## **MESSAGE FROM THE FOUNDER AND CHAIRMAN OF WETEX**

Under the directives of HH Sheikh Mohammed bin Rashid Al Maktoum, Vice President and Prime Minister of the UAE and Ruler of Dubai, and the patronage of HH Sheikh Ahmed bin Saeed Al Maktoum, Chairman of the Dubai Supreme Council of Energy, the Water, Energy, Technology, and Environment Exhibition (WETEX) continues its pioneering journey as a global platform that brings together industry leaders, decision-makers, investors, experts and innovators from around the world. The exhibition provides a unique opportunity to review the latest solutions and innovations in diverse fields, including renewable and clean energy, water, environment, sustainability and smart technologies.

The 27<sup>th</sup> edition of WETEX in 2025 attracted 3,100 companies from 65 countries and hosted 18 international pavilions, in addition to 68 sponsors and 18 partners and supporters. Covering an area of 95,000 square metres, the exhibition welcomed over 50,000 visitors from around the world. This international momentum reflects the great confidence that WETEX enjoys as the largest event of its kind in the region and one of the most prominent specialised global exhibitions. It continues to serve as a vital driver for fostering strategic partnerships that help shape the future of energy and sustainability regionally and globally.

WETEX embodies Dubai's ambitious vision to build a green economy driven by innovation and knowledge. It also serves as a key platform supporting the Dubai Clean Energy Strategy 2050 and the Dubai Net Zero Carbon Emissions Strategy 2050, which aim to provide 100% of the emirate's total power capacity from clean sources by mid-century. Through its role as a catalyst for public-private co-operation, WETEX has become an ideal destination for launching sustainable solutions and exploring investment opportunities in future technologies and clean energy.

I extend my sincere thanks and appreciation to all WETEX partners, sponsors and visitors for their active role in the continued success of this global event and in reinforcing its position as a beacon that unites creative minds and bold ambitions under one roof. I invite you to participate in WETEX 2026, so that together we can continue our journey of excellence and innovation, and move confidently towards a brighter and more sustainable future for us and for generations to come.

**His Excellency Saeed Mohammed Al Tayer**

MD & CEO of DEWA and Founder and Chairman of WETEX

#### 2. In-Hall Operations Schedule

During the buildup period, the exhibition halls will be open from 18th till 19th October 24:00 hours and on 19th October until 23:00

#### FOR EXHIBITORS WHO AVAIL OF THE SHELL SCHEME STAND

The exhibit builders will take a day to build the stands. Exhibitors are not allowed entry into the Halls during the first day of the build-up. We prefer that exhibitors unload their goods and arrange their displays only after the stands have been set-up. This will greatly facilitate our operations. Exhibitors would be given one full day on 19th October 2026 (11:00 am to 22:00 hours) to arrange their exhibits for display. The furniture and electrical items requested in your order forms will be placed at your stand on the first day of build-up. Additional items can be ordered at the Organizer's Office on site. However, such orders will be subject to availability and a surcharge of 20%.

#### FOR “SPACE ONLY EXHIBITORS”

Exhibitors who will have their stands built by non-official contractors, can start the build-up on Sunday, 18th October 2026 from 08:00 hours onwards. They are however, requested to check with our Technical Manager for the exact time when they can actually start.

#### FREIGHT DELIVERY

Our official forwarder will bring the goods to your stand inside the hall which will be chargeable as per their agreed tariffs with the official stand contractor if your goods have been delivered to Dubai by other freight forwarders, please ensure that your freight forwarders coordinates with the official freight forwarder.

#### MOVING OF GOODS

Large and heavy goods that cannot be hand-carried by the Exhibitor can only be taken in/out through the exit gates of the hall and not through the main entrance of the foyer. For any goods being taken out of the hall, a Gate Pass from the Accounts Section of the Organizer's Office will have to be presented to the Security Guards manning the exit gates. No trolleys will be allowed in the aisles of the hall when the Exhibition is open to visitors. Trolleys can only pass through the exit gates of the hall and are not allowed to go through the main entrance.

