in automation and instrumentation.

The company develops and integrates solutions that support Water 4.0 and Industry 4.0 applications, helping utilities and industrial operators improve network visibility, pressure management, operational efficiency, leakage reduction, and energy performance. Its portfolio includes smart control valve technology, pressure transmitters, level transmitters, data loggers, plug-and-play control panels, monitoring systems, and SCADA integration.

ALTON's Smart Control Valve solution can retrofit existing mechanical pressure-control valves and provide intelligent pressure, flow, and level management. Its field-ready automation panels support industrial communication technologies

including 4G, Ethernet, LoRa, NB-IoT, MQTT, Modbus, OPC UA, and IO-Link, enabling connection to SCADA and cloud-based platforms.

In addition to product development, ALTON provides engineering and project consulting, customized system design, automation integration, training, commissioning support, and after-sales technical services. The company serves water utilities, municipalities, pumping stations, water treatment facilities, irrigation networks, and industrial applications requiring reliable monitoring and control.

For the Middle East market, ALTON Automation GmbH is represented by **Contrologix Automation Trading Co. LLC**, providing regional commercial coordination, technical support, and access to ALTON's automation and Water 4.0 solutions. Through this regional presence, customers can engage locally for product selection, project discussions, application support, and implementation of scalable solutions designed for efficient and sustainable infrastructure.

PRODUCTS ON DISPLAY:

We provide services including engineering, maintenance, scaffolding and access, insulation, painting and surface protection, passive fire protection, inspection, mechanical services, lifting and rigging, offshore services, equipment solutions and project support.

COMPANY PROFILE:

Altrad is a world leader in industrial services, providing specialist solutions to clients across the energy, oil & gas, power, process, construction and industrial sectors. In the Middle East, Altrad combines international expertise, local knowledge and a network of specialist businesses to support clients throughout the lifecycle of their assets.

Altrad's regional capabilities are delivered through businesses including Altrad Babcock, Altrad Adyard, Altrad Sparrows, Altrad RMD Kwikform, Altrad Cape, Altrad Hertel, with operations and projects across the United Arab Emirates, Qatar, Saudi Arabia, Bahrain, Oman and Jordan.

Together, these businesses provide services including engineering, maintenance, scaffolding and access, insulation, painting and surface protection, passive fire protection, inspection, mechanical services, lifting and rigging, offshore services, equipment solutions and project support.

ONE ALTRAD. ONE PARTNER.

The strength of Altrad goes beyond the capabilities of its businesses. By bringing complementary specialist services together, Altrad offers clients a more integrated approach to their projects and asset requirements.

Instead of coordinating multiple specialist contractors, clients can access a range of capabilities through one trusted partner. This can simplify procurement, improve project coordination, enhance communication and create opportunities for efficient planning and execution.

From individual specialist services to integrated, multi-disciplinary solutions, Altrad can combine the expertise, people, technology and resources to help clients improve safety, reliability, productivity and lifecycle performance.

With a commitment to People, Performance and Purpose, Altrad is building a stronger, connected regional offering—bringing together diverse capabilities to deliver greater value for clients.

One Altrad. Multiple capabilities. One integrated solution.

PRODUCTS ON DISPLAY:

The Alternate Cycles Process (AC) is an advanced and strong technology, simple to apply and to manage the biological unit in a continuous single reactor trough the alternation of oxic and anoxic phases. The process is automatically controlled in local and in remote condition on the basis of an algorithm who determines in real time the durations of the alternating oxic and anoxic phases depending the nitrogen concentration (Ammonia in nitrification phase e nitrates in denitrification phase). The control device is intuitive and characterized by a direct approach also for the operative staff of the plants. The aeration of the bioreactor is automatically controlled through a strategy based on-line profiles of dissolved oxygen (DO) and oxidation reduction potential (ORP). In this way, the lengths of the aerobic and anoxic phases are controlled to be just sufficient for complete nitrification and denitrification, respectively.

The AC process is suitable for use in small- and large-size plants, flexible to the variability of characteristics and types of the input loads and able to ensure an high effluent quality. Moreover, the plants who apply the Alternate Cycles Process can obtain:

Complete Carbon oxidation
Complete Ammonia nitrification
Total Nitrogen removal (Ammonia + Nitrates + Nitrites) up to maximum of 90%
Energy saving up to 35%
Sludge reduction up to 7%
Treated water ready fpr reuse

COMPANY PROFILE:

Ambiente Ingegneria is an engineering company and software provider specialized in wastewater treatment and treatment plants for both civil and industrial applications.

The company has over 25 years of experience operating throughout Italy. One of its major innovations is the development of alternating-cycle process control, an automation system for biological processes that can be adapted to any type of continuous-flow process.

Today, this technology is successfully implemented in more than 190 full-scale plants currently in operation, with treatment capacities ranging from 200 m^3/day to 100,000 m^3/day.

Astral Limited was established in 1996 and began its journey as a polymer pipes manufacturer in India. Over the years, Astral has grown into one of the leading global manufacturers of high-quality building material solutions. The company addresses the evolving needs of millions of homes and large infrastructure projects, supporting the development of India's real estate and construction sectors through superior quality and continuous innovation. By staying ahead of technology trends, Astral has consistently led the piping industry, replacing outdated plumbing practices with advanced solutions. It pioneered CPVC technology in India and was the first to receive NSF approval for CPVC pipes and fittings. Astral further set benchmarks by introducing India's first lead-free uPVC pipes for plumbing and potable water applications.

Astral's Pipes Division manufactures a wide range of plumbing, drainage, agriculture, fire sprinkler, industrial, infrastructure, and electrical conduit piping systems, supported by ten manufacturing facilities across Santej, Dholka, Hosur, Ghiloth, Sangli, Aurangabad, Cuttack, Hyderabad, Guwahati, and Sitarganj. The division also offers specialized fittings such as electrofusion fittings, clamp saddles, compression fittings, PPR fittings, and integrated composite solutions.

The Adhesives Division produces adhesives, sealants, putties, and construction aids including epoxy, silicone, acrylic, cyanoacrylate, UV-cure, and PVA products, manufactured at six facilities in India, the USA, and the UK.

Astral's portfolio further includes infrastructure products, water storage tanks with copper-shield technology, bathware, and a complete range of paints and coatings. Certified by agencies such as NSF, IAPMO, IBS, SGS, and UPI, Astral remains committed to innovation, uncompromised quality, and exceeding customer expectations.

Actuators, Controls and Gearbox

COMPANY PROFILE:

AUMA – Your Partner in Electric Valve Automation

Since 1964, AUMA has been a leading manufacturer of electric actuators and actuator controls for the automation of industrial valves. With decades of engineering expertise and industry experience, AUMA develops, manufactures and supports reliable solutions for a wide range of valve automation applications.

The AUMA brand stands for quality, innovation, reliability and application expertise. Our products and solutions serve critical applications across the energy, water, oil & gas and general industrial sectors.

As an independent partner to the international valve industry, AUMA provides customer-specific solutions for the electric automation of industrial valves, from individual components to complete valve automation systems.

AUMA Middle East FZE

AUMA Middle East FZE is the regional subsidiary of AUMA Actuators, Germany, providing comprehensive sales, technical and service support for AUMA products and valve automation solutions.

Our regional capabilities include:

•Sales & Service – Complete range of AUMA products, including multiturn and part-turn actuators, controls and gearboxes
• Project Support – Technical and commercial support throughout the project lifecycle
•Technical Support – Application engineering and technical assistance
•Valve Automation & Retrofitting – Solutions for new and existing valve installations
•Commissioning Support – On-site assistance for installation and commissioning
• Spare Parts – Local availability and stock of essential spare parts

•System Integration – Integration with control systems and host systems

•Marketing & Customer Support – Regional market development and customer assistance

AUMA Middle East FZE – Delivering reliable actuator solutions and expert valve automation support across the region.

Composite vessel in water filtration and softening (Water Softener); electric Water Heaters; high-pressure gas storage: propane, methane, and hydrogen. For domestic use, gas transport, and on-board vehicles (buses, trains, trucks, and cars), breathable gases, and technical gases.

We offer the following service and equipment for production of the above product:

Product design&development
Product prototyping/samplings
Product testing for certification
Manufacturing process: project layout and management
Pre-series and samplings supply
Machinery and equipment for complete production line

COMPANY PROFILE:

Aumatech is a machinery company that began with fuel systems and plastics processing, later expanding into composite pressure vessel processing and testing, battery assembly, and electric motor testing.

The company's primary applications are industrial packaging; household appliances; and for composite vessel in water filtration and softening (Water Softener); electric Water Heaters; high-pressure gas storage: propane, methane, and hydrogen. For domestic use, gas transport, and on-board vehicles (buses, trains, trucks, and cars), breathable gases, and technical gases.

The company is constantly researching cutting-edge technology, as evidenced by its registration in the national register of innovative PMI and the deposit of patents for pressure testing solutions.

The company's market approach is a ONE-STOP provider: a complete supply service; that is, design and construction of the machinery followed by automation, integration, installation, training, and maintenance services for the entire useful life of the asset. Aumatech markets its solutions directly through agents in Europe and the Indian subcontinent. It has installations in over 20 countries across all continents, with exports consistently accounting for most of its revenue.

- MaxiCharger AC Single Charger
- MaxiCharger AC Dual – Dual-connector pedestal AC charger
- Autel Core Technology – 60 kW and 120 kW power modules and EV Box

COMPANY PROFILE:

Autel Energy provides integrated electric vehicle charging solutions for residential, commercial, fleet, public and high-power charging applications.

Our portfolio brings together AC and DC charging hardware, charging-management software, power modules and key internal components within one connected ecosystem. Autel solutions are designed to deliver a reliable and user-friendly charging experience while helping businesses, charge point operators, fleets, developers and public-sector organizations deploy and manage charging infrastructure more effectively.

Autel's capabilities extend beyond individual chargers. Our solutions can support integration with the power grid, solar energy and battery energy storage systems, enabling a more complete approach to energy and charging management.

At WETEX 2026, Autel Energy will showcase its AC and DC charging portfolio, high-power charging architecture and in-house core technology, demonstrating how integrated hardware, software and energy systems can simplify charging for users and infrastructure operators.

COMPANY PROFILE:

Axis Solutions Limited is a BSE-listed engineering and technology company delivering integrated solutions in Water & Wastewater Monitoring, Analytical Systems, Instrumentation, Automation and Environmental Monitoring. With over 26 years of engineering expertise Axis provides advanced measurement, monitoring, control and digitalisation solutions for water utilities, power plants, process industries and sustainable infrastructure.

Our water portfolio includes online water quality monitoring systems, TOC analyzers, COD/BOD, TSS, pH, conductivity, dissolved oxygen, turbidity, chlorine, ammonia and nitrate measurement solutions along with Steam & Water Analysis Systems (SWAS). Our analytical portfolio covers gas analysis, CEMS and environmental monitoring solutions.

Axis also provides industrial automation, PLC/SCADA, IIoT, industrial communication, data acquisition and remote monitoring solutions enabling customers to improve operational efficiency, process reliability and data-driven decision making.

Through partnerships with leading global technology companies and our in-house engineering and system integration capabilities Axis delivers customised solutions from engineering and design through manufacturing, integration, installation, commissioning and after-sales support.

At WETEX we aim to showcase smart and sustainable technologies that help industries and utilities monitor water quality, optimise processes, improve environmental performance and accelerate digital transformation.

COMPANY PROFILE:

At work for the future that thrives

We are AWR Group — a diverse family of purpose-driven businesses committed to enriching lives for generations to come.

What began as a small bookshop in Dubai in 1954 has grown into one of the Middle East's most respected privately owned business groups — spanning Mobility, Logistics, Properties, Lifestyle, Lighting Solutions, Travel, Agritech, and Packaging.

From our earliest days, our ambition has been simple yet enduring: to make a meaningful, lasting impact — in business, in our communities, and in the world at large. That's why we measure our success not in quarters, but in generations.

Our success is rooted in the values that defined our beginning — family, fairness, and respect.

They inform every decision we make and every relationship we build. Whether in strategy, culture, or community, these values drive our promise to enrich lives with purpose and care.

It's this same promise that has helped AWR Group become one of the largest privately owned family enterprises in the Middle East — and one of its most forward-looking...

COMPANY PROFILE:

Abu Dhabi University (ADU), established in 2003, stands as one of the region's leading academic institutions, committed to excellence in teaching, research, and community engagement. Guided by its mission to provide world-class education, ADU offers a diverse range of undergraduate and postgraduate programs across disciplines including engineering, business, health sciences, law, arts, and sciences. With campuses strategically located in Abu Dhabi, Al Ain, Dubai, and Al Dhafra, the University ensures accessibility and inclusivity for students across the United Arab Emirates.

ADU's academic programs are accredited nationally and internationally, reflecting the institution's dedication to quality and innovation. It has consistently been recognized among the top universities in the region by global ranking bodies such as QS World University Rankings and Times Higher Education. The University emphasizes a student-centered learning environment that nurtures creativity, leadership, and lifelong learning skills, preparing graduates to thrive in a rapidly evolving global economy.

Research is at the heart of ADU's mission. The University fosters a vibrant research culture that addresses real-world challenges in sustainability, technology, healthcare, and social development. Faculty and students collaborate on impactful projects that contribute to the advancement of knowledge and the well-being of society.

Beyond academics, ADU is deeply engaged with the community, promoting social responsibility and industry partnerships that enrich student experiences. With a multicultural environment representing more than 90 nationalities, Abu Dhabi University embodies diversity and inclusivity, positioning itself as a hub for innovation, knowledge, and global citizenship.

TwinCAT Analytics – data analysis for energy monitoring
TwinCAT Connectivity – telecontrol protocols and cloud connectivity easily integrated

For more information visit: https://www.beckhoff.com/ar-ae/industries/electrical-power-and-energy-systems/

COMPANY PROFILE:

New Automation Technology
Beckhoff implements open automation systems using proven PC-based control technology. The main areas that the product range covers are industrial PCs, I/O and fieldbus components, drive technology, automation software, control cabinet-free automation, and hardware for machine vision. Product ranges that can be used as separate components or integrated into a complete and mutually compatible control system are available for all sectors. Our New Automation Technology stands for universal and industry-independent control and automation solutions that are used worldwide in a large variety of different applications, ranging from CNC-controlled machine tools to intelligent building control.
PC-based control technology
Since Beckhoff's foundation in 1980, the development of innovative products and solutions on the basis of PC-based control technology has been the foundation of the company's continued success. We recognized many standards in automation technology that are taken for granted today at an early stage and successfully introduced to the market as innovations. Beckhoff's philosophy of PC-based control as well as the invention of the Lightbus system and TwinCAT automation software are milestones in automation technology and have proven themselves as powerful alternatives to traditional control technology. EtherCAT, the real-time Ethernet solution, provides a powerful and future-oriented technology for a new generation of control concepts.

The Wallonia Export & Investment Agency (AWEX) is the regional trade representation of Wallonia (Belgium).
AWEX identifies your business partners through our database of more than 3,000 exporting companies. You can easily find the Walloon products, services, and partners you are looking for, regardless of the sectors they operate in. A simple and efficient way to explore Wallonia's economic potential and connect with the right contacts.
AWEX is also the one-stop shop for foreign companies looking to set up or expand their activities in Wallonia.
If you are considering an expansion or a new base in Europe, our services help you choose the ideal location in our region through a single point of contact. The objective is clear: to make your expansion process simple, fast, and efficient.
We provide strategic advice, market information, and operational support to ensure the success of investments and the development of exports.

COMPANY PROFILE:

The Wallonia Export & Investment Agency (AWEX) contributes, through client-oriented services, to raising Wallonia's international profile by covering the entire value chain of the Walloon economy.
It boosts exports by helping Walloon companies expand into new markets, providing them with expert support and privileged access to global business opportunities.
Thanks to its role as an one-stop shop, the Agency positions itself as a preferred partner for foreign companies wishing to set up operations in Europe, offering tailored support from project design to implementation.

PRODUCTS ON DISPLAY:

LV Switchgears Panel, UPS, BMS & EMS Systems, Valves, Pumps, Electrical Switchgear Components, Test and Measurement equipment's, Augmented Reality, Cyber security Systems, Industrial Control Systems, AI & BI Solutions.

COMPANY PROFILE:

With over four decades of industry experience, Binghalib Group has established itself as one of the UAE's leading industrial and engineering groups, delivering comprehensive solutions across manufacturing, engineering, trading, and services.

Headquartered in the UAE, the Group has grown into a diversified network of 16 independent companies, with operations and business interests extending across the UAE, Qatar, the United States, and Canada. Over the years, the Binghalib name has become synonymous with excellence in the region's electrical engineering and industrial technology sectors.

The Group offers specialized expertise across a wide range of disciplines, including LV switchgear, industrial automation, instrumentation, electrical installation and commissioning, energy management, system integration, control valve manufacturing for the oil & gas sector, industrial communication, cybersecurity, software solutions, and energy-efficient building technologies.

Innovation has always been at the core of Binghalib's growth. The Group pioneered the integration of IoT technologies in industrial automation nearly 15 years ago, well ahead of their widespread regional adoption, and continues to deliver advanced solutions for government utilities, industrial facilities, command centers, and critical infrastructure.

Binghalib has also achieved significant milestones beyond conventional engineering. The Group became the first 100% Emirati company to develop and launch its own satellite, "Ghalib-1," named after its CEO, Mr. Mohammed Binghalib, for wildlife tracking applications. This achievement reflects the Group's ambition to continuously explore new frontiers in technology and innovation. Binghalib has also been recognized as an Industry 4.0 Digital Leader by the UAE Ministry of Industry and Advanced Technology, reinforcing its position at the forefront of industrial digital transformation.

As part of its future-focused strategy, the Group continues to explore emerging technologies such as Artificial Intelligence, industrial robotics, advanced automation, and smart industrial solutions, while pursuing strategic expansion and acquisition opportunities to strengthen its international presence.

Binghalib's commitment to excellence is supported by robust management systems aligned with internationally recognized standards, including ISO 9001, ISO 14001, and ISO 45001. Across all its operations, the Group remains committed to quality, environmental responsibility, information security, employee health and safety, and sustainable business practices in accordance with its Corporate HSE policies.

Driven by strong leadership, technical expertise, and a culture of continuous innovation, Binghalib Group remains committed to delivering reliable, high-impact solutions that create long-term value for its customers and contribute to the advancement of industrial technology in the UAE and beyond.

EcoFilter Biotrickling Odour Control Systems, EcoCarb Carbon Odour Control Systems, Qimi Chemical Scrubbers, BioAir Complete Odour Study Services

COMPANY PROFILE:

BioAir Solutions, LLC is the world's premier designer and supplier of biological odour control systems. BioAir provides a wide range of high-rate biological odour treatment solutions, with a team of experienced engineers who will analyze the odours at your facility; develop a custom solution; provide the most efficient, cost-effective odour control system possible; and provide best-in-class local after-market support.

After a major investment in research, design, and engineering, BioAir has patented its EcoFilter® process. All EcoFilter systems utilize BioAir's EcoBase® synthetic media, which continues to set new industry standards in performance and loading rates in the Middle East and around the world.

BioAir has the experience and expertise to perform on-site odour studies, field surveys and system design to solve collection and municipal odour problems. BioAir recognizes the need for its advanced odour control technologies in the Middle East, and since expanding to UAE the company has designed, fabricated, supplied, and even installed equipment in Ras Al Khaimah, Sharjah, Abu Dhabi, Dubai and Ajman in the UAE, as well KSA, Oman, and Qatar.

Please visit (www.bioairsolutions.com) to learn more about BioAir and its biological odour control processes.

PRODUCTS ON DISPLAY:

BMC Gulf & Praher Plastics Austria – Thermoplastic Valves & Flow Control Solutions

BMC Gulf, together with Praher Plastics Austria, will present a selection of high-quality thermoplastic valves and flow-control solutions for water treatment, desalination, chemical processing, and industrial applications.

Products on display include:

SN	Item Type	Item Description	Material	Size	Connection	Operation	Item Number
1	M1	2 Way - Ball Valve	PP	DN 50	Threaded	Manual	210260
2	S6	2 Way - Ball Valve	PVC	DN 80	Socket	Manual	128429
3	M1	3 Way - Ball Valve	PP	DN 25	Spigot	Manual	211047
4	S4	Cone Check Valve	PVC	DN 80	Socket	Manual	121043
5	T7	Diaphragm Valve	PVDF	DN 50	Flange	Manual	275615
6	M1	2 Way - Ball Valve	PVC	DN 80	Socket	Pneumatic	124275
7	S4	Laboratory Ball Valve	PVC			Manual	122353A
8	K4	Non-Return Valve	PP	DN 150		Manual	123088A
9	K6	Check Valve	PVC	DN 100		Manual	129104
10	K4	Butterfly Valve (Gear Operated)	PP	DN 250		Manual	242507

In addition to the above displayed products, Praher offers a comprehensive portfolio of manual and automated thermoplastic valves, control valves, fittings, pipes and flow-control solutions in PVC-U, PVC-C, PP-H and PVDF, complemented by BMC Gulf's local technical and commercial support in the UAE and region.
For more information:
BMC Gulf: www.bmc-gulf.com
Praher Plastics Austria: www.praher-plastics.com

COMPANY PROFILE:

BMC Gulf & Praher Plastics Austria
BMC Gulf, established in 1998, is a UAE-based specialist and solution provider for **thermoplastics and geosynthetics**, serving the water, wastewater, desalination, infrastructure, chemical, energy, data centre, and industrial sectors. Its portfolio includes thermoplastic pipes, fittings and valves in **HDPE, PP, PVDF and ECTFE**, complemented by plastic fabrication, welding and installation services, welding equipment, technical training, supervision and specialized geosynthetic solutions.
Praher Plastics Austria GmbH, headquartered in **Schwartzberg, Austria**, is a family-owned manufacturer with **55 years of experience** in high-quality thermoplastic valves, fittings, and flow-control technology. With **300+ employees, six locations, 200+ customers and partners worldwide, and more than 5,000 products**, Praher combines extensive manufacturing expertise with a strong international presence.
Praher's comprehensive portfolio includes manual, pneumatic and electrically actuated ball valves, butterfly valves, diaphragm valves, check and control valves, flow measurement solutions, pipes, and fittings, in materials including PVC-U, PVC-C, PP-H and PVDF. Its solutions serve water and wastewater treatment, desalination and reverse osmosis, chemical processing, water supply and drainage, environmental engineering, mining, tank and vessel construction, mechanical engineering, and laboratory applications.
Together, BMC Gulf and Praher Plastics Austria combine Austrian manufacturing expertise and proven thermoplastic technology with local technical, commercial and application support in the UAE and wider region.

Extended Repair Joint – Type ERJ MPCP

Product main features

- Bridges defective cables for a fast, space-saving and cost-savin solution
- A proactive and more affordable way of avoiding faults by replacing 'risky' joints
- Up to 70% cost and time savings compared to the standard repair approach
- Can be used for all polymer cable constructions
- Preformed, one-piece silicone body electrically pre-tested
- Maximum mechanical protection and moisture protection
- Radial moisture metallic barrier made of copper casing
- External protection made of glass fiber reinforced protection filled with PU casting resin
- Rated voltage level from 60 kV to 150 kV

COMPANY PROFILE:

Founded in 1896 in Brugg, Switzerland, Brugg Cables has grown into a globally recognized provider of high and extra-high voltage cable systems.

In 2020, the company became part of the Terna Group and was integrated into Terna Energy Solutions.

For more than a century, we have contributed to the development of critical energy infrastructure, connecting power generation to cities, industries and renewable energy sources.

COMPANY PROFILE:

Company Overview：
With years of deep cultivation in the environmental protection field, and with strong technical strength and a global layout, we have built a diversified business portfolio and become a trusted comprehensive environmental service provider.
Core Capabilities：
We have built a full-industry-chain system from core technology R&D, engineering design to operation management. Driven by innovative technology, we create efficient, energy-saving and environmentally friendly integrated solutions.
Key Technology Matrix：
We have built core technical barriers covering the entire process of biological treatment, membrane separation, evaporation crystallization, etc. Driven by independent innovation, we promote industrial upgrading and provide customers with efficient, low-carbon and sustainable integrated solutions, laying an industry-leading technical foundation.
Core Business & Project Track Record：

Covering seawater desalination, industrial water and industrial wastewater treatment, oilfield produced water, municipal water services, lithium extraction from salt lakes, etc., we demonstrate outstanding technology implementation and implementation results based on multiple industry benchmark projects.

Retrotec Blower Door Systems – Building airtightness and envelope performance testing
Retrotec AirTracer – Smoke and airflow visualisation
Wöhler Video Inspection Cameras – Duct, pipe, cavity and building inspection
Guide Sensmart Thermal Imaging Cameras – Thermal inspection for building, electrical and mechanical applications
PressureVent Pressure Relief Vents (PRV) – Pressure relief for gas suppression and pressurised enclosures

COMPANY PROFILE:

Established in 2012, Buildingdoctor has become synonymous with trusted expertise in building physics, non-destructive testing and building performance across the Middle East, Africa and Indian Subcontinent.
We support consultants, contractors, developers, facility management teams and government entities in verifying how buildings perform in real operating conditions. Our services help identify hidden defects, reduce energy loss, improve building envelope performance and support project quality, commissioning and compliance requirements.
Our capabilities include Airtightness Testing, Thermography, Façade Water Testing, Enclosure Integrity Testing, Duct Leakage Testing, Smoke Testing and Building Envelope Assessments. Through independent testing and inspection, we help ensure that buildings are more efficient, resilient and perform as designed.
Buildingdoctor also supplies specialist testing and inspection technologies from leading international brands including Retrotec, PressureVent, Guide Sensmart, Wöhler and Look Solutions. Our equipment portfolio supports applications such as building airtightness testing, thermal inspection, video inspection, airflow visualisation, enclosure integrity testing and pressure management.
By combining trusted expertise, practical field experience and proven technology, Buildingdoctor helps project teams detect performance issues early, verify results with confidence and make informed decisions throughout the building lifecycle.
Our focus is simple: test, identify and verify what cannot always be seen — and help create safer, more efficient and better-performing buildings.

Tel / Fax: +39 3355276088
Email: omar.cescut@bttimpianti.it
Website: https://www.bttimpianti.com/?lang=en
Contact: Omar Antonio Cescut

COMPANY PROFILE:

BTT Italia is a world leader in the design and production of custom plants for the refining and recovery of gold, silver, and metals in general. Its forty-year history is characterized by its ability to create custom plants, going beyond standard production. Customization, combined with the use of the best construction techniques, is a key aspect that sets its plants apart from the majority of others on the market.

This characteristic has underpinned its growth, which reached a turning point in the 1980s when the company invented rotating plants, helping to forever change the market sector in which it still operates today. The innovative power of rotating plants has allowed it to expand its target market, acquiring important private clients from all over the world.

Investments in internal expertise and in training the team of operators have allowed BTT Italia to position itself as a dynamic and specialized partner, working not just to propose a solution but to create a solution based on the client's specific needs.

These requirements include plant performance, available space, volumes, and expected production flows. This approach has consolidated a market segment consisting of companies that are unwilling or unable to use standard systems and governments that intend to install their own precious metal recovery and refining facilities.

PRODUCTS ON DISPLAY:

CAMEC will present its turnkey recycling plants engineered for a wide range of material types — from industrial and municipal waste to WEEE and photovoltaic panels — designed to recover and valorize secondary raw materials. The exhibit will also cover CAMEC's core machinery range: shredders, granulators, and grinding equipment for size reduction, together with conveying and separation systems for waste processing lines. Material handling solutions, including tippers and elevators for industrial applications, complete the offering. All of this will be presented through multimedia displays and printed brochures at the stand.

COMPANY PROFILE:

CAMEC — Company Profile

Since 1993, CAMEC has designed and built technological solutions for recycling and material handling, Made in Italy. With thirty years of experience, CAMEC operates through three integrated divisions — Recycling, Handling, and Recycling Plants — covering every industrial requirement, from individual machines to complete turnkey systems.

CAMEC's Design & Build model ensures mechanical and electrical engineering, software development, steel fabrication, and assembly all take place within a single manufacturing facility. This direct control of the entire production cycle eliminates external variables: what is engineered is precisely what is built, with full continuity from project inception to final delivery and after-sales support.

The Recycling Division offers a complete range of shredders, granulators, screens, separators, and mobile shredding units engineered for materials including plastics, tyres, wood, WEEE, aluminium, and municipal solid waste.

The Recycling Plants Division delivers complete turnkey plants, including a patented hospital/medical waste treatment plant and a patented photovoltaic panel recycling line with glass-removal technology. The Handling Division designs bespoke industrial tippers, lifters, and positioners for the chemical, pharmaceutical, food and beverage, and PET packaging sectors.

Şirket Profili

ÇAPA İç ve Dış Ticaret Sanayi Ltd. Şti. , Türkiye'nin su arıtma sektöründe önde gelen üretici ve ihracatçılarından biridir. Şirket, 1994 yılından bu yana, gelişmiş mühendisliği modern üretim teknolojileriyle birleştirerek **WATALINA** ve **ORTIMAX markaları altında yenilikçi su arıtma ürünleri geliştirip üretmektedir.**

Şirket, filtre kartuşu üretim hatları, plastik enjeksiyon kalıplama makineleri ve su arıtma cihazı kabinleri ve bileşenleri için şirket içi kalıp tasarımı ve üretimi de dahil olmak üzere, tamamen otomatikleştirilmiş üretim sistemleriyle donatılmış entegre üretim tesisleri işletmektedir . Bu üretim yeteneği, küresel ortaklar için yüksek üretim kapasitesi, tutarlı kalite ve esnek OEM/ODM çözümleri sağlamaktadır.

WATALINA, üst düzey konut ve ticari su arıtma sistemleri, doğrudan akışlı ters ozmoz üniteleri, su sebilleri, üst düzey musluklar, filtreleme bileşenleri ve akıllı su arıtma teknolojileri konusunda uzmanlaşmıştır.

ORTIMAX, ters ozmoz sistemleri, çoklu ortam filtrasyonu, aktif karbon filtrasyonu, su yumuşatma sistemleri, UV sterilizasyonu, basınçlı kaplar ve endüstriyel ve ticari uygulamalar için özel mühendislik projeleri de dahil olmak üzere profesyonel ve endüstriyel su arıtma çözümlerine odaklanmaktadır.

ÇAPA bugün ürünlerini uluslararası pazarlara ihraç ederken, distribütörler, toptancılar, proje yüklenicileri ve küresel markalar için güvenilir OEM ve özel etiketli üretim hizmetleri sunmaktadır. İnovasyona, kaliteye ve sürdürülebilir üretime olan bağlılığımız, bizi küresel su arıtma sektöründe güvenilir bir iş ortağı haline getirmektedir.

COMPANY PROFILE:

Since 1960, CED has been shaping the future of electrical transformers, combining six decades of expertise with a constant drive for innovation.

We deliver high-performance solutions, from fully bespoke transformers to large-scale production, tailored to the needs of companies worldwide.

Our commitment to research drives greater efficiency, advanced materials and a lower environmental impact.

As pioneers in transformer technology, we continue to anticipate market needs and deliver smarter, more sustainable solutions.

Unique Value Point

CED offers unique value points which give it a distinct edge in the sector.

Salient among our distinguishing features are custom-made transformers, fast delivery, high quality and good prices.

Underground Cabling Projects
Over Head Transmission Lines
Substations up to 400 kV
Street Lighting & Industrial Electrification
Horizontal Direction Drilling
Fibre Optic Cabling
Trench Shoring
Tools & Trading

COMPANY PROFILE:

Established in 1991 to undertake various power Transmission and Distribution projects.

As an IMS-certified company, we provide turnkey solutions in the fields of EHV & MV/LV cabling, EHV substations, Distribution substations & Kiosks, Overhead transmission lines, Fiber optic cabling, Horizontal Directional Drilling, trench shoring, street lighting and industrial electrification.

We are one of the largest EPC contractors in the UAE specialized in Underground cabling, Overhead transmission lines Industrial electrification and Substations up to 400KV.

Approved by various government Authorities like DEWA, EtihadWE, TAQA, SEWA, RTA, ITC, ADNOC, DAEP Other Industrial customers and consultants.

We have done similar projects outside UAE like Oman, Qatar, Libya etc.

We have registered our company in Saudi Arabia – Centaur Contracting Company -in order to expand our reach and capabilities in the region.

Contact: Alain Paulus

PRODUCTS ON DISPLAY:

An innovative heat pump (HP) technology extracts heat from a cold source and transfers it to a warmer space. The total heat delivered equals the thermal energy extracted plus the electrical energy powering the compressor.

As building insulation standards advance, residential energy demands are dropping significantly. Today, an insulated passive house of 150sqm requires an average of just 250 W for heating via thermal insulation and Controlled Mechanical Ventilation (VMC). This shift makes modern heat pumps an ideal replacement for conventional fossil-fuel or electric resistance systems for both space heating and cooling.

COMPANY PROFILE:

This novel solar-thermal heat pump technology operates by supplying both cooling and stored thermal energy. It was developed in partnership with the ENERGETIC AND THERMODYNAMIC UNIT (FORS) at the Haute École de Namur-Liège-Luxembourg (HÉNALLUX), supported by the Walloon Region.

PRODUCTS ON DISPLAY:

Product Characteristics of Ring Blower

The motor of the Jinziqi ring blower features an IP55 protection rating and Class F insulation (withstand temperature up to 155°C), which extends its service life. The blower achieves 100% oil-free and water-free compression, delivering clean and sanitary air output. It boasts excellent sealing performance, low noise, and maintenance-free operation, with minimal mechanical wear and long lifespan. Our products are designed with dual frequency 50HZ/60HZ wide frequency and voltage, covering and meeting global voltage standards for enhanced stability. Both the impeller and body are made from high-quality aluminum alloy through integral die-casting, improving product durability, sturdiness, and stability, ensuring high-precision manufacturing processes and aesthetically pleasing appearances. Our factory utilizes precision CNC machines imported from Germany and Japan, along with rigorous performance testing and trials, to ensure superior product performance.

COMPANY PROFILE:

Cha Taizhou Jinhu Mechanical & Electrical Co.LTD is a modern high-tech enterprise specializing in the research and development, manufacturing, and sales of vacuum pressure equipment such as high-pressure ring blowers and vortex air pumps. We are committed to providing high-quality fluid equipment and vacuum solutions for global customers. We have an efficient, professional, and powerful technical R&D team with rich design and manufacturing experience, which can meet the needs of various industries, including automotive, petrochemical, textile, chemical, construction, medicine, food, etc.

Meanwhile, our company has introduced powerful production technologies and advanced processing equipment from Germany and Japan, including various precision testing instruments and testing equipment. We provide a full range of high-pressure fan equipment for customers and also offer first-class high-quality product components. Our engineering team can design and tailor-make special specifications (explosion-proof, anti-corrosion, high-temperature resistance) of high-quality products according to customer requirements, providing customers with a one-stop customized service.

Our mission is to become the world's leading manufacturer of high-pressure blowers and provide reliable products and services to our customers. We have established sales and service networks worldwide to ensure that our customers always

receive the best support and after-sales service. We believe that only by continuously progressing and adapting to market demand can we stand firm in the present and win the future, achieving mutual benefit with our customers.

Membrane Element & Heat Exchanger

COMPANY PROFILE:

Concord Enviro is at the forefront of wastewater treatment technologies and solutions since 1992, having 2000+ installations spanning five continents. Established in the UAE in 2007, as a strategic manufacturing hub and R&D center. Concord Enviro is a market leader in Zero Liquid Discharge Solutions and Green ZLD solutions. In line with its scientific approach and thirst for innovation, Concord Enviro has introduced a 100% non-metallic shell-and-tube heat exchanger. Having high-performance polymer tubes, these heat exchangers are 100% corrosion free, can operate across full pH range, and have applications across all industries.

Concord Enviro UAE, with technology associations with global experts, has also developed first-of-its-kind chlorine tolerant membrane elements. With patented polymer chemistry developed in the USA, these elements have converted chlorine from threat to a useful tool. These ready-to-install membrane elements, manufactured in the UAE, have special application for Treated Sewage Effluent fed District Colling Plants. A groundbreaking fit for TSE-RO plants, they completely remove need for dichlorination through SMBS dosing. The elements pass free chlorine as a regulated biocide thereby reducing fouling, achieving higher flux, and longer membrane life. With lesser CIPs and higher flux – it is a direct saving on both CAPEX & OPEX.

Company Profile:

Corporate Trade House LLC

Corporate Trade House LLC (CTH) is a proudly Emirati-owned company, licensed and operating under the UAE Mainland, with a strong commitment to delivering innovative, high-quality products and sustainable business solutions across the UAE.

CTH is an Authorized Distributor of Sunpower Renewables / SR Portables products in the UAE, offering advanced portable solar power and energy storage solutions.

About Sunpower Renewables / SR Portables

Sunpower Renewables is a global leader in innovative energy storage solutions, specializing in high-performance portable lithium solar generators and renewable energy technologies.

With a comprehensive range of portable power solutions, Sunpower Renewables empowers individuals and businesses to achieve greater energy independence, anytime and anywhere.

Designed to be environmentally friendly, technologically advanced, and highly efficient, these products offer a cleaner, quieter, and more sustainable alternative to conventional fossil fuel-powered generators.

Through its partnership with Sunpower Renewables / SR Portables, Corporate Trade House LLC is committed to promoting sustainable energy solutions across the UAE, providing customers with reliable, cost-effective, and powerful energy storage products.

Our Vision

To support the UAE's sustainability ambitions by making innovative, reliable, and environmentally responsible energy solutions more accessible to businesses and consumers.

Meeting and exceeding market demands since commencing our UAE operations, DANWAY has succeeded in maintaining secure and sustainable growth over the last four decades transcending into a leading Engineering and Contracting enterprise in the Infrastructure, Industrial, Energy, Oil and Gas sector within the UAE and MENA region.

DANWAY Electrical and Mechanical Engineering LLC, DANWAY LLC and DANWAY Emirates LLC which comprises the DANWAY Group of Companies has a long and successful track record of delivering expert engineering products and technical services across the project value chain. Today, the company operates as a fully owned subsidiary of AL NOWAIS Investments, a conglomerate established in the UAE that tenders diversified interests in power, water, oil and gas as well as industrial projects within the region.

From design development to commissioning and maintenance, DANWAY offers an integrated suite of services during the life cycle of the project across all sectors. With representation of diversified electrical and mechanical engineering products of international repute, DANWAY can ensure delivery of quality and reliable services as a single source solution with its unparalleled expertise in the execution of EPC projects.

DANWAY has headquarters in Dubai and offices in Abu Dhabi, Sharjah, Oman, Qatar, KSA, Bahrain, Togo, Uganda & Djibouti. As part of its vision to be an internationally respected Engineering and Contracting Company offering comprehensive solutions in the EPC field, DANWAY is actively extending its operations to other countries in the MENA region and established offices in TOGO, Uganda & Djibouti.

As a multi-divisional corporation, we represent more than 100 world-renowned companies in the areas of electro-mechanical and instrumentation equipment supply and service.

Not only do DANWAY's highly qualified and knowledgeable teams ensure the highest standards of quality, but we also provide comprehensive customer service and technical support after delivery. DANWAY personnel are continuously being provided with training, allowing them to make the most of the latest technological advances in order to overcome the toughest of challenges.

DANWAY has always been recognized for its clear vision, professionalism, dedicated team effort and strong partnerships we have fostered over the years. Furthermore, we are respected for our high principles, our reliability, our performance and our second-to-none after sales service. Through our fully integrated service support centers and value-added philosophy, we have built a strong and solid customer base, resulting in a long and prestigious list of successfully completed projects.

DANWAY operates in accordance with standards ISO 9001:2015, ISO 14001:2015 & ISO 45001:2018 and the company is committed to productive efficiency coupled with quality assurance, workplace health, safety and protection of the environment.

COMPANY PROFILE:

Since 1973, Deng Yuan Industrial co., Ltd has been manufacturing RO pumps and various kinds of water purification elements such as residential and commercial RO systems, pump, Ro membrane, filter cartridges and related parts etc.

We manufacture, design and export pumps in advanced technologies that are related to reverse Osmosis water purifiers. Our mission is to promote the value of healthy and pure water through high quality, reliable water and new technologies.

Our products have gained the admiration and approval of most our customers, and this is due to our commitment of competitive, advanced and reliable product quality that meets customer needs and requirement.

PRODUCTS ON DISPLAY:

PTFE/PFA-lined steel pipes and fittings, high-performance DIFLEX™ gaskets, PTFE-lined flexible hoses, PTFE expansion joints, fluoropolymer-lined valves and sampling systems.

COMPANY PROFILE:

Founded in 1969, Diflon Technology is an Italian manufacturer specialising in fluoropolymer-lined components and high-performance sealing solutions for demanding industrial applications.

Our product portfolio includes PTFE/PFA-lined steel pipes and fittings, lined tanks and columns, flexible hoses, PTFE expansion joints, lined valves, sampling systems, and DIFLEX™ high-performance gaskets. We also provide customised fluoropolymer linings for flowmeters and other process components.

Our solutions support the handling of corrosive and chemically aggressive fluids, including acids, alkalis and process mixtures. Product and material selection is tailored to the fluid composition, concentration, temperature, pressure and installation requirements.

We serve customers in water treatment and desalination, chemical and petrochemical processing, oil and gas, energy, hydrogen, pharmaceutical manufacturing and other process industries. Applications include chemical dosing, reagent transfer, water treatment circuits and associated industrial utilities.

From engineering and design to manufacturing, testing and documentation, Diflon supports plant owners, engineering companies, EPC contractors and equipment manufacturers with standard and customised solutions. Our capabilities include machining, welding, lining, assembly and inspection, with product traceability and technical support throughout project development.

Combining decades of manufacturing experience with application-specific expertise, we help customers address corrosion, sealing and reliability challenges in their process systems.

COMPANY PROFILE:

DECO Group is a UAE-headquartered EPC and critical infrastructure solutions provider with over 25 years of experience serving the power, water, wastewater, waste-to-energy, oil & gas, industrial, and infrastructure sectors across the Middle East. DECO specializes in the delivery of complex and mission-critical infrastructure projects, providing integrated capabilities covering engineering, procurement, construction, commissioning, project management, system integration, and lifecycle support. The Group has developed strong expertise in power generation facilities, desalination and water treatment plants, pumping and transmission systems, waste-to-energy facilities, industrial plants, aluminum smelters, and other high-availability infrastructure. A key differentiator is DECO's ability to combine multidisciplinary EPC execution with strong in-house Electrical, Instrumentation, Control, Automation and Mechanical capabilities, enabling effective management of technically demanding interfaces and brownfield and greenfield projects. DECO works with leading utilities, developers, EPC contractors, government entities, technology providers, and international OEMs, supported by established operations across the UAE, Qatar, Saudi Arabia and the wider GCC.

With experienced engineering and project teams, regional execution infrastructure, and an international technology network, DECO delivers safe, reliable and sustainable solutions for critical infrastructure, from project development and EPC execution through commissioning, O&M support, modernization and asset lifecycle services.

PRODUCTS ON DISPLAY:

Dubai Pipes Factory manufactures and supplies Glass Reinforced Epoxy (GRE) piping systems suitable for potable water applications. Our GRE pipes and fittings are WRAS certified for temperatures up to 70°C and NSF/ANSI 61 approved for cold and hot potable water applications up to 60°C.

Our GRE product range includes pipes and fittings in sizes up to DN 3000 mm and pressure ratings up to PN 32 bar.

In addition, Dubai Pipes Factory manufactures Glass Reinforced Plastic (GRP) piping systems for stormwater, irrigation and sewerage applications. The GRP product range covers pipe diameters up to 3000 mm and pressure classes up to 32 bar.

COMPANY PROFILE:

Dubai Pipes Factory is a UAE-based manufacturer of fiberglass piping systems, located in Dubai Investments Park 1, Dubai. Since 2003, the company has been providing engineered piping solutions for the transportation of water and other fluids.

We specialize in the manufacture and supply of high-quality Glass Reinforced Plastic (GRP) and Glass Reinforced Epoxy (GRE) pipes, fittings and fabricated spools, with sizes ranging from 25 mm to 3000 mm in diameter and pressure classes up to 32 bar.

Our piping systems serve a wide range of municipal, infrastructure and industrial applications, including potable water, irrigation, stormwater, sewerage, treated effluent, seawater intake and outfall, district cooling and firefighting networks. Both restrained systems for above-ground installation and unrestrained systems for underground installation are available. Profile

Pipes are manufactured using continuous filament winding and reciprocal helical winding technologies. We also fabricate standard and customized fittings and spools using molded and mitered construction methods. Profile

Dubai Pipes Factory operates in accordance with ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018 management systems. Our products carry relevant Kitemark certifications to ASTM and BS EN standards, while our GRP and GRE potable-water products hold applicable WRAS and NSF/ANSI 61 approvals.

PRODUCTS ON DISPLAY:

HV – HV/EHV (High & Extra-High Voltage) Cables are built for long-distance, high-capacity power transmission in utility and critical infrastructure networks. With advanced insulation technology and robust construction, they ensure maximum reliability, safety, and efficiency under extreme electrical and environmental conditions.

MV - MV (Medium Voltage) Cables are engineered for reliable power transmission in utility, industrial, and infrastructure networks. Designed to handle higher voltage levels with excellent insulation and durability, they ensure safe, efficient, and long-lasting performance in demanding environments.

LV - LV (Low Voltage) Cables are designed for safe and efficient power distribution in residential, commercial, and industrial applications. Engineered for durability and reliability, they deliver consistent performance under demanding conditions while meeting international safety standards.

RUBBER - Rubber cables are designed for demanding industrial, mobile, and submersible applications, offering excellent mechanical strength, oil and chemical resistance, and high flexibility even at low temperatures. Ideal for heavy-duty equipment, machinery, portable devices, and pumps, these cables ensure safe and reliable power transmission in harsh and wet environments.

SOLAR - SolarBICC photovoltaic cables are specially designed for reliable performance in solar power systems, offering excellent resistance to UV, ozone, and harsh outdoor environments. Manufactured with cross-linked insulation and sheathing, they provide superior thermal stability, mechanical strength, and long-term durability.

NUCLEAR - NuBICC, a specialized range of high-safety nuclear-grade cables engineered for nuclear power plants. These systems are designed to withstand extreme conditions including severe radiation, high temperatures, and mechanical stress. They provide exceptional fire performance, low smoke emission, and robust insulation to maintain circuit integrity during emergency conditions, supporting the highest safety standards in nuclear facilities.

COMPANY PROFILE:

Ducab Group equally owned by ADQ and ICD, is one of the UAE's leading end-to-end energy solutions providers, delivering high-quality cables, and metals solutions to industries in over 75 countries. With six advanced manufacturing facilities, the Group exports 60% of its products worldwide, supporting key sectors such as energy, construction, oil & gas, packaging, healthcare, transportation, defense, marine, and mining.

Ducab operates through its specialized subsidiaries: Ducab Cable Business (DCB), a leading producer of copper and aluminium power cables; Ducab Metal Business (DMB), a key supplier of industrial-grade copper and aluminium products.

COMPANY PROFILE:

For around four decades Dutco Tennant LLC has been a leader in supplying various kinds of industrial and engineering solutions for diverse industry verticals from construction to networking to electrical and we established a good company profile. Dutco Tennant LLC supplies products to a high-status list of corporate and government projects, and has contributed to the creation of world class private and public infrastructure such as water and wastewater, power & energy projects around the Middle East and GCC region.

We are a constantly growing company and we have a good company profile and have a great market presence around the world who meet the ever-evolving, newer demands of our customers. We actively collaborate with different contractors and suppliers for the supply of full-spectrum business solutions so that we may fulfill the ever increasing demand for top-quality engineering products.

We have worked with thousands of clients who have trusted in us because of our pledge to excellence through environmental friendly and socially-responsible solutions. We uphold high standards of performance because we want to establish a long-term and competitive position in the market in which we operate. Dutco Tennant LLC works closely with its partners, manufacturers, and contractors to supply products that envisage more well-organized and sustainable uses of industrial resources.

At Dutco Tennant LLC, we always put our customers before us. We believe that every customer has its unique needs, and depending upon the project they may require customized solutions. Thus we want to look at ourselves more as a solution provider and not just a products supplier. In every project, we offer our complete devotion and know-how to give the right solution that fully meets customer's requirement. We have established good relationship with the leading manufacturers in the world to suggest application specific right solutions to our customers.

Customers rely on us because we have a well trained team of experienced professionals who have deep expertise in their area of work, and they work as application specialists to help customers in choosing the right product for their projects.

4. LoRaWAN Connectivity and Remote Utility Monitoring
5. Smart Metering as a Service — CAPEX-to-OPEX Model
6. Automated Meter Readings, Consumption Analytics and Billing Integration

COMPANY PROFILE:

Dicode Smart Connect Electronics LLC is a Dubai-based smart metering solutions provider helping gas distributors, property developers, building owners and utility operators digitalize their metering infrastructure.

Our core offering combines smart gas meters and retrofit solutions with LoRaWAN connectivity, remote monitoring, automated meter readings, consumption analytics and billing integration. We also provide BTU metering solutions for district cooling and building energy management.

Our retrofit approach enables existing analogue gas meters to become connected assets, reducing the need for complete meter replacement and simplifying the transition to remote monitoring.

Through our Smart Metering as a Service offering under a PaaS model, we help customers move from heavy upfront capital expenditure to predictable operating costs. Our end-to-end scope covers meter supply, connectivity, software, installation, commissioning, operations and maintenance.

With X2M-powered software and integrated IoT infrastructure, Dicode Smart Connect brings metering data into one platform, supporting accurate billing, faster identification of consumption anomalies and more efficient utility operations.

Smart metering without heavy upfront investment.

1. Smart Utility Metering—Gas, Water, Electricity and BTU
2. IoT Connectivity, AMI and Utility Management Platforms
3. Atmospheric Water Generation and Industrial Dehumidification
4. Advanced Water and Wastewater Treatment
5. AI-Driven Energy Intelligence and District Cooling Optimization
6. Smart Metering Retrofit and CAPEX-to-OPEX Solutions
7. Technology Integration, Consultancy and GCC Market Entry Services

COMPANY PROFILE:

Dicode Technologies LLC is a Dubai-based technology solutions and go-to-market partner connecting global innovation with opportunities across the UAE and GCC. We help technology companies enter regional markets and support businesses and utility operators in adopting solutions that improve efficiency, resource management and sustainability.

Our expertise spans market development, strategic partnerships, solution integration, project deployment and local implementation support. By combining international technology with regional market knowledge, we help turn innovation into practical, scalable projects.

At WETEX, Dicode Technologies brings together a portfolio of solutions from Dicode Smart Connect Electronics, X2M Connect, Ripple Smart Metering, WaHa Inc., Concord Enviro, Zerowatt and IITM Global. These capabilities cover smart gas, water, electricity and BTU metering; IoT-enabled utility management; atmospheric water generation; industrial dehumidification; advanced water and wastewater treatment; and AI-driven energy optimization.

Through Dicode Smart Connect, we also offer smart metering deployment and retrofit solutions with a CAPEX-to-OPEX service model, helping utility operators modernize infrastructure without heavy upfront investment.

Dicode Technologies serves as a regional bridge between technology providers and customers—from identifying opportunities and developing partnerships to integrating solutions and supporting long-term growth.

Dicode Technologies—Your Gateway to Innovation in the Middle East.

Leading Engineering and Contracting enterprise in the Infrastructure, Industrial, Energy, Oil and Gas sector within the UAE and MENA region

COMPANY PROFILE:

Meeting and exceeding market demands since commencing our UAE operations, DANWAY has succeeded in maintaining secure and sustainable growth over the last four decades transcending into a leading Engineering and Contracting enterprise in the Infrastructure, Industrial, Energy, Oil and Gas sector within the UAE and MENA region.

DANWAY Electrical and Mechanical Engineering LLC, DANWAY LLC and DANWAY Emirates LLC which comprises the DANWAY Group of Companies has a long and successful track record of delivering expert engineering products and technical services across the project value chain. Today, the company operates as a fully owned subsidiary of AL NOWAIS Investments, a conglomerate established in the UAE that tenders diversified interests in power, water, oil and gas as well as industrial projects within the region.

From design development to commissioning and maintenance, DANWAY offers an integrated suite of services during the life cycle of the project across all sectors. With representation of diversified electrical and mechanical engineering products of international repute, DANWAY can ensure delivery of quality and reliable services as a single source solution with its unparalleled expertise in the execution of EPC projects.

DANWAY has headquarters in Dubai and offices in Abu Dhabi, Sharjah, Oman, Qatar, KSA, Bahrain, Togo, Uganda & Djibouti. As part of its vision to be an internationally respected Engineering and Contracting Company offering comprehensive solutions in the EPC field, DANWAY is actively extending its operations to other countries in the MENA region and established offices in TOGO, Uganda & Djibouti.

As a multi-divisional corporation, we represent more than 100 world-renowned companies in the areas of electro-mechanical and instrumentation equipment supply and service.

Not only do DANWAY's highly qualified and knowledgeable teams ensure the highest standards of quality, but we also provide comprehensive customer service and technical support after delivery. DANWAY personnel are continuously being provided with training, allowing them to make the most of the latest technological advances in order to overcome the toughest of challenges.

DANWAY has always been recognized for its clear vision, professionalism, dedicated team effort and strong partnerships we have fostered over the years. Furthermore, we are respected for our high principles, our reliability, our performance and our second-to-none after sales service. Through our fully integrated service support centers and value-added philosophy, we have built a strong and solid customer base, resulting in a long and prestigious list of successfully completed projects.

DANWAY operates in accordance with standards ISO 9001:2015, ISO 14001:2015 & ISO 45001:2018 and the company is committed to productive efficiency coupled with quality assurance, workplace health, safety and protection of the environment.

COMPANY PROFILE:

The Dubai Police Force serves as the official authority for law enforcement, public safety, and security in the Emirate of Dubai. Recognized as one of the most distinguished security institutions in the United Arab Emirates, Dubai Police has, since its establishment on June 1, 1956, positioned itself as a pioneering force that embraces innovation and technology across all areas of policing.

Dubai Police began its operations at Naif Fort with only 29 officers before relocating to its current headquarters in Al Tawar in 1973. Today, Dubai Police employ more than 32,000 highly qualified personnel operating through an extensive network of police stations across the emirate.

Guided by a forward-looking strategy, Dubai Police continuously adapt to modern security challenges by leveraging advanced technologies powered by artificial intelligence and the Internet of Things. These innovations have led to measurable improvements in performance, contributing to the safety and well-being of the community.

Dubai Police remain committed to developing its technological and operational infrastructure, exemplified by the establishment of fully automated Smart Police Stations and the growing use of intelligent systems in patrols, surveillance, and emergency response. In parallel, its leadership places strong emphasis on community engagement through awareness programs and creative social initiatives designed to build public trust and strengthen the concept of sustainable, participatory security within a smart policing framework.

Dubai SME Pavilion

Tel / Fax: +971 600 555559
Email: m.alfalasi@dubaidet.ae
Website: www.sme.ae | www.dubaidet.gov.ae
Contact: Mohammed Al Falasi

COMPANY PROFILE:

The Mohammed Bin Rashid Establishment for Small and Medium Enterprises Development (Dubai SME), part of the Dubai Department of Economy and Tourism (DET), presents six Emirati-founded enterprises at WETEX 2026. The pavilion reflects Dubai SME's role in developing national businesses, strengthening their competitiveness and opening access to local and international markets.

Together, the participants bring expertise in solar energy and efficient lighting, smart grids and metering, water desalination, electric vehicle charging and power systems engineering. Their capabilities also extend to energy storage, fuel and biodiesel logistics, environmental technologies and commercial expansion into GCC markets. Visitors can explore solutions for buildings, utilities, transport and industrial projects in one location.

Utilities, developers, contractors, investors and public and private sector buyers can meet the participating businesses during the exhibition, held from 20–22 October at Dubai World Trade Centre. Discussions can focus on project requirements, supply and distribution opportunities, and potential technical and commercial partnerships.

By bringing these enterprises together, Dubai SME promotes national capabilities and helps participants build commercial relationships. The pavilion highlights how Emirati businesses can contribute to efficient infrastructure and a more sustainable economy, in line with Dubai's clean energy ambitions and the UAE's Net Zero 2050 objectives.

تشارك مؤسسة محمد بن راشد لتنمية المشاريع الصغيرة والمتوسطة، إحدى مؤسسات دائرة الاقتصاد والسياحة بدبي، في معرض ويتكس 2026 بجناح يضم ست شركات أسسها رواد أعمال إماراتيون. وتعكس المشاركة دور المؤسسة في تنمية المشاريع الوطنية، وتعزيز تنافسيتها، وتوسيع فرص وصولها إلى الأسواق المحلية والدولية.

وتجمع الشركات المشاركة خبرات في الطاقة الشمسية والإنارة عالية الكفاءة، والشبكات والعدادات الذكية، وتحلية المياه، وشحن المركبات الكهربائية، وهندسة منظومات الطاقة. وتشمل قدراتها أيضاً تخزين الطاقة، والخدمات اللوجستية للوقود والديزل الحيوي، والتقنيات البيئية، ودعم التوسع التجاري في أسواق دول مجلس التعاون الخليجي. وتتيح هذه الخبرات للزوار استكشاف حلول تلبي احتياجات المباني والمرافق وقطاع النقل والمشاريع الصناعية في موقع واحد.

وخلال المعرض، الذي يقام من 20 إلى 22 أكتوبر في مركز دبي التجاري العالمي، يمكن لشركات المرافق والمطورين والمقاولين والمستثمرين والمشترين من القطاعين الحكومي والخاص لقاء الشركات المشاركة. وتتيح هذه اللقاءات مناقشة متطلبات المشاريع، وفرص التوريد والتوزيع، وإمكانات التعاون الفني والتجاري.

ومن خلال جمع هذه الشركات في جناح واحد، تعزّز المؤسسة حضور الخبرات الوطنية وتساعد المشاركين على بناء علاقات تجارية. كما تسلّط المشاركة الضوء على إسهام المشاريع الإماراتية في تطوير بنية تحتية أكثر كفاءة واقتصاد أكثر استدامة، بما ينسجم مع مستهدفات دبي للطاقة النظيفة وتوجّه دولة الإمارات نحو الحياد المناخي بحلول عام 2050.

TURNKEY WASTE MANAGEMENT SOLUTIONS
EasyRFID manages the entire technology infrastructure behind smart waste management projects.
From customized RFID tags and consumables to identification and collection hardware, mobile and fixed devices, and the software platform, we design and integrate every component according to the operational requirements of each project.
A complete technology ecosystem
CUSTOM RFID CONSUMABLES
RFID tags and labels customized according to the type of waste, collection process, environment and identification requirements.
SMART COLLECTION HARDWARE
SmartBIN systems, EasyTRUCK, EasySHAFT, mobile RFID devices, fixed readers and other identification equipment designed to automate collection and track waste movements.
SOFTWARE & DATA
Management platforms that collect and organize data from the field, providing real-time monitoring, reporting and traceability across the entire waste collection process.
KEY SOLUTIONS
SmartBIN
Smart waste collection systems that identify users and waste bags, control access and automatically record disposal events.

EasyTRUCK
RFID technology integrated into collection vehicles to identify and track collection operations directly in the field.

EasySHAFT
A dedicated waste identification and traceability system for high-rise buildings, designed to automate and monitor waste collection through building shafts.

Every waste management system has different requirements.
That's why EasyRFID doesn't offer a fixed package: we combine the right tags, hardware, connectivity and software architecture to create a solution that fits the customer's collection model, infrastructure and operational workflow.

COMPANY PROFILE:

EasyRFID – Simply Unconventional

We develop RFID systems that digitalize waste management, ensuring end-to-end traceability from distribution to collection. From tag production to software platforms, we deliver turnkey solutions that provide real-time control, transparent operations and reliable data for PAYT systems.

Our technologies empower citizens, reduce residual waste and improve operational efficiency for municipalities and service providers.

Smart traceability turns waste into a resource.

econ INDUSTRIES

econ industries

Address: Schiffbauerweg 1, 82319 Starnberg, Germany
Tel / Fax: +49 8151 4463770
Email: sales@econindustries.com
Website: www.econindustries.com
Contact: Jan Borbet - Head of Sales & Special Projects

PRODUCTS ON DISPLAY:

Product overview

econ industries profession is designing, manufacturing, and commissioning of highly efficient equipment for the recovery of resources from industrial hazardous wastes such as contaminated soils, oil sludges, NORM waste and metal sludges among others. The VacuDry® plants are built in skid mounted units, which can treat ~10 – 250 tons per day. They can be used mobile on site or in stationary operation.

For the conversion of elemental mercury, econ industries offers the only mobile solution worldwide. The MMCU - Mobile Mercury Conversion Units are available in two plant sizes. The MMCU 150 and MMCU 1 500 enables the customer onsite to convert 200kg - 1.5 ton of elemental mercury to mercury sulfide.

VacuDry®

VacuDry® is our vacuum thermal distillation technology The VacuDry® plants are built in skid mounted units, which can treat ~10 – 250 tons per day. They can be used mobile on site or in stationary operation.

Typical applications of our VacuDry® technology are the treatment of contaminated soils and sludges (hydrocarbons, PCB, mercury, PFAS/PFOS, solvents, etc.), mercury wastes, drill cuttings, grinding swarf and sludges from metal processing, refinery wastes and NORM waste among other.

COMPANY PROFILE:

econ industries offers solutions for the treatment of industrial hazardous wastes and contaminated soil, based on 20+ years of experience and more than 30 industrial waste recycling plants. econ's aim is to avoid the elimination of waste through incineration and landfilling but to achieve a resource-conserving material recycling instead. In our plants we primarily use VacuDry® technology, in which the harmful substances (e.g. hydrocarbons, mercury) are separated under heat and vacuum in a fully encapsulated system. Particularly when it comes to energy efficiency, low carbon emissions and resource recovery rates, this method is far superior to other thermal distillation techniques and is accepted as state of the art by approval authorities worldwide. Tailor-made research, development, consulting, engineering, delivery, and commissioning are our core competencies.

Unitree Go2 robot
Unitree B2-W robot
PUDU CC 1 PRO robot
PUDU BellaBot robot
PUDU FlashBot robot
PUDU MT1 robot
PUDU T300 robot

COMPANY PROFILE:

EdNex Automation is a robotics and automation solutions provider headquartered in Dubai, serving clients across the UAE, Saudi Arabia, Oman, Qatar, Bahrain and Kuwait.

We work as a solutions provider rather than a supplier. Engagements typically begin with an operational problem instead of a product enquiry: a plant room that is difficult to inspect, a night shift that is hard to staff, a floor area too large to clean manually, or a material handling route consuming labour hours. We conduct a site survey, assess whether robotics is the appropriate answer, and then design the solution. Depending on the case this may be a standard platform, or a configured deployment involving integration work, custom tooling, fleet software and connection to existing building or operational systems.

As an Authorized Gold Partner of Unitree Robotics and the official distributor for PUDU and VIGGO, our portfolio includes humanoid and quadruped robots, service and delivery units, cleaning machines, outdoor and construction platforms, robotic arms, and mobile robots for universities and research institutions.

Robotics workforce management forms the second half of our scope. Procurement is straightforward; making a robot productive alongside an existing team is not. We define which shifts the robot covers and which tasks remain with staff, commission the system, train operators, and remain accountable afterwards through task scheduling, utilisation and uptime reporting, remote diagnostics, regional spare parts holding in Dubai, and tiered maintenance contracts.

COMPANY PROFILE:

ELASDO

ELASDO is an ISO-certified engineering and manufacturing company based in the United Arab Emirates. Established in 2021 as an engineering consultancy, ELASDO has evolved into a specialized manufacturing and distribution company serving the water, desalination, and industrial sectors.

Our core focus is on advanced water treatment and desalination technologies, high-pressure pumping solutions. We combine engineering expertise, advanced manufacturing capabilities, and project execution to deliver reliable, high-performance products and solutions tailored to demanding applications.

Our team brings together more than 50 years of combined industrial experience and technical know-how. Through continuous innovation and collaboration with leading global technology partners, ELASDO develops and delivers solutions designed to meet high standards of performance, efficiency, and reliability.

Our capabilities include:
• Advanced research, development, and engineering
• High-pressure pumping and water treatment solutions
• Product and process optimization
• Comprehensive technical and project support
• Supply of high-quality, proven components

With strong execution capabilities across the Middle East and Indian markets, ELASDO is committed to delivering innovative, efficient, and dependable engineering solutions that contribute to the advancement of water treatment, desalination, and sustainable water infrastructure.

COMPANY PROFILE:

Electric Power Engineers (EPE) is a global advisory and engineering firm advancing grid reliability, resilience, flexibility, and affordability. EPE provides full-spectrum consulting, grid modeling, and innovative software solutions to support new generation interconnection (including renewables integration), energy storage, transmission and distribution planning, and digital transformation. Trusted by utilities, developers, data center operators, regulatory agencies, and enterprise clients, EPE helps solve complex power system challenges to build the grid of the future. Headquartered in Austin, Texas, with offices in Canada, Panama, and Lebanon, EPE operates across North America, Latin America, the Middle East, and North Africa.

COMPANY PROFILE:

Electric Way was established in 2003 and has since evolved into a leading name in the region for the distribution of cables, industrial lighting fixtures, and electrical systems.

We go beyond the role of a traditional trading company by serving as a value-added bridge between manufacturers and consumers, thereby playing a critical role in strengthening the supply chain ecosystem. At Electric Way, our services are designed with foresight and precision to deliver measurable value to our customers. We emphasize visibility, accountability, and reliability across all business processes, ensuring a seamless and trustworthy experience at every stage. As a modern enterprise, we remain deeply rooted in our heritage values. These values are consistently reflected in the way we engage with our customers, suppliers, and employees fostering relationships built on trust, integrity, and excellence.

Electrochlorination Systems

COMPANY PROFILE:

We are proud to announce that Electrolytic Technologies Systems (ETS) will be exhibiting at WETEX 2026!

For more than two decades, ETS has delivered innovative, reliable and scalable electrochemical solutions that advance water safety, operational resilience and environmental sustainability worldwide.

Our comprehensive technology platform includes:

- On-site chlorine gas and sodium hydroxide generation
- Commercial-strength 12.5% sodium hypochlorite generation
- Low-strength brine electrochlorination
- Seawater electrochlorination
- Chlorine dioxide generation
- UV disinfection
- PFAS Destruction
- Modular hydrogen-generation systems

At the heart of our portfolio is Klorigen™—a proven on-site generation platform designed to reduce dependence on transported chemicals, improve operational safety and deliver cost-effective disinfection for municipal, industrial and infrastructure applications.
Visit ETS at WETEX 2026 to discover how our modular and scalable technologies are helping customers address increasingly complex water-treatment challenges.

Let's collaborate to build a safer, cleaner and more sustainable future for water and energy.

Fisher™ Local Capabilities in UAE & KSA

COMPANY PROFILE:

Emerson is a global technology and software company with a long-standing presence across the Middle East, supporting the region's power, water, desalination, oil and gas, and petrochemical sectors. As Gulf nations invest in energy diversification, water security, and industrial expansion, Emerson partners with EPCs, utilities, and plant operators to improve safety, reliability, and sustainability — helping critical infrastructure across the UAE, Saudi Arabia, and neighbouring markets perform efficiently under demanding conditions.

Emerson Final Control manages critical process fluids across the region's most vital industries. Its portfolio — including control valves and digital valve controllers — features trusted brands such as Fisher™, Baumann™, Sempell™.

Fisher™ and Sempell™ solutions remain the benchmark for precision flow control, backed by over 140 years of engineering excellence. Widely deployed in Middle East oil and gas, refining, and power generation, Fisher and Sempell valves master extreme pressures, high temperatures, and corrosive fluids common to regional operations.

Integrated with FIELDVUE™ digital valve controllers, Fisher assemblies deliver real-time diagnostics and predictive maintenance — reducing unplanned downtime and lowering total cost of ownership for desalination plants, power stations, and industrial facilities across the Gulf region.

Empower Business Bay project Model and Elips pipe model

COMPANY PROFILE:

Emirates Central Cooling Systems Corporation PJSC, (Empower) was established in 2003 by Ruler's Decree, with the objective of providing world-class District Cooling Services (DCS) to Dubai and the region. Empower's principal activities focus on providing District Cooling Services and managing, operating, and maintaining central cooling plants and related distribution networks, as well as producing and selling pre-insulated pipes and fittings.

Empower is an end-to-end District Cooling Service provider covering the entire spectrum of the value chain. Empower design, build, own, operate and maintain District Cooling plants at it's own cost. From a modest beginning in 2004 with a single temporary plant serving DIFC (the financial district of Dubai), Empower has grown exponentially with an impressive portfolio of major projects in place, Empower is currently the world's largest District Cooling Services provider by capacity. Empower operates with a connected capacity of more than 1.71 million refrigeration tons (RT) through 90 plant rooms, and a contracted capacity of over 2.00 million RT. The company serves more than 160,000 corporate and individual customers in 1,800 buildings across Dubai.

Holding the highest share in Dubai's district cooling market, Empower is providing its services to a portfolio of world-class projects in Dubai such as Dubai International Airport, Dubai International Financial Centre, Business Bay, Dubai Healthcare City, Palm Jumeirah, Jumeirah Lake Towers, Meydan, Deira Waterfront, Blue Waters, Jumeirah Group, Jumeirah Beach Residence, Discovery Gardens, Ibn Battuta Mall, Dubai Design District, Dubai Production City, Dubai Land Residence Complex and many more.

Empower is an active partner of the United Nations Environment Programme (UNEP) and plays a vital role in its global initiatives, including the Cool Coalition and District Energy in Cities. The company is also a member of leading international organizations in the district energy and HVAC sectors, such as ASHRAE and the International District Energy Association (IDEA). H.E. Ahmad Bin Shafar, CEO of Empower, serves as a Special Advisor on district cooling to UNEP's District Energy in Cities initiative and is a member of IDEA's Board of Directors.

Scientific projects & workshops

COMPANY PROFILE:

Foundation

The Emirates Science Club was founded on 15 January 1990, as one sub-commission of the Cultural & Scientific Association

Mission

Run scientific activities, in the form of brief and seasonal in all fields of science & technology, supervised by a selection of specialized engineers. Aside to that, taking part in science exhibitions and international competitions in accordance to the country's vision and goals. The club also aims at raising the students' levels of intelligence, encourage them and discover their scientific talents & abilities, at early stages, while taking care and developing them in a proper positive way.

Club Objectives

- Spread scientific literacy & raise overall levels of scientific understanding
- Provide the proper environment for youth to practice liberated scientific activities
- Discover young talents & skills
- Develop young people's innovation & scientific research skills
- Practice scientific knowledge in a scientific way
- Facilitate the dialogue with other young people all over the world
- Active participation and representation in local & international scientific conferences

Club Divisions:

- Electricity & Electronics
- Robotics
- Drones
- 3D Printing
- Cyber Security

- Augments & Virtual reality
- Artificial Intelligence
- General Chemistry
- Sustainability
- Carpentry

Club Activities:

Training Workshops & Sessions

Permanent Workshops - Summer Sessions - Winter Sessions - Spring Sessions

Science Camps

Science Museums Visits - Leisure Activities - Science Trips - Competitions - Internships

Social & Cultural Activities

Exhibitions - Cultural & Scientific Seminars - Local Community Service

Club Participation

Local Participation - Regional Participation - International Participation

Club Membership:

Emirates Science Club membership is now available to all young people in UAE, with no specific age group. Upon finalizing the membership, students can start performing the tasks and projects they would like to do, with no barriers, throughout the whole year, and during their leisure time.

Membership Types:

Honorary Membership - Active Membership - Associate Membership

Website: www.ewec.ae

Contact: Rahul Rutanen-Whaley

PRODUCTS ON DISPLAY:

EWEC's vision is to be the leading contributor to clean, efficient water and power supply, using transformative innovations that support the goals of Abu Dhabi's and the UAE's energy sector and to support and demonstrate commitment to the government of Abu Dhabi and the government of the UAE by reducing costs while providing the added security that comes with a larger, more integrated system.

COMPANY PROFILE:

EWEC is the sole procurer and supplier of water and electricity in the Emirate of Abu Dhabi. EWEC drives the planning, forecasting, purchasing, and system despatch services of water and electricity. EWEC fulfils these vital responsibilities through the short-term and long-term balancing of bulk supply and demand for distribution companies and authorities in Abu Dhabi and other Emirates. EWEC is supporting the government of Abu Dhabi and the government of the UAE by enabling the reduction of cost whilst also providing the increased security of supply that comes from a cleaner, larger, and more integrated system. EWEC is mandated to implement strategic initiatives that will achieve the 60 per cent clean energy target outlined in the Abu Dhabi Department of Energy's (DoE) Clean Energy Strategic Target 2035 for Electricity Production in Abu Dhabi, in addition to enabling the achievement of the UAE Water Security Strategy 2036, the UAE Energy Strategy 2050, and the UAE Net Zero by 2050 strategic initiative. EWEC is accelerating Abu Dhabi and UAE's energy transition by diversifying the country's energy mix through developing and deploying renewable and clean energy as well as low-carbon-intensive water desalination capacities.

Website: www.emtelle.com
Contact: Rakan Atari

PRODUCTS ON DISPLAY:

At WETEX, Emtelle will showcase a selection of our most advanced solutions for fibre deployment, ducting infrastructure and pre-connectorised network build, all designed to support smart-utility growth and sustainable infrastructure development.

Pre-Connectorised Fibre Solutions — Plug-and-play fibre assemblies that reduce installation time, improve network reliability and support rapid rollout of digital water and energy systems.
Blown Fibre Systems — High-performance microduct and fibre bundles enabling flexible, scalable network expansion for smart-city and utility applications.
Ducted Network Infrastructure — Robust HDPE ducts, microducts and bundled duct systems engineered for long-term durability in harsh environmental conditions.
FibreFlow™ Technology — Emtelle's flagship blown-fibre platform, supporting fast deployment across large-scale utility networks.