### RE-STOCKING/MAINTENANCE

Normally, re-stocking can be done after 6 PM on exhibition days. However, all exhibitors are requested to check with the Organizer's office on site for the exact timing. Under special circumstances, permission may be granted for maintenance or repair work after the Exhibition closes. However, the Organizer's Office on site Hall 3 must be notified at least 30minutes before the exhibition closes. This will enable arrangements for the admission of workmen and the provision of lighting, etc. Any changes imposed upon the Organizer by the Dubai World Trade Centre will be passed on to the Exhibitors concerned.

### REMOVAL OF EXHIBITS

Light and small exhibits must be packed and carried away right after the exhibition closes on the last day. Exhibitors must ensure that heavy exhibits and other goods are properly packed and marked and removed from the exhibition hall by 1800 hours on 22nd October. Dismantling of the stands will begin at close of exhibition on the last day i.e. 22nd October at 1830 hours. The halls will be open the next day i.e. 23rd October from 0800 to 1500 hours for this purpose. Bridgeway Shipping & Clearing Services will assist you in re-packing heavy exhibits upon your request.

### ACCOUNTS

All outstanding accounts must be settled DURING THE COURSE OF THE EXHIBITION. Gate passes for removal of Exhibits will be issued by the Accounts. Department at the Organizer's Office on site only if all accounts are cleared and settled.

All Exhibitors should clear their Exhibition Participation fees in Advance on or before 30th September 2026 in order to avail the entry into the venue.

In case of any expected delay in payments, the exhibitor should submit the current dated cheques.

In case of exhibitors are working on DEWA PJSC Projects, they should submit a letter of deduction for the Exhibition participation payments from their pending from DEWA PJSC.

Cheque bounce or return shall imply fines and legal action and penalties as per UAE LAW.

### 3. Communication Facilities

The Emirates Telecommunications Corporation Limited (ETISALAT) are the official suppliers and installers of telecommunication equipment. They provide telephone, facsimile, telex, and internet access.

Public telephones (card operated) are available in the foyer of the Exhibition Halls for use of exhibitors and visitors. Temporary telephone or facsimile lines with worldwide access and code-barring facility can be installed at your stand during the Exhibition period. Exhibitors who wish to avail of this facility, should place their order in the Organizer's Office on site for hire of the same. Contact: <https://www.eventplus.ae/wetex/home>

### 4. Freight Information

Off-loading, re-loading and moving of heavy exhibits should be under the supervision of Bridgeway Shipping & Clearing Services LLC. Exhibitors are therefore advised to use the service of Bridgeway Shipping during the build-up and break-down dates. For WETEX 2026 Hall. No Booth. No

Each invoice should be explicit with Individual value for each item, quantity, type, and serial numbers. The value of the invoice should be CIF, and a clear breakup (separate) of cost, Insurance and Freight should be mentioned. In absence of the breakup/ separate values, the customs would treat the value as FOB and load insurance and Freight to determine the CIF value. Please note the customs duty applicable is on the assessed CIF value and not as declared on the invoice, Separate invoices should be made for temporary and permanent imports. Invoices should include:

“Goods are intended for exhibition purpose only and would be exported after the close – Temporary imports. “OR “Goods are for free distribution purpose at “Name of the exhibition” – Permanent Imports”

It is absolutely essential that the Commercial Invoice/Packing List have the same identification mark that on goods for customs examination for the purpose of claiming duty refund.

#### **Packing List**

Packing List must be in detail indicating identification mark of each product, the number of cases, gross weight and measurement of individual case. It is suggested that a copy of the packing list be kept in each box.

#### **Certificate of Origin**

Details on the Certificate of Origin is issued by the Chamber of Commerce must correspond with those shown on all the other documents.

#### **D) CASE MARKING**

All packages must be marked clearly and markings, except for food products, must be in English and should be displayed at least 2 sides of each package.

##### **WETEX 2026 - 20th to 22nd October 2026 U.A.E**

Name of the exhibitor (as in Fascia)

Hall number / Stand Number

Gross Weight in kgs

Dimensions L x W x H in CMS

Case Number (This should tally with the packing list and invoice)

#### **E) CUSTOMS DUTY/DEPOSIT**

All shipments will be cleared on temporary import against payment of 5% of CIF value unless advised in advance. All duty Deposit amount must be paid in advance.