COMPANY PROFILE:

Emtelle is a global leader in **pre-connectorised fibre solutions, blown fibre systems, and ducted network infrastructure**, supporting the development of resilient, efficient and future-ready utilities worldwide. With over four decades of manufacturing expertise and a strong presence across Europe, the Middle East and Asia, Emtelle enables fast, reliable and cost-effective fibre deployment for large-scale utility and smart-city projects.

Modern utilities rely on robust fibre networks to operate smart metering, real-time monitoring, automation and digital control systems. Emtelle's product portfolio helps utilities reduce installation time, minimise environmental impact, and enhance long-term network performance - all essential for achieving sustainable, low-carbon infrastructure.

With manufacturing capabilities in the UAE and a long history of supporting regional fibre rollouts, Emtelle is well positioned to collaborate with government entities, EPC contractors and developers across the GCC. At WETEX, Emtelle will showcase innovative fibre and ducting technologies designed to strengthen digital water and energy networks, support smart-city growth, and contribute to national sustainability goals.

Sustainable water and wastewater technologies for utilities and industrial applications.

COMPANY PROFILE:

Founded in 1953 and headquartered in Reinach, Switzerland, Endress+Hauser is a global leader in measurement instrumentation, services, and solutions for industrial process engineering and automation. For more than 70 years, the family-owned company has helped customers improve efficiency, safety, reliability, and sustainability across a wide range of industries.

Endress+Hauser offers one of the industry's most comprehensive portfolios, providing products, services, and digital solutions for flow, level, pressure, temperature, and analytical measurement, as well as data management, laboratory analysis, and advanced process analyzer systems. The company also delivers innovative technologies that support digitalization, asset optimization, and decarbonization initiatives.

In 2025, Endress+Hauser achieved record sales of €4.01 billion and employed more than 18,300 people worldwide. With a network of sales and service support in more than 125 countries, and production facilities across 11 countries and four continents major economic regions, the Group ensures close customer proximity and dependable support around the globe. Strategic growth has been strengthened through investments in process and laboratory analysis, including the integration of Analytik Jena and the expansion of gas analysis and gas measurement technologies through its partnership with SICK.

Endress+Hauser serves customers in the chemical, oil & gas, power & energy, water & wastewater, food & beverage, life sciences, mining, metals, renewable energy, pulp & paper, marine, and other process industries. By combining deep industry expertise with innovative technologies, Endress+Hauser helps customers optimize their processes while enhancing operational performance and environmental sustainability.

Energy recovery devices

COMPANY PROFILE:

Energy Recovery designs and manufactures world-class energy-saving technology for reverse osmosis systems in the desalination and wastewater reuse industries. Our proprietary PX® Pressure Exchanger® recovers and reuses energy that would otherwise be lost during the reverse osmosis process, helping plant operators dramatically reduce energy consumption and lower emissions.

The PX Pressure Exchanger is the centerpiece of a complete portfolio that also includes pumps and turbochargers. Together, these solutions deliver efficient, reliable performance for seawater reverse osmosis, brackish water reverse osmosis, water reuse, and a range of industrial applications. Whether operators are commissioning a new facility or retrofitting an existing one, our technology helps lower operating costs and improve long-term reliability.

Grounded in more than 30 years of leadership in desalination, Energy Recovery has helped customers around the world save energy, conserve resources, and build more sustainable operations. We are headquartered in the San Francisco Bay Area, with manufacturing and research and development facilities throughout California.

With sales and on-site technical support available globally, we partner with operators in every major market to keep critical water infrastructure running efficiently and reliably.

EtihadWE delivers essential electricity and water services to the Northern Emirates, serving 2 million people and advancing national sustainability goals through innovation and smart infrastructure.

COMPANY PROFILE:

Etihad Water and Electricity (EtihadWE) is a federal utility company fully owned by the Emirates Investment Authority (EIA), responsible for delivering essential electricity and water services across the Northern Emirates. Established under Federal Decree-Law No. 31 of 2020, EtihadWE plays a central role in enabling sustainable economic and social development for nearly 2 million people.

The company plays a leading role in advancing water and energy efficiency in the UAE, operating the country's only utility system based entirely on energy-efficient Reverse Osmosis technology. EtihadWE is the exclusive offtaker for Naqa'a, one of the world's largest high-efficiency RO desalination projects, with a production capacity of 150 million gallons per day. The company's broader network spans over 23,000 km and includes more than 600 million gallons of water storage.

In support of the UAE Net Zero 2050 Strategy, EtihadWE is advancing clean energy adoption through initiatives like the Distributed Solar System and by building the national EV charging network (UAEV). Its rollout of smart meters, leak detection systems, and digital platforms reflects a commitment to innovation, operational excellence, and enhanced customer experience.

Guided by its vision to energise communities and drive sustainable progress, EtihadWE continues to invest in infrastructure that uplifts quality of life, fosters connectivity, and protects vital natural resources.

1. Phosphonates
   - HEDP & Salts
   - ATMP & Salts
   - DTPMPA & Salts
   - PBTC
2. Biocides
3. Polymaleic Acid (PMA)

COMPANY PROFILE:

Founded in 1941, Excel Industries Limited is an Indian pioneer in chemical manufacturing and sustainable technology. Headquartered in Mumbai, the company has grown over eight decades into a global leader in phosphorus chemistry, specialty chemicals, and advanced performance additives tailored for the water treatment sector.

Excel serves the municipal, industrial, and cooling water treatment markets with two primary specialty chemical lines: Codex® and Biocel®.

Excel's capabilities around the Codex® portfolio of high-performance organophosphonates, include ATMP, HEDP, DTPMPA, and PBTC. These chemistries provide threshold scale inhibition, high-calcium tolerance, and corrosion protection. These are backed by heavy-metal chelating agents, peroxide bath stabilizers, and essential phosphorus building blocks like Phosphorus Trichloride and Phosphorus Pentachloride, used by formulators to synthesize custom additives.

To target bio-fouling, Excel manufactures broad-spectrum industrial microbiocides under the Biocel® brand. Featuring formulations like Biocel XL20 (1,2-benzisothiazolin-3-one) & CMIT/MIT 14%, these microbiocides eliminate bacteria, algae, and fungi. Applied across recirculating cooling towers, paper processing loops, metalworking fluids, and aqueous storage systems,.

Through integrated manufacturing, robust organic synthesis, and eco-friendly chemical innovation, Excel Industries delivers reliable, sustainable water conditioning solutions globally.

Tel / Fax: 02 2038720
Email: info@exeedgeotextile.ae
Website: https://excellentpipes.ae/
Contact: Mahran Zaid Kashkool

PRODUCTS ON DISPLAY:

Exeed Geotextile showcases its Prime Geotextile range of polypropylene and polyester needle-punched non-woven geotextiles, designed for civil, infrastructure, environmental and geotechnical applications. The range supports key functions including separation, filtration, reinforcement, drainage, protection, and ground improvement, offering a practical and cost-effective solution for a wide variety of project conditions.

Available in thermal-bonded and non-thermal-bonded options, with weights ranging from 90 to 1,200 g/m² and widths of up to 6 metres. Products can also be tailored to meet specific project and application requirements.

Exeed Geotextile displays its PP Fibre too; a high-performance polypropylene fibre used in the production of geotextiles and a range of industrial projects. It combines good tensile performance, chemical resistance, UV stability and durability, and is available in customised length and specifications to suit different production requirements.

COMPANY PROFILE:

Part of Exeed Industries, the Industrial arm of National Holding, Exeed Geotextile is an established UAE manufacturer supporting the construction and infrastructure sectors across the UAE and wider MENA region.

Established in 2009 and strategically based in the ICAD I, Abu Dhabi and SAIF Zone, Sharjah, Exeed Geotextile combines local manufacturing capabilities with technical expertise and stringent quality standards. Our facilities include an in-house testing laboratory, with operation certified to ISO 9001 and OSHAD standards.

With an experienced team and a strong focus on quality, reliability and customer requirements, Exeed Geotextile contributes to the UAE's growing industrial base while serving projects across the regional and international markets. As part of Exeed Industries, the company benefits from the strength and experience of a diversified industrial group with a long-standing presence in the UAE.

COMPANY PROFILE:

The EDF Group is a key player in the energy transition, as an integrated energy operator engaged in all aspects of the energy business: power generation, distribution, trading, energy sales and energy services. The Group is a world leader in low-carbon energy, with a low carbon output of 434TWh, a diverse generation mix based mainly on nuclear and renewable energy (including hydropower). It is also investing in new technologies to support the energy transition. EDF's raison d'être is to build a net zero energy future with electricity and innovative solutions and services, to help save the planet and drive well-being the planet and drive well-being and economic development. The Group supplies energy and services to approximately 40.9million customers (1) and generated consolidated sales of €139.7 billion in 2023.

Customers are counted per delivery site. A customer may have two delivery points.

PRODUCTS ON DISPLAY:

1. Transformers & Substations

Power Transformers: Medium to large power transformers up to 500 MVA and 380 kV ratings for transmission, generation, and heavy substation applications.
Distribution Transformers: Pole-mounted, pad-mounted, oil-immersed, and dry-type distribution transformers designed to IEC, ANSI, and SASO standards.
Package & Unit Substations: Integrated, factory-assembled substations for distribution networks.
Modular Substations / E-Houses: Prefabricated power control rooms and mobile substations tailored for utility grid expansion, oil & gas fields, and industrial sites.
Specialized Units: Multi-tap/rectifier transformers, EHV shunt reactors, and solar/wind renewable integration transformers.
2. Switchgear, Motor Control & Distribution Panels

Low-Voltage (LV) Equipment: LV switchboards, distribution panelboards, draw-out motor control centers (MCC), and switchracks.
Medium-Voltage (MV) Equipment: Metal-clad and metal-enclosed MV switchgear up to 38 kV, MV motor controllers/starters, and SF free dry-air MV switchgear.
Control & Protection Cabinets: Relay and breaker control panels, generator control, synchronization panels, annunciation panels, and marshalling cabinets.
3. Busduct & Cable Management Systems

Busducts & Cable Bus: Low and Medium-Voltage non-segregated phase busducts (up to 38 kV / 5,000 A) and cable bus assemblies.
Cable Support Systems: Heavy-duty aluminum and steel roll-formed cable trays, cable ladders, cable trunking, and communication runways.
Structural Supports: Metal framing systems, structural channels, covers, and accessories.
4. Automation & Protection Systems

Substation Automation: SCADA system integration, Advanced Metering Infrastructure (AMI), and smart grid solutions.

Metering & Control: Remote terminal units (RTUs), automated transfer switches (ATS), and programmable load-shedding control panels.

COMPANY PROFILE:

About Us

Electrical Industries Company (EIC) is a publicly listed Saudi joint-stock company ($Tadawul: 1303$) headquartered in Dammam, Saudi Arabia. Operating across a manufacturing footprint of over $200{,}000\ m^2$ with a workforce exceeding $2{,}000$ professionals, EIC provides comprehensive electrical manufacturing and engineered power solutions for utilities, oil & gas, infrastructure, smart cities, and renewable energy sectors.

Core Capabilities & Offerings

Through its specialized subsidiaries, EIC serves the complete power value chain:

Power & Distribution Transformers: Small, medium, and large transformers up to 500 MVA (380 kV) and EHV shunt reactors.

Switchgear & Controlgear: Low/Medium-Voltage switchgears ($IEC/ANSI$), SF_6-free dry-air switchgear, motor control centers, and explosion-proof switchracks.

Substations & Infrastructure: Prefabricated power control rooms ($E-Houses$), package/unit substations, and modular high-voltage substations.

Cable Management & Services: Metallic and fiberglass cable trays, busducts, power system automation ($SCADA/AMI$), testing, and lifecycle maintenance.

Subsidiaries & Global Reach

EIC operates through four main subsidiaries: Saudi Transformers Company (STC), Wahah Electric Supply Company of Saudi Arabia (WESCOSA), Saudi Power Transformers Company (SPTC), and Belgium-based Pauwels Transformers. Fully compliant with IEC, $ANSI$, and $SASO$ standards, EIC exports to over 50 countries across the Middle East, Africa, and Europe.

COMPANY PROFILE:

Emirates Robotics LLC is a leading engineering products supply and service provider, proudly representing many reputed global manufacturers across the UAE and other GCC countries. We operate in diverse sectors including Potable Water & Sewerage, Infrastructure, Desalination & Power Plants, Marine & Seawater, Oil & Gas, and the Petrochemical & Chemical industries.

Our specialization lies in flow control valves, pipeline products, and engineering solutions. We provide complete supply, installation, and service of valves, control systems, flange adapters, dismantling joints, expansion joints, actuators (electric, pneumatic, hydraulic), rubber fenders, instrumentation products, manhole covers, pipes, fittings, and fabricated products.

Since our establishment in 2003, Emirates Robotics has been a customer-focused company with a strong track record of successful project execution. We have partnered on iconic infrastructure projects across the region, earning a reputation for reliability, quality, and after-sales excellence.

We take pride in offering state-of-the-art products and reliable after-sales service across industries such as Oil & Gas, Petrochemical & Chemical, Desalination & Power Plants, Marine & Seawater, and Water & Sewerage. Our ISO 9001:2008 Certification further reflects our dedication to quality, timely delivery, and customer satisfaction.

Backed by a comprehensive stock program for valves, controls, and pipeline accessories, we are always prepared to meet urgent delivery requirements in the UAE.

At Emirates Robotics, we are committed to customer satisfaction, driven by innovation, continuous improvement, and excellence in every aspect of our business.

Medium Power Transformers (GSU) — Up to 150 MVA, 220 kV
EHV Power Transformers — Up to 300 MVA, 220–400 kV
Package Substations — Factory-tested, 300 kVA–5 MVA
Inverter Duty Transformers — Solar PV & BESS applications
Distribution Transformers — Liquid-filled, up to 5MVA
Cast Resin Transformers — Indoor & clean environments
LV Switchgear — Feeder pillars, panels & RTCC
Containerized Substation — Skid- or container-mounted, turnkey
Special Transformers — Oil & Gas, Auxiliary, Rectifier, Earthing & more
MV Switchgear — Eclipse range, SF6-free

COMPANY PROFILE:

Emirates Transformers and Switchgear (ETS Group) is a global manufacturer and solutions provider of power transformers, switchgear, and substation equipment, serving utilities, EPCs, and industrial clients across the energy, oil & gas, and power infrastructure sectors. With a focus on engineering reliability, faster delivery, and long-term partnership, ETS supports critical projects from design through energization — treating power infrastructure as one integrated system rather than a collection of individual equipment packages. Headquartered in Jebel Ali, Dubai, with a growing footprint in the U.S. market, ETS is committed to powering the infrastructure that drives global energy growth.

Smart Valve EM1410
Large Volume Meter FlowStar

COMPANY PROFILE:

Engelmann Sensor GmbH has been the technologically leading manufacturer of heat and cold meters for 50 years. During this time, over 11,5 million meters have been manufactured that reliably record consumption data. In addition to heat and cooling meters, we offer a complete product portfolio for Submetering applications. With our competent and innovative team we develop and produce heat and cold meters in Wiesloch-Baiertal. Our production capacity is flexible and optimally designed to serve large and small batches. We manufacture compact heat and cold meters up to a size of DN 40 (Qp 10). All our products are developed on the open communication architecture Open Metering System (OMS) based on M-Bus. Our complete portfolio is OMS 4 Mode 7 capable and thus serves current BSI security standards. We offer Software for reading and transferring customer data. Our state-approved calibration laboratory is accredited with PTB and MID. Engelmann Sensor GmbH is ISO 9001:2015 certified.

Emirates Environmental Group has a vast range of projects, campaigns and activities where your academic institution can participate. Our key areas of focus include environmental education and awareness, waste management and recycling, urban afforestation, clean ups, research and publications, and public campaigns. We have built an extensive portfolio of ongoing programmes, many of which have been running successfully for decades, attracting participation from schools, corporations, government entities, and families alike.

COMPANY PROFILE:

The Emirates Environmental Group (EEG) is a professional working group, based in the United Arab Emirates. It was established in 1991 with the aim of protecting the environment through the means of education, action programmes and community involvement. EEG successfully rallies the community, academic institutions and public and private sector organisations with the aim of engaging them in an array of programmes and activities. The key focus areas within which EEG works are environment and sustainable development related education and awareness, resource consumption and management, waste management and recycling, planting and urban afforestation, research and publications, and public campaigns. Most of EEG's ongoing programmes have been running successfully for decades and are popular vehicles of cross-sector participation. EEG is the first environmental NGO in the world to be ISO 14001 certified and is internationally known as a leading environmental organisation in West Asia. EEG is accredited to the United Nations Environment Programme (UNEP) and the United Nations Convention to Combat Desertification (UNCCD). It is also a full Member (voting) of World Packaging Organisation (WPO).

Company Profile:

EdNex Automation is a robotics and automation solutions provider headquartered in Dubai, serving clients across the UAE, Saudi Arabia, Oman, Qatar, Bahrain and Kuwait.

We work as a solutions provider rather than a supplier. Engagements typically begin with an operational problem instead of a product enquiry: a plant room that is difficult to inspect, a night shift that is hard to staff, a floor area too large to clean manually, or a material handling route consuming labour hours. We conduct a site survey, assess whether robotics is the appropriate answer, and then design the solution. Depending on the case this may be a standard platform, or a configured deployment involving integration work, custom tooling, fleet software and connection to existing building or operational systems.

As an Authorized Gold Partner of Unitree Robotics and the official distributor for PUDU and VIGGO, our portfolio includes humanoid and quadruped robots, service and delivery units, cleaning machines, outdoor and construction platforms, robotic arms, and mobile robots for universities and research institutions.

Robotics workforce management forms the second half of our scope. Procurement is straightforward; making a robot productive alongside an existing team is not. We define which shifts the robot covers and which tasks remain with staff, commission the system, train operators, and remain accountable afterwards through task scheduling, utilisation and uptime reporting, remote diagnostics, regional spare parts holding in Dubai, and tiered maintenance contracts.

PRODUCTS ON DISPLAY:

At WETEX 2026, FabCube presents BOCAS – Boat Care Automation System, an innovative collaborative robotic solution designed to automate sanding and surface finishing operations in the marine industry.

BOCAS combines advanced robotics, process digitalization and dust extraction technologies to improve efficiency, precision and repeatability while reducing airborne dust, material waste and operator exposure to demanding and potentially hazardous activities.

The system transforms traditionally manual boat-care operations into controlled, repeatable and data-driven processes, contributing to a safer and more sustainable approach to yacht and boat maintenance.

BOCAS represents FabCube's approach to innovation: applying advanced automation to real industrial challenges to improve productivity, quality, workplace safety and environmental sustainability.

COMPANY PROFILE:

FabCube is an innovative Italian SME specializing in research, development and technology transfer in advanced robotics, industrial automation and digital manufacturing. The company develops and integrates innovative technologies to transform complex industrial activities into more efficient, controlled and sustainable processes, combining engineering expertise, automation and digital solutions.

E-CHEN Booster Pump 50 - 2400 GPD

COMPANY PROFILE:

Foshan City San Jiaozhou Electrical Technology Co., Ltd., owner of the E-CHEN brand, is a professional manufacturer of diaphragm booster pumps for water purification systems, with an annual production capacity of approximately three million units.

Our product range covers 50–2400 GPD pumps for residential RO systems, countertop water purifiers and high-flow commercial applications. We provide cost-competitive brushed pumps as well as brushless DC solutions for low-noise and long-duty applications.

Every pump is tested for pressure, flow rate and electrical current before shipment to ensure consistent performance. Our factory operates under an ISO 9001-certified quality management system, and selected products comply with CE, RoHS and REACH requirements.

We support OEM and ODM projects with customized voltage, pressure, flow rate, fittings, labels and packaging. By combining competitive pricing, controlled quality, stable supply and responsive technical support, E-CHEN helps importers, distributors and water purifier manufacturers reduce product failures and after-sales costs.

COMPANY PROFILE:

FARAJALLAH TRADING COMPANY LLC

Company Profile

Farajallah Trading Company LLC is one of the leading importers and distributors of water-treatment products, plumbing materials,and related accessories in the UAE and international markets.

Established more than 30 years ago, the company is strategically located in the heart of Dubai's trading market, enabling us to efficiently serve customers across the UAE, the Middle East, and other international markets.

Our extensive experience, strong supplier network, and substantial inventory allow us to provide our customers with reliable products, competitive pricing, and prompt delivery.

Our Main Product Lines

Our core business focuses on:

Water Purification Systems & Accessories

- RO Systems
- RO Cartridges and Inline Cartridges

- Faucets
- Water Storage Tanks
- Pumps
- Filter Housings
- Membranes
- Tubes and Fittings
- All types of RO spare parts and accessories

Plumbing Products

- PVC Valves
- Polyethylene Fittings

International Supplier Network

We work closely with a wide range of established manufacturers and suppliers from Taiwan, the USA, Italy, Spain, Thailand, Korea, and other major manufacturing markets.

Our RO systems are primarily sourced from Taiwan, reflecting our commitment to providing reliable and high-quality water-treatment products.

We offer a wide range of established brands, including:CCK, Alkauther, Purtec, Softec, Aquatec, and many other leading brands.

Authorized Distributorships

We are an authorized distributor for several internationally recognized manufacturers and brands, including:

- **CCK** – Water Purification Products, *Made in Taiwan*
- **Hi-Tech Membrane** – RO Membranes, *Made in Thailand*
- **Astore** – Polyethylene Fittings, *Made in Italy*
- **Tecno Plastic** – PVC Valves & Fittings, *Made in Italy*

Strong Inventory & Fast Delivery

We maintain a large and diverse inventory of water-treatment, plumbing, irrigation, and related products in our warehouse in Dubai.

Our extensive stock enables us to meet our customers' requirements quickly and efficiently, with the ability to provide short lead times and prompt delivery for both regular and large-volume orders.

Our Commitment

Our business philosophy is based on three key principles:

High-Quality Products | Competitive Prices | Reliable Service

We continuously work to provide our customers with quality products at competitive prices while maintaining strong, long-term relationships with both our suppliers and customers.

Classic Land Rover Defender EV

COMPANY PROFILE:

FUSE EV Conversions LLC is a Dubai-based electric powertrain engineering company. We convert classic cars, commercial fleets and specialist vehicles to electric power. All the engineering is done in-house at our workshop in Dubai Investment Park, covering the battery systems, power electronics, control software and mechanical integration.

Our work covers three areas:

Classic car conversions: heritage vehicles restored and converted to electric, keeping their character while gaining everyday reliability, air conditioning and modern safety.

Fleet and commercial EV kits: bolt-in electric conversion kits for the Toyota Hilux, built for harsh conditions and compatible with solar charging. They are already deployed in the field with international partners.

Defence and government: custom electric powertrains for specialist vehicles, giving silent operation and instant torque.

Supply, Installation, and Operation of EV Chargers

COMPANY PROFILE:

Fully Charged is a UAE-based electric vehicle (EV) charging infrastructure and operations company established in 2020. The company provides end-to-end EV charging solutions, covering engineering, design, equipment supply, installation, commissioning, operation, and maintenance across the United Arab Emirates.

With over 9,000 EV chargers deployed nationwide, seven UAE service teams, and more than 240 B2B and institutional clients, Fully Charged has established a strong presence across multiple sectors, including public charging, fleet and logistics, real estate, automotive, government, enterprise, hospitality, and workplace environments.

The company delivers integrated charging solutions tailored to each client's requirements, including electrical and civil design, site assessment, authority coordination, DEWA-related approvals, charging equipment supply, and installation. Its services also include Charging Point Operator (CPO) operations and Charging Point Management System (CPMS) integration, enabling remote charger monitoring, fault detection, session management, payment integration, billing, energy consumption tracking, and operational reporting.

Fully Charged emphasizes charger availability, operational reliability, and long-term performance through preventive maintenance, remote technical support, local spare parts, and on-site field service. Its operating model covers the complete charging infrastructure lifecycle, from initial feasibility studies and deployment to daily operations and performance monitoring.

The company's portfolio includes 14 live CPO stations, with eight additional stations in progress, demonstrating its continued expansion in the UAE's EV charging market. Its experience includes high-utilisation fleet charging operations, such as the Dubai Taxi Corporation project, which achieved a reported uptime performance of 99.8% during the stated operational period.

Fully Charged mission is to deliver reliable, scalable, and integrated EV charging infrastructure that supports sustainable mobility and the UAE's transition towards electric transportation.

COMPANY PROFILE:

GB Equipment Solutions provides reliable equipment, machinery, attachments and tires, delivering practical solutions that support efficiency, productivity and performance across diverse industries.

JCB 1CX – Backhoe Loader

Compact and versatile, the JCB 1CX delivers powerful digging, loading and material handling performance, making it ideal for confined spaces, urban projects and demanding applications.

19-E – Excavator

The 19-E is a compact electric excavator offering quiet, zero-emission operation and excellent maneuverability, ideal for urban projects and environmentally sensitive applications.

S2632E – Scissor Lift

The S2632E electric scissor lift provides safe and efficient elevated access, combining compact design, easy maneuverability and reliable performance for a wide range of applications.

S4046 – Scissor Lift

The S4046 electric scissor lift delivers safe, efficient elevated access with excellent stability and maneuverability, supporting productive operations across demanding work environments.

JCB Sweeper SC150 – Mounted Attachment

The JCB SC150 sweeper attachment provides efficient surface cleaning for roads, yards and work areas, helping maintain cleaner sites while improving productivity and operational efficiency.

JCB Breaker HM033T – Attachment

The JCB HM033T hydraulic breaker delivers powerful and reliable performance for concrete breaking, demolition and excavation, helping operators tackle demanding jobs efficiently.

JCB Quick Hitch – Attachment

The JCB Quick Hitch enables fast and efficient attachment changes, maximizing machine versatility while reducing downtime and helping operators improve productivity on every job.

4500MAX Earth Drill – Auger Torque

The 4500MAX Earth Drill delivers powerful torque and reliable drilling performance for construction, landscaping and utility applications, helping operators work efficiently across demanding projects.

Jetway JUC5 Tire – JK Tyre

The Jetway JUC5 tire is designed for dependable performance, offering durability, traction and stability to support efficient operation across demanding commercial and industrial applications.

BKT FL 699

The BKT FL 699 is designed for demanding applications, delivering durability, traction and stability to support reliable performance and productivity in challenging working environments.

COMPANY PROFILE:

Green Solution Group of Companies is a diversified environmental sustainability and compliance group serving over 2,500 clients across India and internationally, backed by 15+ years of collective experience. Our integrated portfolio spans regulatory compliance, environmental engineering, testing, climate strategy, and sustainability disclosure, enabling industries to build cleaner, more resilient, and globally compliant operations.

Our environmental consultancy arm delivers MPCB consent management, EIA and Environmental Clearance, Factory Act licensing, pollution control, and EPR compliance, alongside turnkey water and wastewater treatment solutions (ETP, STP, WTP, ZLD, RO systems) and a NABL-accredited testing laboratory covering air, water, soil, food, and microbiology testing.

On the sustainability front, we offer Life Cycle Assessment (LCA), Environmental Product Declarations (EPD), through our international collaboration with EPD-Norway's epd-global, Digital Product Passports, PEP Eco passport, ESG and BRSR reporting, GRI disclosures, CDP reporting, EcoVadis ratings support, Green Building Certification, and CBAM compliance advisory.

Our carbon and climate technology vertical develops carbon offset projects, carbon trading strategies, MRV systems, and I-RECs, supporting clients on their journey toward measurable Net Zero outcomes.

With 3,000+ LCA studies, 90+ EPDs published, 150+ carbon footprint projects, and ISO 9001, 14001 and 45001 certifications.

We are proud to have hosted India's 1st EPD Conference, reflecting our commitment to advancing science-based environmental transparency across industries.

Bioreme Bioculture - Aerobic and Anaerobic ETP/STP, Lake bioremediation & Solid waste management.
Odour control Solution
Render - Rendering Industry
Sanitation - Organic Cleaning Product

COMPANY PROFILE:

Greencraft Labs is a biotechnology company specializing in advanced bioculture, microbial and bio-based solutions for wastewater treatment, waste management, odour control and sanitation. With over 15 years of experience and dedicated R&D and manufacturing capabilities in Pune, India, the company develops specialized microbial formulations designed to improve biological treatment processes and address challenging environmental applications.

The company's flagship BioReme range includes application-specific biocultures for ETPs, STPs, industrial wastewater, septic tanks, biotoilets, composting, textile and pharmaceutical effluents, nutrient removal and other waste-management applications. BioReme formulations use selected microbial strains to support the degradation of organic pollutants, improve biological treatment performance and help manage wastewater-related odour.

Greencraft Labs also offers specialized odour-control Patented technologies, including BioReme Odoz and Bio Render, designed to neutralize difficult odour compounds such as hydrogen sulphide, ammonia, mercaptans and other malodorous compounds. These solutions are used across wastewater treatment, waste management, composting, food processing, rendering and other industrial applications.

Its Organic Sanitation range brings biotechnology into everyday hygiene through bioactive toilet cleaners, floor cleaners, multi-surface cleaners and urinal solutions. These products combine biosurfactants, enzymes and beneficial microorganisms for effective, environmentally conscious sanitation and odour management.

Through continuous R&D, specialized formulations and manufacturing expertise, Greencraft Labs is building a comprehensive portfolio of bioculture, odour-control and sanitation solutions for cleaner, healthier and more sustainable environments.

BALANCE

With BALANCE 's data-driven analysis, you can reduce leaks in your water network by up to 35% – efficiently and without costly pipe replacement investments. This increases operational reliability, minimizes water losses, and sustainably optimizes your entire water network.

i2O pressure management

Pressure management technology for water distribution networks, part of our portfolio since June 2026.

SONICO® NANO

Our SONICO® NANO domestic water meter offers the highest precision up to R2000 in nominal diameters from DN15 to DN40. With a service life of up to 20 years, it detects even the smallest leakage currents, protects the supply network from contamination, and impresses with its high installation flexibility and seamless integration into communication systems in LoRa/wMBus dual mode.

SONICO® EDGE

With the SONICO® EDGE we have developed a highly precise flow measurement system for drinking water, industrial water, and process water. The product concept is modular and flexible in terms of its overall mechanical design and communication capabilities. SONICO® EDGE is equipped with the latest GWF 4D Technology®.

DUCTUS

Our DUCTUS solution delivers highly precise flow measurements – even with disturbed or highly fluctuating flow rates. Ideal for hydropower, flood control, large supply lines, and industrial applications. Multiple acoustic measurement paths and advanced signal processing guarantee maximum accuracy and reliability.

Q-Eye Radar

Our Q-Eye Radar solution enables non-contact flow measurement of wastewater in open channels, sewers, and partially filled pipes. It measures reliably even at low velocities and ensures efficient, long-lasting monitoring.

Q-Eye PSC

Our Q-Eye PSC solution reliably measures both full and partially filled pipes as well as open channels with flow depths from 40 to 1500 mm. Q-Eye PSC delivers precise measurements, even under challenging conditions, thus supporting you in efficient control, monitoring, and planning.

INFINIO®

Cloud platform for measurement, operation and service. INFINIO® manages meter data, users and keys, connects data flows to external systems and provides analysis modules such as BALANCE in one place.

COMPANY PROFILE:

GWF is a Swiss family-owned company from Lucerne, founded in 1899. We help build a water-positive world powered by sustainable energy. With experts worldwide, we deliver projects end to end: survey, design, installation and commissioning.

Highly reactive nanomaterials for fast and efficient elimination of dissolved metals and organic contaminants from industrial/wastewater

Company Profile:

Global Water Nanotechnologies (GWN) is a technological spin-out of the research institute CATRIN of Palacký University in Olomouc, Czech Republic, focused on the commercialization of an innovative patented nanotechnology-based solutions for a fast and highly efficient treatment of heavily contaminated waters. The basis of the solution are effervescent tablets containing iron nanoparticles (nZVI), which enable rapid, efficient and environmentally friendly decontamination of water from heavy metals, organic compounds and other contaminants. This technology represents a significant shift from commonly used methods thanks to its simple application, low energy demands and ability to act even in challenging conditions. We partner with industries in electroplating, mining, chemical manufacturing, wastewater treatment, and emergency response to deliver custom solutions for water remediation.

PRODUCTS ON DISPLAY:

Ganiga builds food waste intelligence for the people who feel it most. Hooolyfood, its computer vision software, uses camera-captured images and an edge AI module to measure food waste in real time, turning an invisible cost into clear data. Its dashboard supports waste tracking and compliance reporting, helping kitchens cut losses and prove progress. Born from Ganiga's smart bins, which already equip an entire airport, the platform combines proven hardware with recurring software, giving restaurants measurable savings, reliable evidence for audits, and a practical path toward Europe's 2030 targets.

COMPANY PROFILE:

Ganiga is a food waste intelligence company based in Pisa, Italy. It develops AI-powered solutions that help businesses see, measure and reduce waste. Its smart bins made it the first startup worldwide to equip an entire airport, proving the robustness of its technology in demanding, high-traffic environments. In November 2025, Ganiga launched Hooolyfood, a computer vision software that quantifies kitchen waste in real time for SME restaurants. With a growing presence in Europe, a strategic eye on the US market, and a product aligned with the EU's 2030 reduction targets, Ganiga turns sustainability into measurable results.

PRODUCTS ON DISPLAY:

GL-Turbo is High Performance Centrifugal Turbo Air Blower for aeratiom system suitable to be efficient solution for domestic and industrial treatment plants.

COMPANY PROFILE:

Founded in Boston, USA, GL-TURBO is a global business with manufacturing plants in USA, China and Denmark. Sales and service representatives are located in over 30 countries.
In June of 1998, the predecessor of GL-TURBO was founded with a goal to make the world's best valves and blowers for wastewater treatment.
In June of 2006, the design of the GL Series integrally geared turbo blower was formally started with a team of industry experts in Boston with the sole focus to have the most efficient product in the market.
In May of 2008, the blower business was spun off as a separate company to solely focus on design and manufacturing of turbo blowers and the name GL-TURBO was adopted.
In March of 2015, GL-TURBO celebrated the manufacturing of its 200th turbo blower.
In October of 2015, GL-TURBO set up GL-TURBO International, ApS in Denmark to manage all GL-TURBO businesses outside China and the Americas.
In November of 2015, GL-TURBO formed a formal partnership with Lone Star Blower, Inc. in Houston, Texas USA to manage all GL-TURBO sales, marketing and manufacturing in the Americas.
In January of 2016, GL-TURBO China launched a successful IPO on the third board in China.
In April of 2016, GL-TURBO unveiled LS Series multistage centrifugal product line with design collaboration from Lone Star Blower, Inc.
In September of 2016, GL-TURBO Houston was created as a USA manufacturing facility in conjunction with Lone Star Blower, Inc. to offer a full manufacturing, packaging and testing of GL-TURBO products and services.
In January of 2017, GL-TURBO achieved its 300th unit sold.

Hebei LanXin Metal Products Co., Ltd. , located in Anping East Industrial Park, is a professional entity enterprise integrating the production, operation and development of all kinds of wire mesh demister, knitted mesh, crimped wire mesh and all kinds of stainless steel wire mesh.

For a detailed introduction, you could go to our website, thank you!

www.wirecloth-mesh.com & www.knitted-fabric.com

COMPANY PROFILE:

We have the strongest professional knowledge and technical ability in gas-liquid separation screen and screen demister. Over the years, the company has become a direct and indirect supplier to many large petrochemical enterprises, chemical industrial zones, famous tower manufacturers, large environmental protection management enterprises, automobile manufacturing industry and relevant supporting enterprises at home and abroad.

We also have a large number of loom varieties and specifications, as well as various professional equipment and testing equipment to meet the needs of different users. The metal materials used in the products are tested by spectrometer (EDX), and various special materials and corrosion-resistant materials are submitted to the authoritative department for testing and analysis and provide reports, which effectively ensures the safety performance and durability of Huian products. Since 2002, we have continuously passed ISO 9001-2000 international quality management system certification. All kinds of wire mesh demisters have won many customers for their durability, low price, accurate material and excellent production.

Over the years, with the support and help of many customers, friends, suppliers and peers, our company has made considerable development and progress. The depth and breadth of our products have been greatly expanded. Here, We would like to express my heartfelt thanks to all the friends who have always supported us, and look forward to growing up and seeking common development with you.

Our company has always pursued the business core of "integrity", and the business philosophy of "pioneering and enterprising, integrity management, mutual benefit and common progress". Good reputation is the foundation of our

business. Over the years, we have won customers in many fields such as petroleum, chemical industry, environmental protection, automobile, ship, railway, metallurgy, aerospace, military, machinery, medicine and construction. In the future, we will continue to strive to forge ahead and provide high-quality products and services to win the trust and support of more users. Looking forward to working with you!

PRODUCTS ON DISPLAY:

1.8-in-1 Multifunctional Tester: A portable water quality tester integrating eight functions into one device. It is a patented product with full certification, suitable for applications such as drinking water testing, the aquarium industry, hydroponics, and swimming pools.

2.Water Purifier PCB : A wide range of models available; supports OBM, ODM, and OEM services. Backed by a professional R&D team, we offer options featuring Bluetooth connectivity and AI capabilities.

COMPANY PROFILE:

We are a high-tech original manufacturer with three wholly-owned factories located in Dongguan, Ningbo and Shangqiu. Boasting nearly 20 years of professional experience, we focus on the R&D, production and sales of water, soil and air testing instruments.

We implement automated integrated production to ensure fast delivery and stable supply capacity. With more than 50 domestic and international patents, we offer comprehensive customization and OEM/ODM services. Our products hold ISO9001, BSCI, CE, RoHS and other authoritative certifications, fully meeting global market access and customs clearance requirements. Committed to one-stop procurement solutions, we strive to be your trusted long-term partner.

9. Network Control (SCADA/EMS/DMS)
10. Energy Portfolio Management
11. Asset & Work Management
12. Cybersecurity Solutions
13. Grid Advisory Services
14. Maintenance & Modernization

COMPANY PROFILE:

Hitachi Energy is a global technology leader in electrification, powering a sustainable ener-gy future with innovative power grid technologies with digital at the core. Over three billion people depend on our technologies to power their daily lives. With over a century in pio-neering mission-critical technologies like high-voltage, transformers, automation, and power electronics, we are addressing the most urgent energy challenge of our time – bal-ancing soaring electricity demand, while decarbonizing the power system. With an unparal-leled installed base in over 140 countries, we co-create and build long-term partnerships across the utility, industry, transportation, data centers, and infrastructure sectors. Head-quartered in Switzerland, we employ over 50,000 people in 60 countries and generate rev-enues of around $16 billion USD.

PRODUCTS ON DISPLAY:

Hach offers a comprehensive range of water quality monitoring solutions designed to help municipal and industrial customers improve efficiency, optimize treatment processes, and meet regulatory requirements.

For drinking water and desalination, our solutions enable reliable monitoring of critical parameters such as turbidity, chlorine, pH, and conductivity.

In wastewater treatment, Hach technologies support better process control through accurate monitoring of dissolved oxygen, suspended solids, and nutrients.

For industrial applications, including power generation and chemical processing, our advanced analyzers help protect critical equipment, reduce downtime, and improve operational performance.

Hach also provides innovative laboratory and portable solutions, including spectrophotometers, turbidimeters, portable meters, automated analyzers, and ready-to-use reagents, making water analysis faster, simpler, and more reliable. Backed by technical expertise and comprehensive services, Hach helps customers make informed decisions and manage water quality with confidence.

COMPANY PROFILE:

Hach is a global leader in water quality analysis, providing reliable and innovative solutions for more than 90 years. Our comprehensive portfolio includes laboratory instruments, online analyzers, sensors, reagents, software, and services designed to help customers measure and manage water quality with confidence. Across the Middle East and North Africa, Hach supports municipal and industrial customers in drinking water, wastewater treatment, desalination, power generation, and other industrial applications.

Through advanced technology, local expertise, and a strong network of channel partners, Hach helps customers simplify water analysis, optimize processes, meet regulatory requirements, and protect critical assets.

At Hach, our mission is to make water analysis better, faster, simpler, and more reliable.

PRODUCTS ON DISPLAY:

Group products in 1 place. Valves and Fittings, Repair Solutions, Live Solutions

COMPANY PROFILE:

Hawle Austria Group – Made for Generations

Founded in 1948 by Engelbert Hawle in Vöcklabruck, Austria, the Hawle Austria Group has developed from a pioneering family-owned enterprise into an internationally recognized manufacturer of high-quality valves, fittings and engineered solutions for water infrastructure.

With a heritage built on innovation, reliability and long-term quality, the Group has continuously expanded its technological capabilities and international presence through organic growth and strategic acquisitions.

Today, the Hawle Austria Group brings together established specialist brands, including Hawle, Erhard, Özkan, Nova Siria and Krammer, offering complementary expertise across water transmission, distribution, wastewater applications, pipeline rehabilitation and engineered connection systems.

Combining Austrian engineering heritage with international manufacturing expertise, the Group remains committed to delivering durable, technically reliable and sustainable solutions for water infrastructure worldwide.

These five brands provide complementary product portfolios serving water transmission, distribution, pipeline rehabilitation, and engineered infrastructure applications.

1. Hawle Austria | Founded 1948

The original Group brand, known for resilient-seated gate valves, Combi valves, hydrants, air valves, tapping saddles, pipe fittings and Synoflex connection systems. Its strength is reliable water distribution and network connection technology.

2. Erhard Germany | Founded 1871 | Joined 2023

Originating in Heidenheim, Germany, Erhard has a heritage extending back more than 150 years. It specializes in large butterfly valves, gate valves, control valves, air valves, knife gate valves and customized solutions for water and wastewater systems.

3. Özkan Turkey | Founded 1983 | Joined 2011

Established in Izmir, Özkan began with steam and process valves before expanding into butterfly valves, non-return valves, needle valves, air release valves and tailored valve solutions for water transmission systems.

4. Nova Siria Italy | Founded 1932 | Joined 2015

Based in Roletto, Italy, Nova Siria specializes in large-diameter couplings, flange adaptors, dismantling joints, repair systems and custom-engineered pipeline connections, including solutions for challenging installation conditions.

5. Krammer Hawle brand | India manufacturing expansion 2023

Krammer is part of Hawle's water infrastructure product portfolio. Hawle's 2023 acquisition of McWane Kennedy Valve India's manufacturing assets enabled production under the Krammer brand at the Coimbatore facility, serving water distribution requirements.

The company's core products are BDD (Boron Doped Diamond) electrode materials and related systems, including plate, foam, and particle electrodes, as well as lab-scale test equipment, integrated pilot-scale equipment, and full engineering systems for the electrochemical oxidation treatment of complex and refractory industrial wastewater. In addition, based on BDD electrochemical synthesis of high-concentration ozone water, the company has developed ozone water generator modules for disinfection and sterilization applications.

COMPANY PROFILE:

Hunan New Frontier Technology Co., Ltd. was founded in March 2019 and is headquartered in Changsha, Hunan. The company's technology originates from the Chemical Vapor Deposition Technology and Thin Film Materials Research Laboratory at Central South University, established in 1999, which has over 20 years of experience in developing novel functional materials for optical, electrical, acoustic, thermal, and mechanical applications. Starting with the R&D and production of boron-doped diamond (BDD) semiconductor functional materials, the company engages in the research, development, production, and application of semiconductor materials, eco-health materials, and opto-electro-acoustic-thermal-mechanical functional materials through CVD technology. It is a technology-based enterprise that has achieved breakthroughs in the manufacturing of large-size, large-area diamond electrodes in China. The company's achievement "Key Technologies and Complete Equipment for Diamond Electrode Preparation" passed a provincial-level third-party appraisal and was rated as "internationally advanced" by seven authorities (including three academicians) in materials, environmental, and mineral disciplines.

Cartridge Filters
Filtration Racks
Pressure Vessels

COMPANY PROFILE:

Impact Filtration® is a US-based engineering company headquartered in Winter Park, Florida, specializing in high-performance infrastructure for water treatment and desalination systems.

Impact Filtration works with engineers, EPC contractors, and infrastructure developers to design and deliver critical components of modern water plants, including FRP pressure vessels, advanced cartridge filtration systems, modular rack architectures, and non-metallic composite solutions.

Through its engineering approach, Impact Filtration is advancing a new industry model — evolving from a traditional component supplier into an Infrastructure Architect, helping customers build water systems designed for reliability, longevity, and Water-Positive outcomes.

As the exclusive authorized representative of ROPV outside China and a strategic partner to CNBM International Corporation, Impact Filtration connects world-class composite engineering with the global infrastructure projects shaping the future of water.

Ingram Micro is the authorized distributor for over 100 software and hardware vendors across cloud computing, cybersecurity, networking & communication, physical security, servers & storage, cabling, point of sale solutions, AI solutions, software & virtualization, and training & professional services. Our detailed product portfolio can be viewed here: Portfolio Contact List - Ingram Micro Gulf

COMPANY PROFILE:

Ingram Micro is a leading technology company for the global information technology ecosystem. With the ability to reach nearly 90% of the global population, we play a vital role in the worldwide IT sales channel, bringing products and services from technology manufacturers and cloud providers to a highly diversified base of business-to-business technology experts.

Through Ingram Micro Xvantage™, our AI-powered digital platform, we offer what we believe to be the industry's first comprehensive business-to-consumer-like experience, integrating hardware and cloud subscriptions, personalized recommendations, instant pricing, order tracking, and billing automation. Xvantage™ is designed to eliminate the friction of doing business in IT and allows our customers to have a more insightful experience both buying and managing technology. We also provide a broad range of technology services, including financing, specialized marketing, and lifecycle management, as well as technical pre- and post- sales professional support provided by engineers who collectively hold thousands of current technical certifications. In addition, we are fully committed to being a global steward with world-class ESG practices. Learn more at www.ingrammicro.com.

COMPANY PROFILE:

About Inter Equipment

Established in 1989, Inter Equipment is a leading industrial supply, engineering, and procurement solutions provider delivering products and services to customers across the Middle East and global markets. With access to over 1 million products, partnerships with 7,000+ international brands, and a presence spanning 100+ countries, the company has become a trusted sourcing partner for major industrial, infrastructure, energy, and government organizations.

Products & Services

Inter Equipment operates through specialized divisions covering:

1. Oilfield & Pipeline Equipment
2. Industrial & MRO Supplies
3. Material Handling Equipment
4. Plant, Machinery & Vehicles
5. Welding Equipment & Consumables
6. Electrical & Electronics Equipment
7. Power Generation Solutions
8. Building Materials Supplies

9. Safety & Security Equipment
10. Hospital & Hospitality Supplies
11. Engineering, Fabrication & Production
12. Equipment Service Center
13. Flow Meter Service & Calibration Center
14. Valve Automation Center
15. Turbine Services

Smarter Sourcing. Trusted Supply

Our **SupplyApp.com** connects critical industries directly with trusted manufacturers, simplifying the traditional supply chain while preserving what matters most—quality, compliance, competitive value, and commitment to delivery.

What Sets Us Apart

1. One vendor convenience
2. Competitive pricing
3. Technical product support
4. Quality guaranteed
5. Commitment to safety
6. Supply chain expertise
7. Reliable delivery on time.
8. Ultimate customer experience

Trusted by Industry Leaders

Inter Equipment serves an extensive customer base across oil & gas, power, utilities, construction, manufacturing, marine, ports, aviation, healthcare, and government sectors. The company supports thousands of end users, EPC contractors, industrial operators, and multinational organizations, making it one of the region's preferred partners for industrial procurement and engineering solutions.

PRODUCTS ON DISPLAY:

- All types of rotating AC/DC electrical equipment, from low voltage to medium voltage right up to 13.8kV.
- All brands of generator/ alternators, Stamford, Caterpillar, Kato, Leroy Somer, Nidec, Marelli, GE, Baylor, WEG and others.
- Oil and gas drilling industry equipment, including, GE 752, EMD D79, Letourneau C9 Hook, N11 Hook, D6 Swing, AC4 Skidder, AC5 Boom, AC5 Jacking, AC5 Anchor winch, AC2 Raw water tower, GEB20, GEB22, VFD motors, Elmagco eddy current brakes and many others.
- Dynamic Balancing of all rotating equipment including, rotors, impellers, propellers, fans, turbines, draw works drums etc. up to 30 Tons ABRO Balancing Inc, USA.
- Ex and UL motors repaired to IEC 60079-19 (Ex'd', Ex'e', Ex 'de', Ex 'n', Ex 'p').
- Overhauling of Pumps, Gear Boxes & Compressors.
- Overhauling & rewinding of LV and MV transformers.
- Vibration analysis. Products and Services
- Thermographic surveys.
- TAN Delta & Partial discharge.
- Health assessment (i.e. ON-line & OFF-line testing) on rotating machines i.e. Motors & Pumps.
- Site Overhauling, Installation & Commissioning.
- Laser shaft alignment.
- Geometrical alignment such as straightness, squareness, leveling, flatness, bore parallelism etc. up to range of 40 Mtr.
- IN-situ balancing.
- Cryogenic Cleaning Services (Dry- ice blasting)

COMPANY PROFILE:

Intersel Dowding and Mills FZCO provides specialized repair, refurbishment, maintenance and condition-monitoring solutions for rotating electrical and mechanical equipment. We handle all types of LV and MV AC/DC rotating electrical equipment up to 13.8kV, including generators and alternators from Stamford, Caterpillar, Kato, Leroy Somer, Nidec, Marelli, GE, Baylor, WEG and other major brands.

Our expertise includes Oil & Gas drilling equipment, including GE 752, EMD D79, Letourneau C9/N11 Hooks, D6 Swing, AC4 Skidder, AC5 Boom/Jacking/Anchor Winch, AC2 Raw Water Tower, GEB20, GEB22, VFD motors and Elmagco eddy current brakes.

We provide dynamic and in-situ balancing of rotors, impellers, propellers, fans, turbines, drawworks drums and other rotating equipment up to 30 tons, supported by ABRO Balancing Inc., USA. We repair Ex and UL motors in accordance with IEC 60079-19, including Ex d, Ex e, Ex de, Ex n and Ex p.

Our services also include overhauling of pumps, gearboxes and compressors; LV/MV transformer overhauling and rewinding; vibration analysis; thermographic surveys; TAN Delta and partial discharge testing; online/offline health assessment of motors and pumps; site overhauling, installation and commissioning; laser shaft alignment; geometrical alignment up to 40m; and cryogenic cleaning (dry-ice blasting).

Intersel delivers reliable, high-quality solutions focused on equipment performance, safety and reduced downtime.

PRODUCTS ON DISPLAY:

Idroservice will display in its stand: Reverse Osmosis systems, both for brackish water and seawater, Ultrafiltration system, carbon steel filter, UV sterilization systems and domestic filters.

COMPANY PROFILE:

Founded in 1976 and headquartered in Rome, Idroservice has spent 50 years designing, manufacturing and supplying equipment, components and chemicals for primary water treatment. Our Italian plant brings together product assembly, a metal fabrication workshop and a chemical blending unit. From there we produce reverse osmosis systems, UV sterilizers, ultrafiltration units, softeners, filtration and demineralization plants, as well as our Nytra Chemical line of antiscalants, membrane cleaners and anti-legionella treatments. We work exclusively B2B and support installers and water treatment specialists in the hospitality, healthcare, food & beverage, pharmaceutical, industrial and residential sectors. Customers rely on our pre-sales engineering, design assistance and after-sales technical support.

In January 2026 Idroservice was acquired by ANECO Middle East, a group based in the United Arab Emirates, opening a new chapter in the company's history. With ANECO's support, Idroservice is expanding into international markets and building on its expertise in desalination: reverse osmosis solutions for brackish water and seawater, where water scarcity makes reliable treatment essential. We combine five decades of Italian engineering know-how with a global outlook, and we aim to be a trusted partner wherever high-quality water is needed.

GRE / GRP / GRV PIPE & FITTINGS

U-PVC Pipes

HDPE PIPES

COMPANY PROFILE:

INTRODUCTION

Although the world's infrastructure has developed a lot during the past decades, still thousands of kilometers of water and sewer pipes needing rehabilitation due to corrosion. Corrosion is mainly caused by:

Internally unprotected concrete sewer pipes are rapidly aged by the presence of sulfuric acid in sanitary sewer systems, which are generated through the hydrogen sulfide cycle.

Externally, soil conditions and stray electrical currents will weaken underground pipes. Metallic pipes can corrode when placed in poorly aerated, poorly drained soils of low resistivity. The presence of sulfate – reducing bacteria will accelerate this deterioration.

These problems can be radically reduced, if not eliminated, by the cautions selection of materials resistant to corrosion, or the inclusion of corrosion protection systems into pipeline designs. Unfortunately, in hopes of cost saving, agencies will often forego the necessary corrosion protection, only to learn a few years later of the consequences. Corrosion is not a reversible process.

The solution to this situation is very easy....

Inter Pipe Factory® (Glass Fiber Reinforced Polyester Pipes)

Inter Pipe Factory® certified with ISO 9001:2008, 14001:2004, OHSAS 18001:2007, WRAS (Water Regulations Advisory Scheme), Kitemark for GRP and HDPE, etc... and also approvals from ministries and municipalities all over U.A.E.

COMPANY PROFILE:

IFG Successfully established operations in Dubai in 2003 & expanded into Abu Dhabi in 2008 with a total Manpower now starting at 3200+.

Major Middle East Contractor for Foundation, Retaining Walls, Tunnelling and other Geotechnical and Engineering Works, utilizing:

* Continuous Cased Flight Augers (22 CCFA Rigs)
* Diaphragm Walls (18 Cutter Machines)
* Bored Foundations (35 Piling Rigs)
* Ground Anchors (10 Anchoring Rigs)
* Micro Tunnelling – 400mm to 3,000mm I.D. (29 Tunnel-Boring Machines)
* Directional Drilling (6 HDD Machines)
* Micro-Piles (2 Rigs)
* CIPP Sewer Renovation Groups
* Sheet Piling
* Auger Boring
* Pipe Jacking (manual)

* Marine Piling

Construction Key Achievements:

* 850m long, 2.4m diameter Micro-Tunnel Drive in Dubai Airport.
* 60m diameter x 70m deep Shafts in Dubai and Abu Dhabi.
* 740m long 1.8m dia. highway and railway crossing
* 430 long 1.2m dia highway interchange crossing
* 600m sea channel crossings
* Sewerage Network Execution
* Potable Water Network Execution
* Construction of Basements for many Prestigious Tower in Central Dubai, including Dubai Opera.
* Piled foundations up to 90m deep.

Cable tray、cable ladder、structure channel、wire mesh cable tray、cable trunking and fittings.

COMPANY PROFILE:

HDMANN is a premier industrial enterprise at the forefront of the global infrastructure sector, specializing in the integrated Research & Development, advanced manufacturing, and international distribution of high-performance Mechanical and Electrical management solutions. Headquartered in the strategic global hub of Singapore and supported by a specialized 20,000㎡ automated production facility in Yangzhong, Jiangsu, we leverage over a decade of technical expertise to deliver mission-critical support systems for the world's most demanding environments.

Our comprehensive portfolio—encompassing Cable Tray Systems, Cable Ladder Systems, Strut Channel Support Systems, and Wire Mesh Cable Trays—is designed for structural resilience and operational efficiency. Every component is engineered to surpass the most stringent international standards, including NEMA, IEC, UL,CE, ABS,BV,DNV, ensuring seamless compliance and safety across diverse jurisdictions. To meet the specific challenges of varying industrial topographies, we offer a sophisticated range of materials and finishes, from Hot-Dip Galvanized and Stainless Steel to specialized FRP and Aluminum, specifically curated for maximum corrosion resistance and load-bearing capacity.

Beyond our manufacturing prowess, HDMANN serves as a strategic technical partner. We empower complex projects through precision 3D visualization, BIM-integrated modeling, and comprehensive engineering support. Our philosophy transcends the traditional supplier-client relationship: we deliver integrated installation solutions tailored for hyper-scale data centers, offshore oil and gas platforms, renewable energy plants, and intelligent civil infrastructure. By combining industrial-scale production with bespoke technical consulting, HDMANN provides the structural backbone necessary for the future of global energy and infrastructure development.

Dissolved Air Flotation
Polymer Preparation Device
Integrated Wastewater Treatment Plant
Incineration System
MBR Membrane

COMPANY PROFILE:

As a leading environmental technology provider, we specialize in comprehensive solutions for industrial wastewater treatment, flue gas, and solid waste management. Our complete product portfolio features cutting-edge technologies including:

Advanced Water Treatment Systems:

Integrated wastewater treatment plants
Intelligent chemical dosing systems (for flocculants, pH adjusters, etc.)
High-efficiency fine bubble disc aerators (EPDM & silicone membranes)
Professional bio-enzymes/bacterial preparations (for COD/BOD/NH3-N removal)
Advanced oxidation processes (Fenton, electrochemical)
Biological treatment systems with specialized bio-media
Dissolved air flotation (DAF) clarifiers

Air Pollution Control:

Regenerative Thermal Oxidizers (RTO)
Baghouse filtration systems
Biological deodorization units
Ozone destruction catalysts

Waste Treatment Solutions:

Rotary kiln incinerators
Thermal desorption systems

With 20,000m^2 manufacturing facilities and in-house R&D capabilities, we deliver customized solutions meeting international environmental standards. Our ISO9001-certified production ensures reliable performance across industries including chemical, pharmaceutical, petrochemical and municipal sectors.

At this exhibition, we showcase our latest innovations in:

High-oxygen-transfer fine bubble aeration systems
Specialized compound microbial agents for industrial wastewater
Energy-efficient RTO systems with heat recovery
Compact wastewater treatment solutions for space-limited applications

We welcome partners and clients to discuss tailored environmental solutions at our booth [Booth Number]. Our technical team is available for live product demonstrations and consultation on:

✓ System design optimization
✓ Retrofitting projects
✓ Turnkey installations
✓ Operation troubleshooting

PRODUCTS ON DISPLAY:

John Cockerill will present 2 business lines activities :

1. John Cockerill Hydrogen

With decades of experience in hydrogen technologies, John Cockerill Hydrogen is a world leading electrolyzer manufacturer with a broad offering from power source to gas separation, purification and balance of plant. The company designs, builds and maintains pressurized alkaline electrolyzers and has delivered more than 80 stacks of 5MW since 2018, including the world's two largest projects (100+ MW) in operation today. Through its existing manufacturing footprint and its planned global capacity ramp-up, John Cockerill Hydrogen is uniquely positioned to lead the fast-growing green hydrogen production market with specific focus on industrial-scale and utility-scale projects.

2. John Cockerill Hamon (formerly Hamon) specializes in industrial cooling systems and water-cooling infrastructure.

Primary Offerings

- Wet Cooling Towers: Hyperbolic (natural draft), mechanical draft (FRP/RCC), hybrid plume-abated towers, and custom cooling cells for power, petrochemical, and heavy industry.
- Dry Cooling Systems: Air-cooled condensers (ACCs) and indirect dry systems designed for water-scarce regions.
- Components: Thermal fill media, high-efficiency drift eliminators, water distribution systems, and air louvers.
- Services: Thermal performance audits, structural repairs, capacity retrofits, and turnkey engineering (EPC).

Following its acquisition by John Cockerill, the company supplies global energy and industrial markets.

COMPANY PROFILE:

Driven since 1817 by the entrepreneurial spirit and thirst for innovation of its founder, the John Cockerill Group develops large-scale technological solutions to meet the needs of its time: facilitating access to low carbon energies, enabling sustainable industrial production, preserving natural resources, contributing to greener mobility, enhancing security and installing critical infrastructures.

Its offer to companies, States and communities consists of services and associated equipment for the sectors of energy, defence, industry, the environment, transports, and infrastructures.

With over 8,000 employees, John Cockerill achieved a turnover of € 1,417 billion in 2024 in 28 countries, on 5 continents.

PRODUCTS ON DISPLAY:

(i) Pipeline inspection robots; (ii) Pipeline cleaning robots; (iii) Confined space dredging & desilting robots.

COMPANY PROFILE:

Jal Bots Pvt. Ltd. (JBPL) is a deep-tech company specializing in innovative, unmanned robotic solutions engineered for hazardous, humanely inaccessible, and live operational environments. In partnership with original equipment manufacturer (OEM) DSI Robotics, a pioneer with two decades of expertise in underwater and underground robotics, JBPL provides comprehensive conditional assessment and asset maintenance infrastructure services with strictly zero man-entry.

Core Offerings & Capabilities

1. **Advanced Pipeline Inspection:** Features a versatile fleet of specialized crawlers and floating Remotely Operated Vehicles (ROVs) designed to navigate varying pipe diameters, materials, and lengths.
2. **Robotic Dredging & Cleaning:** Custom-built ROVs engineered to extract silt, bio-growth, and sludge from confined sumps, crude oil & chemical tanks, operational canals, and pipeline networks without stopping live fluid flows.
3. **Multi-Sensor Integration:** Robotic platforms seamlessly integrate high-definition video, sonar mapping, laser profiling, and non-destructive testing (NDT) instruments for precise physical measurements and internal joints & defects mapping.

Target Sectors

JBPL serves high-risk municipal and industrial infrastructure networks globally, including:

1. **Water & Utilities:** Desalination networks, wastewater, open-water reservoirs, and drainage pipelines.
2. **Energy & Petrochemicals:** Power plants, oil refineries, Gas-Oil Separation Plants (GOSPs), and chemical plants.
3. **Marine:** Shipyards, subsea infrastructure, and seawater intake systems.

The Value Proposition

1. **Zero Shutdown, No Revenue Loss:** JBPL's rugged, battle-tested solutions perform critical inspections and desilting while assets remain fully live, avoiding costly downtime.
2. **Verified Quality Control:** Delivers comprehensive, tamper-proof pre- and post-intervention data records.
3. **Uncompromised Safety:** Completely eliminates human exposure to toxicity and hazardous confined spaces, matching the highest environmental and occupational safety metrics.

COMPANY PROFILE:

Jiangsu Hengwei Environmental Protection Equipment Co., Ltd. is located in Wanshi Town, Yixing City, Jiangsu Province. Since 1999, the company has specialized in the research, design, manufacturing, installation, and commissioning of non-standard water treatment equipment. It is a specialized wastewater treatment equipment manufacturer. After years of accumulation, the company boasts strong technical capabilities, advanced production facilities, and a sound quality assurance system. The company has always focused on environmental governance and has now become a registered capital of 58 million yuan, serving as a comprehensive service provider for complete sewage treatment.

Since its establishment, the company has always adhered to the product philosophy of "Technology changes life, harmony and sharing of nature," continuously innovating. Over the years, it has established collaborative relationships with relevant domestic research institutions to develop various new water environment treatment products tailored to user needs, obtaining related patents. Its application fields cover five areas: municipal sewage, river management, reclaimed water reuse, pure water preparation, and sludge treatment.

The company currently holds a series of qualifications, including Level 2 professional contracting for building electromechanical installation engineering, Level 2 professional contracting qualification for environmental protection engineering, construction safety production license, and self-operated import and export business rights. It has passed certifications for ISO9001 quality management system, ISO14001 environmental management system, and OHSAS18001 occupational health and safety management system, and has been rated as a AAA credit enterprise for consecutive years.

The company provides services for multiple projects, with products distributed throughout the country. The company's products have passed inspections by authoritative national institutions. The company adheres to the principle of putting users first, organically combining years of accumulated experience in the design, manufacturing, installation, and commissioning of water treatment equipment with user needs, providing the best project solutions and implementing comprehensive, high-quality after-sales service.

Hengwei Environmental Protection will continue to make greater contributions to environmental protection. We warmly welcome friends from all walks of life to visit and guide us, and work together to create a better tomorrow!

COMPANY PROFILE:

ABOUT JINBO VALVE GROUP

CCB Valve Graup, a leading global provider of high-end valve solutions, was founded in 1995 with a registered capital of 20.77 million yuan. Its headquarters is located in Yuhuan, the capital of valves in China. It is the earliest growing valve manufacturing group in China, and has five major manufacturing bases under its umbrella. The headquarters covers an area of 20 acres in Yuhuan, Zhejiang. 15 acres of land in Quanzhou. Fujian. 18 acres of land in Linyi, Shandong. 13 acres of land in Foshan, Guangdong, and 16 acres of land in Tianjin. The company currently has five major industrial sectors: cast iron, cast steel, stainless steel, industrial valves, civilian copper valves, HVAC intelligent control series, intelligent water meter series,and copper handicraft series. In 2017. the stockreform was completed. After years of innovative development. the company has always adhered to the core industry of mid to high end valves, spanning five major industrial clusters including water supply and drainage, fire pratectian, gas. HVAC, petrochemical, and pipe fittings. It has formed a group enterprise with a diversified development of the entire product chain based on valves. At present, there are more than 530 collaborative enterprises that cooperate with more than 2000 mainstream group companies worldwide. The products are sold in more than 120 Countries and regions around the world, such as Germany. the United Kingdom.France. Italy. etc. They are widely used in major domestic and foreign engineering projects such as Pudong Airport, Daxing Airport, Shanghai World Expo, National Sports Center, CCTV, Nanjing Olympic Center and Guangzhou Asian Games venues, Rockefeller Center in the United States, Lindhoff Castle in Germany, and Birmingham Central Library in the United Kingdom.

The company has developed rapidly. with over 2300 employees, including over 400 in Yuhuan, Zhejiang, over 500 in Quanzhou, Fujian, over 500 in Linyi, Shandong. over450 in Foshan, Guangdong. and over 450 in Tianjin. The annual growth rate exceeds 206. In2023. the sales revenue of copper valves reached 550 million yuan.cast iron and steel valves reached 600 million yuan. water meters reached 8o million yuan, copper handicrafts reached 220 million yuan, pipelines reached 550 million yuan, and the total sales of the group reached 2billion yuan. Has won more than 50 national, provincil, and industry association honors. It is a national AAA level contract abiding and trustworthy unit, vice president unit of the All China Federatian of Industry and Commerce Mechanical and Electrical Chamber of Commerce, national high-tech enterprise, drafting unit of national new national standards, natianal testing center, Zhejiang technalogy-based small and

medium-sized enterprise, Zhejiang innovative small and medium-sized enterprise, Zhejiang specialized and new small and medium-sized enterprise, Zhejiang High tech Research and Development Center Taizhou Gazelle Enterprise. Yuhuan Yulong Enterprise, etc.

COMPANY PROFILE:

KEL Watertech is a global provider of advanced water and wastewater treatment solutions, delivering innovative, sustainable, and reliable technologies to industries across the world. With over 4,000+ installations globally, KEL has built a strong reputation for engineering excellence, technical expertise, and dependable treatment solutions.

KEL offers comprehensive turnkey solutions covering the complete water and wastewater treatment cycle, including Water Treatment Plants (WTP), Sewage Treatment Plants (STP), Effluent Treatment Plants (ETP), Reverse Osmosis (RO), Zero Liquid Discharge (ZLD), clarification, sludge management, and other specialized treatment systems. Our solutions are designed to optimize treatment efficiency, maximize water recovery, reduce operating costs, and support sustainable water management.

From concept development, process design, detailed engineering, and equipment manufacturing to installation, commissioning, and after-sales support, KEL manages every stage of project execution. Our advanced manufacturing facility in North India enables us to maintain stringent quality standards and deliver robust, high-performance equipment tailored to specific project requirements.

KEL serves a diverse range of industries, including Pulp & Paper, Power, Desalination, Dairy, Pharmaceuticals, Chemicals, Food & Beverage, Municipal, and Oil Refineries. Through strategic international collaborations and a strong technical network, we continue to expand our capabilities and deliver cost-effective, customized solutions across India, the Middle East, Southeast Asia, and Africa.

At KEL, our focus remains on engineering smarter water solutions, enabling resource recovery, and creating a more sustainable future through innovative treatment technologies.

5. Spun / Meltblown Filter Cartridge
6. Pleated Filter Cartridge.

COMPANY PROFILE:

Kitten Filtration is the industrial filtration division of Kitten Enterprises Pvt. Ltd. (KEPL), Ahmedabad, operating under the FiltroUNO brand. Established in 1995, KEPL brings three decades of engineering and manufacturing experience to filtration solutions for pharmaceutical, food and beverage, chemical, water treatment and process industries.

Filter Housings and Pressure Vessels

FiltroUNO designs and fabricates cartridge filter housings and code pressure vessels to ASME Section VIII Division 1 in SS304 and SS316L. Each unit is supplied with a complete manufacturer's data report covering material identification, weld plans, inspection records and hydrostatic/pneumatic testing, ensuring full traceability for validated applications.

Filter Cartridges and Media

The range includes activated carbon block filters (including platinum-impregnated grades), depth and pleated cartridges, and sterile-grade elements for critical process streams. Carbon block products are supported by food-contact compliance documentation to FDA 21 CFR and EU Regulation 10/2011, with ICP-MS migration testing protocols.

Quality and Compliance

Manufacturing operates within KEPL's GMP-oriented quality system, with documented inspection at every stage. Products are supported by certificates of conformity, material test certificates and validation packages as required.

- Protection management solutions (PMS)
- EVM & DSM – Ensuring grid compliance and efficiency
- Comprehensive test & configuration tools under ASE
- Remote monitoring and management of Distributed Energy Resources
- Cyber Security assessment and Implementation Services
- Consultancy

COMPANY PROFILE:

Kalkitech is a leading digital transformation solution provider for the global energy and utility sector, bridging the critical communication divide between legacy Operational Technology (OT) and modern Information Technology (IT) systems.

Kalkitech enables utilities and power enterprises to modernize grid infrastructure, optimize asset performance, and integrate Distributed Energy Resources (DERs), backed by over 25 years of niche domain expertise.

COMPANY PROFILE:

Part of Kanoo Industrial & Energy, Kanoo Energy has been in operation for more than 2 decades providing end-to-end solutions for diverse industrial applications. It provides sustainable solutions to utility companies, refineries, petrochemicals, aviation and in the GCC industrial sector as a whole, through smart engineering and value-added services. It is recognized across the region for bringing customized value-added solutions through a well-developed network of reputed manufacturers worldwide and extensive relationships with international associates, supported locally by highly qualified multinational engineering staff.

The group's skilled and experienced staff provides engineered solutions that adhere stringently to local legislation, as well as fully complying with international engineering standards and best practices.

PRODUCTS ON DISPLAY:

Electromagnetic flowmeters and signal converters for water transmission, distribution and district metered areas; OPTIWAVE radar level measurement with live remote display; PipePatrol NEO pipeline leak detection with AI-supported analytics; thermal energy and chilled water metering for district cooling and data centres; ultrasonic flowmeters, pressure, temperature and water quality analysis instrumentation; digital diagnostics, calibration and verification services.

COMPANY PROFILE:

KROHNE exhibits at WETEX 2026 together with Belfast Controls, its authorised channel partner in the United Arab Emirates.

KROHNE is a global manufacturer and provider of process measurement instrumentation, measurement solutions and services. Founded in 1921 and headquartered in Duisburg, Germany, the family-owned group serves customers in over 100 countries through its own sales and service companies and representatives.

For the water and wastewater sector, KROHNE supplies electromagnetic and ultrasonic flowmeters, radar level, pressure and temperature instruments, and liquid analysis for every stage of the water cycle, from desalination and treatment through transmission, distribution and sewerage. Its PipePatrol solutions detect and locate leaks in transmission pipelines, helping utilities protect network performance and reduce non-revenue water. In energy and district cooling, KROHNE thermal energy metering supports accurate billing and efficient chilled water balance.

KROHNE Middle East and Africa, based at Expo City Dubai, supports utilities, EPC contractors and industrial operators across more than 15 markets. Belfast Controls provides local sales, application engineering, commissioning and service support for KROHNE instrumentation in the UAE. Together they bring reliable, digitally enabled measurement technologies that help utilities operate safer, more efficient and more sustainable water and energy networks.

Solar-internet control valve

COMPANY PROFILE:

KOMOTO Inc., formerly Korea Motoyama, is a leading manufacturer of advanced flow control solutions with over four decades of engineering expertise. Our product portfolio includes control valves, actuators, and customized automation systems for power plants, oil & gas, petrochemical, and water industries.

At WETEX 2025, KOMOTO proudly presents its innovative **Solar-Internet Control Valve System**, co-developed with the Korea Research Institute of Standards and Science. This system is specially designed for on-off and modulating control of water, oil, and gas pipelines in remote areas without electricity or signal lines. Powered by a compact solar panel, the system stores energy as compressed air and achieves high efficiency with minimal power consumption. An additional battery unit provides double safety assurance.

The valve system can be operated and monitored via LTE or Wi-Fi using a PC or mobile device, offering reliable, secure, and cost-effective remote control. Applications include **lake and dam water management, oil & gas pipeline control, groundwater pumping, wastewater treatment, and water spray systems**.

KOMOTO remains committed to delivering sustainable, energy-efficient, and safe valve technologies to meet the global demand for smart infrastructure solutions.

COMPANY PROFILE:

Lucy Electric is a leader in secondary power distribution solutions with over 100 years' industry experience. Specializing in high-performance medium voltage switchgear for utility, industrial and commercial applications, we enable the safe and reliable distribution of energy to homes and businesses worldwide.

Based in Thame, Oxford shire, UK, Lucy Electric also has offices in Saudi Arabia, United Arab Emirates, South Africa, China and Malaysia, Australia and manufacturing facilities in the UK, United Arab Emirates, Saudi Arabia, India ,Thailand and Brazil . Through industrial partners and contractors, we have an established international network and local track record in over 50 countries.

We are leading design and manufacture of high-performance medium voltage SF6 gas insulated RMU and oil insulated RMU for transformer or ground mounted applications. All our RMUs are suitable for both indoor and outdoor locations and can operate in even the most extreme environmental conditions.

Lucy Electric's complete range of automated electrical power distribution products provides the building blocks for a tailored smart grid solution. Incorporating best-in-class SCADA software and hardware, as well as retrofit actuators, our distribution network automation solutions are genuinely systems-engineered.

COMPANY PROFILE:

Oilfield & Industrial Equipment Supplier

We are a UAE-based supplier of **oilfield, industrial and fuel-handling equipment**, serving customers across the oil & gas, marine, construction, transportation and industrial sectors.

Our product range includes **oilfield supplies, industrial oil filters, centrifugal pumps, diesel flow meters, discharge valves, flow meters, fuel handling equipment, industrial filters, industrial hose couplings, industrial pumps and pressure control valves**.