Deposit amount may be re-claimed upon proof of re-export of the goods, within 45 days of the import date. However, final decision rests with Customs Authorities.

Under normal circumstances it takes 2 to 3 months from the date of re-export to receive the duty refund from the customs authorities. If the duty amount is less than US\$ 300 outright duty will be paid, as it will not be worth claiming the duty refund. Bridgeway Shipping & Clearing Services can make a customs deposit / Bond on behalf of the exhibitor, using our customs standing guarantee, for which bond fee will be applied @ 0.75 % of the CIF Value subjected to minimum USD 50.00 per shipment

#### **F) INSURANCE**

Bridgeway Shipping & Clearing Services does not insure the goods unless specially advised to do so. It is the exhibitors responsibility to ensure that all goods are covered by a fully comprehensive marine insurance for round the trip journey, i.e. from their premises to stand, during the exhibition until return to the exhibitor s premises. Such insurance shall include a waiver of subrogation against Bridgeway Shipping & Clearing Services and its subcontractors.

#### **G) DANGEROUS GOODS/ RESTRICTED GOODS**

Any goods of hazardous nature and/or containing radioactive materials should be listed on the Commercial Invoice with any relating pictures, codes, stand position and specification by the deadline. Full particulars should be supplied to Bridgeway Shipping & Clearing Services to arrange suitable storage / transportation / handling. Exhibitors who are in doubt as to whether the import of certain goods into the UAE is restricted should contact the relevant government trade offices in their country of origin. It is strictly prohibited to import alcohol.

## H) OVERSIZE GOODS

All single pc., more than 1.5mts in any dimension and or above 2000kgs is considered as oversized goods. Since these exhibits would be the first to move in, it is essential that the following is advised to files international freight and logistic services

- Arrival details of the shipment
- Stand layout plan
- Exhibit weight/ dimensions and Handling method/ instructions
- Machine drawings/catalogues

It is also a must that the exhibitor or their representative is available on the 1st day of move in to supervise handling and placement / positioning of the exhibits. Any noncompliance of the above will cause delays and may jeopardize the smooth buildup of the exhibition

## I) TERMS OF PAYMENT

All services for shipments attending the event must be paid in advance, either by bank transfer or by cash at our office before the exhibition begins.

a). Provision of marked space for smaller vehicles for shipment of smaller good/ items directly supplied by exhibitor or stand contractors hand carry or by hand trolleys WHICH DOES NOT REQUIRE FILS'S involvement:

Kindly note that the space marking and parking allotment inside the venue is managed by the venue operator and their security team as per the request from show organizer. On the other hand, we FILS international never charged or held any shipments which were hand carryable and manageable by the exhibitors themselves. Being the appointed forwarder and onsite handling agent, we Bridgeway/ Fils International will provide all lifting equipment's onsite which will be handled by our crew. Since we have responsibility towards the venue operator, we cannot permit any exhibitors to bring their own lifting equipment's onsite.

b) Inclusion of the rate card for the offloading and loading of goods to avoid on site complaints and inconvenience to the clients and organizer:

## 5. Security

Dubai International Exhibition Centre will engage a security agency to ensure the security and safety of your exhibits at the Exhibition Halls. While we will make all reasonable arrangements for security coverage, we are not responsible for the security of a stand, its exhibits and contents (including personal property). The mentioned items will be the sole responsibility of the Exhibitor. All Exhibitors must arrange their own insurance to cover all risks and stages (right from the shipment date till the re-shipment of goods).

General security arrangements for the exhibition will be controlled by the Organizers in conjunction with the local authorities in Dubai. Security personnel will patrol the exhibition halls in general, but their duties will not include special attention to individual stands. Exhibitors should exercise due care and attention with regards to safety of their exhibits. Valuable items and smaller exhibits, which may be easily stolen, should be kept in a secure place. If your displays are valuable and sensitive, it is advisable to hire security personnel to attend to your stand exclusively,

Any queries related to service departments is now handled by Customer Contact Centre Helpline: 800 3982, / +9714 389 3999, email: [care@dwtc.com](mailto:care@dwtc.com)

It is recommended that a member of staff man the stand at least half an hour before the exhibition opens and until all visitors have left the hall. Under no circumstances should a stand be unmanned during the open periods of the exhibition.

While the Organizers will make all reasonable arrangements for security coverage, they are not responsible for any loss or damage, which may occur. It will be the exhibitor's responsibility for the security of their stand, its exhibits and contents including personal property. Appropriate insurance coverage should be arranged.

## 6. Temporary Contractor Badge

### TEMPORARY – WORK PERMIT FEES – for stand builders/contractors

**Note:** Each contractors workers should possess temporary work permit issued by DWTC for working during build-up and dismantling days **Charges per person per day =>30 Dhs**

All contractor staff must report to the cashier's cabin at either the Za'abeel or main marshalling yard to receive a temporary contractor badge in exchange of a valid proof of identity. This can either be a UAE labor or UAE national ID card, UAE driving license or a UAE government organization ID card which will be kept at the cashier's cabin until the contractor badge is returned.

Each contractor badge costs AED 30.00 and is valid for one day only (from 00:01 to 24:00). A fee of AED 250.00 will be charged for any lost contractor badge.

#### Collection Points

#### **STRUCTURAL STABILITY OF THE STAND**

The structure of a stand shall safely sustain and transmit to the door the combined “dead” and “imposed” loads without any deflection or deformation as will impair stability. Any beams and or flooring that are for the purpose of lateral distribution shall be designed to carry a uniformly distributed load per square meter of not less than 1 KN/m. Any imposed loads shall be calculated as being equivalent to a uniformly distributed load per square meter of area measured on plan of not less than 5 KN/m.

#### **ELECTRICAL REQUIREMENT**

For every 9m<sup>2</sup>, we provide the stand with 3 x 100w spotlights and 1 x 500W socket. For any additional or special requirement of Electrical Requirements supply, please fill up Form No. 9, 9A, 11 and 11A . Electrical installations of shell scheme stand require special fastenings, clips and brackets to the aluminum extrusions. Under no circumstances may exhibitors modify this work or carry out their own installations.

General hall lighting will be provided by the Organizer. The standard supply of electricity available for use in stands is single phase 220 volts, 50 cycles, three phase 380 volts, 50 cycles. Supply to stands will normally be switched off at source 30 minutes after the Exhibition closes each evening. However, 24 hours supply can be provided by arrangement with the Official Stand Building Contractor. Any cost involved must be paid by the Exhibitor.

An Exhibitor requiring electrical supply at times other than the stated time must make an application to the Organizer's Office 24 hours prior to the closing time of the Exhibition. Such supply cannot be arranged at short notice.

Electrical specifications are shown in the Exhibition Halls Specifications Chart Electrical Order Form is available in this Manual - Form No.9

To avoid any power supply tripping/disruption to your stand and to neighboring stands, please check with Official Stand Contractor if you require extra power supply for the equipment that you are demonstrating /using at the site. Contractor/Organizer will not be responsible for insufficient power supply that causes power tripping.

The cost for providing single-phase mains supply and connection, including energy consumed to shell scheme stands is covered by the stand rental charges. Installation of three-phase supplies and connections on 24-hour supply will, however be charged extra.

The Official Contractor will be solely responsible for the installation of electrical cables and necessary switchgear between the main supply and each individual exhibitor s requirements. The organizer reserves the right to disconnect any installation, which, in their opinion, is dangerous or likely to cause annoyance to visitors or other exhibitors. Should action be required by the Official Contractor to render any installation safe for use, the exhibitor may be charged for this service

#### **ELECTRICAL INSTALLATION**

For safety reasons, all electrical installations on stands must be carried out by the Official Stand Building Contractor  
NO OTHER CONTRACTORS ARE ALLOWED TO CARRY OUT ELECTRICAL INSTALLATION.

#### **EARTH LEAKAGE**

Each Exhibitor shall provide exact details of earth leakage to prevent tripping and shall have provided by the contractors, earth leakage (RCD/ ELCB) protection (30mA for lighting and 100mA for exhibit power) suitably positioned beyond the termination point of the supplied mains cable

#### **GUIDELINES REGARDING ELECTRICS AT EXHIBITIONS:**

- » Each installation shall be effectively bonded to earth
- » Wiring shall be 3 core twin and earth not less than 1.5mm cross sectional and be in PVC, electrometric or other plastic sheathing.
- » Joints shall not be made except when connecting into a circuit and insulated screwed connectors shall be used and totally enclosed in insulated enclosures.