We provide reliable equipment and components for applications such as **diesel and fuel transfer, fuel dispensing, tank trucks, fuel storage, industrial pumping systems, marine operations and oil & gas facilities**.

We work closely with customers to understand their technical requirements and provide suitable products based on **application, flow rate, pressure rating, material, connection size and operating conditions**.

Our services include **product sourcing, technical assistance, competitive quotations and supply of equipment for new projects, maintenance, replacement and OEM requirements**.

With a focus on quality, competitive pricing and responsive service, we aim to provide practical and dependable solutions for industrial and fuel-handling applications.

Tel / Fax: 19052520224
Email: zoe@massphoton.com
Website: https://www.massphoton.com/
Contact: zoe zhang

PRODUCTS ON DISPLAY:

MASSPHOTON's water module is a mercury-free UVC LED water disinfection unit adopting deep ultraviolet light at 270–280 nm. It damages the DNA and RNA of microorganisms to achieve pathogen inactivation, with a sterilization efficiency above 99.999% against bacteria, viruses and protozoa. The disinfection process requires no chemical additives and generates no harmful by-products, preserving water taste and minerals.

The module uses a straight-through flow design for direct installation into pressurized water pipelines. Its stainless steel housing and reliable sealing structure support stable operation under water pressure. Integrated sensors enable real-time monitoring and automatic on/off control. The product lineup covers a wide flow range from small residential types up to 200 LPM high-flow models for commercial and industrial use.

It supports OEM integration and customized development on dimensions, flow rates and control functions. Certified with SGS, HKCC and RoHS compliance, it serves drinking water systems, water purifiers, spas and centralized water supply projects. Compared with traditional mercury UV lamps, it features instant on/off, compact size, long service life and environmental advantages, making it a sustainable upgrade solution for water treatment.

COMPANY PROFILE:

Headquartered at Hong Kong Science Park, MASSPHOTON is a specialist in deep UVC LED semiconductor technology, founded by GaN and UV technology experts. It owns advanced manufacturing bases in Shenzhen and Jiangsu, with over 15 years of R&D experience and numerous patents in UVC chips and disinfection systems.

Focused on mercury-free physical disinfection, the company independently develops and manufactures UVC LED water disinfection modules and system solutions under its NitroSteriX™ technology. Its products achieve up to 99.999% microbial inactivation for residential, commercial and industrial water treatment, certified by SGS, HKCC and RoHS.

MASSPHOTON supplies OEM & customised services globally, replacing conventional mercury UV lamps with eco-friendly, instant-on and compact UVC LED solutions. It is dedicated to advancing safe, sustainable digital disinfection for worldwide water safety.

FloDar Open Channel Flow Measurement Sensor®,
FL900 Flow Logger,
FPI Mag® Insertion Magnetic Flow Meter

COMPANY PROFILE:

McCrometer Inc. – Smart Water & Flow Monitoring Solutions

McCrometer is a global leader in flow measurement and smart water monitoring technologies, providing innovative solutions for water utilities, wastewater networks, stormwater systems, irrigation, industrial facilities, and smart city applications.

At WETEX, McCrometer highlights four advanced technologies designed to support water conservation, operational efficiency, and digital transformation initiatives:

FloDar® AV Sensor is a non-contact radar and ultrasonic flow monitoring solution that accurately measures open channel flow, water level, and velocity without contacting the water. It is ideal for stormwater management, flood warning systems, wastewater monitoring, and environmental applications.

FL900 Series Flow Logger delivers reliable remote monitoring for sewer networks, flow studies, inflow and infiltration investigations, and collection system management. The solution provides real-time data, alarms, and cloud connectivity for improved operational visibility.

FL1500 Series Flow Logger is an advanced monitoring platform offering enhanced communication, data management, and network-wide monitoring capabilities for large utility and municipal infrastructure programs.

FPI Mag® Insertion Electromagnetic Flow Meter provides highly accurate measurement for potable water, irrigation, district cooling, wastewater, and industrial applications. Its insertion design minimizes installation costs while allowing flow measurement without service interruption.

Together, these solutions help utilities and industries improve network performance, reduce water losses, strengthen environmental compliance, and make data-driven operational decisions.

PRODUCTS ON DISPLAY:

GRP Gratings, GRP Pultrution Profiles, GRP Enclosure, GRP Ladder

COMPANY PROFILE:

Middle East Fiberglass Industry (MFG) has extensive experience in manufacturing high-quality fiberglass products and customized solutions for a wide range of industries, including Oil & Gas, Marine, Power Generation, Construction, and Water Treatment.

At MFG, we are committed to understanding and fulfilling every aspect of our customers' requirements. Our focus is on delivering reliable products and professional manufacturing services that meet the highest standards of quality, performance, and customer satisfaction.

We continuously adopt innovative manufacturing principles and efficient production practices to streamline product development and deliver premium-quality solutions in a timely and cost-effective manner. Our experienced team works closely with clients to understand their technical requirements and develop products that are practical, durable, and fit for purpose.

MFG specializes in the design and manufacture of customized fiberglass products and technical solutions tailored to specific project requirements. We believe that every client and application is unique, and therefore, the most effective solution may vary depending on operational, technical, environmental, and budget considerations.

Our approach is built around collaboration. From understanding the initial requirement to design, manufacturing, and final delivery, we work closely with our clients to identify the most suitable solution. By combining technical expertise, manufacturing capabilities, quality-focused processes, and customer collaboration, MFG strives to deliver dependable fiberglass solutions that provide long-term value.

Our primary objective is to be a trusted manufacturing partner, supporting our clients with quality products, practical solutions, and professional service at every stage of their requirements.

PRODUCTS ON DISPLAY:

- Aqueduct Resource Intelligence Platform
  - Real-time resource intelligence for physical infrastructure
  - Connects existing meters, sensors and BMS data
  - Unified visibility across water, energy, air and carbon
- Aqueduct Water Intelligence
  - Real-time water monitoring
  - Flow by zone and end use
  - Night-flow anomaly and leak detection
  - Water reuse monitoring
- Aqueduct Energy Intelligence
  - Energy consumption and demand monitoring
  - Load profiles and EUI
  - Energy anomaly detection
- Aqueduct Air Intelligence
  - CO_2, particulate, humidity and pressure monitoring
  - Live visibility into indoor environmental conditions
- Aqueduct Carbon & Compliance
  - Scope 1 and 2 carbon tracking
  - Compliance and reporting evidence
  - Audit packs and disclosure support

COMPANY PROFILE:

Milvian AI is a resource intelligence company helping buildings and infrastructure operate using live, validated resource data. Its flagship platform, **Aqueduct**, connects existing meters, sensors and BMS points to create one operating view across **water, energy, air and carbon**.

Aqueduct validates resource data, identifies anomalies, and provides dashboards and AI-powered insights for operational decision-making. Its water capabilities include flow monitoring by zone and end use, night-flow leak detection and water reuse tracking. The platform also supports energy monitoring, air-quality visibility, carbon tracking and compliance reporting.

By bringing operational data and compliance evidence onto the same validated data layer, Aqueduct helps organizations identify resource performance issues earlier, improve operational visibility and build defensible evidence for reporting and audits.

Aqueduct is designed to work with existing infrastructure, without requiring rip and replace, making it suitable for buildings and infrastructure portfolios where continuous resource visibility is needed.

COMPANY PROFILE:

MINAMOTO PUMP CO., LTD., founded in 1990, is a large-scale enterprise specializing in the R&D and manufacturing of centrifugal pumps, motors, water treatment equipment , heat exchangers and related units. At present, our company has 2 production base in Guangdong and Fujian province in China, with about 100000㎡ covering area. Our centrifugal pumps and water treatment solutions that well-known for their high quality and reliability are widely used in Circulating Water Systems, HVAC, Water Supply Systems, Environmental Protection, Agricultural Irrigation, Energy and Chemical Industry.

Based on "Quality First" production philosophy, we offer an extensive portfolio of over 50 product series and 6,000 specific models and configurations, allowing our customers to customize products tailored to their specific operating conditions and energy efficiency requirements. Moreover, We provide OEM and joint R&D services to meet the global demand for branding and technological partnership.

Currently, we operate 2 distinct brands and serve a global network of over 10,000 customers and distributors. For providing considerate services, technical and professional solutions 24 hours per day/7 days per week.

PRODUCTS ON DISPLAY:

1.Chloride Ion Online Automatic Monitor

Developed for Middle East high-salinity water. Monitors chloride ions to prevent corrosion. CE-certified, ideal for circulating and seawater desalination systems.

2.Circulating Cooling Water Precision Monitoring & Automatic Dosing Control System

All-in-one cooling tower system. Integrates smart monitoring, automatic dosing, and remote control. Effectively reduces scaling, corrosion, and resource waste. Widely used in petrochemical, power, and industrial parks.

3.Multi-parameter Measurement Sensor Package

Integrates pH, temperature, pressure transmitters, and flow meters. Provides accurate data for water treatment. Customizable and compatible with all PLC systems.

COMPANY PROFILE:

MOZHIDAO (SHANDONG) MEASUREMENT & CONTROL EQUIPMENT CO., LTD. is a national high-tech enterprise specializing in industrial water quality analysis and intelligent control. Certified with ISO 9001, ISO 14001 and CE, we offer over 30 self-developed online analyzers for parameters like pH, conductivity, dissolved oxygen, turbidity, residual chlorine, hardness, alkalinity, COD and NH_3-N. Our core systems include circulating cooling water intelligent dosing system, boiler water-steam control system, and industrial process analyzers, serving petrochemical, power, pharmaceutical, shipbuilding, metallurgy and food industries. We provide OEM, customization, and full-lifecycle services (installation, training, remote O&M, spare parts). Welcome to our Dubai booth!

General Contracting; Water and Energy Infrastructure; Roads, Bridges and Railways; and Building Construction

Company Profile

Mapa Group is an international construction group with nearly 50 years of experience delivering major infrastructure and building projects across Europe, the Middle East and Africa. Its portfolio comprises over 200 projects with a total value exceeding US$18.1 billion, spanning water, energy, transport, industrial facilities and commercial developments.

In the United Arab Emirates, the Group operates through Tier 1 contractors Mapa Insaat and Gunal Construction, foundation specialist MNG Zemtas and electro-mechanical contractor MNG Esmash, combining international expertise with local delivery capabilities. Its UAE portfolio includes the Dubai Metro Blue Line, Dubai Water Canal Sheikh Zayed Road Bridge Crossing, Dubai–Al Ain Road upgrade, Hessa Street improvements, Al Fay Road development and SLS Dubai Hotel & Residences.

Water and energy infrastructure form a substantial part of the Group's experience. Its capabilities encompass major water transmission pipelines, pumping stations, strategic reservoirs, potable water and wastewater treatment plants, dams and hydroelectric power plants. Notable references include the Ras Al Khair–Riyadh water pipeline, Juranah Independent Strategic Water Reservoir Project and water treatment facilities across Türkiye and international markets.

Through its multidisciplinary capabilities, Mapa Group supports the development of essential infrastructure that connects communities, strengthens water security and enables economic growth. The Group integrates environmental responsibility, efficient resource use and social value into its approach to project delivery, building lasting partnerships with clients, suppliers and the communities in which it operates.

Vacuum Pumps & Valves

COMPANY PROFILE:

Established in 2018, MILLENNIUM ENERGY GLOBAL GENERAL TRADING L.L.C. supplies engineered products and technical solutions to the power, oil and gas, and mining industries. We connect customers with global technology and renowned original equipment manufacturers (OEMs), supporting their requirements from initial project planning through final execution and customer support.

Our core focus is severe service valves across various types and categories, selected to address demanding operating conditions and specific customer challenges. We prioritize product quality, performance, reliability, and technology, helping customers access solutions that meet their operational needs and deliver lasting value.

We believe that dependable products must be supported by responsive service and strong customer relationships. Our approach combines technical understanding with close coordination to identify suitable products, support project requirements, and build customer confidence throughout every stage of cooperation.

The manufacturers we represent are recognized for their international standards and established reputations. We remain committed to maintaining quality while offering competitive value, ensuring that price considerations do not compromise product suitability or reliability.

Through strategic planning, industry expertise, and a global delivery approach, we aim to provide efficient supply solutions tailored to the industries we serve. Our commitment extends beyond supplying products: we seek to strengthen customer relationships through consistent support, clear communication, and a practical understanding of their needs.

Driven by customer satisfaction and innovation, MILLENNIUM ENERGY GLOBAL strives for sustainable growth and lasting partnerships. We are dedicated to adding value to every product we supply and supporting our customers in an evolving and demanding industrial marketplace.

PRODUCTS ON DISPLAY:

At WETEX 2026, Mohammad Mahdi Electronics Trading LLC will showcase Megger's comprehensive range of electrical testing, measurement and diagnostic solutions for power, water, utilities and industrial infrastructure. Featured solutions include insulation resistance testers such as the MIT525/2 and MIT1525/2, multifunction installation testers MFT-X1, low-resistance ohmmeters DLRO10/10X and MOM200/600, battery testing solutions including BITE5 and TORKEL 900 Series, earth and ground testers DET4TCR2, DET14/24C and DET2/3, cable fault and location testers TDR1000 Series and TDR2050, RCD testers RCDT300 Series, clamp meters DCM305 and DCM1500S, Multimeters AVO850 and MIT400/2 & MIT300 Series, thermal imaging cameras TC640, and other specialized electrical test equipment including FCC3450 and S1 Series.

COMPANY PROFILE:

Mohammad Mahdi Electronics Trading LLC is a UAE-based supplier of electrical testing, measurement, diagnostic and inspection instruments, serving the power, water, utility, industrial and infrastructure sectors across the UAE and wider Middle East. The company is the authorised representative of Megger in the United Arab Emirates, providing access to Megger's comprehensive range of professional electrical testing and diagnostic solutions, supported by local stock, technical expertise and manufacturer warranty.

With a focus on reliable asset management and preventive maintenance, Mohammad Mahdi Electronics Trading LLC supports engineers, contractors, utilities and industrial customers in testing and maintaining critical electrical infrastructure. Our solutions cover insulation and low-resistance testing, battery testing, cable fault location, earth and ground testing, installation testing, protection and electrical safety testing, measurement and thermal imaging. Through technical support and application-focused solutions, the company helps customers improve equipment reliability, safety and operational efficiency.

For enquiries, Mohammad Mahdi Electronics Trading LLC can be reached at info@mmelectronics.co, on WhatsApp at +971 4 447 6031, or at www.mme-ae.com.

Fittings

COMPANY PROFILE:

The company Metalska industrija Varaždin d.d. (MIV d.d.) is a worldwide producer of valves and fittings which are installed in water systems, sewage systems, desalinization systems, pump stations, power systems and process industry around the world. MIV d.d. sales products to more than 40 countries worldwide and 60% of production is export. The company is working since 1939. Today MIV d.d. is a joint-stock company with around 300 employees.

The Company is characterized by constant expansion and modernization of the foundry, production and manufacturing plants, increasing product quality and constant expansion of product lines, increased international cooperation, number of international projects and a rising share of foreign markets as a part of total sales.

Well developed business and technical cooperation with partners from Europe and around the globe have additionally boosted the quality of the Company which has developed into a reliable and recognizable business partner.

Not many companies today have the capacity to represent all segments of production process, from design, prototype making, casting, machining, welding, surface protection to assembling and testing of manufactured products. MIV d.d. is one of few European companies featuring design facilities, a foundry and a machining plant at the same location.

MIV d.d. is recognized for wide range of valves (gate valves, butterfly valves, air valves, check valves, flap check valves, hydrants, dismantling joins etc.) and fittings produced from ductile cast iron and steel welded.

MANN+HUMMEL Water & Fluid Solutions

Address: Kasteler Straße 45, 65203 Wiesbaden, Germany
Tel / Fax: +49 611 7118 7480
Email: info.wfs@mann-hummel.com
Website: https://water-membrane-solutions.mann-hummel.com/en.html
Contact: Marta Maierna

PRODUCTS ON DISPLAY:

RO/NF spiral wound membranes: MANN+HUMMEL Water & Membrane Solutions provides high-performance spiral wound RO and NF membranes tailored to customer needs. RO membranes are ideal for boiler feedwater, industrial processes, water reuse, MBR/UF polishing, and desalination. NF membranes enable selective ion rejection for water softening and contaminant removal. Available in 2.5", 4", 8" sizes and other configurations.

iSep 500+: iSep 500+ UF modules combine a compact design with a 0.03 µm PVDF/PES membrane to treat challenging waters like industrial effluents, river, and produced water. The system removes solids, oil, and turbidity, with internal aeration and backwash minimizing chemicals and fouling. It ensures stable, high-quality output without extensive pre-treatment.

TurboClean: When it comes to sanitary membrane elements, there is a stronger choice for processors of dairy products, sweeteners, beer and wine, pharmaceutical products, proteins, and many other process streams. TurboClean elements feature a rugged polypropylene shell that results in a stronger, more rigid, and durable element ideal for the most challenging process applications. These elements are available with RO, NF, UF, and MF membrane types.

FILTER Line - Prefilters: The FILTER Line delivers robust, efficient pretreatment to safeguard downstream membrane processes like UF and RO. Designed for diverse feedwaters, from surface and brackish to wastewater and industrial effluents, it ensures optimal membrane performance and longevity.

Other products from our offering:

BIO-CEL MBR series: BIO-CEL MBR is a cost-effective and scalable solution for meeting challenging effluent requirements for municipal and industrial wastewater treatment. It creates a cleaner, higher quality effluent than conventional wastewater treatment systems, using up to two times smaller overall footprint due to its high packing density.

Trisep DS Sanitary Elements: TRISEP DS sanitary elements combine advanced membrane technology with strict hygiene compliance for food and dairy applications. Made with FDA-compliant materials and certified to 3A, Halal, and Kosher standards, they use NADIR PES membranes with various MWCOs to ensure high protein rejection and stable flux. Designed for durability, they withstand aggressive cleaning while ensuring safe, consistent product quality.

PureULTRA II: PureULTRA II UF modules use hydrophilic PVDF hollow fiber membranes with a 0.025 µm pore size and an outside-in flow for easier cleaning. Designed for challenging feedwaters and high solids loading, they ensure optimal flux. Ideal for RO pretreatment, surface water treatment, water reuse, tertiary wastewater, and seawater treatment.

COMPANY PROFILE:

MANN+HUMMEL Water & Membrane Solutions is a global leading membrane manufacturer, delivering innovative solutions to meet diverse water and process needs. We offer an extensive range of membrane products, including MF, UF, NF, MBR, and RO technology, available in flat sheet, spiral-wound, tubular and hollow-fiber configurations for water and wastewater treatment as well as seawater desalination. Our solutions also cater to the food and beverage sector, biotechnology, and other ultra-pure water areas such as semiconductors.

1.Cross-flow Sand Filter: Specialized in removing turbidity and suspended solids, it is the go-to solution for RO & UF membrane pretreatment, cooling tower circulating water side-stream filtration, and raw-water & wastewater pretreatment. It delivers reliable protection for your membrane modules and heat-exchange equipment against fouling and blockages.

2.SSDRO: Supported by patented variable-flow technology and native AI control, it delivers a high water recovery rate of 90-95%, cuts raw-water intake and brine output, greatly extends membrane service life and CIP cleaning intervals, reduces chemical and energy consumption, and enables 24-hour unattended operation.

COMPANY PROFILE:

FlowEase is a leading industrial water treatment company providing integrated services across the full water lifecycle—from industrial water intake, process water and cooling water to demineralization, wastewater treatment and resource recovery. We deliver one-stop solutions spanning diagnosis, technology, equipment, AI-driven operations and verified value, helping clients cut water, chemical and energy consumption while reducing operational risk, so water systems continuously create business value.

As a national specialized and innovative "Little Giant" enterprise and a National High-Tech Enterprise, FlowEase is recognized for technological excellence. Our product portfolio includes smart reverse osmosis (RO) systems, cross-flow sand filters, polyamine film-forming chemicals and intelligent industrial water operation platforms.

Innovation is driven by a dedicated R&D team of over 30 professionals—nearly 40% holding master's or doctoral degrees—backed by more than 70 proprietary intellectual property assets. We maintain close university partnerships with Zhejiang University, Shandong University, Hohai University and Nanjing Tech University, translating cutting-edge research into practical solutions.

From smart manufacturing of high-quality equipment to digital and intelligent long-term support, FlowEase combines expertise across the entire journey from planning to delivery, ensuring reliable performance and sustained value for our customers.

Mechanical, Electrical & Instrumentation Products

COMPANY PROFILE:

National Engineering Services and Trading Company (NEST)

was incorporated in 1979 with the objective of being a solution provider to the various industrial sectors across the United Arab Emirates by leveraging the highest quality products and services that ensure the sustainability of assets and deliver customer satisfaction for our clients.

ABOUT

NEST is an engineering services and trading company thot has evolved from its early foundations of being a trading outlet to a company whose partners are driven by the highest quality of standards and processes with a view to ensuring profitability for our clients' assets through our product and service offerings, which has given us a reputation for being very reliable in the marketplace.

NEST works closely and collaboratively with our customers; we devise best-fit solutions that work the first time and every time - delivering a high standard of reliability expected by our customers and their installations. With products covering a range of solutions ranging from machinery protection, flow processes, tracking, remote monitoring, valves, high-performance pumps, fittings and gaskets, NEST has always demonstrated its commitment to being a partner to its clients in its over 46-year history; we give assurance thot we will continue to remain committed to serving our clients with best-in-class solutions, products and services.

PRODUCTS ON DISPLAY:

SHUIYI Pressurized UF Membrane
Shuiyi Ultrafil™ Series Pressurized UF Membranes are manufactured from high-quality PVDF using both NIPS and TIPS processes to produce homogeneous hollow-fiber membranes. Standardized outside-in modules provide stable performance under variable feed water quality, while mainstream-compatible dimensions enable seamless OEM replacement with minimal system modification, reducing downtime, retrofit costs, and maintenance complexity.

SHUIYI 5th Generation MBR Membrane
Shuiyi Slufri® SMU MBR Membrane Series features a low-pressure, high-flux PVDF hollow-fiber membrane with automated hot-melt adhesive fiber arrangement. Its pulse aeration system delivers stable permeate quality, excellent fouling resistance, long service life, and low energy consumption. With an air-to-water ratio as low as 3:1, it reduces aeration energy consumption by over 40%, suitable for municipal and industrial wastewater treatment.

SHUIYI RO Membrane
SHUIYI huiyi Resalt® Series Industrial Pure Water RO Membrane including:
RBW-HR delivers high salt rejection for first-stage desalination, supporting high recovery and superior permeate quality.
RBW-LE is optimized for second-stage desalination, providing high water productivity at lower operating pressure and reduced energy consumption.
RBW-FR delivers stable salt rejection and excellent fouling resistance for reliable long-term operation.
RBW-FRLE operates at lower pressure, reducing energy consumption and making it ideal for feed water with salinity below 2,000 mg/L.

COMPANY PROFILE:

Shuiyi is a leading Chinese provider of integrated membrane-based water treatment solutions, specializing in membrane products, modular treatment systems, engineering services, and municipal water treatment.

With strong R&D and manufacturing capabilities, Shuiyi is one of the few manufacturers with comprehensive membrane separation technologies covering MF, UF, NF, and RO. Our portfolio includes PVDF, PTFE, PS, polyamide, and PES

membranes, supporting applications including MBR, UF, submerged UF (SMF), NF, and RO. Shuiyi has an annual membrane material production capacity of 11 million m², supported by advanced manufacturing facilities and dedicated membrane R&D capabilities.

Shuiyi membranes are widely applied in advanced municipal drinking water treatment, wastewater upgrading and compliance, water reclamation and reuse, industrial water reuse, high-salinity wastewater ZLD, pure water production, and pharmaceutical and food concentration, purification, and material separation.

In addition to new system applications, Shuiyi provides OEM-compatible membrane replacement solutions for existing water and wastewater treatment plants, covering membrane selection, compatibility assessment, replacement design, technical support, and long-term supply. These solutions help customers minimize system modifications, reduce downtime, and extend the service life of existing treatment facilities.

Guided by our philosophy of “Membrane treatment, returning water to its origin,” Shuiyi delivers one-stop solutions from membrane materials and modules to treatment systems, replacement services, and engineering support, with the goal of becoming a global professional provider of membrane-based liquid separation materials, products, and services.

PRODUCTS ON DISPLAY:

NotariCoin ($NOTA) by Notarify – Utility Token for Digital Trust

The utility token designed to power NotariChain, enabling a scalable ecosystem for blockchain-based digital certification and notarization. Its token-burning mechanism links token consumption to notarization activity.

NotariChain – Blockchain Infrastructure for Digital Certification

A Solana-based Layer-2 infrastructure designed to enable fast, secure, and cost-efficient digital notarization. It supports the creation of immutable, independently verifiable records, with potential applications in document authentication, data integrity, supply chain traceability, and digital certification across industries.

COMPANY PROFILE:

Notarify – Building the Infrastructure of Digital Trust

Notarify is a technology company specializing in blockchain-based digital trust, data certification, and secure document management. Our mission is to make digital information independently verifiable, tamper-evident, and accessible to businesses and institutions worldwide.

At WETEX 2026, we are presenting **NotariCoin ($NOTA) and NotariChain**, two interconnected components of our blockchain ecosystem.

NotariCoin is the utility token designed to power NotariChain, supporting a scalable model for digital notarization through a mechanism that burns tokens with each notarization.

NotariChain is a blockchain infrastructure initiative designed to deliver fast, secure, and cost-efficient certification of digital records while leveraging multiple blockchain networks for additional verification and resilience.

Together, these technologies aim to make trusted digital certification accessible at scale, supporting use cases such as supply chain traceability, document authentication, and the verification of data and records across the energy, environmental, and industrial sectors.

With over 10 million notarizations and more than 60 corporate clients, Notarify is working to build a global infrastructure where digital information can be trusted, verified, and protected.

Notarify – Trust no one. Verify everything.

Gear Units
- Horizontal Parallel Shafts
- Vertical Parallel Shafts
- Right Angle Gears
- Gear with involute

COMPANY PROFILE:

Mr. Alfredo Gusti established the group in 1921, naming it Gusti Alfredo S.p.A.. From the very start, the main business focus has been on manufacturing and engineering mechanical components, with an emphasis on gears and transmissions. Immediate partnerships with the Navy and Railway industries were forged for gear and gearbox production. In 1977, OCMI was established. This company's primary activity has always been and continues to be the design and production of glass machinery. In 1986, Gusti Alfredo SPA transferred all its assets to a new company named O.T.G., which was then relocated to a new premises in Milano (Via Venezia Giulia, 7). In 2005, O.T.G. and OCMI merged to form OCMI-OTG SPA.

Rubber and Engineering Products

COMPANY PROFILE:

Ocean Rubber Factory is the Middle East's leading supplier of technical rubber products. With over 700 employees across four countries and eight factories on two production sites, ORF supplies customers with innovative, quality solutions. From the GCC to as far as The Panama Canal, ORF has been raising industry standards for decades, ensuring perfection in every detail.

Conveniently located at the cross-roads of Asia, the Middle East and Africa, ORF has a network of distributors and partners across the MENA region. With incredible ease of transport from the UAE, Ocean Rubber can provide customers with optimal delivery speed while ensuring a superior level of service, across every touch point.

OCEAN RUBBER FACTORY LLC Rubber division located in Sharjah, UAE, established in the year 1987, is well equipped with compounding and manufacturing facilities to meet a wide range of applications and demanding requirements.Way ahead of its competitors the factory can proudly claim to be pioneer in the Arabian Gulf region. Backed by an expert team of engineers and technicians, the factory provides round the clock service and has a successful history of meeting the emergencies as well as undertaking turnkey Projects. The factory is the only one of its kind in the UAE having full-fledged laboratory and a documented quality system. The company has been successfully accredited to ISO 9001:2015 Quality Management system, ISO 14001:2015 Environment Management System & ***ISO 45001:2018*** Occupational Health & Safety Management System.

Our presence in the UAE enables us to be competitive and deliver quickly anywhere in the Middle East.

The rubbers are compounded as per formulations to meet Specific applications. The right quality of rubber is selected From a databank of formulations after evaluating the Functional requirements of the product. The compounds vary

In chemical variations, physical properties and sometimes in external appearances. Natural Rubber as well as Synthetic rubbers like Chloroprene (Neoprene) rubber, Styrene Butadiene Rubber, Acrylonitrile and Butadiene Rubber, Butyl Rubber, EPDM, etc. are used to manufacture the Components.

The moulding section, supplemented by an in-house mechanical shop produces a range of gaskets, seal, Fenders, coupling, diaphragms, Refurbishment of B/F Valves etc. to name a few, while the extrusions section manufactures beading, Packing and other profiles irrespective of their complexity. The lining section undertakes external coatings of riser pipes and material coatings of tank, vessels, process pipes etc. for media like oils, acids, seawater etc. Tests are carried out on samples, in-process and all finished products to ensure the quality and relevant Certificates are issued, whenever required.

OCEAN RUBBER FACTORY - ENGG. DIVN. (Accredited to ISO 9001:2015, ISO 14001:2015 & ***ISO 45001:2018*** & ASME Accreditation of U, PP & R) specialized in supplying components and undertaking services for Bulk material handling applications in the Middle East. Located in Al Ghail Industrial Area park, Ras Al Khaima in an area of 80,535 square meters, the factory is well equipped with design and manufacturing facilities of International standards and a team of experienced engineers and skilled workmen to meet a wide range of application and client specification. Latest computer software like Solid Works, STAAD Pro and Auto-CAD systems are used in the design and production process.

Way ahead of its competitors, the factory can proudly claim to be the pioneer in the Arabian Gulf region. Backed by an expert team of Engineers and technicians, the factory provides round-the-clock service and has a successful history of meeting the emergencies as well as undertaking turnkey projects. Our presence in the UAE enables us to be competitive and deliver quickly anywhere in the Middle East. Ocean Rubber is specialized and has rich experience in undertaking turnkey projects, supplying components and services for bulk material handling systems for stone quarries, cement factories, sand washing plants, Ready mix plants.

The company has a wide base of office/agents in the whole of GCC /Middle East region for handling distribution of the range of products/services

Bearings, Vibration Analysis Device

COMPANY PROFILE:

Osborne Engineering, LTD was founded in 1984, Newcastle UK, as a white metal repair and manufacturing facility. Enjoying an immense success, OEL soon enhanced its gas turbine and fuel system portfolio with acquisition of Turbo Power Services (TPS).

This was followed by establishment of Osborne Training (OTS) and Osborne Condition Monitoring Services to provide field services as well as technical training to oil, gas, petrochemical and power generation industries.

With exceptional service quality and dedicated customer support, Osborne Engineering has obtained a reputation as an outstanding service provider.

Fuel System Solutions – TPS In 2004, to expand its Gas Turbine Component Services OEL acquired Turbo Power Services (TPS), a specialist in the refurbishment and flow testing of gas turbine fuel system components.

Supply of new or refurbished components include:

• Fuel Nozzles

• Flow Dividers

• Fuel Pumps

• Gas & liquid fuel Control Valves

• Shear & Purge Valves

• Bleed valves and check valves

• Hydraulic Actuators

• Atomizing and booster compressors

Condition Monitoring Services:-

Our dedicated condition monitoring division, Osborne Machinery Maintenance are one of the leading solution provider of integrated reliability maintenance services aimed at improving plant availability, zero breakdowns and reducing maintenance costs in manufacturing and process industries. We specialize in;

-Vibration analysis
-Modal Analysis & ODS
-Laser alignment
-Acoustic Analysis
-Web based and online vibration monitoring of assets.
-Motor Current Signature Analysis
-Acoustic Analysis
-In-situ dynamic balancing
-Infra-red Thermography

PRODUCTS ON DISPLAY:

PcVue 17 – HMI/SCADA & BMS Platform — Open supervision software with 160+ native drivers, object-oriented modelling, redundancy and high-availability architectures; certified IEC 62443-4-1 / 4-2.

WebVue — HTML5 web client giving secure browser access to the full SCADA application from any device.

TouchVue — Mobile application for contextual alarm notification and remote operation.

FrontVue — Lightweight client for local machine-level and station-level HMI.

SnapVue — Digital remote assistance for field and frontline workers, with smart guidance and live support.

EmVue – Energy Monitoring & Analysis — Consumption dashboards, KPIs, ROI tracking and sustainability/regulatory reporting.

PcVue Data Hub / Universal Data Connector — MQTT, OPC UA, InfluxDB, REST and cloud connectors for IIoT and OT/IT convergence.

PcVue Solution for Water & Wastewater — Telemetry, GIS mapping and supervision for pumping stations, networks, reservoirs, treatment plants and dams, with SOFREL, PERAX, ESPRIT and NAPAC drivers.

PcVue Solution for Power Automation — IEC 61850 (DNV KEMA certified), IEC 60870-5-101/104, DNP3, ICCP/TASE.2 and IEC 61400-25 for substations, solar PV, wind farms and microgrids; dynamic busbar colouring, GIS and post-mortem analysis.

PcVue Solution for Smart Buildings & Data Centres — BACnet, KNX, LonWorks, Modbus, SNMP, OPC, plus BIM/IFC and ONVIF video integration.

PcVue Solution for EV Charging Management — Centralised supervision of charging infrastructure.

COMPANY PROFILE:

PcVue Solutions, developed by ARC Informatique and represented in the Middle East by PcVue DMCC (Dubai), is an open HMI/SCADA and Building Management platform used worldwide to monitor and control water, energy and infrastructure

assets. With more than 45 years in business and 16 offices worldwide, PcVue is recognised for reliability, robustness and cybersecurity.

For the water sector, PcVue supervises production, treatment, distribution and wastewater networks — pumping stations, reservoirs, treatment plants, aqueducts and dams — combining remote telemetry, GIS mapping, alarm and event management, trend analytics and regulatory reporting in one scalable system.

For energy, PcVue delivers substation automation, MV/HV distribution, renewable generation (solar PV and wind), microgrids and EV charging supervision, with certified IEC 61850, IEC 60870-5-101/104, DNP3, ICCP/TASE.2 and IEC 61400-25 drivers.

For smart buildings and data centres, PcVue offers native BACnet, KNX, LonWorks, Modbus, SNMP and OPC UA connectivity, BIM/IFC and ONVIF video integration, and EmVue energy monitoring for consumption analysis, KPIs and sustainability reporting.

The latest release, PcVue 17, is certified to IEC 62443-4-1 and 4-2 and introduces AI-assisted energy demand forecasting, low-code workflow configuration, InfluxDB and Office 365 connectivity and enriched object libraries, supporting OT/IT convergence from edge to cloud.

With 160+ native drivers, HTML5 web clients and mobile access, PcVue helps utilities, developers and facility operators cut energy consumption, extend asset life and accelerate digital transformation.

COMPANY PROFILE:

Piller Global (India) Pvt. Ltd. is a joint venture of Piller Blowers & Compressors GmbH, Germany, brings more than a century of engineering expertise in the development and manufacture of high-performance blowers, compressors, and innovative energy-efficient solutions for industrial applications.

Headquartered in Germany, Piller Blowers & Compressors, GmbH is a globally recognized technology leader, serving diverse industries including Oil & Gas, Petrochemical, Paper & Pulp, Sugar, Dairy, Power, Steel, Textile, Wastewater Treatment, and Seawater Desalination. **With more than 6,000 MVR installations worldwide,** PILLER has extensive experience in delivering reliable and efficient **Mechanical Vapor Recompression (MVR)** solutions for demanding evaporation, distillation, and water treatment processes.

In India, PILLER combines global engineering expertise with strong local capabilities to provide customized solutions focused on energy efficiency, waste heat recovery, decarbonization, and reduced operating costs. Its VapoLine portfolio includes advanced solutions such as VapoFan, VapoFlex, VapoStation, and Industrial Heat Pump, designed to address a wide range of industrial heat and vapor compression requirements.

MVR technology enables industries to recover and reuse process vapor energy, significantly reducing dependence on fresh steam and associated energy consumption. PILLER solutions are particularly suited to industries seeking to optimize thermal processes, improve resource utilization, and support sustainability goals, including seawater desalination and Zero Liquid Discharge (ZLD) applications.

Aligned with the Make in India initiative, PILLER India is strengthening local manufacturing and engineering capabilities while leveraging PILLER's global technology and expertise. Through innovation, application-focused engineering, and dependable support, PILLER continues to help industries move toward more efficient, sustainable, and future-ready operations.

COMPANY PROFILE:

For over 55 years, Prabhat Elastomers has been a trusted global leader in manufacturing high-performance elastomeric components and engineered sealing systems. We engineer mission-critical pipeline solutions for municipal water supply, sewage networks, drainage, and large-scale industrial infrastructure worldwide.

Backed by advanced infrastructure, including a fully automated 400 MT/month rubber mixing facility and one of India's largest compression molding presses, we manufacture over 12 million precision components annually. Our diverse portfolio in water infrastructure are developed for DI, PVC(O), Concrete, Clay, and GRP pipes and fittings. Leveraging deep material science in EPDM, NBR, SBR, Neoprene, FKM, Halobutyl, and Silicone, our compounds deliver maximum sealing efficiency against extreme pressure, temperature, and aggressive chemicals.