### CONDITIONS

- It is the contractor's and exhibitor's responsibility to ensure they have DWTC's approval prior to commencing pre-fabrication of the stand.
- Submission documentation should explain the method of building the stand
- Submissions for stands of 4 metres and above, double and triple decker stands: 50% charges will be applied if the submission is incomplete
- Any late submission is subject to 100% surcharge
- All requirements should be routed through the event organiser
- Drawings/details should be submitted at least 3 weeks before the start of the tenancy for single decker stands and 4 weeks for double and triple decker stands.
- The main beam erection shall be completed 24 hours before the opening of the event
- All measurements in the submitted drawings shall be as per standard international (IS) unit system
- The contractor will be fully responsible for the design, stability and workmanship of the structure
- Any free standing wall of a stand of 4 metres and above requires a metal framing with base plate and stability design calculation
- Any stand of 4 metres and above in height requires complete structural drawing including its design calculation
- If DWTC's approval under specific circumstances has been received for a stand to be built in one of the concourses, the stand must not exceed 4 metres in height. A special policy applies for the building of stands in the concourses. Double and triple decker stands are not allowed in the concourses
- Any canopy must be reinforced with a metal section and must be supported from the ground with a minimum 3 inches (7.62 cm) diameter tube or equivalent support having sufficient section
- Any custom design rigging to be used must be certified and industry approved trusses
- Banners / logos attached to a hanging truss must be fabricated by using metal tubes with bolted connections and must be submitted along with the design calculations for approval
- All shell scheme stands must be braced from all four sides (top portion) to control the stability especially octanorm pole / panel
- The stability and safety of all display items within the stand shall be the sole responsibility of the supplier (Exhibitor / Contractor)
- Stands should not impede on any aisles
- No fixing or adjoining structures above aisles are allowed
- No stand carpeting over aisle carpet is allowed in order to join stands opposite each other
- All Cantilever/overhang structure should be reinforced with a metal section and must be supported from the ground with a minimum 3 inch (7.62 cm) diameter tube or equivalent support having sufficient section.

**STRUCTURAL CALCULATION:** The designer shall submit detailed design criteria as well as design assumptions containing the following information (whenever possible):

- Stand name, stand number, contractor/designer/event name
- Applied standards in loading and design
- Materials properties: steel grades, modulus of elasticity, shear modulus, etc
- Durability requirements: deflection control and drift control.
- Robustness requirements as per relevant standards.
- Analysis and design software, spreadsheets used for design or/and verification, etc
- Detailed calculations shall include:
  - \* Gravity loads correspond to different floors.
  - \* Interconnection requirements, i.e. bolts grade and sizes, end plate thickness, etc.
  - \* Notional loads applied to each floor level in both orthogonal directions.
  - \* Basic load combinations for ultimate and service states design.
  - \* Extracts from analysis outputs: Shear and moment diagram, axial forces, deflection.
  - \* Design stress ratio (max = 0.95)
- The analysed computer model shall be free from any major warnings or errors.
- Capacity of the upper floor: 1person per 2m<sup>2</sup>. A warning letter, indicating the limitation of occupancy load, should be visibly placed at the bottom of the staircase. Maximum use overloads on the upper floor:
  - \* Area with tables and chairs, lobbies, restaurants, cafes, w = 3 kPa
  - \* Area with fixed seating, movie theatres, meeting rooms, offices, w = 4 kPa
  - \* Area for public free circulation w = 5 kPa

Deadline: 30<sup>th</sup> August 2026

## ATTACHMENT

- The contractor of the stand is required to sign the documents attached to this submission. Copies of the signed documents shall be presented to DWTC security before entering the marshaling yard. Before the start of the build up, the same documents must be made available in the area where the stand will be built for inspection purposes

## ENCLOSED EXHIBITION STANDS (50% RULE)

- » Visually enclosed stands are not allowed
- » Exhibits and walling must be positioned in such a way as not to obstruct the view of the exhibition or adjacent stands. Under no circumstances are neighbouring stands to be visually blocked off from the rest of the exhibition
- » Only up to a maximum of 50% of any open side of a stand is permitted to have a non-transparent outside wall
- » Walls cannot be stepped back in order to overcome this ruling
- » Solid runs of walling along open perimeters are not permitted unless facing a Venue wall.
- » The upper deck of double deck stands may be completely closed in
- » As the rule is to ensure visibility, low walling or handrails up to 1.1m height are considered 'open'
- » The outside finish must be the same as inside or equivalent in quality of build.
- » Please see the below sample drawing for your reference

50% of any one side can be enclosed - in any format.

## DWTC – STAND DESIGN REVIEW APPROVAL PROCESS UPDATE

Dubai World Trade Centre (DWTC) has, on 01st April 2026, introduced and implemented an updated stand design submission and review process.

### Stand Design Submission Timelines, Fees and Penalties

All stand designs must be submitted to the venue no later than 14 working days prior to build – up. Submissions made after the deadline, or failure to submit, will result in the following fees and penalties.

Stand Design Submission Timing	Applicable Fees and Penalties	Description
More than 14 working days prior to the build up	Standard stand type review fee	Standard processing fee
Less than 14 working days prior to the build up	Stand review fee + AED 2,000 late submission fee per stand	Late submission fee
No permit to build received for build up stands	Stand review fee + AED 2,000 late submission fee per stand + AED 10,000 penalty per stand.	Non-compliance

### Process Application

- » If contractor submits and builds without approval, penalties may be applied to the contractor.
- » A submission is considered “received” only upon successful completion of payment. **The 14 working days deadline applies strictly to the date of payment conformation.**
- » The review period by DWTC will commence only after payment has been successfully completed.

**All exhibitors and contractors are strongly advised to comply with the above requirements to avoid delays and additional charges.**

Email: [anantha.hse@alfajer.net](mailto:anantha.hse@alfajer.net)

**Guidance on completion of the risk assessment**

1. EXAMPLE HAZARDS THAT MAY BE APPLICABLE TO THE JOB OR WORK ACTIVITY			
Working at Height	Noise	Hand tools	Vibration
Falling objects	Extreme Heat / cold	Confined spaces	Repetitive hand/ arm movement
Slippery/ uneven/ worn floors	Radiation	Poor housekeeping / cleaning	Machine operation
Obstructions/ projections	Lighting	Vehicle movement	Electro Magnet
Manual handling	Compressed air	Fire / explosion	Pressurised systems
Mechanical Lifting	Substances / materials	Electricity	Other (Specify on Assessment)

2. RISK MATRIX		Potential consequence of harm		
		1 – Minor Injury (e.g. hazard can cause illness, injury or equipment damage but the results would not be expected to be serious)	2 – Significant Injury (e.g. hazard can result in serious injury and/or illness, over 3 day absence)	3 – Major Injury (e.g. hazard capable of causing death or serious and life threatening injuries)
Likelihood of harm	1 – Unlikely (injury rare, though possible)	1 – Low	2 – Low	3 – Medium
	2 – Possible (injury could occur occasionally)	2 – Low	4 – Medium	6 – High
	3 – Probable (injury likely to occur, can be expected)	3 – Medium	6 – High	9 – Extreme

**3. RISK EVALUATION**

This is calculated by multiplying the likelihood against the consequence e.g. taking a likelihood of 1, which is classified as Unlikely and multiplying this against a Potential Consequence of 2, which is classified as Significant Injury, would give you an overall Risk Rating of 2, which would result in an overall evaluation as a low risk.

**1 to 2 = Low risk**

Low risks are largely acceptable, monitor periodically to determine situation changes which may affect the risk, or after significant changes

**3 to 4 = Medium risk**

Medium risks should only be tolerated for the short-term and then only whilst further control measures to mitigate the risk are being planned and introduced, within a defined time period.

**6 = High risk**

High risks activities should cease immediately until further control measures to mitigate the risk are introduced. The continued effectiveness of control measures must be monitored periodically.

**9 = Extreme Risk**

Work should not be started or continued until the risk has been mitigated. Immediate action is required to reduce exposure. A detailed mitigation plan must be developed, implemented and monitored by senior management to reduce the risk before work is allowed to commence