We also provide comprehensive engineering partnerships by delivering custom 3D molded geometries, rapid prototyping, reverse engineering, and built-to-print contract production. Quality and global compliance guide every process: we meet stringent international standards including WRAS, NSF, UL, FM, AS, SS, CE, ASTM, EN 681-1, ISO 4633, ISO 9001, ISO 17025, and ISO 14001. Recognized with consecutive Export Excellence Awards since 2014, Prabhat proudly provides just-in-time and leak-proof reliability across the USA, LATAM, Europe, Africa, and Australasia.

COMPANY PROFILE:

At PwC Middle East, we help organisations build trust and reinvent, so they can turn complexity into competitive advantage. As the Middle East redefines growth through ambitious initiatives, we're proud to stand alongside governments and businesses shaping the future.

Disruption is constant, but so is opportunity. From advancing the energy transition and accelerating AI innovation to reimagining sports, culture, and tourism, the Middle East is driving transformation on a global scale. With abundant natural, financial, and cognitive capital, the Middle East is not just adapting to change, it is defining new global standards.

We are a tech-forward and people-empowered community of solvers, more than 12,000 strong across the region, bringing together human ingenuity, deep industry experience, and technology innovation. Across Strategy&, Advisory, Consulting, Tax, and Assurance, we help clients sustain and accelerate momentum, delivering outcomes that matter.

activated carbon purification solutions for air and water

COMPANY PROFILE:

Puragen is a British purification specialist with a global presence, delivering advanced activated carbon solutions for air, water and energy applications. Combining British engineering expertise with international manufacturing, technical support and service capabilities, we help customers solve complex purification challenges across a wide range of industries.

Our extensive portfolio of high-performance activated carbons and mobile treatment solutions, supported by technical expertise, address a wide range of purification challenges across drinking water, wastewater, groundwater, waste gas, VOC abatement, odour control, chemical and pharmaceutical processing, remediation and biogas upgrading.

Developed to target specific contaminants including PFAS, micropollutants and other emerging pollutants, our solutions are tailored to each application's operational and regulatory requirements.

At the heart of our sustainability strategy is one of Europe's most advanced activated carbon reactivation networks. By recycling spent activated carbon for reuse, Puragen helps customers reduce waste, lower lifecycle CO_2 emissions by more than 90% compared with virgin carbon, and support a truly circular approach to water treatment.

Driven by continuous innovation and a collaborative partnership approach, we work closely with customers to maintain regulatory compliance and improve sustainability. From today's operational challenges to tomorrow's emerging contaminants, Puragen delivers trusted purification solutions backed by British expertise and global capability.

COMPANY PROFILE:

35 Years of QUNDIS. Precision and Quality Made in Germany.

For 35 years, QUNDIS has stood for precise, reliable, and future-proof solutions for recording cooling, heat and water consumption.

We develop and manufacture metering devices and system solutions for recording and transmitting cooling, heat and water consumption. This enables us to make consumption data in buildings digitally accessible, thereby laying the foundation for accurate billing, greater transparency, and in-depth analysis.

Highly automated manufacturing, certified quality assurance, and a MID-certified testing facility form the foundation for “Made in Germany” quality. Each year, QUNDIS produces more than 3.9 million heat cost allocators, over 1.2 million water meters, more than 340,000 heat meters, and over 90,000 gateways and network nodes.

With over 320 employees, QUNDIS combines many years of experience with a high level of manufacturing expertise and the continuous development of digital solutions for the real estate and energy sectors.

Smart Gas Leak Detector

COMPANY PROFILE:

Ripple Smart Meters are instrumental in the advancement and operation of smart cities, facilitating enhanced efficiency and sustainability in managing energy resources. These cutting-edge devices utilize advanced technology to measure and track electricity, gas, or water consumption in both residential and commercial settings. Compared to traditional analog meters, Ripple Smart Meters (Water, Gas, Energy) offer several key advantages, including:

- Soft-time Monitoring: Providing immediate and continuous insight into energy consumption patterns.
- Remote Reading: Enabling the collection of consumption data without the need for manual intervention.
- Data Analytics: Leveraging gathered data to analyze usage trends and optimize energy management strategies.
- Billing Accuracy: Ensuring precise billing based on actual consumption data rather than estimates.
- Upfront Collection: Facilitating upfront payment mechanisms for energy usage, promoting financial transparency.
- Integration with Smart Grids: Seamlessly connecting with smart grid infrastructure to enable more efficient energy distribution and utilization.
- Remote Disconnect and Reconnect: Allowing for the remote management of energy services, including disconnection and reconnection as needed.

Overall, Ripple Smart Meters play a pivotal role in advancing the capabilities of smart cities by revolutionizing the way energy resources are monitored, managed, and utilized.

- Rapid microbiology test assays including total and viable bacteria, E. coli and Legionella.
- Designed for on-site and laboratory use, the rqmicro.COUNT platform enables fast, reliable water-quality monitoring and supports quantitative risk assessments, preventive equipment maintenance and and effective water treatment.

COMPANY PROFILE:

rqmicro provides rapid microbiological testing solutions for water utilities, industrial operators, and laboratories. Its technologies enable the quantification of viable microorganisms, including specific tests for viable Legionella and E. coli cells, helping customers detect risks and take action faster.

rqmicro solutions support applications ranging from drinking water safety and wastewater treatment to industrial water management and contamination control in manufacturing facilities. Industries such as food and beverage, pharmaceuticals, and other water-intensive sectors use rqmicro technologies to improve process control, protect production environments, and reduce operational risks.

The rqmicro.COUNT platform combines automated analysis with digital data management, while the rqmicro Cloud Solution enables secure access to measurement data, centralized monitoring, and collaboration across locations. Together, these solutions help customers move from delayed microbiological testing to more proactive decision-making.

Headquartered in Switzerland, rqmicro supports customers worldwide with practical tools for safer water management and improved contamination control.

Data Analytics: Leveraging gathered data to analyze usage trends and optimize energy management strategies.

Billing Accuracy: Ensuring precise billing based on actual consumption data rather than estimates.

Upfront Collection: Facilitating upfront payment mechanisms for energy usage, promoting financial transparency.

Integration with Smart Grids: Seamlessly connecting with smart grid infrastructure to enable more efficient energy distribution and utilization.

Remote Disconnect and Reconnect: Allowing for the remote management of energy services, including disconnection and reconnection as needed.

Overall, Ripple Smart Meters play a pivotal role in advancing the capabilities of smart cities by revolutionizing the way energy resources are monitored, managed, and utilized.

COMPANY PROFILE:

M/s S A V Networks & Construction L.L.C., established by Mr. Muralidhar Seepana, brings over 14 years of experience in DEWA water transmission and distribution pipeline works. The company is committed to delivering reliable, professional, and high-quality services to clients across both the private and government sectors, while maintaining the highest standards of service and integrity.

The S A V team comprises experienced professionals with extensive expertise in the construction industry, particularly in the installation, testing, commissioning, and maintenance of water infrastructure, duct laying, and enabling works.

Our key areas of expertise include:

Water Transmission & Distribution: Pipeline construction, installation, maintenance, testing, and commissioning.

Chamber Works: Construction of valve and associated chambers.

Valve Installation: Installation of Motorized Butterfly Valves, Butterfly Valves, Air Valves, and Washout Valves ranging from 100 mm to 1200 mm diameter.

Water Tapping & Meter Connections: Execution of tapping and meter connection works.

Pipeline Shutdown Works: Planned water pipeline shutdown and associated activities.

Steel Sleeve Works: Supply and installation of steel sleeves for pipeline protection.

SCADA & Instrumentation: Civil and electrical works, excluding software integration.

Duct Works: Laying of uPVC and HDPE ducts for electrical and instrumentation systems.

Industrial Valves & Actuators: Supply and installation of industrial valves and actuators.

With our experienced team and technical capabilities, S A V Networks & Construction strives to provide safe, efficient, and quality-driven solutions that meet project requirements and client expectations.

COMPANY PROFILE:

Cooling the Gulf since 1974.
For more than five decades, SKM Air Conditioning has engineered cooling systems for some of the world's most demanding climates.
Founded in the Gulf and headquartered in the UAE, we understand what cooling needs to do here: perform in extreme heat, support better indoor air quality, keep critical environments running, and deliver reliable comfort day after day.
Today, SKM designs, manufactures, tests and supports a wide range of air conditioning solutions for homes, commercial buildings, industrial facilities, infrastructure projects and mission-critical environments across the GCC, Middle East, Africa and beyond.
With manufacturing facilities in the UAE and Saudi Arabia, testing laboratories in both countries, and a growing regional and international network, SKM brings together local engineering knowledge, rigorous quality control and global certification standards.
From standard products to custom engineered systems, every solution is built around the same promise: Dependable cooling, Designed for the realities of the region.

Split casing pumps SKD series
High pressure pumps TM series
Submersible pumps S VS series
End suction pumps NCB NCBK MG series
Monoblock pumps IR series
Sewage submerged pumps SD series
Sewage surface pumps NCA series

COMPANY PROFILE:

SAER Elettropompe is a leading Italian manufacturer with over 75 years of experience in the design and production of high-quality electric pumps and motors. Renowned for its engineering excellence and Made in Italy production, SAER offers a wide range of solutions for water handling across multiple sectors, including industrial, civil, and marine applications.

A key area of specialization for SAER is the development of corrosion-resistant pumps for demanding environments. The company provides advanced solutions in **super duplex stainless steel**, ideal for **reverse osmosis (R.O.) systems** and seawater desalination.

SAER also excels in the manufacturing of pumps for **wastewater** and **water treatment** plants. From submersible sewage pumps to vertical multistage, split casing and end-suction models, SAER ensures optimal efficiency, reliability, and durability, even in aggressive environments.

With a broad portfolio that includes standard and customized solutions, SAER supports engineering firms, OEMs, and end users worldwide. Thanks to its in-house R&D and flexible production, the company can respond quickly to complex specifications and tailor solutions to customer needs.

Through constant innovation and a commitment, SAER continues to be a trusted partner in advanced fluid handling, helping customers meet the challenges of water scarcity and thanks to its Italian production, SAER guarantees **exceptional lead times** and fast, reliable delivery worldwide.

- AS1 | PROTECT – Wastewater Air Valve

COMPANY PROFILE:

SAPAG Valves is a French manufacturer of engineered valve solutions for water infrastructure, combining industrial know-how, in-house expertise and a broad portfolio designed for demanding water applications.

From desalination to distribution, SAPAG supports the key stages of the water cycle: seawater intake and desalination, water treatment and process water, long-distance water transmission, drinking water distribution, and water reuse. Its solutions are developed to help operators, EPCs and engineering partners control flow, isolate networks and protect installations against critical hydraulic risks.

The portfolio includes butterfly valves, control valves, axial check valves, ball valves and pressure relief solutions, covering essential functions across treatment plants, pumping stations and transmission and distribution networks. SAPAG also provides maintenance, repair, commissioning, original spare parts and customized service solutions, extending support beyond the supply of valves.

With an international presence in more than 70 countries, SAPAG combines French manufacturing with experience in global infrastructure projects. Recognized certifications and approvals highlighted across its water offer include ACS, WRAS, DEWA and ADNOC, depending on the relevant product or application. At WETEX 2026, SAPAG presents reliable valve solutions engineered to support efficient, safe and durable water systems across the complete water cycle

UV sterilizers for water treatment, for all applications as:

- Drinkiing: domestic and municipal with certified sterilizers
- Industrial: process water treatment
- Swimming pool: sterilizerr for chemicla substance elimination
- Waste water: cleaning system features foe waste water treatment
- Aquaculture and Agriculture: HDPE sterilizers for corrosive water

COMPANY PROFILE:

Founded in 2007 SATEPA, it has established itself over the years as a leading company specializing in the design and manufacture of UV treatment systems. Our UV sterilizers are made with innovative materials such as HDPE in addition to stainless steel, to ensure safe and clear water for numerous applications in the municipal, industrial, residential, agricultural and aquaculture sectors.

Thanks to years of experience and cutting-edge technologies, SATEPA systems, by exploiting UV-C irradiation, eliminate harmful microorganisms and bacteria without the aid of chemicals, thus offering an environmentally friendly alternative to traditional disinfection methods.

Our mission is to research and develop new technologies and solutions for improving efficiency, reliability and quality, with a team of experts close to the customer to customize solutions that meet specific needs.

Customer satisfaction is the core of our activities, on the one hand with a cutting-edge production process and the guarantee of the highest quality of the raw materials used, on the other with an after-sales support interpreted as an essential part of our work, to ensure maximum product performance. SATEPA thus becomes, with its products, the best innovative, efficient and sustainable solution for UV water treatment

PRODUCTS ON DISPLAY:

1. VELARA 242S SOLAR BOLLARD LIGHT

The **VELARA 242S** is an autonomous solar LED bollard light designed for off-grid illumination, visual guidance, and decorative lighting in pedestrian and landscaped areas. It combines a monocrystalline solar panel, LiFePO4 battery, LED luminaire, and intelligent lighting controller into a compact, ground-mounted unit.

The product is suitable for **squares, pedestrian areas, residential and urban streets, bicycle paths, walkways, gardens, and car parks**. Its lighting distribution can be configured for either **180° or 360° illumination**, allowing it to provide directional guidance or wider area lighting. The optical design is intended to maximize spacing between bollards and reduce installation costs.

2. SOLVIO SOLAR ALL IN ONE STREE LIGHT

Solvio All In One is a versatile solar street lighting solution, suitable for **squares, pedestrian areas, residential and urban streets, bicycle paths, walkways, gardens, and car parking areas.** This can also be used as a Retrofit solutions to the lighting applications where one wants to convert to conventional to solar application with minimum efforts.

The advantage of the solar solution is that you do not need any cable, cutout or modification to the poles. One can remove the exiting old street light and replace it with the Solar All In One. The application is versatile and the system is built for Plug & Play application.

3. SOLAR VERTICAL STEET LIGHTING (4-12M HEIGHT POLE / SINGLE & DOUBLE ARM OPTIONS)

The vertical solar street-lighting system is designed for off-grid roadway, pathway, residential, commercial, and public-area lighting. The system integrates high-efficiency LED luminaires, vertical cylindrical solar modules, LiFePO4 batteries, MPPT charge controllers, and galvanized steel poles into a complete standalone lighting solution. This vertical solar street-lighting system is a durable and aesthetically integrated solution for locations where grid connection, trenching, or cable installation is impractical. Its main advantages are reduced dust accumulation, improved all-day solar exposure, modular installation, low maintenance, galvanized steel construction, and long-life LiFePO4 storage.

COMPANY PROFILE:

Schréder Gulf is a leading provider of innovative outdoor lighting solutions across the Middle East. As part of the global Schréder Group, we deliver energy-efficient and sustainable lighting solutions for roads, urban spaces, tunnels, sports facilities, industrial areas and smart cities. Our expertise combines advanced LED technology, smart lighting controls and customised solutions to create safer, more connected and sustainable environments.

PRODUCTS ON DISPLAY:

Visit us at booth GSP7 to learn about SEL's latest solutions and discuss your testing requirements with our experts:

SEL-3355 - Computing Platform
The SEL-3355 is a versatile computing platform built to withstand harsh environments in utility and industrial applications. It can run the hardened SEL Blueframe or SEL RTAC operating systems, run versions of Linux and Microsoft Windows, or run bare-metal or hosted hypervisors.
Designed, manufactured, and tested to the same IEC standards as our protective relays, every SEL Computing Platform is backed by a standard worldwide, ten-year warranty.
SEL-2240 Axion
The Axion is a rugged, modular platform that combines the communications, built-in security, and IEC 61131 logic engine of the SEL Real-Time Automation Controller (RTAC) with a suite of I/O, monitoring, and control modules to provide high-speed, deterministic performance over an EtherCAT® backplane. The Axion supports multiple utility and industrial applications on a single device, while its modular construction supports decades of operation as well as seamless retrofits for legacy hardware.
Operational Technology (OT) Software-Defined Networking (SDN)
The SEL OT SDN solution prioritizes network security, situational awareness, reliability, and high-speed performance for critical applications. OT SDN also simplifies data collection for NERC CIP compliance and can help you prepare for the proposed NERC CIP internal network security monitoring (INSM) standards.

SEL-TWFL

The SEL-TWFL is an economical fault locator capable of monitoring series-compensated lines, overhead lines, cable lines, and hybrid transmission lines with both overhead and cable sections. It is suitable for radial, two-terminal, and three-terminal applications, and one SEL-TWFL can monitor two lines from a single substation. For multi-ended fault-locating methods, SEL-TWFL devices exchange data over a communications channel and report fault location locally or via communication protocols to a SCADA system. The SEL-TWFL is an exceptional fault recorder, recording data from as many as six currents and six voltages for as long as 1.2 seconds at a 1 MHz sampling rate with 18 bits of resolution.

SEL-9L

Apply the SEL-9L Line Relay on lines of any length or voltage level. With features such as software-selectable contact input ranges and software-configurable small form-factor pluggable (SFP) transceivers—plus advanced cybersecurity as well as modern configuration software that simplifies commissioning and settings management—the SEL-9L provides a flexible, easy-to-use solution.

COMPANY PROFILE:

SEL invents, designs, and builds digital products to protect power systems. This technology improves system reliability, enhances safety, and reduces cost. SEL serves customers in 173 countries from 21 global locations, providing unmatched technical support, customer service, and a 10-year warranty.

Ceramic Membranes, Seawater desalination water treatment system, Wastewater treatment system, Containerized water treatment system, Boiler make-up water treatment system, Ultrapure water treatment system, Drinking water treatment system

COMPANY PROFILE:WIth over 28 years experience, Shandong Taihe Environmental Protection Technology Co., Ltd., established in 1998, is a leading manufacturer and supplier of industrial and municipal water treatment systems, offering end-to-end solutions for drinking water, seawater desalination, reclaimed water reuse, ultra-pure water, and complex industrial effluent treatment. Our mission is to deliver environmentally sustainable technologies that address global water scarcity and pollution challenges, with a client-centric approach to engineering and service.

Our proprietary CERAMEMBR® High-Flux Ceramic Membrane is a game-changer: its lifespan is 5–10 times longer than polymeric membranes, and it exhibits exceptional resistance to fouling, chemicals, and abrasion. It operates stably under high turbidity and organic loads (COD > 1000 mg/L), with a 0.03 μm pore size that ensures complete removal of suspended solids, pathogens, and bacteria. Recognized as “International Advanced” by MIAC and NSTAC, this technology delivers reliable, high-quality permeate. Its high flux and low energy consumption make it ideal for large-scale projects, and the membrane’s chemical stability allows effective cleaning, extending service intervals.

Beyond membranes, we engineer integrated turnkey systems combining RO, CUF, UF, EDI, desalination, and modular containerized units. Our systems are fully automated with Siemens PLC controls, featuring remote monitoring, real-time fault diagnostics, and automatic backwash/cleaning cycles, significantly reducing labor and energy costs. We also provide flexible modular designs for quick installation and scalability, and our solutions are optimized for high water recovery, low chemical usage, and minimal waste generation, meeting stringent environmental regulations.

We have forged strategic supply partnerships with global leaders like Dow, Toray, Grundfos, and GE to ensure premium component quality. Our manufacturing facility is certified under ISO9001, ISO14001, and ISO45001. Our technical team comprises 30+ professional engineers across process, electrical, and automation disciplines, backed by a robust R&D group. With more than 30 patents and contributions to national standards, we are at the forefront of water treatment innovation.

Our track record includes over 500 successful projects in municipal drinking water, seawater desalination, chemical, pharmaceutical, semiconductor, thermal power, coal mining, and oil & gas produced water treatment. We are a trusted partner for Fortune Global 500 companies including Sinopec, ChemChina, and Tsingtao Brewery. With a strong presence in Southeast Asia, the Middle East, and South America, we offer comprehensive after-sales support, onsite commissioning, operator training, and long-term technical service, demonstrating our commitment to sustainable, cost-effective water solutions worldwide.

PRODUCTS ON DISPLAY:

In residential energy storage, we offer hand-pulled portable power stations, all-in-one battery systems with inverters that can connect to photovoltaic systems, and stackable batteries.
Portable Energy Storage
3000W mobile energy storage power supply, AC+DC+USB and other power supply modes, suitable for outdoor office, entertainment, camping, field work and other scenarios.
Wall Mounted Energy Storage
Light and convenient household energy storage option, light weight, small size, integrated body design, plug and play, easy installation, more convenient space optimization energy storage solution.
Stacked Energy Storage
Integrated household appliance design is adopted, which is exquisite and beautiful, easy to install. Modular stack design, flexible matching of energy storage unit, capacity expanded on demand, integrated inverter, convenient and portable, strong mobility, saving household electricity costs.

For commercial and industrial energy storage, we provide 125kW/261kWh liquid-cooled energy storage cabinets as well as containerized energy storage cabinets with customizable capacities.
Indoor and Outdoor Energy Storage Integrated System
The integrated indoor and outdoor energy storage system can be used by industrial users for peak and valley regulation to ease the burden on the transformer during the summer peak period, and in addition to obtaining a certain amount of revenue by utilizing the difference between the peak and valley power supply.
Container Energy Storage
Economic and efficient: peak shaving and valley filling, efficient conversion, deep power supply, seamless switching
Safe and reliable: real-time monitoring, perfect mechanism, multi-level protection, comprehensive management.

COMPANY PROFILE:

Shandong WINA Green Power Technology Co., Ltd., founded in 2006 in Shouguang, China, is a professional LiFePO4 battery manufacturer with 2GWh annual production capacity. It has developed a full-fledged industrial chain and a

dedicated microgrid service team, focusing on R&D, production and sales of regular, low-temperature and explosion-proof power & energy-storage batteries, starter power supplies, BMS and PACK systems.

For residential energy storage, its product portfolio covers portable power stations, inverter-integrated all-in-one battery systems compatible with PV, and stackable batteries. Highlights include 2.56kWh mobile power supplies for camping and field operations; lightweight plug-and-play wall-mounted home storage; and elegantly-designed stackable storage with on-demand modular capacity expansion and built-in inverters.

For commercial & industrial scenarios, it supplies 125kW/261kWh liquid-cooled cabinets and customizable container-type energy-storage cabinets. C&I systems support peak-valley load shifting to relieve transformer pressure, featuring real-time monitoring, multi-level safety protection and systematic overall management.

COMPANY PROFILE:

Zhongqiao Enlightenment was founded in 2013. It is a high-tech enterprise specializing in the R&D, design and manufacturing of integrated wastewater treatment equipment.

Our production workshop covers an area of over 40,000 square meters, with an annual output of more than 800 sets of wastewater treatment equipment. Our products have been exported to over 30 countries, backed by more than 4,000 successful project cases worldwide.

We have independently developed the "Chaos Cloud" IoT platform. It integrates cloud monitoring, cloud operation & maintenance, cloud data analysis and cloud management to realize intelligent operation and maintenance for wastewater treatment facilities.

We are not only a professional environmental equipment manufacturer, but also a one-stop provider of wastewater treatment solutions. We keep delivering high-quality, intelligent and customized comprehensive wastewater treatment services to global customers.

PRODUCTS ON DISPLAY:

Our core expertise spans two specialized production lines:
Control Valves (Softener & Filter): Softener/Filter control valve for water treatment
Inline Water Quality Sensor: Inline conductivity/pH/ORP/COD/residual chlorine/DO transmitter, RO controller, multi-parameter sensor, paddlewheel flow meter, etc.

COMPANY PROFILE:

Based in Shanghai, Shanghai ChiMay is a leading direct manufacturer specializing in advanced water treatment components and monitoring solutions. Operating our own state-of-the-art manufacturing facility, we deliver reliable, high-performance OEM/ODM solutions to global partners, bypassing trading middlemen to ensure strict quality control and direct engineering support.

Our core expertise spans two specialized production lines:

Control Valves (Softener & Filter): Engineered for precision, durability, and high efficiency, our automatic control valves feature robust disking technology and intuitive interfaces designed to optimize flow rates and regeneration cycles for residential, commercial, and industrial applications.

Inline Water Quality Sensor: Designed for real-time accuracy and seamless integration, our inline monitoring instruments provide precise, continuous data tracking to ensure optimal system performance and water safety.

By controlling the complete manufacturing process—from R&D and molding to assembly and testing—we offer our B2B clients superior quality assurance, competitive direct-factory pricing, flexible customization, and dependable lead times. We are dedicated to supporting water treatment equipment integrators and distributors worldwide with innovative technology and end-to-end technical support.

Wastewater and water treatment equipment: dissolved air flotation (DAF) units, lamella clarifiers, sludge screw presses, filter presses, sludge dryers, rotary drum screens, static screens, automatic polymer preparation and dosing systems, ultrafiltration (UF) and reverse osmosis (RO) systems.

COMPANY PROFILE:

Shanghai Ecopro Environmental Engineering Co., Ltd. (ECOPRO) is a China-based manufacturer and supplier of wastewater and water treatment equipment. We support engineering contractors, distributors and end users with equipment for industrial wastewater treatment, sludge dewatering, water reuse and pure water production.

Our product range includes dissolved air flotation (DAF) units, lamella clarifiers, sludge screw presses, filter presses, sludge dryers, screening equipment, automatic polymer preparation and dosing systems, and ultrafiltration (UF) and reverse osmosis (RO) systems.

We offer equipment configurations tailored to project requirements, including treatment capacity, materials, power supply and automation. Our services cover equipment selection, technical documentation, manufacturing, factory testing and after-sales support.

Based in Shanghai, ECOPRO serves international customers across a range of industries. We are committed to providing reliable, practical and cost-effective equipment and building long-term partnerships with customers worldwide.

PRODUCTS ON DISPLAY:

Ductile Iron Non-Rising Stem Resilient Seated Gate Valve (Flanged)
This resilient seated gate valve features a non-rising stem design. The body is made of ductile iron, and the disc is fully encapsulated with EPDM rubber, ensuring zero leakage. The stem is stainless steel for excellent corrosion resistance. Design complies with DIN3352 and BS5163, with flanged ends according to EN 1092-2.
Specifications:
Size Range: DN40 – DN1200
Pressure Ratings: PN10/PN16/PN25
Media: Water
Temperature: 0-80°C
Operation: Handwheel, Stem cap, Gear Box, Electric or Pneumatic Actuator
Coating: Fusion Bonded Epoxy (≥300μm)
Package: Wooden Box or Pallet

Dismantling Joint
Dismantling Joint is designed for easy installation, removal and maintenance of flanged valves, pumps, water meters and other pipeline equipment.
Made of ductile iron, it has a strong and durable structure. The adjustable design provides axial adjustment during installation, making equipment installation, removal and replacement easier.
It is suitable for water supply, wastewater and other flanged pipeline systems, and is widely used in valve chambers, pump stations and pipeline projects.

Steel flanges
Steel flanges are essential fittings used to connect pipes, valves, pumps, and other equipment in pipeline systems. The product range covers plate flanges, slip-on flanges, threaded flanges, blind flanges, and loose plate flanges, typically made of carbon steel, stainless steel, or alloy steel to suit various working conditions. Flanged connections offer a robust structure, reliable sealing, and easy disassembly, and are widely used in various industrial pipeline systems.
Specifications:

Type: Plate, Slip-on, Threaded, Weld Neck, Blind, Loose Plate Flanges, etc.
Size Range: DN15 – DN2000
Pressure Ratings: PN10 / PN16 / PN25 / Class150 / Class300, etc.
Material: Carbon Steel, Stainless Steel, Alloy Steel
Standard: ASME B16.5, EN 1092-1, DIN, JIS, etc.
Surface Treatment: Anti-rust Oil, Galvanized, or Coated
Package: Wooden Box or Pallet

COMPANY PROFILE:

Shanxi Ascent Industrial Co., Ltd is a manufacturing leader in Water Pipelines, Sewerage and Pipings for steam, air, gas, oil, etc. from 2010 in China. Main Products: Ductile iron products (DI pipes, fittings and their joints; valves; DI manhole cover and grating, surface box and manhole step, drainage channel grating;); Steel products (Steel pipes, fittings, flanges, valves); Malleable iron fittings; Cast iron pipes, fittings and accessories; HDPE/PVC/PP pipes and fittings; Water meters and flow meters; Castings; OEM/ODM services. All products are manufactured in accordance with international standards such as EN, ISO, AWWA, API, ASME, JIS and DIN. Our company has obtained BSI Kitemark, ICMQ, CE, WRAS, ACS, ISO 9001, ISO 14001 and ISO 45001 certifications and approvals, as well as SONCAP and SABER — market access certifications for multiple countries. With a professional technical team, strict quality control, and extensive export experience, ASCENT provides one-stop services from mold development and manufacturing to quality inspection and delivery. We are committed to becoming a world-class supplier of pipeline systems.

Ultrasonic Water Meters with high precision, low pressure loss and reliable long-term stability

COMPANY PROFILE:

SHENK Group consists of 6 subsidiaries with a complete industrial chain covering amorphous & nanocrystalline soft magnetic materials, magnetic parts, electrical components, finished meters, as well as supporting software and design services. Our product portfolio includes cores, stators, terminals, shunts, busbars, current transformers, inductors, reactors, power transformers, ultrasonic water meters and electricity meters.

Thanks to strong diversification capabilities, we can meet customized demands from global clients with reliable designed and manufactured products. Our premium soft magnetic solutions serve power grids, wind & solar energy, industrial automation, EV, rail transit, telecom, medical and utility sectors.

Founded in 1985 as a small village workshop, SHENK has developed into a group with 1,000 employees and an annual turnover of USD 100 million.

Our products are about water treatment solutions,including water purification,water filtration,and seawater desalination.We're selling the machine of manufaturing filter elements at the same time.
1.Product:RO system,Filter elements,Filter cartridge,Filter housing,RO membrane,membrane shell,Pressure tank, PE pipe,Fitting accessories.
2.Machine:Filter cartridge making machine,Seawater desalination machine.

COMPANY PROFILE:

Our company was founded in 2006, which is a leading modern enterprise dedicated to integrating research and development, innovation,production, and distribution. As a professional supplier of high-quality waterpurifier accessories, we have always embraced the principle of "coexistence of innovation and development, professionalism and excellence." Our original mission, "To be the brand behind the brand," drives us to continuously learn from the best practices of international leaders in the industry, striving to breakthrough traditional technologies.As our production capacity expands, we place an even greater emphasis on quality control, ensuring that each product meets the highest standards of reliability and performance. Our products have passed rigorous quality inspections and hold various certifications such as NSF, ROHS, CE, and others, confirming their safety and compliance with international water-related standards. Additionally, we have developed specialized quality testing programs for each category of water purifier components, ensuring consistent excellence.

PRODUCTS ON DISPLAY:

PLUNGER VALVE

The plunger valves, also called double regulation valves or flow-pressure control needle valve, The plunger valves is integrating flow regulation and pressure control. cavitation resistant and low noise control, which is widely used in municipal water supply, water conservancy projects, industrial processes and other fields.

The valve regulates flow rate and pressure by changing the valve opening or piston position. Its core regulating mechanism is a crank-slider mechanism, which drives the piston to move axially inside the valve body so as to vary the flow-passage area. The valve body is designed with an streamlined flow channel, which helps reduce noise and vibration. Featuring cavitation resistance, low noise and favorable linear regulation performance, the flow pressure regulating valve can achieve bubble-tight sealing. Its nominal diameter ranges from DN100 to DN2400, with a maximum nominal pressure of 10.0Mpa.

CENTERLINE BUTTERFLY VALVE
The valves are fully lined by Rubber EPDM, NBR or hard rubber or PTFE to anti-corrosion by sea water, chemical medium. Valves also can be lined by FEB to protect the metal body and disc.
We have concentric Butterfly valves fully lined by rubber EPDM, double eccentric Butterfly valves fully lined by hard-rubber, Triple offset butterfly valves are fully lined by FEB, Ball valves are fully lined by PTFE, or diaphragm valves fully lined by rubber or PTFE.
Working Pressure:10bar/16bar/25BAR/50bar.
Face to Face Standard:API609,EN558 series 13/14, AWWAC504
Size Range:DN500-DN2600

DOUBLE ECCENTRIC BUTTERFLY VALVE
Double Eccentric Butterfly valves EN593
Working Pressure of PN10 PN16 PN25
Face to face length EN558 Series 13/14 and AWWA C504
Size Range: DN100-DN2600
Body/Disc Material ： Ductile Iron EN-GIS-500, WCB, CF8, CF8M, DUPLEX SS 4A 5A
Body Seat: SS316

Disc Seat Ring: EPDM
Dis Retainer Ring:SS316
Stem: SS420, SS431, F51, F53
Application: Portable water, sea water, water treatment plants, below ground installation is also very common.

TRIPLE OFFSET BUTTERFLY VALVE
Triple Offset High Performance Butterfly Valve (TOV) is suitable for high temperature and high pressure working condition, which designed with three offsets so that when the valve starts to close, torque is the primary force to seat the valve. Triple offset Butterfly valves can increase the torque on the sealing surfaces such that a better seal can be realized. The seats are made of a laminate of stainless steel with graphite or PTFE or directly metal to metal, the seats are easily to be replaced when required.
Triple offset Butterfly Valve API ANSI
Pressure Rating from 150LBS to 1500LBS PN10-PN250
Size Range: 2"-48" DN50-DN1200
Face to face: API 609 & BS5155 & ISO5752 & BS EN558 SERIES 20/14/13

BALL VALVE
Flange dimensions to ANSI B16.5
Face to face dimensions to ANSI B16.10
Design and Manufacture in accordance with API6D
Fire safe to API 607/API SPEC 6FA&BS 6755 PART 2
Valve tested to API 598

COMPANY PROFILE:

SHIJIAZHUANG DEYE PIPING INDUSTRY CO., LTD. is an group company integrated with R & D and Marketing in Valve Industry, we focus on one stop solutions for piping industrial needs and providing professional products for both general valves and customized valves& complete valves integrated with actuators includes valve with pneumatic actuator, valve with motor elec. Actuator and valve with hydraulic actuator.

Our strong and main products are double Eccentric Butterfly valves, triple offset Butterfly valves and concentric wafer/lug/Flanges Butterfly valves . They are WRAS /NSF approved and flexible designed to meet sea water application. Material available in Ductile Iron, carbon steel, stainless steel and Duplex Stainless steel 4A, 5A, 6A.

Our new and strong products includes Plunger valves, tilting disc check valves, Nozzle Check valves and gate valves. With the rich experienced technician tea, we can support you fast CAD/3D drawings, projects document includes ITP, FAT, 3.1MTC, kinds of NDT test etc.

DEYE PIPING adhered to the quality as priority, has powerful technical development capability, the first-class processing and testing control, continuous optimized management system to ensure the performance and quality of DEYE valve.

PRODUCTS ON DISPLAY:

Siemens Energy will be displaying technology from the Power Generation solutions.

COMPANY PROFILE:

Siemens Energy is one of the world's leading energy technology companies, supporting customers and countries in building reliable, affordable, and sustainable energy systems. Operating in more than 90 countries with over 100,000 employees, the company serves the entire energy value chain, from power generation and transmission to industrial decarbonization and renewable energy solutions.

The company's portfolio includes gas and steam turbines, power generation services, high-voltage transmission technologies, grid infrastructure, industrial electrification solutions, hydrogen technologies, and renewable energy through Siemens Gamesa. Around one-sixth of the world's electricity generation is based on Siemens Energy technologies.

In the United Arab Emirates, Siemens Energy is a long-standing partner in the country's energy sector, supporting the UAE's ambitions for economic diversification, sustainability, and net-zero emissions. The company contributes to major initiatives across power generation, grid modernization, industrial electrification, and hydrogen development, helping ensure a resilient and efficient energy system. Siemens Energy's technologies support both conventional and renewable energy integration, enabling the UAE to meet growing energy demand while reducing carbon emissions.

Driven by innovation, partnerships, and a commitment to sustainability, Siemens Energy's mission is to energize society while helping customers reduce emissions, improve efficiency, and strengthen energy security.

A cartridge containing OXIRION : SIEVE's granular advanced regenerable material for wastewater treatment.

COMPANY PROFILE:

SIEVE is an Italian WaterTech and circular-economy company developing granular advanced regenerable materials for wastewater treatment. Its proprietary filtration media are produced from metallurgical residues and are designed to remove persistent organic pollutants, heavy metals and other residual contaminants through adsorption, ion exchange and catalytic mechanisms. The technology can be integrated into existing treatment plants as a modular final polishing step or used upstream to protect membranes. Unlike conventional disposable media, SIEVE's materials can be regenerated on-site and reused, reducing consumable use, waste generation and operating costs. The company works with industrial customers, engineering companies and wastewater-treatment system integrators to develop scalable solutions for water compliance, process-water reuse and more sustainable industrial operations.

PRODUCTS ON DISPLAY:

The main product is a water hammer prevention system using Big data & AI technology that protects pipelines from water shock caused by pressure changes in pipelines. We also supply pipe line management system using high speed storage device The high-speed pressure measuring device measures the pressure within the pipe, detects waterhammer, and analyzes the cause to prevent accidents. Existing systems store pressure at intervals of 7 seconds to 1 minute, but SM Tech stores pressure at 1-second intervals.

The accuracy range is 1000M for the existing system and 1M for SM Tech, showing accuracy.

Existing systems do not have the ability to store data, and SM Tech can store 1,000 data per second Through SM Tech's system, We can prevent accidents through Water hammer pressure monitoring inside the pipelines

COMPANY PROFILE:

SM Tech is a specialized company in the field of water hammer. We provide total solution for water hammer i.e. surge analysis, nomination of proper device, fabrication, installation,commissioning and training

GRP GRE GRVE PIPES AND FITTINGS
GRP MANHOLE COVER AND FRAME

COMPANY PROFILE:

Smithline Reinforced Composites is an established manufacturer of RTRP/FRP/GRP/GRVE/GRE pipes, fittings, composite manhole covers etc. since 2005 in Ras Al Khaimah Free Zone, UAE. Our pipes are manufactured by automated CNC Machines by helical winding method. We use mechatronic technology that is employed to provide high degrees of reliability and flexibility.

Our product range includes 20 various products with State-of–the-art expertise from all over the world. We have a motivated work force of about 180 employees most of whom are well experienced and trained in the field of GRP. Our output is around 1000 tons/month of production. We use frontline technology with world class machinery. We also have a state of the art Equipment for testing and quality control.

PRODUCTS ON DISPLAY:

Sokol-M1 — Precision weather intelligence in a compact package.
The Sokol-M1 is a rugged, multifunctional weather station engineered for high-accuracy environmental monitoring in the most demanding conditions. Built to deliver dependable performance from −60°C to +55°C, it integrates a complete suite of core meteorological sensors that ensure precise surface weather measurements.
Sokol-M1 captures the essential climate parameters:

- Air temperature
- Relative humidity
- Atmospheric pressure
- Wind speed and direction
- Precipitation, from 0.2 mm up to 120 mm/h.

COMPANY PROFILE:

"Sokol Meteo" is a professional brand of meteorological and environmental remote monitoring solutions, developed by the manufacturer behind the well-known "Escort" brand — a leader in IoT equipment for transport telematics, as well as the energy and transportation sectors. Since 2004, the company has operated with a full in-house production cycle, delivering high-quality R&D-driven solutions. Today, its sensors and devices are used in over 123 countries, helping logistics and construction companies reduce operating costs and providing governments worldwide with accurate, reliable weather data.

PRODUCTS ON DISPLAY:

Data concentrator MUC.easyplus

The all-rounder with a large variety of interfaces!

Metering interfaces are M-Bus, wM-Bus (OMS), Modbus (RTU, TCP), a serial interface RS-485 and three pulse counting inputs (S0).
Three variants exist. All communicate via Ethernet, alternatively the model 4G also via 4G (LTE) and the model NB also via NB-IoT.

- Simple configuration via integrated web server using a standard web browser
- Easy setup and selection of data points thanks to automatic bus scan
- 4 GB storage
- Encrypted or unencrypted data transmission via FTP, MQTT, SMTP (e-mail) and TCP generates a CSV, XML or JSON file to an energy management system, billing system or for visualization purposes
- Multi-Channel-Reporting (MCR): data transmission to up to 10 different instances
- Optionally available with Modbus TCP or BACnet/IP or BACnet/SC extension and load profile reading

Data concentrator MUC.one

Compact data concentrator for M-Bus or wM-Bus for transmission of data from a meter via NB-IoT

At present, our products contribute substantially to enhance energy efficiency in industry and commerce, while the end use consumer with his single meter has not benefitted as of now. A disproportionate cost-benefit ratio and an ensuing high price sensitivity governs this market. The MUC.one will fill this gap.

- Metering interfaces are M-Bus or wM-Bus (OMS)
- Simple configuration via integrated web server using a standard web browser
- Transmission of consumption and sensor data to an energy management system, billing system or for visualization purposes take place via NB-IoT
- Protocols HTTP(S) or MQTT(S) and the formats CSV, XML or JSON are available
- Configuration via WLAN/WiFi (only for configuration)

- The design optimising both investment and functions combined with globally acknowledged standard technologies aims to enter the mass market.

Data concentrator MUC500 M

The powerful data logger for huge installations (up to 500 unit loads) for M-Bus meter data

The MUC500 M is ideal for huge installations, because it is able to handle up to 500 unit loads on the bus lines. Metering interfaces are M-Bus and Modbus TCP. The MUC500 communicates via Ethernet.

- For 125, 250 and 500 unit loads
- Simple configuration via integrated web server using a standard web browser
- Easy setup and selection of data points thanks to automatic bus scan
- 4 GB storage
- Encrypted or unencrypted data transmission via FTP, MQTT, SMTP (e-mail) and TCP generates a CSV, XML or JSON file to an energy management system, billing system or for visualization purposes
- Multi-Channel-Reporting (MCR): data transmission to up to 10 different instances
- Optionally available with Modbus TCP or BACnet/IP or BACnet/SC extension for data transmission
- Video raus

Data concentrator MUC500 W

The powerful data logger for huge installations for wM-Bus meter data

Metering interfaces are up to two independent wM-Bus (OMS) channels, Modbus TCP and one RS-232 interface for connecting an external M-Bus level converter.

The MUC500 W communicates via Ethernet.

- wM-Bus receiver: usage of one of the frequency bands and modes
- Second wM-Bus receiver (for model W2): usage of an additional frequency band and mode or extension of the reception range by a second antenna
- Frequencies: 868 MHz, 433 MHz and 169 MHz
- Modes: S-, T, C resp. C/T
- Simple configuration via integrated web server using a standard web browser
- Easy setup and selection of data points thanks to automatic bus scan (with external level converter)
- 4 GB storage
- Encrypted or unencrypted data transmission via FTP, MQTT, SMTP (e-mail) and TCP generates a CSV, XML or JSON file to an energy management system, billing system or for visualization purposes
- Multi-Channel-Reporting (MCR): data transmission to up to 10 different instances
- Optionally available with Modbus TCP or BACnet/IP or BACnet/SC extension for data transmission

COMPANY PROFILE:

solvimus GmbH is a solution provider for smart metering. In addition to the products, the focus is on the development of customer-specific solutions as well as training and advice.

- Private Label Water Purification Solutions

COMPANY PROFILE:

SONG HONG VIET CO., LTD. (SANAKY VIETNAM) is one of Vietnam's leading manufacturers of water purification systems and household appliances, with nearly **30 years of manufacturing excellence**. Operating **seven large-scale factories** equipped with advanced automated production lines and international-standard quality management systems, we deliver reliable, high-performance products to customers worldwide.

Our product portfolio includes residential and commercial RO water purifiers, undersink systems, countertop units, water filtration components, freezers, coolers, and power transformers. With strong in-house engineering and manufacturing capabilities, SANAKY provides comprehensive OEM and ODM solutions, enabling partners to develop customized products, private labels, and market-specific designs with exceptional flexibility, consistent quality, and competitive lead times.

Quality, innovation, and sustainability are at the core of everything we do. Every product is manufactured under strict quality control procedures to ensure outstanding performance, durability, energy efficiency, and compliance with international market requirements.

As one of Vietnam's largest manufacturers in our industry, SANAKY has built a solid reputation in the domestic market while steadily expanding its global footprint across the Middle East, Asia, Africa, and other international markets.

At **WETEX 2026**, we look forward to connecting with distributors, importers, project developers, and strategic partners seeking a reliable long-term manufacturing partner. \

PRODUCTS ON DISPLAY:

Our Products

We are specialized in cooling solutions and innovation in dry and wet cooling.

Cooling Towers – Our field erected cooling towers are engineered for the toughest industrial cooling challenges in the oil & gas and energy sector. This induced-draft counterflow design, available in timber, FRP, and steel variants, delivers large-scale industrial cooling with reliable performance and minimum operating costs, wherever your process demands it.

Air Cooled Condensers – The ideal dry cooling solution for reliable power production: tailor-made, field erected, and built to last.

Air Cooled Heat Exchangers – Used across power, chemical, ORC, oil & gas, steel, and many other industries, our ACHEs deliver dependable performance wherever process cooling is critical.

Our Hypercooler – Our newest dry cooling solution, purpose-built for hyperscale data centers: low power, low maintenance, and a robust, compact design.

Aftermarket Activities – Spare parts, technical services and support, and performance-enhancement solutions, including our ACC360® cloud-based advanced analytics, to extend asset life and keep your cooling systems running at peak performance.

COMPANY PROFILE:

SPG Dry Cooling is a global leader in dry cooling solutions for power generation, oil & gas, data centers, green energy solutions & carbon capture, and other industrial applications. Backed by more than a century of engineering excellence, we combine European design expertise with global manufacturing strength to deliver end-to-end solutions, from design and manufacturing to installation and aftermarket support.

Zenith Solar Thermosyphon: 200L and 300L
Zenith Solar Forced Circulation: 500L to 10,000L

COMPANY PROFILE:

Zenith Water Heaters is a leading UAE-based manufacturer of electric and solar water heating solutions, with capacities ranging from 15L to 10,000L. With over three decades of experience, Zenith provides reliable and energy-efficient hot water solutions for residential, commercial, and industrial applications across the UAE and international markets.

With a strong focus on sustainability, Zenith offers a comprehensive range of solar water heating systems designed to harness renewable solar energy, reduce electricity consumption, and lower the environmental impact of hot water generation. Our solar solutions include systems for both residential and large-scale commercial applications, engineered to deliver efficient performance in demanding climatic conditions.

Committed to quality, innovation, and sustainable manufacturing, Zenith products are backed by internationally recognized certifications including WRAS and NSF, along with key UAE approvals from MOIAT and DCL. Through locally manufactured, energy-efficient solutions, Zenith continues to support the UAE's transition toward a more sustainable and energy-conscious future.

PRODUCTS ON DISPLAY:

Biogrigio Home — On-site greywater recovery for homes

Water is our future.
In an average household, around 220 litres of drinking water per person are consumed every day. At least 50% of that volume does not need to be potable: toilet flushing, garden irrigation, cleaning, car washing. Every litre saved is a litre that does not need to be treated, distributed and pumped.

The Starplast solution.

Biogrigio Home recovers greywater — the soapy water from washbasins, showers and bathtubs — treats it on site and makes it available again for non-potable use. The result is a concrete reduction of up to 50% in domestic drinking water consumption, with no change to daily habits.

How it works.

Three treatment stages are integrated into one compact unit:

Primary treatment — three settling chambers separate solids and floating matter (hair in particular). The unit cleans itself automatically on a programmed cycle and discharges the residues to the drain collector.

Secondary treatment — biological oxidation by fine-bubble aeration, driven by a membrane compressor, followed by MBR ultrafiltration. The permeate is drawn into the storage tank.

Storage and delivery — 330 litres of treated water are stored inside the body of the unit, continuously sanitised by a UV lamp and delivered to the connected outlets by an on-board pressure pump that starts automatically. Excess water is sent to the drain collector.

The whole cycle is managed by a PLC. Ordinary maintenance — removal of hair and sediments — is automatic; the ultrafiltration membrane is serviced once a year by a qualified technician.

Key features

Water and energy savings, at no cost to comfort
Compact, ready-to-use unit: plug & play
Fully automatic operation

No chemicals used

Self-cleaning

Low energy consumption

Technical data — BGR HE 500

Total volume 500 l · Recovered water volume 330 l · Dimensions 1200 x 740 x 1320 mm · Weight 150 kg · Flow rate 25 l/min at 3.0 bar · Power supply 230 V / 50 Hz / 1.0 kW (30 W/h) · Inlet Ø 60 mm · Outlet 1/2" · Overflow Ø 60 mm.

Application.

Biogrigio Home can be installed in new buildings and in existing homes, indoors or outdoors under suitable cover. It requires a dual plumbing line — one for potable mains water, one dedicated to non-potable recovered water — reaching the WC

COMPANY PROFILE:

Starplast S.r.l. — Water treatment, recovery and reuse systems

Water is a resource too precious to be wasted.

Founded in 2007 in Sassocorvaro Auditore (Marche, Italy), Starplast designs and manufactures polyethylene systems for the treatment, purification and recovery of water, for residential, commercial and industrial applications.

The entire process is managed in-house: design, mould construction, prototyping, rotational moulding, finishing and testing. Constant wall thickness, proprietary patents, inert and non-toxic material, systems compliant with national and international standards.

Our range covers more than 65 product families across five lines:

Biological treatment — grease traps, septic and Imhoff tanks, percolating filters, SBR plants

Stormwater management — grit and oil separators, first-flush systems, InPluvio drainage cells

Water recovery — Bioblu rainwater harvesting, Biogrigio and Biogrigio Home greywater reuse

Hydraulics — lifting stations, above-ground and underground tanks

Special systems — fire-fighting tanks, industrial and road applications

Our strength is following the Client step by step: tailor-made solutions, from system design to operation, with technical assistance on site for installation and commissioning, and a structured after-sales service for all maintenance work. Warranty: 24 months on polyethylene, 12 months on electromechanical components.

Today Starplast employs around 100 people across two production sites — Sassocorvaro Auditore and Lamezia Terme — serves more than 1,800 active Clients and operates in Italy and over ten European countries.

Innovation, efficiency and sustainability, for a safe water future.

Starplast. Save your blue gold.

COMPANY PROFILE:

Stiffness Water Pipelines & Stations Contracting L.L.C, has been involved in water pipeline construction services since 2014. Stiffness management has extensive experience in serving in a full range of Design and Build, Engineering, Procurement, Construction, and Commissioning. The project team maintains a strong foundation of trust and manual respect generated through positive relationships with Clients, Consultants, Subcontractors and Suppliers.

Companies are led by leaders who have strong convictions about the role of people in an organization. We constantly believe the same approach must be used for our employees. Our success depends on the achievement of everyone in our company. We select our people based not only on their potential and technical excellence, but also on their principles and values.

The construction industry is making great strides across the UAE today. To be at the forefront in this highly competitive scenario requires unstinting dedication to Quality, Efficiency and Safety. Our timely completion of projects with Dubai Electricity and Water Authority stands testimony to our commitment.

Our role in your project is not limited to that of providing contractual services. We are your partners in progress and share your pride in the accomplishment of the project. We leave nothing to chance and make no compromises. Our passion to outperform gives you the freedom to plan beyond imagination.

COMPANY PROFILE:

Sunten Electric Equipment Co., Ltd. is a Sino-foreign joint venture established by Sunten Electric Co., Ltd. (formerly known as Shunde Special Transformer Factory) and Schneider Electric. Founded in 1988, the Company has evolved over more than 30 years into one of the world's leading suppliers of transmission and distribution equipment. It is dedicated to delivering energy-efficient technologies, operation and maintenance services, and integrated solutions across the full spectrum of power generation, transmission, conversion, storage, and utilization. These solutions support high-quality social and economic development and contribute to the global drive for green and low-carbon energy transformation.

The Company mainly produces products covering transformers, pad-mounted transformers, prefabricated substations, switchgears, reactors, and integrated equipment, and provides turnkey power engineering solutions and services. Its business is widely distributed across both domestic and international markets in the fields of new energy (photovoltaic, wind power, energy storage), smart grid, data centers, semiconductors, nuclear power, rail transit, and heavy industries, supplying more than 300,000 sets of equipment to over 60 countries worldwide.

SureFlow

Address: Building 47, Health Care City
Tel / Fax: +9714 3397785
Email: mcc@sureflow.com
Website: https://www.sureflow.com/en
Contact: Maria Camila Correa

PRODUCTS ON DISPLAY:

SureFlow Water Flow Sensor:
Clamps onto existing pipes with no cutting or plumbing work, and uses ultrasonic technology to measure water flow. It learns each property's normal usage and flags leaks, backflow, stagnation, water hammer and freezing risks early.

SureFlow Gas Flow Sensor:
Straps onto the gas meters with analogue registers and reads consumption. SureFlow AI recognises which appliances are using gas, spots abnormal or continuous flow, and tracks usage against monthly budgets.

SureFlow Electrical Hub Kit:
Sticker-sized sensor strips fit directly above existing breakers, with no modifications, to monitor electricity use. The kit identifies individual appliances, detects hidden waste, warns of overheating breakers and overloads, and maps consumption across the home to show where savings can be made.

SureFlow EV Adapter:
A compact, plug-and-play adapter that sits between any existing EV charger and the vehicle. It schedules charging around solar surplus, off-peak tariffs and utility grid signals, and produces signed, auditable reports for corporate home-charging reimbursement.

SureFlow Environmental Sensor:
A compact sensor that works independently without SureFlow Connect and communicates with the cloud servers over Wi-Fi. It can sit on any flat surface or on the floor to track temperature, humidity and water presence. It also warns of mould and condensation risk, detects flooding, catches windows left open, and measures how efficiently a building heats and cools.

SureFlow AC Condensate Sensor:

Designed for central and mini-split air conditioners, it installs without tools and monitors the water level in the AC drain pan. By tracking how quickly the pan drains, it predicts clogs days before an overflow and automatically switches off the AC if one occurs. It also recommends when the drain line needs cleaning.

SureFlow Connect:
The central hub of the SureFlow ecosystem. It links SureFlow devices to the cloud over Wi-Fi or a cellular connection and is directly to compatible SureFlow devices via a wired connection. It runs on mains power or a battery, and mounts on walls or pipes.

COMPANY PROFILE:

SureFlow specialises in combining artificial intelligence and IoT technology to build smart utility monitoring sensors for cities, utilities, and consumers, helping them manage essential resources with sustainability, operational efficiency, and financial well-being at its core. With in-house research and development centres, the company designs, develops, and manufactures its own sensors, which gives it full control over quality.

The entire SureFlow ecosystem retrofits easily onto the existing infrastructure, without modifications or specialist technicians. The hardware line includes the SureFlow Water Flow Sensor, SureFlow Gas Flow Sensor, SureFlow Electrical Hub Kit, SureFlow EV Adapter, SureFlow Environmental Sensor, SureFlow AC Condensate Sensor, and the linchpin: the SureFlow Connect. The sensors track resource consumption, and the data flows to the SureFlow Connect, the central hub.

SureFlow AI and its intelligent sensor network work hand in hand to analyse consumption patterns, catch leaks, flag abnormal usage, alert users to electrical faults, anticipate maintenance needs, and deliver insights through an intuitive mobile application. For utilities and cities, SureFlow provides a single dashboard to monitor every district and plugs straight into the systems they already rely on.

Looking ahead, SureFlow plans to bring its technology to cities worldwide, partnering with governments and utilities to make urban living smarter and more sustainable.

AMI-II Fluotrace Oil: The reliable, real-time Oil-in-Water Monitor delivering outstanding sensitivity. With its low-maintenance design, it's the ideal solution for continuous hydrocarbon monitoring in diverse applications
AMI-II Turbisafe: The cost-efficient online turbidity analyzer – reliable and easy to maintain.
AMI-II Trides: Advanced online analyzer for continuous, real-time monitoring and controlling of disinfectant concentrations.
AMI SAC254: Continuous UV absorption monitoring for precise determination of the organic load in raw-, process-, and wastewater.
Chematest 42: A rugged, waterproof handheld photometer with Bluetooth that delivers high-precision chlorine, turbidity, and water-quality measurements for rapid, reliable field and plant-side testing.

COMPANY PROFILE:

Since 1991, SWAN has built high-precision analyzers that catch even the smallest changes in water quality—often before anyone notices a risk. What started as a small team driven by Swiss accuracy has become a trusted global standard in online monitoring.

Quality is the foundation of everything we do. Every Swan instrument is engineered, assembled, and tested in Switzerland, ensuring unmatched reliability and long-term performance. From meticulous material selection to final factory calibration, each device is verified under real operating conditions and arrives fully configured, plug-and-play, and ready for precise results from the first measurement.

Dedicated to continuous measurement from the very beginning, our instruments work quietly in the background, protecting people, the environment, and critical processes.

We make water safe.

PRODUCTS ON DISPLAY:

Smart water metering and digital water management; flow and pressure control; water storage solutions; water and wastewater pumping; wastewater and leachate treatment; water quality and microbiological monitoring; water network monitoring and leakage detection; waste shredding and treatment technology; landfill gas and biogas solutions; gas treatment and emission control; resource recovery and environmental process technologies.

COMPANY PROFILE:

The Swiss Pavilion brings together innovative Swiss expertise and technologies for the water, wastewater, waste and environmental sectors, showcasing solutions that contribute to more efficient, resilient and sustainable infrastructure and resource management.

The participating companies cover a broad range of applications across the water and resource cycles. Their expertise includes smart water metering and digital water management, flow and pressure control, water storage and pumping, water and wastewater treatment, water quality and microbiological monitoring, as well as advanced solutions for waste treatment and processing, landfill and biogas management and resource recovery.

Together, these solutions demonstrate how Swiss engineering, precision technology and practical innovation can help utilities, municipalities and industrial operators improve resource efficiency, reduce environmental impacts and strengthen the performance of essential infrastructure.

The Swiss Pavilion offers an opportunity to discover a diverse portfolio of technologies and expertise from Switzerland and to connect with companies developing solutions for some of the key challenges facing the water, waste and environmental sectors today.

cistern, laundry, garage and garden. In new buildings the additional cost over a standard plumbing system is minimal. Outlets on the non-potable line must be fitted with a safety device and marked "non-potable water".

Where recovered greywater exceeds demand, the system can be integrated with **Bioblu**, the Starplast rainwater harvesting range. **Manufactured in Italy** by Starplast in rotational-moulded polyethylene, with constant wall thickness — the same technology behind our complete range of wastewater treatment, stormwater management and water reuse systems.

HYORIM E&I (Korea) — ***Water & wastewater treatment equipment:*** Non-metallic chain-flight sludge collectors, Circular sludge collectors, Inclined plate settlers/tube settlers, Filter underdrain systems, Screens, Gates and oxidation ditch rotors.

SAMJIN E&I (Korea) — ***Valves & advanced water-treatment solutions:*** butterfly, gate, check, air, control and pressure-control valves; sluice gates; leak-detection and Smart Water Management systems; MBBR, DAF, filtration and packaged water & wastewater treatment systems.

DOOCH (Korea) — ***Advanced pumping solutions:*** variable-speed booster pump systems, firefighting pump systems, vertical multistage pumps, in-line and circulation pumps, horizontal centrifugal pumps, sewage/submersible pumps and intelligent pump-control systems.

FLUEN (Korea) — ***Sludge dewatering systems:*** Decanter centrifuges, Polymer preparation & dosing systems, and progressive cavity pumps for municipal, desalination and industrial wastewater applications.

COMPANY PROFILE:

SBN WaterTech is the specialist water and wastewater solutions division of S B N General Trading LLC, Dubai, bringing proven Korean technology to the UAE and GCC.

Through four Korean technology partners, SBN WaterTech provides complementary solutions across the water and wastewater treatment cycle. HYORIM E&I focuses on screening, settling and sludge collection; DOOCH provides pumps and smart pumping systems; SAMJIN E&I supplies flow-control valves and advanced water-treatment solutions; and FLUEN specializes in sludge dewatering, separation and environmental equipment.

Our approach is simple: from intake to sludge, one Dubai partner. We provide a single local point of contact for equipment selection, technical coordination, submittals, delivery, spare parts and after-sales support—helping customers manage multiple technology packages more efficiently.

SBN WaterTech serves water and wastewater treatment, desalination, sewage, reuse, pumping and industrial applications, working with utilities, EPC contractors, consultants and project owners across the region

Solar Photovoltaic (PV) Systems and Renewable Energy Solutions, Battery Energy Storage Systems (BESS), Electric Vehicle (EV) Charging Infrastructure, Energy Management and Efficiency Solutions, Smart Energy Monitoring and Control Systems, Water Efficiency and Treatment Solutions, and Sustainable Engineering Consultancy.

COMPANY PROFILE:

Sadeem Energy is a Dubai-based energy and engineering solutions provider committed to advancing sustainability, energy efficiency, and innovative infrastructure solutions across the UAE. As a proud UAE-based SME, the company delivers integrated solutions in solar photovoltaic systems, battery energy storage, electric vehicle charging infrastructure, energy management, smart monitoring, and water efficiency.

Combining engineering expertise with a practical, performance-driven approach, Sadeem Energy supports government entities, utilities, commercial and industrial clients, and infrastructure developers in optimizing energy consumption, improving operational reliability, and reducing operating costs. Its solutions are tailored to meet project requirements while supporting long-term efficiency, sustainability, and environmental responsibility.

Aligned with the UAE's clean energy transition and Net Zero 2050 ambitions, Sadeem Energy strives to transform sustainable energy objectives into measurable results through reliable engineering, innovative technologies, and integrated energy solutions. The company is committed to supporting a more energy-efficient, resource-conscious, and sustainable future for the UAE.

PRODUCTS ON DISPLAY:

Beyond Desalination: Unlocking the Full Value of Seawater with SEP

COMPANY PROFILE:

Drawing on 70 years of global presence and combining this experience with innovative methods, Salt and Evaporation Plants develops technologies that improve sustainability, increase efficiency, and deliver high-quality products.

Our technologies enable the recovery of high-purity products from seawater, including sodium chloride, calcium chloride, sodium sulfate, magnesium oxide, bromine, and potassium chloride or potassium sulfate.

The value of these products can offset the higher cost of recovering water from desalination brine rejects—including both monovalent and bivalent streams currently discharged into the sea—and generate revenue several times greater than that from water alone.

Did you know that, in SEP's seawater processing concept, water ranks only sixth among revenue-generating products?

Visit SEP in Hall 2 SS-R6 to discover the real value of seawater!!!

Shaanxi Xinshengtai Environment Engineering Equipment Co., Ltd. is an environmental protection equipment manufacturer with over 20 years of experience in the water treatment industry. For many years, the company has been committed to the research, development, production, sales, and service of products related to wastewater treatment, zero discharge, reclaimed water reuse, domestic water purification, brackish water treatment, seawater desalination, industrial circulating water treatment, industrial water supply, pure water treatment, and ultrapure water treatment. Its main products include raw water pretreatment systems, power plant chemical water equipment, water softeners, reverse osmosis systems, ultrafiltration systems, electro-deionization systems, and disinfection and sterilization equipment. With strict quality control, professional technical support, and attentive customer service, the company has won the favor of overseas clients and has obtained ISO and CE certifications. It holds over 30 utility model patents and possesses relevant qualifications for water treatment engineering design and contracting. The company has also received numerous honors, including being named a National High-tech Enterprise and receiving an AAA credit rating. These products have been sold to countries such as the United States, Mexico, Australia, France, and Chile.patents, and holds relevant qualifications for engineering design and contracting in the water treatment sector. Additionally, it has received numerous honors, including recognition as a National High-Tech Enterprise and an AAA-level credit rating. Its products have been exported to countries such as the United States, Mexico, Australia, France, and Chile.

COMPANY PROFILE:

Since 1982, Delivering Global Excellence in SSAW/SAWH Carbon Steel Tubes and Pipes

SSPMC strives to become the premier supplier of Spirally Welded Pipes to the greater quality in the middle east region. We aspire to produce a flawless product that exceeds the highest international standards. We are dedicated to our valued customer satisfaction by providing exceptional customer service, quality materials, and after-sales customer assistance.

At Sharjah Steel Pipe, we take pride in being a leading manufacturer of high-quality carbon steel pipes. With years of experience in the industry, we provide our clients with durable and reliable products that meet their specific needs. Our state-of-the-art manufacturing processes, coupled with rigorous quality control, ensure that every pipe we produce adheres to the highest standards. Whether you're in construction, oil and gas, or any other sector, we offer a comprehensive range of carbon steel pipes designed to support your projects seamlessly. Explore our offerings and discover how we can be your trusted partner in achieving your goals. Thank you for visiting, and we look forward to serving you!

At WETEX 2026, Siemens is demonstrating what it takes to build the resilient, sustainable utilities the region needs. By combining the real and digital worlds, across electrification, grids, buildings, water, and cybersecurity, Siemens engineers these systems to work as one, giving utilities the ability to integrate renewable energy and digitalize their operations without compromising security. This is technology to transform the everyday, built to help utilities across the Middle East grow more resilient and more intelligent, together.

COMPANY PROFILE:

Siemens is a leading technology company focused on industry, infrastructure, mobility, and healthcare. The company's purpose is to create technology to transform the everyday, for everyone. By combining the real and the digital worlds, Siemens empowers customers to accelerate their digital and sustainability transformations, making factories more efficient, cities more livable, and transportation more sustainable. A leader in industrial AI, Siemens leverages its deep domain know-how to apply AI – including generative AI – to real-world applications, making AI accessible and impactful for customers across diverse industries

COMPANY PROFILE:

Society of Engineers – UAE (SOE-UAE)

The Society of Engineers – UAE (SOE-UAE) is a leading professional organization dedicated to advancing the engineering profession and supporting the development of the engineering sector in the United Arab Emirates. Established in 1979, the Society plays a vital role in promoting engineering excellence, professional development, innovation, and knowledge exchange.

SOE-UAE serves as a platform connecting engineering professionals, government entities, academic institutions, and industry stakeholders to foster collaboration and contribute to the UAE's sustainable development goals.

Through its diverse services and initiatives, the Society provides professional membership services, specialized training programs, technical consultancy, engineering expertise, and professional development opportunities. It also organizes and participates in conferences, exhibitions, workshops, and industry events to encourage knowledge sharing and strengthen partnerships across engineering disciplines.

Committed to supporting national priorities, SOE-UAE promotes sustainable engineering practices, technological advancement, environmental responsibility, and the adoption of innovative solutions that enhance infrastructure development and resource efficiency.

Through its participation in WETEX 2026, the Society aims to strengthen cooperation with industry leaders, showcase its commitment to sustainability and engineering innovation, and support the exchange of expertise in water, energy, technology, and environmental sustainability.

Advanced Aerobic Fermentation Technologies for Biowaste Treatment and Resource Recovery

BIOCON, EWA and BIOS aerobic fermenters and BEWABOX tunnel fermentation systems for controlled treatment of biodegradable and organic waste. Our technologies process food waste, agricultural residues, green waste, organic industrial waste, sewage sludge and biodegradable fractions of municipal solid waste.

Depending on the input material and application, outputs include hygienised substrates for soil improvement and materials for further energy recovery. Suitable substrates can be used in agriculture, landscaping and land restoration, with further maturation where required.

COMPANY PROFILE:

SOLBIEN a.s. is a Czech technology and engineering company developing solutions for biowaste treatment and resource recovery.

For the Gulf region, a key application of SOLBIEN technologies is converting suitable local biowaste into **organic soil improvers** for agriculture, urban landscaping and land restoration. These materials can replenish soil organic matter and help improve the structure, fertility and **water retention** of sandy soils, supporting cultivation and greening in arid conditions.

Our core expertise is controlled aerobic fermentation, enabling rapid hygienisation and biological processing of organic materials. Our portfolio covers decentralised installations and larger municipal and industrial applications.

We develop solutions around the characteristics of the waste stream, required capacity and intended use of the treated material.

At WETEX, we seek international partners for technology deployment and pilot projects focused on biowaste recovery, soil improvement and sustainable landscaping in the Gulf region.

SenseMi Solutions is a UAE-based smart utility technology company delivering innovative, end-to-end metering and digital infrastructure solutions for electricity, water, and gas networks. Established in Dubai in 2016, SenseMi combines over two decades of specialized smart metering expertise with more than 50 years of combined management experience in energy systems.

Headquartered in Dubai, where its Research & Development Center drives continuous technological innovation, SenseMi operates through **two strategic regional hubs**. Its **UAE hub**, supported by advanced manufacturing facilities in Ras Al Khaimah, serves the **GCC, MENA, and African markets**. Its **CIS hub**, with manufacturing and operational capabilities in Azerbaijan and Kazakhstan, supports Central Asia and the wider CIS region, strengthening regional accessibility, technical support, and international project delivery.

SenseMi's comprehensive portfolio integrates high-precision smart electricity, water, and gas meters with advanced communication technologies, Automated Meter Reading (AMR), Advanced Metering Infrastructure (AMI), and proprietary utility software platforms. Its in-house Head-End Systems, Meter Data Management, analytics, and reporting solutions enable seamless connectivity, intelligent monitoring, and data-driven utility management.

Distinguished by **independent technology development, in-house engineering and manufacturing, flexible communication architectures, and integrated hardware and software capabilities**, SenseMi delivers reliable, scalable, and customizable solutions tailored to diverse utility requirements.

Committed to engineering excellence, customer success, and sustainability, SenseMi empowers utilities to enhance operational efficiency, reduce resource losses, accelerate digital transformation, and build smarter, more resilient infrastructure. **SenseMi Solutions — From Smart Metering to Smart Utility Management.**

COMPANY PROFILE:

Tangshan Guangming Plastic Industry Co., Ltd. was founded in 1988, based on the former Yutian County Guangming Plastic Factory. The company is located in the Yunan New District of Yutian County, in the golden triangle area of Beijing, Tianjin and Tangshan, with convenient transportation and close proximity to the Beijing-Shenyang Expressway and the Beijing-Tangshan High-Speed Railway. The company has a total fixed asset value of 120 million yuan, and is equipped with over 30 injection molding machines ranging from 1000 to 70000 grams, as well as its own R&D center. The company independently develops its products and customizes them according to customer needs. Its products include injection molded and blow molded pallets for storage, which are now widely used in the logistics distribution systems and automated warehouses of enterprises in the food, automotive manufacturing, beer and beverage, and chemical industries.Relying on its strong strength and the favorable market environment, the company is constantly striving for progress and innovation in its professional field. Currently, it holds 9 independent intellectual property rights. In 2017, it was awarded the title of High-tech Enterprise in Hebei Province. The company is committed to creating a cultural concept of win-win for the company, customers and employees in the new situation.

Tesar SRL

Address: Località Chiaveretto, 37/B I-52010 Subbiano - AR
Tel / Fax: 39 0575 3171
Email: info@tesar.eu
Website: https://the-rsgroup.com/tesar-gulf/
Contact: Simona Colzi

PRODUCTS ON DISPLAY:

Tesar was founded in 1979 as a manufacturer of cast resin transformers. First in Italy and one of the first in Europe to introduce the cast resin technology for the insulation of the transformers.

The range of products is wide, and for any kind of application such as standard distribution, powering production plants, renewable energy (solar, wind, etc.) , battery charger, data centers, railways as well as special industrial applications (converters, rectifiers, etc.) . All transformers are designed and built using the best materials available on the market, with very low losses and therefore high efficiency which contribute to the reduction of energy consumption and CO2 emissions.

Our technicians are active members of the European and International Technical Committees for the study, publication and updating of the Technical Standards necessary for the construction and testing of transformers.

Tesar is equipped with the best and most up-to-date machineries for manufacturing of its products whose Quality and Reliability is recognized throughout the world.

Tesar is certified ISO 9001, ISO 14001 and ISO 45001 respectively for Quality, Environment and Safety.

By now, more than 100,000 Tesar transformers are installed in all five continents, with a strong footprint in Italy, Europe and in the Middle East. The first step in outside Italy was taken already in 1988 when Tesar made the first supplies for CERN is Switzerland. The partnership with CERN is still strong nowadays. The most important enter to Middle East was done in 1993 with the first supplies to DEWA in Dubai. Today Tesar is a Strategic Partner of DEWA, with a long standing cooperation of 30 years and more than 9000 transformers were supplied to DEWA guaranteeing energy distribution in Dubai network.

During all these 40 years of activity, Tesar continuously studied and improved the climatic, environmental and fire behavioral classes by achieving in 2022 E4-C3-F1, an important milestone that guarantee the operational performance of the transformer under the harshest environmental conditions.

Many objectives have been achieved, at a qualitative and research level, always at the forefront of studies for regulatory updates.

The latest references speak of Tesar transformers installed in all the stadiums of FIFA World Cup 2022 in Qatar.

Tesar is strongly present in the Gulf Area and thanks to its representative office in Dubai and the factory of Tesar Gulf in Al Ain - UAE, Tesar is willing to further grow and support its valuable customers in UAE and the entire GCC.

Since 2016, the company has been acquired by R&S Group, a Swiss industrial holding that belongs to a Swiss private investment fund. Through Group synergies, Tesar is increasing its international footprint and carrying out the investments necessary to develop and optimize its products for future driving market segments, such as renewable energy, E-mobility, data storage and the renewal and modernization of rail and tram networks.

said Matteo Angiolini, Managing Director of Tesar SRL.

COMPANY PROFILE:

Tesar – Expertise in cast resin dry-type transformers

Tesar brings together all global activities in cast resin dry-type transformers and instrument transformers within the R&S Group. With locations in Italy (Tesar Italia), Poland (Tesar Polska) and the United Arab Emirates (Tesar Gulf), the group offers a consistent portfolio of cast resin transformers and current and voltage transformers for medium-voltage applications – from standard distribution networks to complex industrial and infrastructure projects.

As one of Europe's pioneers in cast resin technology, Tesar has been developing dry-type transformers since 1979 with high fire safety classes, low maintenance requirements and excellent electrical performance. More than 100,000 Tesar transformers installed worldwide are a reference for technical reliability, efficiency and long service life.

Tesar is active in European and international standardization committees and works closely with utilities, EPCs, planners and operators. Applications range from renewable energies (wind, solar, BESS) and data centers, tunnels, hospitals and airports to rail power supply, near-offshore projects and critical infrastructure.

PRODUCTS ON DISPLAY:

Reverse Osmosis (RO)

TORAY first began producing Reverse Osmosis and Nano-filtration spiral wound membrane elements in 1967, starting with cellulose acetate membrane elements. Toray our product line includes a full range of state-of-the-art cross linked polyamide composite membranes manufactured under ISO 9001 certification.

Ultra-filtration (UF)

Toray's PVDF hollow fiber membrane module effectively removes suspended solids and microorganisms such as pathogens, when used for various types of water treatment. This innovative membrane module was developed with polymer science and the membrane fabrication technologies accumulated in Toray Industries, Inc. for more than 30 years.

Membrane bioreactors (MBR)

Toray's Membrane Bioreactor (MBR) process is a combination of biological wastewater treatment and membrane filtration. Biodegradable pollution is reduced using bacteria and microorganisms. Following biological treatment, the activated-sludge is separated from the treated water by a microfiltration membrane.

COMPANY PROFILE:

Toray Membrane Middle East LLC (TMME) is a joint venture between Tokyo, Japan-based Toray Industries, Inc., one of the leading chemical companies in the world for advanced materials, and Abdallah Abunayyan Trading Company Limited., which provides turnkey solutions in water, power and energy applications based in Riyadh, Saudi Arabia.

TMME is engaged in manufacturing, sales, and technical service of water treatment membrane products. Its state-of-the-art factory in Dammam is one of the largest global scale reverse osmosis (RO) membrane production facility in the Middle East, applying Toray's global quality control standards developed and refined over more than three decades.

- Rotating equipment services, overhauls and repair
- Refurbishment of all types of rotating equipment
- 24 hours emergency response coverage
- Maintenance Contracts with lifetime warranty
- Highly skilled OEM trained site service engineers to undertake all types of installation, Commissioning and Maintenance work
- Technical Assessments
- Roto Dynamic Analysis
- Rotating Equipment Performance/ Efficiency Testing
- Vibration analysis/ Condition Monitoring

Spares for Torishima Pump and other OEMs

- Parts designed, manufactured and inspected to OEM standards
- 3D part modeling with positive material identification (PMI) Capability
- Stocked material allowing quick turnaround
- Mechanical Seal replacement or refurbishment

Hydraulic and Material upgrades REDU

- Material and performance upgrade

- Efficiency enhancing and water resistant coatings
- Site survey with system analysis
- Replacement of pump hydraulics

Replacement Pumps and pump retrofits

- Providing new pumps with improved hydraulic designs
- Torishima pumps manufactured to fit into existing pipework foundations and control system
- Complete system analysis ensuring newly installed pumps have total process integration
- Professional experienced turnkey packages provider

Oilfield service provider

Technical & Workshop Services

- Balancing
- Shaft Straightening
- Non Destructive Examination

Engineered pumps and related after-market and service solutions

COMPANY PROFILE:

Trillium Flow Technologies is a global designer, manufacturer, and aftermarket service provider of engineered pumps for critical applications across the water, power generation, oil & gas, mining, and process industries.

Backed by renowned brands including **Termomeccanica Pompe** and **Gabbioneta Pumps**, and supported by a global network of sales, operations, and service professionals, we deliver efficient and reliable solutions throughout the entire equipment lifecycle, from design and installation to maintenance, upgrades, and re-rates.

Our pumps serve water transmission, irrigation, land reclamation, and desalination applications. In the power generation sector, our comprehensive portfolio supports both main and auxiliary services for conventional, combined-cycle, geothermal, and nuclear power plants, including boiler feedwater, condensate extraction, circulating water, and closed-circuit cooling applications.

For customers in the UAE, our Abu Dhabi Service Center provides local expertise and rapid-response support for rotating equipment while upholding the highest global standards. Our workshop performs all main repair and maintenance activities, complemented by field services including installation and commissioning supervision, major overhauls, troubleshooting, mechanical analysis, and condition monitoring.

VIEGA piping technology, combining innovative engineering with efficient and reliable piping solutions

SINGER®, offering a broad range of reliable control valve solutions, including float valves, pressure-reducing valves, pressure-relief valves and pressure-reducing-sustaining-check valves that ensure stability, precision and efficiency for water management and distribution systems.

TROUVAY & CAUVIN's comprehensive range of Pipes, Valves, Flanges, Fittings and more.

COMPANY PROFILE:

TROUVAY & CAUVIN, founded in 1881 in Le Havre, France, is a leading global supplier of piping solutions for the energy, construction, water, and environmental sectors. Our extensive product range, that embraces seamless and welded pipes, valves, fittings and flanges, in all grades including duplex/super duplex stainless steel, allows us to provide comprehensive solutions for diverse applications such as potable water production, storage, and distribution; wastewater treatment; desalination; irrigation; as well as various MEP applications.

With 13 offices around the world, including Dubai and Abu Dhabi, and 5 strategically located logistics platforms, TROUVAY & CAUVIN is well-equipped to address the immediate needs of projects on a global scale. Our long-standing presence in the UAE, spanning over 30 years, has established us as the preferred partner for large-scale and prestigious water projects, including ongoing initiatives in desalination and stormwater management.

Our commitment to quality and innovation is underscored by our strategic partnerships with leading manufacturers, enabling us to meet the rigorous standards of the building, water, and infrastructure industries. We supply products for the water industry, accommodating all applications regardless of the water source. The valves we supply are used in various

scenarios, from standard plumbing valves in buildings and small-town pumping stations to high-pressure water production systems, with diameters up to 88 inches.

With a strong legacy, proven expertise, and a deep understanding of modern water infrastructure needs, TROUVAY & CAUVIN remains a trusted partner in delivering reliable piping solutions across the full water cycle, including production, distribution, treatment, and reuse. We continue to support projects with innovative solutions, responsive logistics, and a steadfast commitment to water security and performance.

COMPANY PROFILE:

TBEA Electrical Equipment Group Co., Ltd. (hereinafter referred to as "the Group") is a leading power equipment manufacturing group dedicated to delivering integrated system solutions for the global energy industry. It has formed a development pattern of "one body and two wings" with the manufacturing industry as main body and the domestic and international manufacturing service industry as two wings.

The Group has over 80 years of experience in transformer development and over 70 years of cable manufacturing. It has successfully built a comprehensive industrial chain covering transformers, switches, GIL, capacitors and reactors, cables and accessories, power secondary, instrument transformer and core transformer components. Additionally, the company offers integrated services across the entire power transmission and distribution sector, including offshore wind power boost station integration, substation operation and maintenance, energy storage power station and new energy charging station investment and operation.

The Group has built 16 digital industrial parks across China as well as overseas HV Transformer R&D and manufacturing base in India. It has set up more than 100 offices around the world, providing green technology, intelligent environmental protection, reliable and efficient energy equipment to more than 90 countries and regions.

The Group has actively participated various projects in different applications including grid upgrades, new energy, and data centers–across regions such as Europe, Middle East, and Asia-Pacific, with a total overseas contract value exceeding US$30 billion, making active contributions to promoting global green and efficient power grid construction.

Polypropylene (PP-B) compression fittings.

Maximum nominal pressure up to 16 bar at 20°C. For drinking water distribution systems.
Compliant with ISO, UNI, DIN norms.

Welding fittings made of PE100 RC.

Suitable for the conveying of drinking water and fuel gas. UV resistant.
Compliant with UNI EN 12201, UNI EN 1555, EN 12201, EN 1555, ISO 4427, ISO 4437, EN ISO 15494.

COMPANY PROFILE:

Unidelta was founded in Vestone (Brescia), Italy, in 1973, starting with the production of polyethylene pipes. Today, the company manufactures a wide range of pipes and fittings for water, gas, heating and cooling systems.

Unidelta manufactures:

- High- and low-density polyethylene pipes (PE 100 RC, PE 100 RC-RD and PE 40);
- Polypropylene compression fittings, universal transition joints, clamp saddles and valves;
- Electrofusion, butt fusion and transition fittings;
- PE-X, PE-RT and PE-RT/Al/PE-RT pipes and brass press fittings for water supply, heating and cooling systems.

All Unidelta products are manufactured in Italy, with a constant focus on quality and reliability.

Unidelta operates in compliance with the UNI EN ISO 9001:2015 Quality Management System and has been ISO 9001 certified since 1995. The company is also certified according to ISO 14001 for Environmental Management and ISO 45001:2018 for Occupational Health and Safety Management.

COMPANY PROFILE:

Extensive Experience, Strong Engineering

Üstünel Submersible Pump and Motor operates with the aim of providing reliable solutions for industrial needs, leveraging its experience in the field of pump and fluid technologies. Since its establishment, it has secured a strong position in the sector by combining technical knowledge, field experience, and engineering discipline.

Our Areas of Expertise

Our company supplies and installs products and systems tailored to the needs of various sectors, primarily including submersible pumps, submersible motors, and booster pump systems. In every project, our primary goal is to select the right product and ensure system compatibility.

Project-Based Solution Approach

Üstünel adopts a solution-oriented approach that goes beyond standard product understanding; encompassing exploration, technical analysis, and project design processes. It evaluates each project within its own dynamics and develops the most suitable systems for the site and intended use.

6. DN 300 Metal Seated Check Valve
7. DN 300 Pressure Reducing Valve
8. 10 Inch, Class 600 Triple Offset Butterfly Valve

COMPANY PROFILE:

VME Valves Factory LLC is an Abu Dhabi-based manufacturer of industrial valves and flow control solutions for the water, wastewater, oil and gas, energy, and process industries. Located in Khalifa Economic Zones Abu Dhabi (KEZAD), the company designs, manufactures, tests and supplies valves for infrastructure and industrial projects across the region.

VME's product portfolio covers a broad range of flow control requirements. Its water and wastewater range includes gate valves, butterfly valves, check valves, air valves, plug valves, flap valves and mechanical fittings. For energy and process applications, the range includes ball valves, triple offset butterfly valves, gate, globe and check valves, and control valves. This breadth enables VME to support applications involving pipeline isolation, flow regulation, backflow prevention and system protection.

The company's manufacturing facility brings together CNC machining, assembly, inspection, testing, surface preparation, painting and fusion bonded epoxy coating capabilities. These in-house processes support coordination between engineering, production and quality teams throughout the manufacturing cycle. VME also emphasizes material traceability and documented quality procedures, helping customers assess products against their technical and project requirements.

As a UAE-based manufacturer, VME aims to combine engineering support with responsive service and dependable delivery. Its team works with customers to understand operating conditions, specifications and application needs, then identify suitable valve solutions. From initial enquiry and technical review through production, testing and after-sales support, the company seeks to build lasting relationships through product quality and accountability.

Guided by its commitment to innovation, continual improvement, health, safety and environmental responsibility, VME Valves continues to develop its capabilities to serve the region's evolving infrastructure and industrial markets. Its goal is to be a trusted local partner for customers who need reliable valves, practical engineering support and a manufacturer they can work with throughout the life of a project.

Founded in 1987, WATEC is a Moroccan company specializing in water and wastewater treatment. We develop integrated solutions for drinking water production, seawater and brackish water desalination, industrial water treatment, wastewater treatment and reuse.

Our expertise covers reverse osmosis, filtration, ultrafiltration, biological treatment, pumping and automation. We support projects from engineering and equipment integration through installation, commissioning and technical support, adapting each solution to the water source, required capacity and intended use.

A key part of our offering is compact, modular and containerized treatment units designed for mobility and rapid deployment. These solutions address water supply needs where transportability, limited space and installation time are important.

Alongside mobile units, WATEC delivers permanent installations for public utilities, municipalities and industrial operators. Our project references in Morocco demonstrate our experience across desalination, water production and hydraulic infrastructure.

At WETEX 2026, we welcome international partners, engineering firms and project developers to discuss water treatment projects and technical or commercial partnerships.

- Solutions for Renewable Energy Applications
- Data Center Connectivity Solutions
- Industrial Cybersecurity and Network Reliability Solutions

COMPANY PROFILE:

Weidmüller is a leading global partner in Industrial Connectivity, Automation, and Digitalization. With a strong presence in over 80 countries, Weidmüller supports customers across industries including energy, water and wastewater, infrastructure, manufacturing, renewable energy, and data centers.

Our comprehensive portfolio includes terminal blocks, industrial connectivity products, Industrial Ethernet solutions, power supplies, automation and control systems, remote I/O solutions, and smart industrial infrastructure technologies. By combining innovation with industry expertise, Weidmüller helps customers improve operational efficiency, reliability, and sustainability.

At WETEX 2026, Weidmüller will present solutions that enable the transition towards smarter, more connected, and sustainable industries, supporting digital transformation across critical sectors. Through innovative technologies and trusted partnerships, we empower customers to connect, monitor, and optimize their operations for the future.

PRODUCTS ON DISPLAY:

WAILS Underwater Monitoring System – a self-powered, self-cleaning smart camera that brings continuous, real-time visibility below the water surface.

The system combines an underwater camera, an integrated wiper that automatically keeps the lens clean, LED/IR lighting for low-visibility conditions and environmental sensors.

All images and data flow into the WAILS cloud platform, where artificial intelligence analyses them automatically. Users get live view, timelapse videos of works and seabed changes, automatic alerts and periodic certified reports, accessible from anywhere.

The result is long-term underwater monitoring without the need for divers on site: lower costs, higher safety and objective, documented data for construction works, infrastructure protection and environmental compliance.

COMPANY PROFILE:

WAILS is an Italian company based in Mantova that develops underwater monitoring systems combining smart cameras, environmental sensors and artificial intelligence in a single cloud platform.

Our solutions provide continuous, remote visibility of what happens below the surface, reducing the need for divers on site. Systems are easy to install, can be relocated from one site to another and can operate with grid power or autonomously with batteries and solar panels.

WAILS serves a wide range of applications: marine protected areas, underwater construction sites, ports and offshore infrastructure, fish passes and aquaculture, underwater intrusion detection, subsea archaeology and cetacean monitoring on board vessels.

We support utilities, contractors, port authorities and research institutes in documenting works, protecting infrastructure and meeting environmental monitoring requirements, with all data accessible from anywhere through the WAILS platform.

PRODUCTS ON DISPLAY:

Plant Ark showcases turnkey industrial vertical farming and controlled-environment agriculture solutions for extreme climates. We provide end-to-end project delivery—from crop and facility planning, system design and equipment integration to installation, commissioning, operational optimization and long-term technical support.

Our integrated solution combines multi-layer growing systems, precision lighting, smart climate control, irrigation and nutrient management, sensors, automation and a locally deployed digital platform. Designed for year-round cultivation of leafy greens, strawberries, vegetables and forage, Plant Ark enables reliable local production with efficient use of water, energy and space.

One integrated system. One accountable partner. From design to stable operation.

COMPANY PROFILE:

Plant ARK is based in Optics Valley, Wuhan, China. A leading end-to-end industrial farming solution provider, we focus on multi-layer vertical plant factories and research-grade artificial climate chambers, covering in-house R&D, system integration, project delivery and standardized cultivation support.

More than 80% of our core cultivation, environmental-control and irrigation hardware is self-developed. Leveraging IoT and big data, we build an AI-powered intelligent environmental control platform. Partnering with top agricultural research institutes, we develop tailored growth models for strawberries, forage grasses and other crops.

Our solutions are implemented in commercial and research plant-factory projects globally. Versus open-field farming, we achieve **40-100-fold yield increase**, over 90% water saving and 50% shorter breeding cycles. We enable stable yield, consistent quality and reliable harvests for clients, driving global protected-agriculture advancement.

COMPANY PROFILE:

Founded in 1961, WEG is regarded as one of the world's largest manufacturers of commercial and industrial electric motors, gearboxes, automation technologies, control and protection systems, power generation equipment and industrial coatings and varnishes. Besides the already-established global network of manufacturing sites, commercial operations, distributors and service centers, the acquisition of new brands and joint ventures established along the years have expanded the product and service portfolio and made the company's business even more solid and competitive. WEG stands out in innovation by constantly developing solutions to meet the major trends in energy efficiency, renewable energy and electric mobility. With 69 manufacturing units in 18 countries and present in more than 135 countries, the company has more than 49,500 employees worldwide. WEG's strategic vision is to provide complete and efficient solutions with a complete line of electrical machines, from the generation all the way to the consumption. This means we intend to continue being a competitive supplier of electrical equipment for typical applications. Products developed based on real operating conditions result in versatile, rugged, and durable equipment, proven a cross a broad range of industrial. In addition, WEG maintains an extensive network of representatives, branches, and distributors, providing specialized technical support from product specification through after-sales service.

COMPANY PROFILE:

Water Bird Water Treatment Chemicals L.L.C. is a leading water and wastewater treatment company based in Dubai, UAE, with over three decades of expertise serving the Middle East and Africa. Established in the late 1980s, Water Bird provides comprehensive solutions that include specialty chemicals, filtration and purification systems, and advanced wastewater recycling technologies tailored to industrial, commercial, and residential needs.

With a strong presence through branch offices in Abu Dhabi and Muscat, Oman, Water Bird has contributed to numerous prestigious projects such as the Burj Khalifa and Madinat Al Jumeirah, delivering reliable and innovative water treatment services. The company's product range covers cooling water, boiler water, potable water, swimming pool treatment, and custom wastewater management solutions.

Water Bird also operates the Water Bird Chemical & Biological Laboratory, one of the largest ISO/IEC 17025 accredited independent water testing labs in the UAE, ensuring top-quality analysis and control.

Committed to sustainability and environmental stewardship, Water Bird integrates cutting-edge technology with its deep industry knowledge to optimize water usage, enhance system efficiency, and reduce environmental impact. Through exclusive partnerships with international manufacturers, the company continues to provide innovative, effective, and eco-friendly water treatment solutions to its valued clients.

COMPANY PROFILE:

Xi'an Aerospace-Huavang Mechanical & Electrical Equipment Co., Ltd, founded in1999, currently has more than 860 employees and a construction area of over 70,000 square meters. The company's main products include Cl flexo press, high-speed gravure printing machine, decorative materials production line, precision coating machine, new energy and new material production line, water treatment membrane production line, etc.

Our manufacturing capabilities focus on manufacturing of high precision roller shafts, key structural components, large frames, and efficient heating ovens. We currently have over 560 sets of precision machining and testing equipment, including a 6-meter CNC gantry boring and miling machining center, a5-meter vertical ONC lathe, a large roller diameter CNC grinding machine, a gantry pentahedron machining center, high-speed laser cladding equipment, and other large-scale machining equipment. We have passed 1$09001:2015 International Quality System certification, SGS certification, and CE safety certification, and have a complete after-sales service system.

With more than 20 years development and technical innovation, Huayang has core technologies such as tension system coupling modeling and decoupling control technology, equipment intelligent control technology, precision coating technology, high speed high-definition printing technology, coating curing and solvent residue control technology, and multi-material winding technology. Huayang has obtained more than 239 national patents, over 10 national high-tech achievement awards, won the National Science and Technology Progress Award, and was approved as the first batch of national specialty special Little Giant.

PRODUCTS ON DISPLAY:

1. **Inductive Voltage Presence Indicator**. Selling Point: Indoor 10kV capacitive induction forced locking type. Integrates self-test and voltage detection terminals, meeting the "Five Preventions" mandatory locking requirements for high-voltage switchgear.
2. **Digital Display Smart Temperature and Humidity Controller.** Selling Point: Integrated collection of temperature and humidity inside the switchgear cabinet. Digital display, automatically controls heating, heat dissipation, and dehumidification.
3. **Single-phase Fire-proof Current Limiter (40 A).** Selling Point: Dedicated fire-proof current-limiting protection for single-phase circuits. Microsecond-level response to quickly cut off short-circuit faults.
4. **Three-phase Fire-proof Current Limiter (63 A).** Selling Point: Fire-proof current-limiting protection for three-phase circuits. Can handle phase-to-phase and three-phase short-circuit faults.
5. **StatuS Indicator.** Selling Point: Analog status display for the primary circuit of the switchgear. Lights indicate the open/close, grounding, and energy storage status of the circuit breaker.
6. **Smart Operation Controller.** Selling Point: Integrated comprehensive control unit for switchgear, integrating analog status, temperature and humidity measurement and control, live locking contacts, open/close operation, and RS485 communication.
7. **Passive Temperature Measurement Device.** Selling Point: CT inductive passive energy harvesting. Online temperature monitoring for multiple busbars and contacts. No battery power required.
8. **Smart Combined Power Capacitor (Phase-splitting Compensation).** Selling Point: Phase-splitting compensation smart capacitor, solving reactive power compensation under unbalanced three-phase load conditions.
9. **Smart Controller.** Selling Point: LCD display reactive power compensation controller, realizing logic control for multi-circuit capacitor switching.
10. **Smart Switching Composite Switch.** Selling Point: Synchronous zero-crossing switching composite switch, rated 80A, with RS485 communication interface.
11. **Reactive Power Dynamic Regulator Capacitive Contactless Switch.** Selling Point: Thyristor contactless switching switch, used for fast dynamic switching of capacitors in 0.4kV systems.

12. **Static Var Generator (Slim Version).** Selling Point: Slim 50Kvar SVG, integrating dynamic reactive power compensation, harmonic suppression, and three-phase imbalance treatment.
13. **Wall Bushing**. Selling Point: 10kV indoor high-voltage wall bushing, size 110×180, used for high-voltage conductors passing through cabinet partitions.
14. **Temperature Controller.** Selling Point: AC220V cooling-type temperature controller, automatically controlling the start/stop of cooling fans.
15. **High-voltage Live Display Sensor.** Selling Point: 12kV dedicated capacitive induction sensor for live display, compatible with DXN8 series live display devices.
16. **Insulator.** Selling Point: 10kV indoor post insulator, size 65×140, high-voltage busbar support insulation component.
17. **Molded Case Circuit Breaker (MCCB)**. Selling Point: 3-pole 125A thermal-magnetic protection molded case circuit breaker, featuring overload and short-circuit protection.

COMPANY PROFILE:

Yixing Xiuyuan Technology Co., Ltd. is a professional power solutions provider specializing in medium and low voltage power distribution equipment, electrical components, and customized solutions. Originating in 2015, the company has accumulated extensive experience in power equipment manufacturing and technical services.

Headquartered in Shanghai, China, with multiple manufacturing facilities in Liushi, Yueqing, Wenzhou — the "Electrical Capital of China", the company integrates manufacturing capabilities, technical expertise, and supply chain resources to provide reliable power solutions.

Beyond product supply, Yixing Xiuyuan Technology delivers technology-driven solutions and one-stop services, supporting customers from project consultation and system design to equipment manufacturing and technical support.

Our UPVC and CORZAN® CPVC portfolio offers comprehensive piping systems and engineered solutions, including pipes, fittings, valves, storage tanks, sheets, tower fillers, and more. Designed for exceptional durability, chemical resistance, and long-term reliability, our products are manufactured to both ISO and ASTM standards, providing the flexibility to meet diverse project specifications and international requirements.

With pipes available in sizes up to DN1200, YOULI delivers reliable, high-performance solutions for large-scale infrastructure and demanding industrial applications, from standard process lines to complex fluid-handling systems.

COMPANY PROFILE:

YOULI Holding Group was established in 1993. For over 30 years, we have been dedicated to the R&D, manufacturing, and global supply of Plastic piping systems and related products, including pipes, fittings, valves, storage tanks, sheets, fillers, plastic tableware, etc. Our business also covers bonded warehouse operations, industrial investment, import and export, and other diversified fields.

The company has obtained ISO 9001, ISO 14001 and ISO 45001. We are also qualified with the National Manufacturing License for Pressure Piping Components, Drinking Water Product Hygiene License, NSF, CCS, ABS, BV, LR, and DNV classification certifications, as well as EU CE certification.

YOULI is the first drafting organization for national standards of industrial CPVC, ABS, and UPVC piping products, and has participated in the development of more than 50 national and industry standards.

Wastewater Treatment Equipment

COMPANY PROFILE:

Yuanwo Intelligent Technology (Shandong) Co., Ltd. is a high-tech enterprise based in Weifang, China, cooperating with Wohua Yuanda. We specialize in integrated domestic sewage treatment equipment, PP environmental-protection units and Apple Cabin modular houses. We offer customized design, manufacturing, export and full-set project solutions, with products exported worldwide.

COMPANY PROFILE:

Yuyao Yadong Plastic Co., Ltd. Specializes in Manufacturing and selling “Nature Water” & “Keman” brand products like water softener, Filter- softener, central water purification, control valve, commercial water purifier, new Pre- filter, R O system, counter top water purifier, pipeline water purifier, filter housing, plastic tank for R O system, filter cartridge and their components for water softener and water filter. The company was established in 1 9 9 9 and covers an area of 40, 000 square meters, it located in Yuyao, Ningbo, Zhejiang, China which is the hometown of the mold and plastic in China. We have been awarded with I S O 9 0 0 1 international quality management, certification of RoHS, C E, N S F, A C S, W Q A, product patent and have implemented a Q C system. We take the technological innovation as our duty, quality guarantee as our basis. Guided by the market, we have a superior technical skill to develop new products for our clients. Through over 20 years of the endless efforts, it has become a very professional export company including industrial design, technical research & development.

Keeping in mind of the managing principle of “My only goal, your satisfaction” and with the strong competitive advantages, products made by the corporation have been enjoying fast sales over the years in Europe, Northern America, South East Asia, Middle East, Latin America and South Asia and so on.

Now, a complete global system for marketing and service has been established and is proving reliable products and earnest service to customers of all over the world.

Phosphonates: ATMP, HEDP, PBTC, DTPMPA, HPAA, PAPEMP, HEMPA, BHMTPMPA, AEEA PHOSPHONATE(HEDTMP), TETHMP.Na12 and their salts

Polymers: PAA, PAAS, HPMA, MA-AA, AA-AMPS, MA-AA, PCA, KR-1000/1100/2000/2100/3100/5000

Boicides: Benzalkonium chloride, Isothiazolinones, Glutaraldehyde, THPS etc.

COMPANY PROFILE:

Zaozhuang Kairui Water Treatment Co.,Ltd. is located in Xuecheng Chemical Industrial Zone of Zaozhuang City, plant size around 134,000 m^2, adopts advanced continuous mass production technology and DCS automatic control system. Built with 5 workshops for Phosphonates, Polycarboxylic Polymers, Biocides etc., company's production capacity achieves 280,000 tons per year. Besides industrial water treatment, products are also widely used in oilfield, detergents, textile & dyeing, paper-making, seawater desalination and other fields.

Kairui Chemistry has experiences of more than 20 years in the R&D, production management and upstream&downstream of supply chain management , as well as more than 15 years' export experiences, fast quotation system and the professional dangerous goods operation team, which ensure timely delivery and professional&satisfied service for global clients. Until now, our products have been exported to more than 70 countries & regions.

COMPANY PROFILE:

ZENNER Middle East is part of the international Minol-ZENNER Group, a leading global provider of smart metering technology, digital infrastructure, and IoT solutions for utilities, buildings, and smart cities.

The company specializes in solutions for measuring and managing water, heat, gas, and energy consumption, helping organizations improve operational efficiency, sustainability, and resource management. Through the integration of smart meters, sensors, connectivity solutions, gateways, and data management platforms, ZENNER enables utilities, developers, municipalities, and industrial organizations to unlock the full potential of digitalization.

At WETEX 2026, ZENNER will showcase its latest innovations in smart utility management, IoT-enabled metering, digital water and energy monitoring, submetering solutions, and smart building technologies designed to support sustainable and efficient infrastructure.

Metering pumps, including solenoid pump, mechanical diaphragm pump, plunger pump, hydraulic pump. We aslo have screw pump.

COMPANY PROFILE:

We are a is a professional manufacturer that integrates research and development, manufacturing, and sales of high-quality metering pumps, screw pumps, dosing devices, and pneumatic diaphragm pumps.

With over 10 years of research and development experience and technological accumulation, Huisheng Fluid is committed to precise measurement and easy dosing of pharmaceuticals. Since its establishment, the company has always adhered to technological innovation, using advanced CAD and CAE computer design software to continuously optimize structures and improve product performance, constantly exploring cutting-edge technologies, and providing customers with excellent drug dosing solutions.

At present, Huisheng Pump Industry has modern standard factories, advanced production equipment, testing equipment, and fully equipped technical laboratories.

Our main products include mechanical diaphragm metering pumps, hydraulic diaphragm metering pumps, plunger metering pumps, various caliber pneumatic diaphragm pumps and screw pumps, automatic dosing devices, and various complete sets of equipment.

PRODUCTS ON DISPLAY:

Specializing in premium residential water purification solutions, Aibote focuses on two core product lines for global markets: under-sink water purifiers and counter-top water purifiers, tailored for modern household and commercial usage scenarios. Adhering to minimalist and practical design concepts, all core models feature direct-flow, tankless and slim body as their key competitive advantages.

Our tankless direct-flow design eliminates secondary pollution from internal water tanks, delivering instant fresh purified water with higher flow efficiency and better water quality. The ultra-slim modular structure greatly saves installation and placement space, perfectly fitting diverse kitchen and office layouts. Equipped with self-developed integrated water manifold technology and high-efficiency RO filtration systems, our products effectively reduce leakage risks while ensuring stable, long-lasting filtration performance.

Covering multiple specifications from 400GPD to 1200GPD, our product portfolio includes standard purification, instant heating, hot-cold and UV sterilization models. With easy-to-replace composite filters and intelligent user-friendly designs, Aibote's water purifiers provide safe, fresh and energy-saving drinking water experiences, winning wide recognition from global partners and end users.

COMPANY PROFILE:

Founded in 2005, Aibote has long focused on the R&D and intelligent manufacturing of water purification products and customized drinking water solutions, guided by the mission of "Leading water purification technology, Safeguarding human health". Equipped with world-class digital manufacturing systems featuring informatization, automation, intelligence and modularization, the company operates a high-standard smart factory with an annual production capacity of 3 million water purification units, steadily supplying premium products to global markets.

Insisting on continuous technological iteration and product upgrading, Aibote accurately responds to diverse market needs and creates reliable value for global partners and end users. We strictly uphold the core values of "Integrity, Responsibility, Growth and Sharing", which underpin all our product development and service practices.

Looking ahead, Aibote will keep taking technological innovation as the core driver to expand its layout and explore broader development prospects in the global water purification industry.

flexible couplings, pipe fittings, sealing rings, valves, filter cartridges, high precision casting parts for valves, pumps, machineray auto parts, superalloy casting parts,FRP pressure vessels, complete sets of FRP filtreation systems.

COMPANY PROFILE:

Headquartered in Gongshu Science and Technology Industrial Park, Hangzhou, Zhejiang Parkson Water Industry Equipment Stock Co., Ltd is a professional company engaged in the scientific research, design and manufacturing of water industrial equipment.

The company's core business focuses on water treatment equipment engineering projects, flexible couplings, pipe fittings, sealing rings, valves, filter cartridges, high precision casting parts for valves, pumps, machinery auto parts, superalloy casting parts, FRP pressure vessels, complete sets of FRP filtration system and other fields. Products are widely used in water treatment, water supply and drainage, air conditioning, fire fighting, petroleum, marine, electronic power, coal and other industries pipeline system. It is one of the main domestic production of large-scale, high-end water treatment equipment manufacturers. Adhering to the spirit of craftsman, the company team focuses on the fine production process of every detail. With a high degree of customer responsibility, relying on efficient supply chain and strict strategy implementation, it provides quality products and services to global users.

PRODUCTS ON DISPLAY:

Zhejiang Wearable Environmental Technology Co., Ltd. offers two main professional digital dosing pump series for automatic industrial fluid control:

E01 Series – Configurable with stepper or servo motors for high-precision, stable and continuous chemical dosing. It delivers a wide flow range of 7.5-940 L/H with maximum pressure up to 14 bar， covering both small-precision and high-flow applications.

VX Series – Compact stepper motor pump with flow from 1 ml/min to 30 L/H (switchable units), ±1% accuracy, and PVDF pump head with PTFE diaphragm for strong acid/alkali resistance.

Both series support Manual, RS485, 4-20mA, Pulse, external control and other multiple functions, with IP65 waterproof ， CE certification, accuracy testing report etc. Complete chemical dosing systems are also available: skid-mounted and enclosed cabinet. Ideal for various applications such as water treatment, chemical dosing, mining flotation.

COMPANY PROFILE:

Zhejiang Wearable Environmental Technology Co., Ltd. is a professional manufacturer of digital dosing pumps, established in 2013 and located in Zhejiang, China. We are dedicated to providing high-precision fluid transfer solutions for water treatment, chemical dosing and mining flotation.

Our production workshop features advanced CNC machining and automatic assembly, ensuring precision with error rates under 0.24%. We hold CE, IP65, and high-temperature resistance certifications, along with multiple patents. Our pumps support multiple control modes (manual, RS485, 4-20mA, pulse) and built-in AI algorithm modules for pH/level control without a PLC.

Due to the advantages high precision, easy maintenance, stable performance and fast delivery, our products have been exported to Russia, Thailand, Poland, Zambia, UAE, Mexico, and many other countries worldwide.

- Ru-Ir Oxide Coated Titanium Screen
- Alkaline Water Electrolysis (AWE) Electrolyzer
- Proton Exchange Membrane (PEM) Electrolyzer

COMPANY PROFILE:

As a trusted manufacturer of dimensionally stable anodes and electrodes, YUXI is speclized in electrochemical technology and electrolysis system application. With strong research and development ability in the field, we are able to provide a variety of high-quality electrodes for use in chemical industry, metallurgy, industrial manufacturing, water treatment plant, power plant, etc. Our electrodes are titanium substrate anodes coated with a precious mixed metal oxide catalyst, comprised of different elements such as iridium, ruthenium, tantalum, platinum, and rhodium. Using state-of-the-art process technology, we are able to offer electrodes in a wide range of shapes and sizes: sheet, plate, strip, mesh, wire, filament, rod, tube, basket or combinations/assemblies thereof. We have built long-term business relationship with more than 1,000 customers across over 50 countries and gain an international reputation for our first-class after-sales service.

Contact: Danqing Yuan

PRODUCTS ON DISPLAY:

Sewage pump is a fluid transportation equipment designed specifically for conveying complex working conditions containing solid particles, long fibers, sludge, and corrosive media. Different from traditional clean water pumps, this product adopts advanced non clogging hydraulic models and high-strength sealing structures, with excellent anti winding performance, wear resistance and corrosion resistance, and continuous heavy-duty operation stability. Widely applicable in municipal sewage treatment, industrial wastewater treatment, building basement drainage, and agricultural irrigation, it is the core equipment for solving the problem of water accumulation discharge and sewage lifting and transportation in low-lying areas.

Anti blocking design: For media containing impurities, equipped with single/double flow channels, swirl or spiral centrifugal impellers, greatly reducing the probability of blockage; Some models are integrated with alloy cutting disc or bottom stirring device, which can chop up fiber debris or stir the sludge at the bottom of the pool, ensuring long-term smoothness.

Sealing protection: Adopting double end hard alloy mechanical seals, combined with oil chamber leakage monitoring probes and motor overheating protectors, multiple safety protections are achieved to prevent sewage from infiltrating the motor cavity.

COMPANY PROFILE:

ZHENJIANG FLOWTECH Co., Ltd.(referred to as "FLOWTECH") is located in Zhenjiang, Jiangsu Province, and is a nationally recognized high-tech enterprise. Specializing in pump products and fluid technology, the company drives its operations through technical services, establishing a comprehensive industrial chain service system spanning product development, complete equipment supply, and operation maintenance.

Our core competencies include:

Professional Technical Support: Offering in-depth computational services such as pump hydraulic design, CFD numerical simulation, performance prediction, and structural finite element analysis;

Full lifecycle services: Covering equipment selection, installation and commissioning, fault diagnosis, and performance optimization to ensure long-term stable operation of customer assets.

The company's business covers pillar industries such as petrochemicals, natural gas, seawater desalination, marine engineering, thermal and waste heat power generation, nuclear energy, steel metallurgy, water conservancy engineering, and environmental protection. Faced with the differentiated needs of different customers, we adhere to the principle of data as the basis and technology as the foundation, tailor the most reasonable and economical engineering solutions, establish long-term and deep strategic partnerships with customers, and jointly create sustainable value.

Products on display

Smart Energy Management, Energy Monitoring and Analytics, Energy Efficiency Solutions, Electricity Consumption Optimization, Sustainable Energy Solutions.

COMPANY PROFILE:

Zerowatt Energy provides smart energy management and energy efficiency solutions. Its main product is the Industrial Digital Brain. It is an AI system that helps factories, plants and large buildings use less energy, reduce operating costs and avoid machine breakdowns.

Every plant already has meters and sensors. They record electricity, water, fuel, temperature and much more. Most of this data is never studied. The Digital Brain reads all of it, every second, day and night. The team sees its energy use clearly on live dashboards.

It knows how each machine should be running. When a machine wastes energy or starts to fail, the system notices. It then tells the plant team four things in simple words: what is wrong, why it happened, how much it costs, and what to do. The plant's own engineers check each finding and decide the action.

The system can warn of a machine breakdown months before it happens. This gives the team time to plan the repair.

It starts working within days. It uses the plant's existing meters. Nothing is replaced. Production does not stop.

Zerowatt systems are working in large industrial facilities across India. These include some of India's largest power, cement and chemical plants, as well as steel and food plants. Plants using the system have cut their energy use and found large losses that were not seen before. This helps them meet their sustainability goals.
